RAILWAY MEN HELD AT HOME

About Three Hundred, Including Some From Toronto, Attend An Enjoyable Affair.

TO SPEND $100,000 ON COUNTY ROADS

County Council Receives Report From Special Committee—Deadlock Prevents Business.

Hamilton, Jan. 30.—The B. of L. E., O. of R. C. and B. of L. F. held an at home at the Waldorf Hotel this evening. It was attended by about 300, including some from Toronto, and was in every way a success. A concert opened the proceedings, with W. Pitt as chairman. Maurice McMahon, Irish comedian, of Tilsonburg, and a number of local musicians, took part. Mrs. Binkley and Miss Ruby Munro were the accompanists. A supper followed, succeeded by a dance, for which Lomas' orchestra supplied the music. W. Pitt was chairman, Thomas Todd, secretary, and George Worley, treasurer, of the committee.

Horse and Rig Found.

Cyrus Stuart, John-street, reported to the police to-night that his horse and rig were stolen from the corner of Charles and King-streets. Special Officer Miller was detailed on the case, and he found the outfit in the stables in the rear of the new American Hotel.

Good Roads Report.

The special Good Roads Committee of the County Council presented its report to the councillors at this afternoon's session. It recommends, in addition to the $40,000 added to the government proportion of its $1,000,000 grant, that $20,000 more be expended, making in all $80,000 for the improvement of roads in the county. It lso recommended a still further outlay of about $20,000 for the improvement of certain other roads to be assumed by the county. The committee also thought that the movement for good roads would be given an impetus if the City of Hamilton could be induced to take off the market fees.

A number of appendices were attached to the report, showing values of roads and giving other information. The values of the various toll roads as given by the companies owning them and the amounts the committee suggests should be offered them are these: Barton and Glanford-road, price asked $25,000, offered $15,000; Barton and Stoney Creek-road, asked $30,000, offered $15,000; Hamilton and Saltfleet-road, asked $3000, nothing offered, not thought to be needed; Hamilton and Nelson-road, asked $20,000, offered $12,000; Waterdown and Flamboro-road, asked $2500, offered $1000. It was estimated that the various roads affected cost to construct $85,168.18; to repair $31,844.49; present value $53,323.69.

The new roads proposed to be built are: Hall's Corners to Long's, $10,000; Waterdown to Flamboro Centre, $1000; town line roads, East and West Flamboro; Sydenham Mt., West Flamboro, $2000; Dundas and Waterdown-road in West Flamboro, $1200; Governor's-road, from Lynden to Copetown, $6750; Lynden to Troy, $4000; Dundas and Waterdown-road in Beverley, $3000. The amount payable by each township on the $40,000, as per the basis of acreage, is estimated as follows: Ancaster, $6706.73; Barton, $1,943.10; Beverley, $10,284.23; Binbrook, $3,883.70; Flamboro East, $4,972.99; Flamboro West, $4,566.61; Glanford, $3,468.92; Saltfleet, $4,173.72.

The recommendations were considered in Committee of the Whole, and further discussion was deferred till tomorrow morning.

At this morning's session the Striking Committee's recommendations for the Standing Committees failed to get thru. The Council has six Conservatives and six Liberals. The Striking Committee, made up of five Grits and two Tories, recommended, among other things, a Court House Committee of five Grits and one Tory. The Tories objected to this, and tied the vote on the motion to pass the report. The Council is, therefore, at present without committees.

They Weren't Jealous.

P. C.'s Bainbridge and Zeats wish it understood that they are not the officers who are said to be jealous of Acting Detective Miller. These constables were concerned in the arrest of old McCormack, and it was Bainbridge who found and took the old coat belonging to Miller to No. 3 Police Station and reported the affair to the heads of the department. He was justified in doing this, as it is a well-known rule that buttons and numbers must be carefully removed from cast-off uniforms.

Want a Settlement.

There was no change to-day in the situation of the Street Railway trouble. Last night a conference took place between a committee of the Trades and Labor Council, a committee from the Railway Men's Union and Mr. Rezen Orr, organizer for the Amalgamated Association. Mr. Orr reported he had been able to get an interview with Mr. Hawkins, general manager of the Cataract Power Co.

