WHEAT FUTURES HIGHER.

Advance in Liverpool Cables Yesterday.

Chicago Options Likewise Rose, Gaining About a Cent a Bushel—Corn Markets Higher — Money Rates and Foreign Exchange — Consols Lower—Notes and Gossip.

The Liverpool grain exchange will be closed Saturday and Monday next.

The following are the stocks of wheat and corn in store and on quays (railway and canal depots not included) at Liverpool: Wheat 2,504,000 centals, corn 497,000 centals.

The following are the stocks of breadstuffs and provisions at Liverpool: Flour, 80,000 sacks; wheat, 2,733,000 centals; corn, 521,000 centals; bacon, 19,000 boxes; hams, 5200 boxes; shoulders, 2900 boxes; butter, 12,600 packages; cheese, 68,800 boxes; lard, prime western, 13,000 tierces; lard, other kinds, 1680 tons.

Chicago Quotations.

The Associated Press to-day issued the following bulletin: On account of trouble over Board of Trade quotations, we shall be unable to furnish Chicago wheat and corn market figures until further notice.

As a result the bucket shops and many brokers were minus quotations to-day.

Sugar Market.

St. Lawrence sugars are quoted as follows: Granulated at $5.33, and yellows at $4.63 per cwt.

Alsike Clover Seed.

Farmers that are fortunate enough to have a few acres of alsike clover this season are rejoicing greatly. And they have great reason for doing so, as the yield of seed is away above the average, and the price good.

Several farmers in Markham Township have already thrashed, and the yield is all the way from 5 to 8½ bushels per acre.

A reporter of The World interviewed Messrs. Rennie, Keith and Steele, Briggs, seedsmen of this city, in reference to this product. The information received from these firms was much the same. They all report the acreage as being light, but the yield good. Not only is this true of Canada but also of the United States. But Canadian seed is always a better sample and, therefore, commands a better price.

The stocks of old seed carried over from last year are reported to be light, both here and in the United States, as well as in Europe.

But it is thought that the extra yield will make up for the less acreage, and the outlook at present seems to be that the total number of bushels will be as large as that of last year.

A few lots have already been marketed, at prices ranging from $6 to $6.50 per bushel.

Chicago Gossip.

J. J. Dixon has the following this evening from Chicago:

Wheat—The stronger Liverpool cables and less deliveries than expected this morning caused firm opening in wheat, and the buying thruout the session has been better than the selling. As a rule local traders continue to favor the selling side of the market, but there are some of the more conservative traders who buy wheat on all the weak spots. Southwest advise of milling demand that absorbs all offerings at prices above a parity of export prices. In St. Louis, cash No. 2 red is in demand by eastern millers at from 1½c to 2c premium over September.

Corn—Corn opened rather firm at about yesterday's close. Liverpool was firm, ½c to ¼c higher. Country acceptances very light. Later, however, lack of outside support and selling by prominent local longs, together with the coming out of about half million bushels of corn, that was delivered on August contracts, this morning caused a weak and lower market, with August from ½c to ¼c premium yesterday to ½c discount to-day. Cash demand fair. Clearances, 468,000 bushels. Estimated cars to-morrow, 300.

Oats—Opened weak and lower this morning on continued liquidation by outsiders. The country was again free seller. Later the market firmed up with wheat and a fair cash demand. The market was fairly active. Clearances liberal—257,000 bushels. Estimated cars to-morrow, 315.

Provisions—Were firm; ribs continue the feature, the result of small stocks. Wolff has taken ribs to-day; Schwartz, Dupee & Co. pork; Harris & Logan have sold moderately.

The Demon Dyspepsia—In olden times it was a popular belief that demons moved invisibly through the ambient air seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He should see that finds himself so disposed should know that a valiant friend to do battle for him with the unseen foe is Parmelee's Vegetable Pills, which are ever ready for the trial. ed

The London Stock Exchange will be closed Saturday and Monday, Aug. 4 and 6.

In London, American railway shares opened quiet but steady at slight declines. Later the market strengthened and closed firm at about unchanged from yesterday's closing. Spanish fours closed at 70⅝.

In London gold bars unchanged at 77s 9½d. American eagles are quoted to-day at 76s 4½d, ¼d lower.

On Wall Street.

Except for the dealings in a handful of stocks, the list of stock exchange securities was a stagnant, inert mass to-day. Many usually active stocks dropped out of the dealings entirely, and transactions in other prominent stocks fell to insignificant proportions. Sugar, T., B. & Q. and Brooklyn Transit made the market, and all the rest of the dealings might have been dropped out of public notice for any significance they had on current conditions. The world of capital awaits the solution of the problem in China, and the resulting requirements on the world's money markets. In the ultimate fate of the crops in the United States; the settlement of the basis on which future business in the iron and steel industry is to be done, and the settling down of political conditions. The future of the money market is especially confusing and complex, and expert opinions differ widely as to the course to be expected. The expected drain of gold from the United States is halting, and it is not expected now that gold will go out this week. Sterling exchange and London discounts failed to advance to-day, and London exchange in Paris jumped a full centime. The Bank of England also reduced its price for American eagles ¼d. The benefit where the money market has had from the Government deficit for July cannot be expected to continue in August. Even for July, the $4,000,000 deficit was only about half that for July of last year. The generally firm undertone of the market was in sympathy with strength in special stocks. Yesterday's dividend action in Union Pacific and the expectation of a dividend declaration to-morrow on B. & O. helped those stocks. The early bears in Sugar became skeptical of the alleged renewal of the trade war and covered their shorts. The Republic steel stocks and Steel Hoop were rallied on stories of pending labor troubles, but the other steel stocks were rather firm. Other stocks played unimportant parts in the trading.

The bond market continued dull and irregular.

J. J. Dixon has the following to-day from Ladenburg, Thalmann & Co., New York:

Some of the specialties were active in stocks during this morning, but after the first hour the market became dull and professional. U.P. was strong and B.O. common was bought in anticipation of the declaration tomorrow of a 2 per cent. semi-annual dividend, and the collapse of the strike in the George's Creek Mines. Steel Hoop and Republic Steel were very firm. Sugar rallied from the early decline and then sold off again. Demand sterling 4 87⅝.

The Money Markets.

The local money market is steady. Money on call, 5½ per cent.

The Bank of England discount rate is 4 per cent. Open market discount rate, 4⅛ per cent.

Money on call in New York at 1½ per cent.
