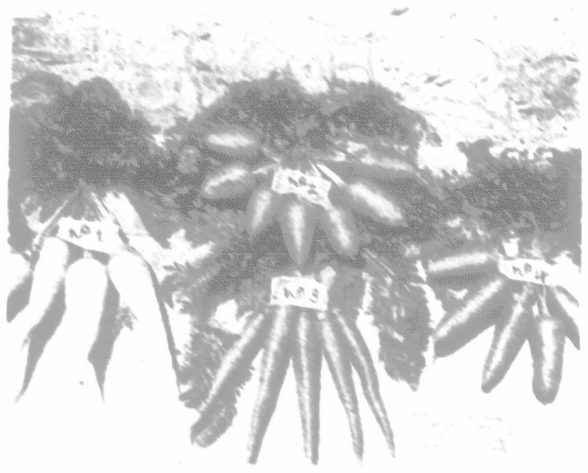
Hudson's Bay Stores.

Fleming's Manitoba Seeds



Are better suited to this northern climate, and more productive, than any other kind. We select our varieties upon the special experience of the Experimental Farm, from which we get a report yearly. This year we have added several new varieties to our list, which will be found especially good. We have hundreds of letters stating that those who have used

FLEMING'S SEEDS

have had the very best satisfaction, and you could not pay many of these people to use any other kind. We give special rates to clubs and societies who wish to order together. Write us for our catalogue and clubbing rates. Address all communications to

FLEMING'S SEED STORE,

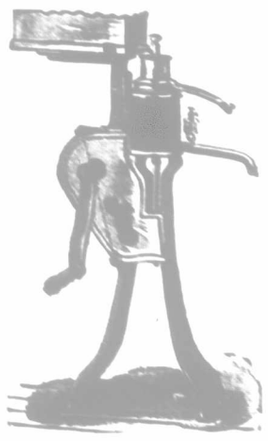
Another Knockout for the DeLaval By the U.S. Cream Separator

LAWTON, WIS., Jan. 31, 1901.

This is to certify that the Alpha DeLaval No. 2 and the United States No. 6 had a contest to prove the merits of the two at P. L. Place's farm at Lawton, Wis. The Judges were appointed by Mr. P. L. Place and points to be considered were:



First—Cleanness of Skimming
Second—Durability and Workmanship.
Third—Easy Running.

We the undersigned, decide in favor of the U. S. **All three points having been given to the "U. S."**

A. S. BARG, PETER HALVORSEN, PETER PETERSON, } Judges.

Witnesses:

Henry A. Hanson, Carl Christopherson, A. H. Hanson, Martin Hanson, K. L. Rasmuson, M. H. Hanson, Geo. P. Grout, P. L. Place.

Note the fact that the United States won on every point, also that the U. S. was a $100.00 machine while the DeLaval was $105.00, which proves again very conclusively the truth of our claim that the

Improved U. S. Separator is the Best

Buy the U. S. whether for the Dairy or the Factory.
Representatives Wanted in Unassigned Territory to Handle Our Goods.
Catalogues and full particulars to be had for the asking.
