TO CORRESPONDENTS.

F. S., Halifax, Professor of Commercial Academy, sends a variety of the arithmetical problems set by him for one of his pupils. He prepares with much care, and besides giving the correct answer, furnishes the following details: A travelled 90 miles, B 60 miles; A's rate was [illegible] times B's rate 10 miles per hour; time occupied, 10 hours. Also gives correct answers to the above, as well as to the other problems, which we shall give separately. Lizzie, Goderich, sends several correct answers.—By a grammatical mistake, some of our friends found a difficulty in getting the proper word for No. 3 of the "Cable Cards." H. A. D., Toronto, sends a number of correct answers, and some incorrect ones. Some of our friends may be disappointed at not seeing all their contributions in print, but for a time they were so numerous that some had to be overlooked, while others were so similar to puzzles which have already appeared in print that we have omitted them. We are pleased to receive original contributions, and shall give place to the meritorious ones. Always send answers with contributions.

VERY SENSIBLE.—Horse dealers who are supposed to know what effects their interest, purchase "Dunlop's Condition Powders and Ambine Horse Remedy" by the dozen, and feed it to their horses for the purpose of improving their condition, which always does, others should profit by their example.—Remember the name, and see that the signature of Hurd & Co., is on each package. Nor, Throp & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

There is a woman in Jersey so economical that the other night, while her husband was asleep, she turned and mended over his last pair of pantaloons for one of the children.

Hemp is the jolliest verdict of a coroner's jury:—"We do believe, after due inquiries, and according to our best knowledge, that we do not know how, when, and where said infant came to its death."

A Western paper announces the illness of its editor, piously adding:—"All good paying subscribers are requested to mention the fact to their friends, the others need not, as the news of the wicked avail nothing."

"Brace up," said Sozzle, as he stood on the threshold at 1 a. m., "I never do let a lady upset anything," and as Mrs. S. descended the stairs, clad in her robe de nuit, Sozzle braced up, knocked the ashes off his cigar, and, as the door opened, said, chirrily, "Hinnie, Maria, (hic) up yet? Got a match in your pocket? Of course, she did not supply anything.

At the close of a tavern dinner two of the company fell down stairs, the one tumbling to the foot leaving one and the other rolling to the bottom. Some one remarked that the first seemed drunk. "Yes," observed the wag, "but he is not so far gone as the other gentleman below."

Mr. Buckle states that human nature has changed very little in the last three thousand years, but we do not remember any record of a Roman Senator taking to account to his wife for a light deposit of pearl powder on the first button of her toga on the ground that he had been playing checkers in a grist mill.

WAR AND COMMERCE.—It is urged by some that English trade has gained largely by the Franco-German war, and that she has been serving both belligerents to the great advantage of her commercial interest; but official statements prove that such has not been the case. But it is true that the sales of the "Canadian Pain Destroyer" are rapidly increasing, and gaining the confidence of the public, for curing coughs, colds, rheumatism, neuralgia, summer complaints, &c. For sale by all Druggists and country dealers. Price 25 cents per bottle.

[illegible] TWICE—two to thirty drops of Thomas' Eclectric Oil, will cure common Sore Throat. It never fails in Croup. It will cure a Cold or Cough in twenty-four to forty-eight hours. One bottle has cured Bronchitis of long years standing, recent cases are cured in three to six days. It has restored the voice where the person had not spoken above a whisper in five years. As an outward application in all cases of pain or lameness, it is the best thing it has ever been known. One bottle will do more real good. Lame Back or Side in the Back. For diseases of the Spine and Obstruction of the Muscles it is unequalled. It is Remarkable how other pain the first application does you good. It stops Ear Ache and the pain of a Burn in three minutes, and is altogether the best and cheapest medicine ever offered to the people—the cheapest, because it takes so little to do you good. It is composed of six of the best medicines, and nothing but oils. If is worth its weight in gold. Why not buy it to-day?—A. B. Schofield, medical practitioner, Arnhemville, P.Q., writes:—"Thirty-en years ago I was seized by a violent attack of rheumatism in the hand, from which I have nearly constantly suffered. After having used "Thomas' Eclectric Oil" for nine days, bathing the forehead, I have been completely cured and have only used half a bottle. This I can certify under oath if you wish."—Rev. J. Mallery, Wyoming, P. Q., writes: "Dr. Thomas Eclectric Oil cured one of Bronchitis in one week. Doctors all over the country say, "We have never sold a medicine that has given such complete satisfaction as this."

