Poetry.

THE HEROES OF THE ALMA.

[FOR MUSIC.]

Ring the joy-bells—chime on chime?
England conquers as of yore!
Ring for Alma's heights sublime,
Union Jack and Tricolor!
And let the people's voice
O'er all the land rejoice,
That in the great, immortal fight,
The glorious living and the dead,
For Freedom armed, for Justice bled,
And conquered in the Right!

Sound the requiem—deep and clear!
England weeps her children slain,
Mourns with sympathy sincere
Heroes lost, but not in vain.
And let the solemn peal
A nation's grief reveal,
Yet—be the tears of sorrow dried!
We owe their babes a glorious debt;
And grief is vain if it forget
The claims of those who died.

Ring the joy-bells! light the blaze!
And let the deep-voiced cannon roar;
Join all hands in pray'r and praise;—
England conquers as of yore.
Our England and our France
In Freedom's cause advance,
And fight for truth and humankind!—
Their ancient glories are surpassed:—
Long may their generous friendship last,
To brave a world combined! C. M.

Miscellaneous.

Prayer Answered.

While in India, Dr. Judson became intensely interested in behalf of the Jews, and imparted his interest to an English officer of rank, by whose co-operation $1,000 were raised and proffered to the Baptist Missionary union towards the establishment of a mission in Palestine. He wrote a powerful appeal to accompany his pledge; but the plan did not meet with favour. Years passed away.

About a fortnight before his death, Mrs. Judson read to him a paragraph from the Journal of Rev. Dr. Hague, s Travels in the East, from which it appeared that "a tract had been published in Germany, giving some account of Dr. Judson's labors at Ava; that it had fallen into the hands of some Jews, and *had been the means of their conversion;* that it had reached Trebizond, where a Jew had translated it for the Jews of the place; that it had awakened a deep interest among them; that a candid spirit of inquiry had been manifested, and that a request had been made for a missionary to be sent to them from Constantinople."

Mrs. Judson, in her relation of these facts, adds, "His eyes were filled with tears when I had done reading. A look of almost unearthly solemnity came over him, and clinging fast to my hand, as though to assure himself of being really in the world, he said, 'Love this frightens me; I do not know what to make of it.' 'What?' 'Why, what you have just been reading. I never was deeply interested in any object, I never prayed sincerely and earnestly for any thing, but it came—at some time—no matter at how distant a day—some how, in some shape—probably the last I should have devised—it came, and yet I have had so little faith! May God forgive me; and while he condescends to use me as his instrument, wipe the sin of unbelief from my heart?,, "If ye abide in me, and my words in you, ye shall ask what ye will, and it shall be done unto you."

WHAT ONE MAN HAD DONE WHILE HE LIVED.—At the time of the death of the late venerable Dr ALEXANDER of Princeton, the Presbyterian Board of publication had issued *sixteen millions, twenty thousand and five hundred* pages from his unwearied and always instructive pen. Other publishing houses, editors, &c., had given wide currency to his writings, and no figures can compute the amount of usefulness, which while living he thus accomplished. And being dead, he yet speaketh, and will speak till the end of time. In the morning he sowed his seed, and in the evening he did not withhold his hand.—*N. Y. Obs.*

The great highway to crime is acknowledged to be intemperance. On this point men of all parties, sects, and all localities are agreed. Our lawyers concede it, our Judges proclaim it, our Jailors attest it. Those who urge a prohibitory law, and those who regard it as unconstitutional, have no difference of opinion as to this fact. Directly or indirectly, intemperance is chargeable with three-fourths of all the crimes committed. Where it does not lead immediately to violations of the law, it does remotely by superinducing poverty, or by brutalizing its victims. If it fails to make the drunkard himself an outlaw, it takes its revenge by educating his children for the jail or the gallows.—*Ledger, American Paper, from the Friends Review.*

"And what then?"