The result of the conference was that it was decided to ask the Mayor and Ald. Dunn, chairman of the Finance Committee, to try to arrange a meeting.

Art Exhibition.

The exhibition under the auspices of the Women's Art Association was opened this afternoon at 44 North James-street by Mayor Hendrie. The array of work by local artists and others is remarkably fine, and includes some beautiful paintings. The exhibition will continue open till Saturday.

Minor Mention.

Charles Pogne, charged with committing an aggravated assault on Charles Young in Grice's restaurant, was discharged at the Police Court to-day.

Proceedings will be begun in a few days to endeavor to unseat John Eustice as a member of Barton Council.

The Scottish Rite reunion ended today. A banquet was given this evening in the Masonic Hall, and it was largely attended.

Marguerites 5c at Noble's Saturday. 5

Action of the Government.

Ottawa, Jan. 30.—The officials are extremely reticent respecting the eventual intentions of the government with regard to the sensational suits brought against nearly a thousand citizens of Hamilton under a claim 60 years or so old. The impression outside seems to be that while the government, having found the mortgages in existence when it came into power, is bound to do something with it. There is no desire to press matters with undue harshness, and the only possible way out of the difficulty, where so many different parties are concerned, is recourse to the courts in order to pave the way to an equitable settlement for all alike. There the mortgages are, and they must be dealt with in some manner or other and the question settled and got out of the way, and no longer allowed to cumber the pigeon holes of the Departments of Finance and Justice.

EXPERIMENTS WITH OATS.

Dr. Saunders Tells What is Being Done at Ottawa.

Dr. Saunders, director of the Dominion Experimental Farm, Ottawa, is in the city in connection with the purchase of seed for next season's work on the farm.

To The World, Dr. Saunders stated yesterday that he had just finished his annual report and had placed it in the hands of the printers. In a general way it reports a very good year in grain and other agricultural products. The results of the grain production in Manitoba, the Northwest and British Columbia were more than satisfactory, while in Ontario Indian corn and roots gave excellent results. In the Maritime Provinces and Quebec, the crops were fairly good.

Many samples of oats are about to be distributed to the farmers to be tested by them. The distribution will go on until seeding time. The oats come largely from the extraordinary crops in the Northwest. Three new varieties from Great Britain will be distributed. They are known as the Tartar King, Waverley and Goldfinder, obtained from crossing some of the best European varieties with the Chinese oat. The results from these oats will be of more than common interest to the agricultural community.

Dr. Saunders states that specimens of Shorthorns, Ayrshires and Guernsey cattle have just been added to the stock of the farm. They were imported from England, and the intention is to raise a herd from them for purposes of comparison with other cattle under test.

At the farm they are preparing for the Cork and Wolverhampton exhibitions. The principal exhibits will be grain and hay. They will be ready for shipment early in March, so as to be placed in position before the opening of the expositions.

Speaking of the adulteration of spraying materials, which was given the attention of the Dominion Grange, Dr. Saunders states that there is no necessity for new machinery to check that grievance. A department was created at Ottawa, under Mr. Thomas Macfarlane, to analyze foods and drugs and other materials that might be consumed by the farmer. Men went around the country periodically in search of impure articles, including paris green, and secured convictions occasionally. All a farmer has to do when supicious of paris green not being up to the requirement is to send a sample to the department for analysis, and if found wanting he can prosecute the party from whom he purchased it.

Dr. Saunders, who is accompanied by Mrs. and Miss Saunders, will leave for Ottawa again this morning.

Killer of Goebel.

Frankfort, Ky., Jan. 30.—The jury in the case of Jim Howard, on trial for the assassination of William Goebel, returned a verdict to-day of guilty against the prisoner, and fixed his punishment at life imprisonment.

One Day More

Just one day more in which to purchase something really high-class in the fur line. These are all new goods. We must clear them out.

SPECIAL.

