We have recently received a very handsomely gotten up booklet containing the announcement for the sixteenth year of the "Southwest Virginia Institute," located at Bristol, Virginia. Mr Ernest R. Morse, a graduate of Acadia and a former teacher in Horton Academy, is vice-president of the academic department. A small souvenir booklet which accompanies the calendar gives a number of excellent views of the buildings and grounds.

The D. A. Railway has been doing a large business during the past few weeks. Both passenger and freight trains have been taxed to their utmost, while special trains have been required to keep up with the demands made on the road. Persons having freight to ship have found it very difficult to get cars owing to the large number required to carry apples, etc. We understand the company has added ten new box cars, each with a capacity of three hundred and nine barrels, which will to quite an extent obviate the difficulty.

We have in stock a quantity of Coke with which we shall be glad to supply customers in any quantity. Especially recommended for grates and furnaces.