1. I have a great deal of life to look into yet awhile. There are many little things—such as the theatres, balls, and other questionable amusements, which I shall never be able to try, if I become a christian at once. And, indeed, it is more than likely, that by practically testing their vanity, I may become the better in the end. *So I will wait.*

2. Business occupies my time. If I join the Church now, there are many of the little latitudes of trade I shall have to give up.—Besides, if I make a fortune, I shall adorn the Christian character by showing that a rich man can be truly good, which is a far more edifying spectacle than for a poor man to be so. *So I will wait.*

3. After all, why should I not enjoy in leisure and repose for awhile this wealth which I have had such a hard time in collecting?—I know that a heart not subdued to spiritual things cannot be fit for heaven without a change; but this change may as well be made on a sudden, as after a life-long struggle,—when the soul is told to prepare for death, as when it is in the midst of life. *So I will wait.*

4. A sick-bed is no place for a subject requiring so much serious and undisturbed thought as this. I will put it off till I am better. *I will wait.*

"THOU FOOL, THIS NIGHT THY SOUL SHALL BE REQUIRED OF THEE!"

INGRATITUDE.—When stript of all disguise, ingratitude stands out an object so deformed, unnatural, and odious, as to be universally detested and execrated by mankind. Impiety, ignorance, and covetousness, are the prolific soils on which this hateful excrescence is reared.

HOW WE MAKE CRIMINALS—It is a fact conceded, that notwithstanding the vast material progress we are making; notwithstanding our free institutons; notwithstanding our common school; notwithstanding our newspapers crime, instead of diminishing, grows more formidable continually. Why is this? We will endeavour to explain the apparent paradox. The solution is at once a warning and a rebuke.

FRIENDSHIP.—The source of this noble sentiment is pure; it can spring alone from the heart. it flows spontaneously from the human bosom at all seasons, and sweetens the first as well as the last hours of our existence.

The Boston Transcript having been censured for some remarks on the bad influence of inadequate salaries in diminishing the number of ministers, comes out with a statement of facts, showing a long list of merchants, school-teachers, and men in various professions, who *desired* the ministry, and would have entered it, but for the fear of starvation, or what is next to it, embarrassment, poverty and debts. The Transcript thinks it does not meet the case to say that men ought to have *piety* enough to face such things.

HAPPINESS.—Nothing is purer than honesty—nothing sweeter than charity—nothing brighter than virtue—nothing warmer than love—and nothing more steadfast than faith. These, united in one mind, form the purest, the sweetest, the richest, the brightest, the holiest and the most steadfast happiness.

P. E. ISLAND.

Our harbor at present presents a very imposing appearance. Wind-bound might be seen somten or a dozen square-rigged, clipper-built vessels near the entrance of the harbor; whilst every wharf is lined with ships, brigs, schooners and steamers of all sizes—from the beautiful ship of William McGill, Esq., to a beautiful little steamer called the Rosebud, owned by William Heard, Esq. In fact all is bustle and business in our harbor. Every full tide may be seen floating down our rivers new vessels—one after the other—to such a degree that surprises strangers visiting this little town of ours. Produce of all descriptions leaving our shores.—Merchandize of all kinds flowing in. Success to trade,—*P. E. I Advertiser.*

IMPORTANT DEBATE.—The House of Assembly, St. John's Newfoundland, was occupied on Wednesday, Oct. 11, chiefly with a debate on motion of Mr. Little, to have the lithographic likeness of Joseph Hume, Esq., M. P. placed on the walls of the Assembly Room, which at last was carried *without* opposition—so says the *Morning Post.*

Cure No. 3,903—Thirteen years cough, indigestion and general debility have been removed by Dullarry's excellent Revalenta Arabica Food. JAMES PORTER,
Athol Street, Perth

Plymouth, May 9th, 1851.

For the last ten years I have been a Sufferer from Dyspepsia headaches, nervousness, low spirits sleeplessness, and delusions, and swallowed an incredible amount of medicine without relief. I am happy to say that your Food has cured me, and I am now enjoying better health than I have had for many years past.
J. S. NEWTON.

Devon Cottage, Bromley, Middlesex Mar, 31, 1849.