Every new design in Ladies' Hats for winter wear must be cleared out of our stock before to-morrow night. We're going to help by reducing the selling price of them by one-half. Every hat is made by a big New York hatter, and similar styles are being worn on Fifth-avenue. Here's the way we're selling them:

$10 Hats for $5.
$6 Hats for $3.
$4 Hats for $2.
$2 Hats for $1.
$1.50 Hats for 75 cents.

Every high-class fur article we have in the house will also be reduced for these two days. They include Scarfs, Muffs in Russian Sable, in White Fox, in Blue and Brown Fox, Boas in Lynx and Brown and Cinnamon Bear. These are the fetching furs worn by New York society over tailor-made costumes. Complete fur jackets can be worn here for some time—but this is an opportunity for you to prepare for milder weather and save money thereby.

Blue-Grey Opossum and Black Opossum, with electric seal yokes, regular $15, for **10.00**
Long Mink Scarfs, double designs, with splendid trimmings, full lengths ..... **$20 to $30**
Short Mink Scarfs, with natural trimmings ..... 10.00 to 18.00
Western Sable Caperines, with Russian lamb yokes, regular 22.50, for **18.00**

Order by mail. Money refunded if goods are not satisfactory.

The W. & D. DINEEN CO., LIMITED
Cor. Yonge and Temperance Sts., Toronto.

YORK COUNTY AND SUBURBS

County Council Dispute With Toronto Junction Over South York Model School.

HIGH SCHOOL BOARD AFFECTED, TOO

Auditors of Criminal Justice Accounts Selected—Old Court House Has Depreciated in Value.

The York County Council spent yesterday in discussing the County Commissioner's report, which was passed with trifling alterations, and in listening to a deputation from Toronto Junction Public School. J. T. Woodcock and J. D. Davidson were appointed to the Board of Audit for Civil and Criminal Justice Accounts, and the following communications were laid on the table by the Warden:

From J. K. McDonald, County Treasurer, in which he states that among the assets of the county the old Court House has heretofore appeared as valued at $75,000. As a recent valuation places its value at very much less than this amount, he asks the Council for instructions as to what amount it should be placed at.

From H. Blowman, secretary of the Eastern Good Roads Association, asking the Council to send delegates to a meeting at Ottawa on March 14 and 15.

Junction Model School.

A deputation consisting of W E Raney, Mr Wilson, A B Race, W L Joy and Mr Harris, representing the Toronto Junction Public School Board, waited upon the Council in reference to continuing the County Model School in connection with the Public School system of Toronto Junction. The County Council, at its last session, decided not to give the Model School the grant stipulated by law, on the ground that it is outside the county. Mr. Raney left the legal aspect of the dispute out of his remarks, and dealt with it purely as a matter of expediency. In 1880 a resolution was passed authorizing two Model Schools for the county, one in the inspectorate of North York, at Newmarket, the other in South York at Toronto Junction. The following year, Toronto Junction withdrew from the county; but the Model School was continued there. Last year there was an agitation among the citizens of Toronto Junction to get rid of the Model School, because it was claimed that the teaching staff was impaired by reason of embryo teachers practising teaching upon the children, and the board passed a resolution discontinuing the Model School. At the following meeting of the board, after an election had been held, and after strong representations had been made by the Board of Examiners, the School Board rescinded the motion of the previous meeting and to-day are asking the County Council to continue the grant and recognize the Model School as an institution of the county.

Mr. Wilson, principal of the school, stated that the influence of a Model School depended on two things: First, quality of the staff; second, size of the school. At Toronto Junction they have a 13-roomed school which, next fall will have 16 rooms in which the students can teach. With this number of rooms, there is little disturbance in the classes if 30 students are in attendance at the school, whereas if there were the same number of students in a 6-roomed school the progress of the school might be interfered with. None but second-class professional teachers, many of them honor graduates, are engaged, and the reason why Toronto Junction attracts more students than Newmarket was attributed to its proximity to the city and being easily reached. Of 30 students in attendance last year, 12 had been in attendance at the Toronto Junction High School the year previous. The High Schools in the south were the feeders for the Model School. The matter was left over for further consideration. In the meantime the suit between the county and the town is continuing.