Fashion Notes.

Satin is much used for trimming brocades and gauzes that are of soft fabric without lustre.

New plaids, checks, and blue ginghams plaids are stamped on the hems of handkerchiefs used for general wear.

Linen collars are of the English shape made so high that ladies who follow this fashion in the extreme cannot turn their heads without turning their bodies also.

Fly fringe is one of the most popular trimmings. It is little tassled clusters of light fluffy silk tied in strands of twist, and is very effective. Four inches is the width most used.

Tiny white organdy bows with hem-stitched ends make an exceedingly neat finish for the necks of plain dresses that have standing collars of the dress material, and are worn with linen collars.

The designs for cuffs and for the back of dresses are always made with reference to each other. If there are revers, facings, and plastings on the sleeve, these re appear on the back of the bosque.

Sheer white muslin dresses are made in New York with basques, deep aprons and demi-trains. The trimmings are bands of embroidered insertion down the back and front of the basque, [illegible], on basque, apron, and skirt. The overskirt is very simply draped, but is much ornamented behind by sash loops and ends of brocaded or double-faced ribbon or velvet. The sash ends and the ribbons are cardinal red, myrtle green, black velvet, and the double ribbons that are violet satin on one side and pale blue on the other.

Four burglars stole $1,290 of a widow in Oakland, Cal., the other night, and captured a third, and recovered all the money. When asked why he treated his mother-in-law in that way, he explained himself by saying that "the old woman was rather weakly, and he thought the money had better remain in the family.

Cure for toothache—It is said that drops prepared as follows will cure the most toothache over [illegible] ounce of alcohol, two drachms oil; let it prepare one ounce benzoin oil; let it stand twenty-four hours after mixing.

Jelly Roll Cake—Four eggs, one cup of sugar, one cup of flour, quarter of a teaspoonful of salt; beat the eggs and sugar together until very light, then add the flour; bake five minutes; then bake in a hot oven. It must not be cut until cold.

Turkish Pudding—Half a pound of bread crumbs; half a pound of fine chopped suet, six ounces molt sugar, six ounces moist sugar, six ounces currants, six eggs, one cup of milk, one teaspoonful of brandy, half a nutmeg grated. Boil four hours and serve with wine sauce.

Hominy Croquets—To a cup of cold boiled hominy (small grained) add a tablespoonful of butter (melted), add a hard, moisten to a proper consistency with milk and beat to a soft, light paste. Put in a teaspoonful of white sugar and in the last place, a well-beaten egg, and then cracked crumbs and fry in hot lard. Good.

Hard Times Plum Pudding—Half of a pound of finely chopped suet, the same of grated bread crumbs, currants, raisins and flour. Add two tablespoonfuls of molasses and half a pint of milk, all of which must be well mixed together and boiled in mould for three and a half hours. Serve with sauce.

How to cook hominy—Wash slightly in cold water, soak some hours in tepid soft water, then boil slowly from three to six hours in same water, with plenty of water, stirring from time to time, with great care to prevent burning. Don't salt while cooking, as that on hard water will harden the corn. Still will peas and beans, dry or green, and rice.

HOME-MADE VINEGAR.—To one pint strained honey add two gallons of soft water. Let it stand in a moderately warm place; in three weeks it will be excellent vinegar. If but a pint of corn fill it to a little softy, put it in a jar; add a pint of molasses and four quarts of water; mix well together and set near the stove. In two days it will be good beer; in two or three weeks it will be good vinegar.

Norman McLeod was once preaching in a district in Ayrshire, where the reading of a sermon is regarded as the greatest fault of which the minister can be guilty. When the congregation dispersed, an old woman, overflowing with enthusiasm, addressed her minister—"Did ye ever hearony thing sae grand I Wasna that a sermon?" But all her expressions of admiration being met by a stolid glance, she shouted, "Speak, woman! wasna that a sermon?" "Oh, ay," replied her friend, sulkily, "but he read it." "Read it?" said the other, with indignant emphasis, "I wadna ha cared if he had whuistled it."

The first approaches of consumption are so insidious that thousands remain unconscious of its presence until it has brought them to the verge of the grave. The immediate use of "Bryan's Pulmonic Wafers" upon the first appearance of the cough, pain or soreness of the throat or chest, would generally preclude a fatal result; therefore, when you take a cold use "Bryan's Pulmonic Wafers," and thus prevent the necessity for taking them in more dangerous complaints. To be obtained of all Druggists and country dealers. Price 25 cents per box.