GENTLEMEN,—The lady for whom I ordered your Food is six months advanced in pregnancy, and was suffering severely from indigestion, constipation, throwing up her meals shortly after eating them, having a great deal of heartburn, and being constantly obliged to have recourse to physic or the enema, and sometimes to both. I am happy to inform you that your Food produced immediate relief. She has never been sick since, has but little heartburn, and the functions are more regular, &c.

You are at liberty to publish this letter, if you think it will tend to the benefit of other sufferers.
THOMAS WOODHOUSE.

DR. WURZER'S TESTIMONIAL.

Bonn, 19th July, 1853.

This light and pleasant Farina is one of the most excellent, nourishing, and restorative remedies, and supersedes in many cases all kinds of medicines. It is peculiarly useful in confined habits of body, as also in diarrhœa, bowel complaints, affections of the kidneys and bladder, such as stone or gravel; inflammatory irritation and cramp of the urethra, cramp of the kidneys and bladder, strictures and hæmorrhoids. This really invaluable remedy is employed with the most satisfactory result, not only in bronchial and pulmonary complaints, where irritation and pain are to be removed, but also in pulmonary and bronchial consumption, in which it counteracts effectually the troublesome cough; and I am enabled with perfect truth to express the conviction that Du Barry's Revalenta Arabica is a blessed to the cure of inveterate chronic complaints and consumption. Celebrated Toilet Preparations,

We would call the attention of the Ladies and Gentlemen of New-Brunswick to the following choice Toilet articles—

ISAAC BABBITT'S Superior Toilet Soaps,

CYTHEREAN CREAM OF SOAP. PANARISTON SHAVING CREAM. PANARISTON SHAVING SOAP, IN SOLID ROLLS. PANARISTON SOAP FOR MEDICAL USES, AND SHAVING POWDER.

These choice Soaps and Creams enjoying the highest fame for their superlative excellence both in this country and Europe. Medals have been awarded from the best institutions, and testimonials of the virtues by thousands who have used them.

Cytherean Cream of Soap, for Ladies, softens the skin, removes Freckles, purifies the complexion, and is free from all impure or irritating properties and is admired by all who use it.

Panariston Shaving Cream takes the place of all other Soaps as a preparation for the razor, and those who use it once will never after use any other.

Panariston Rolls are put up in a neat portable style suited to travellers' convenience.

The following are a few from the many testimonials received:—

Rev John Pierpont says of the Shaving Soap, "it is unequaled as a preparation for the razor; by any thing that I have tried." Dr. A. A. Hayes, State Assayer, says of the Cytherean Cream, "I have never met with any Soap Compound, which, in cleansing the most delicate skin, would, like this, leave it perfectly moist, soft, and healthy." Dr. Walter Channing says, "I have no memory of so good an article." Dr. Luther V. Bell, Superintendent of the McLean Asylum, says, "It is superior to any other saponaceous compound I have known." Hon. Horace Greely of the N. Y. Tribune, says "we have tried it and found it perfect; no other soap is worthy of being mentioned the same day." Dr. Bailey, editor of the National Era, says, "it is in all respects the very best soap we have used." Mrs. Swissheim, editress of the Pittsburgh Saturday Visiter, says, "it is superior to anything in the soap line, either soft or hard." Mr. Prentice of the Louisville Journal, says "the Cytherean Cream of Soap is probably the best for preserving the purity of the skin which has yet appeared." The New York Literary World says, "Mr. Babbitt will be the Soyer of soap, the great regenerator.

DR. MARCHISI'S UTERINE CATHOLICON.

