THE one, only etc, watering cart was given a holiday yesterday and a new method of sprinkling the principal streets was tried, which besides being eminently successful tended admirably to allay the dust throughout the day. The British ship Knight Commander arrived at San Francisco, Wednesday, one year and eighty days from Antwerp with a cargo of cement. While she was on her way the price of the article she carried had risen and fallen several times. She sailed from the former port in January, and the following July put into the Falkland Islands, having been dismantled by a gale. Shortly after she sailed from there the crew mutinied, and after a hard fight were locked up in the forecastle. Capt. Murdock put into Port Stanley, and the ringleaders were tried, convicted and sentenced to two years' hard labor. At Montevideo a fresh crew was obtained after much difficulty, $900 being paid for each man.

The church of Ste. Anne de Beaupre, where so many miracles have been wrought, is shortly to receive a very precious relic—a large piece of the arm of St. Anne, mother of the Blessed Virgin Mary. At present there is a fragment in New York in the French church of St. Jean Baptiste, where, in a gold-lined casket, it rests on the altar.

Early Friday morning three burglars were found in the Bishop's residence at Hartford, Conn. Forty thousand dollars worth of silver articles had been received from New York that day, for use at the dedication exercises Sunday and probably the theives came after these. Twenty ladies representing the women of Canada interviewed Premier Abbott, last week and asked the government to facilitate the passage of a measure for the enfranchisement of women. The premier said he was personally in favor of admitting ladies to vote. He had studied the question for years, and the more he pondered over the subject the more convinced he was that woman franchise was a necessity and a right, that the time was very close at hand when it must be granted. The near future would bring about this result. He could not promise, however, that the government would at the present session introduce a bill to grant this desired boon.

WONDER IN WELLAND!

A Representative Farmer Speaks.

MR. C. C. HAUN.

The following remarkable facts are fully certified to as being undeniably correct in every particular. Mr. Haun is well known in the vicinity, having resided here over fifty years, and is highly respected as a man of the strictest honor, whose word is as good as his bond.

As will be seen from his letter, four physicians had attended him, and it was only after he had given up hope of cure that he decided to try Burdock Blood Bitters on the recommendation of a neighbor who had been cured of a similar disease by its use. Mr. Haun writes as follows:

DEAR SIRS,—I think I have been one of the worst sufferers you have yet heard of, having been six years in the hands of four of our best doctors without obtaining permanent relief, but continually growing worse, until almost beyond hope of recovery, I tried your Bitters and got relief in a few days. Every organ of my body was deranged, the liver enlarged, hardened and torpid, the heart and digestive organs seriously deranged, a large abscess in my back, followed by paralysis of the right leg, in fact the lower half of my body was entirely useless. After using Burdock Blood Bitters for a few days the abscess burst, discharging fully five quarts of pus in two hours. I felt as if I had received a shock from a powerful battery. My recovery after this was steady and the cure permanent, seeing that for the four years since I have had as good health as ever I had. I still take an occasional bottle, not that I need it but because I wish to keep my system in perfect working order. I can think of no more remarkable case than what I have myself passed through, and no words can express my thankfulness for such perfect recovery.

C. C. HAUN,
Welland P.O.

In this connection the following letter from T. Cummes, Esq., a leading druggist of Welland, Ont., speaks for itself:

Messrs. T. Milburn & Co., Toronto.

GENTLEMEN,—I have been personally acquainted with Mr. C. C. Haun for the last 20 years, and have always found him a very reliable man. You may place the utmost confidence in anything he says with regard to your medicine. He has on many occasions within the last four years told me that it was marvellous the way the Burdock Blood Bitters had cured him, and that he now felt as able to do a day's work as he ever felt in his life. Although quite well he still takes some B. B. B. occasionally, as he says, to keep him in perfect health.

Yours truly,
THOMAS CUMMES,
Welland, Ont.

The steadily increasing sale of B. B. B., the length of time it has been before the people, and the fact that it cures to stay cured, attest the sterling merit of this monarch of medicines, the people's favorite blood purifier, tonic and regulator.