Another School Dispute.

Another matter before the Council is the dispute between the Toronto Junction High School Board and the county. The county is applying for a private bill at the present session of the legislature, which affects the Toronto Junction High School. As there are other towns in which High Schools are situated outside of counties yet receiving pay for county pupils, C. C. Going, solicitor for Toronto Junction, wrote that the town was opposed to the private bill, and that any proposed changes desired to be made should be made to the general act.

When the Council adjourns to-day, it will adjourn until Tuesday morning next.

Islington.

The children of St. George's Sabbath School gave an entertainment in Mr. Elliott's Hall, Lambton Mills, last night. A magic lantern added to the enjoyment of the evening.

The Islington Home Circle held their annual entertainment on Wednesday evening. James Fax, humorist, kept the audience in continued roars of laughter; Mrs. W. J. Coulter sang with beautiful expression, her rendition of "Tit for Tat" being capitally given. Mrs. Lammie and Little May also took part in the program. J. D. Evans presided.

Wedding at Stanley Mills.

An extremely pretty wedding took place at the residence of Mr. John Morrison of Stanley Mills, on the evening of the 29th inst., when his daughter, Mary, was united in marriage to Mr. Wesley Kee of Mono Mills. The ceremony was performed by Rev. S. Chapman, Methodist minister of this place. The bride looked very charming in a costume of cream silk poplin, trimmed with lace and chiffon. Miss Reid of Mount Charles, the bridesmaid, was tastefully attired in a gown similar to that of the bride. The bride carried a beautiful bouquet of white roses and the bridesmaid one of pink roses. Mr. J. H. Kidd of Wycliffe College, Toronto, made a very able groomsman. The wedding march was rendered very effectively by Miss Wardlaw of Brampton. The guests numbered abut 60.

Among the numerous and costly presents was one from the groom to the bride, consisting of a handsome gold brooch, set with diamonds, and to the bridesmaid an opal and pearl ring. The bride was the recipient of a cheque from her father for $500. The estimation in which the bride was held can be gathered from the fact that she was presented with a handsome music cabinet by the members of the church which she attended, in recognition of her faithful services as organist and church worker.

The happy couple left for Toronto and other points of interst, amid the well-wishes of their friends.

Toronto Junction.

William G. Sirr, a resident of Vine-street, was a victim to the icy condition of the streets last night, and fell, breaking his leg.

Miss Aleda Edgar and Mr. Theo. Ives, pupils of Miss Payne, assisted by Miss M. Powell and Mr. Harry Alexander, will give a recital in the College of Music Hall on Tuesday, Feb. 4.

The Union Stock Yards Company is preparing to remove several houses now situate on King's-road, Queen's-road and Keele-street. Most of the houses are brick clad, and can be removed easily. Others are solid brick, and will be moved en bloc. This is not the first instance of houses being moved in this manner here. Last fall a row of three brick houses was moved from the site of the Canada Foundry Company on to stone foundations near Campbell-avenue. There was not a crack in the walls or partitions, and not a window broken. The greatest difficulty, however, in the removal of these houses was crossing the G.T.R. track, which is elevated several feet at the point where the houses were taken over. The Union Stock Yards Company expect to move about 50 houses. J. E. Russell has got the contract, and Joseph Stainsby, his foreman, will see that they are removed expeditiously. It is not proposed to disturb the tenants during the removal. For the time being, however, they will live in "houses on wheels."

The Comfort Coap Company intend building a three-storey extension to their present factory here. The building is to be 140x70 feet. More men will be engaged, and the present staff will be nearly doubled. The company got a six-years' exemption from the town four years ago. They are asking the Council for an exemption upon the old factory for 10 years from Jan. 1, 1903.

The Wilkinson Plow Company, at the regular meeting of the Executive Committee last night, asked for a renewal of their exemption, which expired two years ago. The company are employing twice as many men as they employed in 1894, and expect to make gradual and substantial improvements.