THE DISCOVERY OF THE ABOVE PREPARATION HAS ESTABLISHED A NEW ERA IN THE HISTORY OF THE HEALING ART; it is, in truth, one of the greatest Medical Discoveries of the Age, because it will cure more than nine-tenths of a class of distressing diseases incidental to females in every stage of life, and which have heretofore resisted the best efforts of the Medical profession in all countries, to a degree beyond that of a most every other malady to which any portion of the human family is heir. The diseases to which we refer are usually known by the term of

FEMALE COMPLAINTS,

and comprise all the derangements to which females are liable by the peculiarities of their organization. Among these are PROLAPSUS UTERI, or Falling of the Womb; CHRONIC INFLAMMATION and ULCERATION OF THE WOMB; INCIDENTAL HAEMORAGE, or Flooding, FLUOR ALBUS, or WHITES; CHLOROSIS; PAINFUL, SUPPRESSED and IRREGULAR MENSTRUATION &c., with all their accompanying evils, (Cancer excepted) of whatever duration and severity. ALL THESE COMPLAINTS can be pleasantly, safely, and certainly remedied by this preparation.

THE CLAIMS OF THIS MEDICINE to the confidence of the public are strengthened by the fact of its having received the approbation and liberal patronage of MANY PROMINENT MEMBERS OF THE MEDICAL FACULTY in the United States, some of whom have voluntarily given letters of commendation, (see pamphlet,) sustaining all that is claimed for the Catholicon as a curative agent.

HOLLOWAY'S OINTMENT

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING.

Copy of a Letter from Mr. William Abbs, Builder of Gas Ovens, of Rashcliffe, near Huddersfield, dated May 3rd, 1851.

To Professor HOLLOWAY.

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.
(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr. W. P. England, Chemist, 13 Market Street, Huddersfield.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS' SUFFERING.

Extract of a Letter from Mr. William Gowin, of 70, St. Mary's Street, Weymouth, dated May 16th, 1851.

To Professor HOLLOWAY.

SIR,—At the age of 43 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your Advertisements and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and, strange to relate, is now in good health. Her legs are painless, without scam or scars, and her body sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.
(Signed) WILLIAM GOWIN

A WONDERFUL CURE OF A DANGEROUS SWELLING OF THE KNEE.

Copy of a Letter from John Forster, an Agriculturist, residing at Newborough, near Burham, May 15, 1850.

To Professor HOLLOWAY.

SIR,—I was afflicted with a swelling on each side of the leg, rather above the knee, for nearly two years, which increased to a great size. I had the advice of three eminent surgeons here, and was an inmate of the Newcastle Infirmary for four weeks. After various modes of treatment had been tried, I was discharged as incurable. Having heard so much of your Pills and Ointment, I determined to try them and in less than a month I was completely cured. What is more remarkable I was engaged twelve hours a day in the hay harvest, and although I have followed my laborious occupation throughout the winter, I have had no return whatever of my complaint. (Signed) JOHN FORFAR

AN INFLAMMATION IN THE SIDE PERFECTLY CURED.

Copy of a Letter from Mr. Francis Arnot, of Brechous Lothian Road, Edinburgh, dated April 29th, 1851.

To Professor HOLLOWAY.

SIR—For more than twenty years my wife has been subject, from time to time to attacks of inflammation in the side, for which she was bled and blistered to a great extent, still the pain could not be removed. About four years ago she saw, in the papers, the wonderful cures effected by your Pills and Ointment, and thought she would give them a trial. To her great astonishment and delight she got immediate relief from their use, and after persevering for three weeks, the pain in her side was completely cured, and she has enjoyed the best of health for the last four years.
(Signed) FRANCIS ARNOT.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a Letter from Mr. Frederick Turner, of Paxhurst, Kent, dated Dec. 13th, 1850.

To Professor HOLLOWAY.

DEAR SIR,—My wife had suffered from Bad Breast, for more than six months, and during the whole period had the best medical assistance, but all to no use. Having before heard so much of wonderful cures by your Pills and Ointment, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends. (Signed) FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Chiego-foot	Sore-throats
Bad Breasts	Chilblains	Skin diseases
Burns	Chapped hands	Scurvy
Bunions	Corns (soft)	Sore-heads
Bite of Moschetoes and Sand-Flies	Cancers	Tumours
	Contracted and Stiff Joints	Ulcers
Pustulas	Gout	Wounds
Lumbago	Piles	Glandular Swellings
Rheumatism	Scalds	Sore Nipples
Coco-bay	Elephantiasis	Yaws

