ODDS AND ENDS.

The latest Toronto fashion is a homo-rule hat. It has no crown.

A fall pippin, a coal stove and a newspaper are not bad things to sit up with.

What is the use of talking of this world's brightness and sunshine to a man that has tight boots?

He who has nothing to do in this world but amuse himself, has got the hardest job on hand I know of.

If you wake up in the night in an Italian hotel and shoot a burglar, the chances are that you can't see the landlord next morning and that his wife is a widow.

'My dear sir,' said a candidate, accosting a stray wag on the day of election, 'am very glad to see you.' 'You needn't be,' replied the wag, 'I have voted.'

A lady in a menagerie being asked why she so closely scanned the elephant with her opera glass, replied that she was looking for the keyhole of his trunk.

A rich but parsimonious old gentleman, on being taken to task for his uncharitableness, said: 'True, I don't give much, but if you only knew how it hurts me when I give anything, you wouldn't wonder.'

The gallant secretary of life insurance company, being in command of a platoon during the late supplementary in New Orleans, struck up the grand cow of his men about to fire on a crowd of women with the exclamation, 'Don't shoot at him, we've got a policy on him!'

Lawyer—'How do you identify this handkerchief?' Witness—'By its general appearance, and the fact that I have other like it.' Counsel (sotto)—'That's no proof for I have got one just like it in my pocket.' Witness (innocently)—'I don't doubt that, as I had more than one of the same sort stolen.'

Use of Dead Leaves.

The leaves of deciduous trees and shrubs, grape-vines, etc., are now falling, and will soon be scattered by the high winds of the fall, if not collected and stowed away for future use. They are too valuable for many purposes to be allowed to go to waste.

They form a good protection for strawberries during the winter, as a covering of them prevents that alternate freezing and thawing which is so injurious to the plants. A covering two inches in depth will be necessary, and this should be kept from blowing away by the pressure of twiggy branches spread over it.

Decayed leaves produce that valuable manure known as leaf-mould, which, is so highly prized by the florist. In the construction of hot-beds, dead leaves are very useful, as layers of them, between layers of manure, moderate the heat and retain it for a long time.

For littering stock and absorbing liquid manure, dead leaves are of great value. Large quantities should now be collected and kept in sheds for future use.

A communication to the American Institute from A. J. Williams, Owasco, Mich., was read, as follows:—

"I have read your proceedings as published in the semi weekly Times with a great deal of interest and benefit. I wish to trouble you with a question or two, and shall be exceeding gratified to receive a reply through the above medium. What is the best method of keeping apples and grapes? and name a few of the best varieties of each as long keepers."

The Chairman said that the best recommendation he could make was that they should be kept in a cool dry place. He had a short of pantry built outside of his house. It was always cool and dry, and fruit kept well in it. The questions asked might be answered more fully hereafter. Mr. Curtis said that Catawba grapes were the best variety to keep. Mr. Fly said that if Mr. Williams would write to Ehlwanger & Berry, of that State, dealers in fruit trees, &c., he would get a printed catalogue with the information he required.

Among the letters of interest from the Far West, comes one from Sergt. Ellis, late of Pualinch, who has been for some time engaged in the service of the Boundary Survey Commission, published in the Guelph *Mercury*:—

"In the mountain streams, he says, is an endless variety of fish, among which is a kind of speckled trout, very much resembling our Canadian "trout, but about twice as large, with black spots on the sides instead of red, and possessing an exquisite flavor. Wild sheep and mountain goats are numerous. The sheep have immense horns, by which they are enabled to cling and drop from crag to crag along the mountain-sides. In hunting these animals, the hunters are generally obliged to ascend into lofty and precipitous heights. Amongst other animals in this region is a kind of mountain lion, said to be very fierce. North of the Bear Paw Mountain, they came upon the dead bodies of twenty-eight of the Blackfeet Indians, who it appears had been on a horse-stealing expedition, but were overtaken, killed, and scalped by another hostile tribe. This, they think, occurred last spring."

ELECTRICITY.

THOMAS' Excelsior Eclectric Oil.

Worth Ten Times its Weight in Gold!

Pain cannot stay where it is used. It is the cheapest Medicine ever made. One dose cures common Sore Throat. One bottle has cured Bronchitis. Fifty cents worth has cured an Old Bronchial Cough. It positively cures Catarrh Asthma and Croup. Fifty cents worth has cured Crick in the Back and the same quantity Lame Back of eight years standing. The following are extracts from a few of the many letters that have been received from different parts of Canada which, we think, should be sufficient to satisfy the most sceptical. J. Collard, of Sparta, Ont., writes: "Send me6 doz. Dr. Thomas' Eclectric Oil, have sold all I had from you and want more now; it's cures are truly wonderful." Wm. Maguire, of Franklin, writes, "I have sold all the stand left, it sets like a charm—it was slow at first but takes splendidly now." H. Cole, of Iona, writes, "please forward 4 dozen Thomas' Eclectric Oil, I am nearly out; nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes—"Send at once a further supply of Eclectric Oil, I have only one bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodford, writes—"Send me some more Eclectric Oil, I have sold entirely out. Nothing takes like it." Miller & Reed Ulverton, P. Q., writes—"The Eclectric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. Q. write—"Send us one gross Eclectric Oil, we find it to take well."