The Toronto Junction Branch of the Retail Merchants' Association met in the Town Hall last night and elected these officers for the year: President, James Bond; 1st vice-president, R. R. Rogers; 2nd vice-president, W. Howell; secretary, T. Padget; treasurer, H. E. Snell; representatives to the Central Association, Messrs. Chisholm and Raybould.

A matter of great interest to Toronto Junction citizens came before the Executive Committee of the Town Council last night, when a discussion of the private bill, soon to come before the legislature, was discussed. The company is desirous of having several changes made in the bill before it comes before the House, and last night the chief question discussed was the right which the company asks to close Argyle-street and Toronto-street, making a solid block of buildings bounded by Elizabeth-street, St. Clair-avenue and Keele-street. On the south the company's property is bounded by the C.P.R., but in the bill, as it reads now, the town has the right to build an overhead bridge across the C.P.R. yards to Toronto-street. This clause, it is desired to have eleminated; but the Council favors retaining it. The bill will be more fully discussed at the Council meeting on Monday.

East Toronto.

The boys of St. John's Industrial School were treated to a surprise supper and concert by Mr. and Mrs. George Male and the officers of the school. Those who entertained the boys were: Mr. Alf. Bray, Mr. Mothersill, Mr. W. Hitch and Master Bert Lawrence. The boys were well pleased, and they certainly spent a very pleasant evening.

There were about two hundred people on the Balmy Beach Rink last night. The ice was in fine condition, and there was a good band in attendance. A large number of peop'e are coming down from East Toronto to this rink, and they seem well pleased with it as do also the people from Kew Beach and the eastern part of the city.

A meeting of the Liberal-Conservative Association of sub-division No. 2, York Township, will be held at the Fire Hall, Little York, on Saturday night to elect delegates to the convention to be held at Markham, Feb. 6.

Markham's New Rink.

Markham's new skating and curling rink was formally opened Wednesday night in the presence of a large gathering of skaters and spectators. The ice was in splendid condition, and enthusiasm and good feeling prevailed. The several events were all keenly contested, and resulted as follows:

Open race—William Cowie, Markham, 1; Alfred Wylie, Markham, 2; William Maxwell, Locust Hill, 3; Howard Ash, Markham, 4.

Old man's race—Charles Billbrough 1, Robert McKay 2.

Barrel race—Uriah Young 1, William Maxwell 2, Howard Ash 3.

Relay race, comprising two teams of three skaters each, first money being won by Messrs. Cowie, Gould and Graham.

Most graceful lady skater — Miss Coleman.

The town of Markham may now fairly lay claim to one of the largest and best appointed rinks in the province, and the presence and active participation of representative citizens, as Dr Fierheller, William Latimer, F M Tuckett, Reeve Henry Marr, T H Speight, ex-Reeve Edward Wilson, R J Corson, Mr Totten, James Dimma, Reeve Markham Township; George Robb, J B McLean, Ernest H Crosby, the energetic secretary-treasurer, and many others, augurs favorably for the future of the rink. The Unionville and Markham bands discoursed splendid music, and added to the pleasures of a delightful evening.

North Toronto.

The Sunday school of the Eglinton Presbyterian Church will hold their annual entertainment this evening.

The regular monthly meeting of the Liberal-Conservative Club is postponed from to-night until Friday next.

The Works Committee of the Town Council held their first meeting at the Town Hall last night. Chairman Armstrong presided, and a few accounts were passed and routine business done in anticipation of Tuesday's Council meeting.

The last entertainment but one of the present series given under the auspices of the Literary and Musical Society was held last night at the St. Clement's school room. Mr. Spencer Waugh presided, and a very attractive program was presented. Messrs. Roberts, Taylor and Dr. Richardson and Miss Hopkings gave very excellent recitations, and songs were sung by the Mesdames Roberts and Sanderson and Mr. F. Boulden. Master Rawlinson, a member of St. Cyprian's Church choir, sang "The Holy City" very effectively, and Robbie Boulden played a pianoforte selection. Mrs. Boulden was accompanist.

The Finance Committee will meet this evening.

