The boys have already commenced to rehearse these songs and in a short time will make the streets ring with them when out on parade.

Royal Opera House.

Manager Connor has presented a variety of plays to the patrons of this theatre the present week. Every evening the bill-of-fare has been changed. Last night the New Magdalen was given by Miss Fanny Reeves, supported by E. A. McDowell's dramatic company. This version of the tale, though slightly different from the original novel by Wilkie Collins, is in the main points the same. The plot is so well known that it is unnecessary to state it here. Miss Fanny Reeves who took the character of Mercy Merrick was remarkably adapted to this very strongly emotional cast. Every feature showed clearly the character she portrayed. J. H. Gilmour is worthy of very high notice for the easy natural manner in which he sustained the very open, warm hearted character of Julian Gray. His fine voice, so rich and resonant, together with his manly form and open countenance perfectly enthralled the audience. Mrs. M. A. Farren as Lady Janet Roy in a dignified manner and with all the ease of an English lady performed her part both as lady, mother and friend well. In all her parts she plainly showed her character and drew much applause. The same company produce Diplomacy to-night, the Lady of Lyons on Saturday afternoon, and on Saturday evening Galatea.

The American Band at the Gardens.

One of the musical events of the season was enjoyed by a large audience at the Horticultural gardens last night, the occasion being the first of a series of five concerts by the American band of Providence, R. I. The band is not unknown in Toronto, having been here in the fall of 1880 with the Banker hill encampment of Boston. The program last night contained several of the finest and most difficult pieces of popular and classical music, all of which were warmly encored, as also were the solos by different members of the band. Among the local talent the reading "The Ride of Jennie M'Neal" by Miss Ewing, and the duet by Mies Agnes and Miss Helen Corleit call for special mention. A matinee and evening performance will be given today. At the latter will be given the great euphonium solo.

Police Court People.

In the police court yesterday Geo. Daly was fined $40 and costs for being drunk and assaulting Officer Archer while the latter was arresting him. Alfred Matthews was taxed $10 for being a vagrant. Thos. Burns, 10 years of age, was similarly charged, and his case will be looked into. It is said he ran away from the orphans home. Joseph and Sarah Pickens were charged with stealing a watch and chain from Wm. Jones. Sarah was told to go and her husband got four months. Wm. Johnson did $4 worth of damage to the St. Julien restaurant windows and was fined $4 and costs.

Men for the Canada Pacific Railway.

Mr. John Scully, immigration and contractors' agent dispatched thirty men yesterday by the T. G. & B. railroad and steamer Africa for the Algoma section of the Canada Pacific railroad. There are about four hundred men engaged on the above section of the line at present. Work is also to be pushed on the Lake Superior section during the coming winter, where one thousand men will be employed.

The Elevator.

From the Owen Sound Advertiser.

Last week we announced that the agreement between the town and the Toronto, Grey and Bruce railway company for the construction of the elevator had been signed, the work to be completed by the first of May next. This week we have to announce that the work has been commenced and will be pushed along with all possible dispatch. A large quantity of the timber required is already on the ground. This work, with one or two steamers to be built at the dry dock, will make it lively on the river during the winter and spring when the work is proceeding.

Professor Jevons on America's Future.

Prof. W. Stanley Jevons, M. A., F.R.S., who recently lost his life by drowning, was desirous of seeing a "world-wide system of international money." As to making the American dollar the money of the world, he says in one of his best known works on the subject published in 1875: "But, above all, it (the dollar) is firmly adopted as the money of a nation which, as far as human wisdom can penetrate the future, is destined to be the most numerous, rich and powerful in the world. That nation, which has risen from the best stock in England, has absorbed much of the best blood of other European nations, and has inherited the richest continent in the world, must have an importance in coming times of which even Americans are barely conscious."

A Heroic Priest.

From the Edmonton Bulletin.

On the 12th of July last, at Muskeg Lake, Canada, G. Chappelline, Roman catholic priest, missionary of that place, having no food at the mission, left with an Indian family iu quest of ducks and geese around the lake. The father and five Indians sailed in the same canoe, and two other Indians in a second. It was blowing a gale and the priest's boat upset. The other boat came to the rescue, and succeeded in picking up the mether of the family and one of the little girls. They hastened to put these ashore, and went back to save the others, but all had disappeared. The last seen of the priest he was swimming with a young girl on his back. The bodies of the three Indians were found shortly after, but that of the unfortunate priest had not been found up to last accounts.

Catarrh—A New Mode of Treatment.

From the Weekly (Toronto) Mail, Aug. 24.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for catarrh. Out of two thousand patients treated during the past six months fully ninety per cent have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the catarrh is practically cured and the permanency is unquestioned, as cures effected by him two years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Mr. A. H. Dixon, 305 and 307 King street west, Toronto, Canada, and enclose stamp for his treatises on catarrh.