Sold by all medicine dealers. Price 25 cents.

A PUBLIC CAUTION.

Holloway's Pills and Ointment are neither manufactured nor sold in any part of the United States, though they may be obtained in the B. N. American Provinces.

Each Pot and Box bears the *British Government Stamp*, with the words, "Holloway's Pills and Ointment, London," engraved thereon.

It has become necessary to make this announcement because the New York Chemists, who pay no duty, finding it pays to pirate that name has been exposed, have assumed the title, "Holloway & Co.;" but, even on this, they their medicines disguised so as to make the public believe that they are genuine, so that they have and still continue to supply exclusively the bogus compound of Messrs. Henry and Co., under the name of "Holloway's Pills and Ointment."

It is presumed that from the large connection Messrs. Henry and Co. have in the British Provinces, and elsewhere, the public is very likely to be imposed upon by other spurious nostrums and others unless they exercise some caution to prevent their being misled, by finding the medicines bearing a stamp with the name of "Holloway and Co., New York," printed thereon.

Many respectable Firms in the British Provinces, who obtain my medicines direct from here, have very properly suggested that I should, for the benefit of themselves and the public, insert their names in the papers, that it may be known that my medicines can be had genuine from them.

The following is a list of the Firms alluded to; and I particularly recommend those who desire to get my medicines to apply to some of the Houses

Messrs. Avery, Brown & Co., Halifax, N. S.
Messrs. Forsyth & Co., Halifax, N. S.
Messrs. T. B. Barker & Sons, St. John, N. B.
Mr. T. Dos Brisay, Charlotte Town, P. E. I.
Messrs. Langley & Co., Victoria, B. C.
Messrs. Moore & Co., Victoria, B. C.
Dr. John Fallon, Chatham, N. B.
Messrs. Munro & Co., Montreal.
Messrs. J. Winer & Co., Hamilton, Ont.
Mr. H. J. Ross, Toronto.
Mr. A. Chipman Smith, St. John, N. B.
Mr. John Bond, Goderich, Ont.
Messrs. Elliot & Co., Toronto.
Mr. J. Chaloner, St. John, N. B.
Messrs. Huntington Bros., St. John, N. B.
Mr. R. F. Priddy, Windsor, Ont.
Mrs. Orpen, Moncton, N. S.
Mr. George C. Hall, Jun., Fredericton, N. B.
Mr. W. H. Thompson, Harbor Grace, N. F.
Mr. J. M. Wiley, Fredericton, N. B.
Messrs. W. & D. Yuile, Montreal.

The medicines are sold at the lowest wholesale prices, in quantities of not less than £20 worth—viz., 8s. 6d., 22s., and 34s per dozen boxes of Pills or pots of Ointment, for which remittances must be sent in advance.

Chemists and other vendors of Holloway's genuine Pills and Ointment may have their names inserted in the local papers if they will please apply here—

BEARINE'S OR, REAL BEAR'S GREASE,

A Hair Beautifier, Preserver and Dressing.

THIS elegant preparation named from the Canada Bear, from which its most essential element is obtained, is a scientific compound of Real Bear's Grease, and other ingredients, so combined as to retain for a great length of time, its original fragrance and purity.

As a dressing for the Hair, nothing can be more beautiful or agreeable. It is elegantly perfumed and renders the Hair soft, pliant and glossy. It serves to give it that peculiar richness and color, which is so essential to a complete toilet. It is the cheapest, most harmless and best Dressing in the world.

CANADIAN PAIN DESTROYER.

AS A FAMILY MEDICINE, IT IS well and favorably known, relieving thousands from pain in the *Side, Back and Head, Coughs, Colds, Sore Throat, Sprains, Bruises, Cramps in the Stomach, Cholera Morbus, Dysentery, Bowel Complaints, Burns, Scalds, Frost Bites, &c.*

The Canadian Pain Destroyer has now been before the public for a length of time, and wherever used is well liked, never failing in a single instance to give permanent relief when timely used, and we have never known a single dissatisfaction, where the directions have been properly followed, but on the contrary, all are delighted with its operations, and speak in the highest terms of its virtues and magical effect.

We speak from experience in the matter, having tested it thoroughly; and therefore those who are suffering from any of the complaints for which it is recommended, may depend upon it being a Sovereign Remedy.

The astonishing efficacy of the Canadian Pain Destroyer in curing the diseases for which it is recommended and its wonderful effects in subduing the torturous pains of Rheumatism, and in relieving Nervous Affections entitle it to high rank in the list of Remedies. Orders are coming in from Medicine Dealers in all parts of the country for further supplies, and each testifying as to the universal satisfaction it gives.