The Rev. Canon Sweeney, rector of St. Philip's, will preach to-night at St. Clement's, the occasion being the annual missionary meeting.

The Central Glee Club of Toronto will have a ride to Eglinton this evening, and partake of Mr. J. W. Martin's hospitality.

Will Attend Divine Service.

The Orangemen of Markham and Brown's Corners will attend divine service at Grace Church, Markham, on Sunday evening next, at 7 o'clock. Rev. W. Walsh of Brampton, Grand Chaplain, will preach the sermon.

East York Conservatives.

The Liberal-Conservative Association of East York will hold a convention on Thursday, Feb. 6, at the Town Hall, Markham, to select a candidate for the forthcoming provincial contest.

PROFESSOR JOHN TAGG

Prominent in New York Musical Circles, Recommends the Best Foods in the World.

It was only after endless research and experimenting that the medical faculty of the Battle Creek Sanitarium got their peerless foods to a state of absolute perfection. For years they were tested with patients suffering from various diseases, and so much good did they do that it was decided to place them on the market and give the outside world the benefit of the discoveries made. Since then these foods have been placed on sale throughout the whole of Canada and United States, and thousands of persons bear testimony to the fact that they have benefited them in a most wonderful way. Some persons even go so far as to express the belief that it is simply due to the remarkable merits of these foods that they are in the land of the living to-day.

Professor John Tagg of Rosedale, N.Y., is one of the persons who have proven the merits of these foods and gives his experience in the following letter:

Battle Creek Sanitarium Health Food Company, London, Ont.:

During an extended visit to my friends in London, I have been casually using your Granose Flakes, Granose Biscuits, Granola and Caramel Cereal Coffee. I find that they are not only very palatable, but am perfectly satisfied that they have materially improved my health and greatly increased my comfort in eating. I shall certainly continue their use and will not hesitate to recommend them to all whom I can influence. JOHN TAGG,
Professor of Music, 16 Humbold-street, Rosedale, N.Y.

Battle Creek Sanitarium Health Foods are sold by all first-class grocers. J. F. MORRISH, 237 Yonge-street, wholesales and retails them.

A MARVELLOUS FOOD TRIUMPH.

Malt Breakfast Food

The Leader in Every Town and City.

Professor W. M. Williams, M.D., of London, England, the greatest living scientist in the chemistry of foods, in The Chemistry of Cookery, says: "By mixing malt with a cereal in proper proportions an excellent and easily digested food is obtained, and one which I strongly recommend for invalids as well as for strong people."

Malt Breakfast Food fully meets the views of the celebrated scientist. Being a partially cooked food, it is predigested, has no insoluble starch to hamper digestion, it soothes and quiets the irritated stomach, braces the nerves, gives to the weak needed strength, and keeps well people strong and active from day to day. It is the leader in every town and city. At all Grocers.

TROOPER SMITH DEAD.

Passed Away in Halifax Hospital Yesterday—From Calgary.

Ottawa, Jan. 30.—The Militia Department has been advised by telegram from Halifax that Trooper A. Smith of the Canadian Mounted Rifles died in the hospital there to-day. He belonged to Calgary, N.W.T., and soon after arrival in Halifax was pronounced medically unfit for service.

A MOST DELICATE APPARATUS.

One of the most delicate pieces of apparatus is that used for counting the number of cells in the blood. Medical scholars tell us that in a minute drop of blood no larger than the head of a pin there are from three to four million of these red cells. In health there are a certain number in a certain amount of blood; while in certain diseases, as anemia, this number is greatly deficient, causing pale cheeks, white lips, transparent ears and great debility. This delicate apparatus has proven over and over again that Scott's Emulsion increases these red corpuscles faster than any other known preparation, thus curing or preventing the many diseases and conditions caused by thin, poor blood. 41

AMUSEMENTS.

GRAND Mat. Saturday. ADELAIDE THURSTON IN THE PRETTY SOCIETY DRAMA, SWEET CLOVER SUPPORTED BY OTIS B. THAYER —Next Week— REEVES - SMITH