PROFESSOR MOTT'S Celebrated Female Regulating Pills

These wonderful Pills are compounded entirely from the vegetable kingdom, and they are now recommended to the Female sex as an invaluable remedy for many complaints to which they are subject. In obstruction—either total or partial, they have been found of inestimable benefit for healthy action. The Aperient stimulent and tonic properties are so admirably combined in the composition of these Pills, that they clear the Bowels from all corrupt and vitiated matter—rouse up the sluggish action of the Heart, Blood, and other fluids from all Humours—strengthen the nerves and muscles, and give tone and energy to the whole system.

These Pills will most effectually cut to flight all complaints which may arise from Female Irregularities, such as Headache, Backache, Giddiness, and Dimness of Sight, Ringing in the Ears, Costiveness, Loss of Appetite, Pain in the Side and Chest, and general lassitude and debility. Thousands of Females who are fast approaching the verge of the grave, may be relieved by giving these Pills a thorough trial. They have never been known to fail in effectually removing the complaints above enumerated, and want only to be known and tried to satisfy the most incredulous of their intrinsic value.

PRICE—$1 per box; 6 boxes for $5,

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist Prescot Street, Liverpool, dated 6th June, 1851.

To Professor HOLLOWAY.

SIR,—Your Pills and Ointment have stood the highest in our sale list of Proprietary Medicines for some years. A customer, on whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the violence of the attack was so alarming, and the inflamation set in so severely that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the *severity of the attack*, and the *speedy* cure, I think, speaks much in favor of your astonishing Pills. [Signed] R. W. KIRKUS.

ANXIETY AND ORDINARY CURE OF RHEUMATISM IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart-Town Courier, of the 1st March, 1851. to Major J. Walch.

Margaret McConnigan, nineteen years of age, residing a New Town, had been suffering from a violent rheumatic fever for upwards of two months, which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless. A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredible short space of time they effected perfect cure.

WONDERFUL EFFICACY OF HOLLOWAY'S PILLS IN CASES OF DROPSY

Persons suffering from Dropsy, either about the turn of life, or at other times, should immediately have recourse to these Pills, as hundreds of persons are annually cured, by their use, of this direful complaint in its different stages, when all other means had failed.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement.—August 2nd, 1851.

To Professor HOLLOWAY.

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means comparatively active, and can take exercise without inconvenience or pain, which I could not do before.

AN EXTRAORDINARY CURE OF THE GRAVEL AND A MOST DANGEROUS FEVER COMPLAINT.

Copy of a Letter addressed to J. K. Heyden, Esq., Sydney, New South Wales dated Feb. 25th, 1851.

SIR—A Mr. Thomas Clark, a Settler at Lake George was for a considerable time seriously afflicted with a Complaint of the Liver, together with the Gravel. His medical attendants, after trying all their skill, candidly told him that his case was hopeless, and any further efforts useless In this situation, and when expecting every day would terminate his existence, a friend recommended him to try Holloway's Pills, and as a forlorn hope he did so, the first case him considerable relief, he therefore persevered in taking them according to the directions, and is now restored to health. He will feel great pleasure in confirming this statement, or even make an affidavit to the same effect, should it be required.
(Signed) WILLIAM JONES, Proprietor of the Goulburn Herald, New South Wales

DEVINE'S

Compound Pitch Lozenge.

An appeal to matter of fact, and common sense.

IT is that which has so long been sought for, and is in full faith offered to the public as a CERTAIN CURE for

Coughs, Colds, Whooping Cough, Croup, Costiveness, Asthma, and Consumption,

and will, in any case where lungs sufficient are left to sustain life, check the ulceration, and raise the patient to health. This is not an idle boast nor is this remedy sent into the market without a thorough trial; but has proved beyond a doubt that what has been asserted CAN BE DONE.

We do not ask you, reader, to take our word, but those who, but a few weeks ago had given up in despair and are now in the enjoyment of health, and without asking have