The Canadian Pain Destroyer never fails to give immediate relief. All Medicine Dealers keep it as Physicians order and use it; and no family will be without it after trying it.

DOCTOR BALLOU'S OFFICE

No. 16 King Street West,

Three doors from Yonge St., Toronto.

A few months of his skill in this city have proved to the public the undeniable merits of one of our best medical practitioners. Dr. Ballou's Medicines are all prepared by himself, and are warranted to be free from all injurious substances, and to contain the virtues only for which they are intended to cure. Dr. Ballou's Medicines are for sale by all respectable Druggists everywhere.

I desire that the citizens of Toronto and vicinity (for whom I am most sincerely desirous of the greatest benefit) should know of the wonderful cures performed by Dr. Ballou, in this city, on January 16th, 1874. He had a very severe attack of Rheumatism, followed by a bad case of Erysipelas, and I was induced to try his medicines, which I am pleased to say, completely cured me. I would also mention that he attended my wife for a long time, and she was greatly benefited by Dr. Ballou's medicines. Her health was completely broken down, and she was unable to do her work, although she had tried many other medicines and had been attended by other physicians. After one month's treatment her health was thoroughly restored, and she has since been able to do her work. Dr. Ballou's medicines are very mild, but very effectual, and I can recommend them to all who desire a cure without the use of mercury, and who desire further proof let them come and see.

ACHIBALD SPEARS,
No. 416 Queen street West, Toronto.

I would cheerfully recommend Dr. Ballou to all my acquaintances, as his services to me were beyond all price, and I had tested the skill of the accredited local physicians.

D. A. CAMPBELL,
175 Sherbourne street.

Dr. Ballou cured me of Lung and Throat Disease in three treatments. I was so weak that I could scarcely walk to his office.

KATE ROBERTSON,
251 Sherbourne street.

Dr. Ballou cured my daughter of Epileptic Fits which she had for eleven years, and she never had one after his first treatment, and before it she had them as often as eight to fifteen every week.

WM. F. McMULLIN,
Hamilton, Ont.

Many other cases of Rheumatism, Dyspepsia Dropsy, Liver and Lung Disease, Heart Diseases &c., may be seen at his office.

The Doctor also cures Cancer, Paralysis, Spermatorrhœa, and in perfect manner of all Sexual or Private diseases. Treatments strictly confidential, and all letters addressed to him at 16 King street, West, will be attended to. Box 2045. 1443-1y

THE SCIENCE OF ACCOUNTS.

DOCTOR JOHNSON, writing on the Science of Accounts, uses the following language, "That science which no condition of life can render useless, which must contribute to the advantage of all who buy or sell, of all that wish to keep or improve their possessions, of all that desire to be rich, and all that desire to be wise."

The evils resulting from imperfect systems of Bookkeeping are great, and terminate in the insolvency and bankruptcy, not only of those who regulate their accounts by them, but also of innocent parties unfortunately connected with those persons who have adopted imperfect systems of Bookkeeping. It is well known that a large proportion of the trading community adopt the *Single mode of single entry*, on the disadvantages of which it is not necessary to enlarge, as it does not even possess the means, fallacious as they are in principle, of making the Ledger agree with itself. The system of Double Entry generally in use is well calculated to cover fraudulent entries in the transactions of extensive business, is troublesome to keep and perplexing to balance. Comparatively, there are but few mercantile men whose books *are* carefully balanced. Indeed it would seem that the *exact* balancing of books is of very secondary importance with the majority, who entirely omit taking any account of stock for the purpose of making an annual settlement of their affairs; and even many thinking men, who keep their books by double entry, find such difficulty in *balancing* that they very generally pass over small differences, and sometimes large ones, rather than go on forever examining the last twelve months' accounts. It is also common for small errors to be passed over as of no consequence; whereas the *difference* by the Italian system may be only the balance of numerous errors of uncertain amount, which may be exceedingly injurious, and should never be tolerated, especially in PARTNERSHIP CONCERNS. The question may now be pertinently asked, Why are so many students of Commercial Colleges found upon trial to be incapable *to the duties of a Bookkeeper?* The answer is obvious,—the teachers generally are merely *theoretic* in their teaching—wanting that thorough practical acquaintance with bookkeeping and business customs which actual experience alone can give. How necessary then is it that the teachers in those institutions (professedly established for the imparting of a practical knowledge of Bookkeeping,) should themselves be practical men. With these facts before us, it is of importance that the many hundreds of young men who are annually coming into business life should have a thorough knowledge of accounts, and especially of that important matter, the BALANCING OF BOOKS. Parents and Guardians should maturely consider this, and take care that the youths who are under their guidance shall study this science, as their services will not only become more valuable at the desks of their employers, but when they commence business for themselves will be more certain of success.

All admit the importance of KEEPING BOOKS simply and correctly, and most young men entering into business are anxious to become well-qualified Book-keepers, but where or how to obtain the requisite training, is the problem.

Let the practical philosophy of these facts be impressed on the *young Men of Canada*, then shall Commercial Colleges resume their true status among the institutions of our land.
