The Weekly Monitor.

WEDNESDAY, SEPT. 5TH, 1883.

Bridgetown as a Summer Resort.

An American gentleman and a lady who spent about two or three months travelling through this Province, arrived in this town last week and spent several days at one of our hotels. They expressed themselves as delighted with Bridgetown—that it was the most pleasant summer resort they had visited, and said they intended to return next summer, and spend the whole season here.

A young Bostonian who spent several weeks here during the summer, has since his return home, written to say that Bridgetown proved so pleasant to him, that he intends returning next summer to spend the season, and will bring nearly a dozen companions with him.

These are but two instances out of a large number that we could cite if necessary, of the appreciation in which Bridgetown is held by all who visit it. The number of visitors has never been so large before as this year, the opening of the new hotel at the head of Queen street, having had the effect that we always stated it would. Next year every indication points to a much larger increase, and it behooves our people to strive to make the town as attractive as possible—nature has done a great deal—but we can add much to the town's popularity with but a small outlay. A good reading room and circulating library is much needed. We want a good public common. The southern entrance to the town could be much improved—notably on the Oakes property next to our office, where stands an old weather-beaten, absolutely useless structure, that is a perfect eye-sore. This property is unfortunately owned by parties in Halifax, who must be possessed with the idea that it is more valuable than it really is, since a number of unsuccessful efforts have been made to purchase it, at what is considered a fair figure. The owners can of course do as they choose, and no one denies their right, but at the same time we think it is a pity they could not be induced to sell the old house for all that it is really good for—kindling wood. Bridgetown also needs a larger public hall, or at least one with a better entrance than the one we now have. Victoria Hall, however, could be made to meet every requirement for some time to come at least. It is well situated, and if the entrance was changed so as to open directly off the street, admit of being well lighted, and the interior altered, the town would be far better supplied in the way of amusements than at present, for obvious reasons. Now-a-days almost any town of any size has a brass band, and as there is quite sufficient musical ability among our young men, we think, to organize one here, they should not allow themselves to be beaten in this respect.

The amount of money left in a town during a summer season, if it is so fortunate as to become popular to the right class of people as a resort, is astonishing, and it will pay each and every resident here to do what he or she can, to add to the attractions of this beautifully situated point of the valley.

— In another column will be found a thrilling account of a terrible disaster that has overtaken one of the two groups of Sunda Islands, in the East Indies—the Island of Java. This calamity is so tremendous in its awful effects as to beggar description. Country in the vicinity of active volcanoes is of course in more or less danger from eruptions at all times, but never before has an eruption caused the enormous loss of life and property as in this present instance.

"Java lies south-east of Sumatra. It was discovered by the Portuguese in 1511, but is now the chief seat of Dutch power in the east. It is traversed in the direction of its greatest length by a mountain chain, a prolongation of the mountains of Sumatra, and contains more volcanoes than any other country of equal area. Several of its thirty-six volcanic peaks rise to the height of 10,000 or 11,000 feet, and eleven are in a state of activity. Highest summit Mount Semeru, 12,235 feet. Near Batous, is the Gueva-Upas, or Valley of Death, half a mile in circuit, where neither animal nor vegetable life can exist, owing to the effects of the air, which is poisoned by sulphuretted hydrogen issuing from the ground. The upas tree flourishes in the woods, also the teak tree, which is found nowhere else in Malaysia. On account of its great fertility, Java is called the granary of the Eastern Archipelago. The principal exports are rice, coffee, sago, sugar, tea, nutmegs, tobacco, ginger, cinnamon, cotton, and indigo. Java is divided by the Dutch into West, Middle, and East Java."

In 1882 a great eruption of Mount Galung-gung took place, by which no fewer than 114 villages were laid waste and 4000 persons destroyed, and in 1843, Mount Guntur flung forth ashes and sand to a computed extent of 30 million tons. Java supported a larger population than all the other islands of the Indian ocean together, a population as dense indeed as that of the most populous of European countries. Its natural beauty rivals the most favored regions of the world.

Batavia on the north-west coast, is the capital of West Java and of the Dutch East India possession. It is an important commercial city, and has one of the finest harbors in the world. It is a free port.

— The railway system of the Canadian North West, is nearing completion at a rate that is astonishing, and one hardly realizes how near we are to the Rocky Mountains. Three Halifax gentlemen, Messrs. Archibald, Kenny and Duffus, left that city a little over three weeks ago, *en route* for the present terminus of the Canadian Pacific Railway, Calgary, a point near the base of the Rockies, and in about eight days which includes several stoppages, arrived at their destination. When the C. P. R. is completed north of Lake Superior, the distance to be travelled to reach Calgary from Halifax will be reduced by about 250 miles.

—We call attention to the advertisement in another column of the "social" to be held at "Homecroft" the residence of Mr. George Goodwin, Granville, on the 11th inst. All those who attend may be sure of a most enjoyable evening.

—A Quadrille Assembly will be held in Victoria Hall, to-morrow evening, under the usual management. All invited.

Prof. Sheldon's Visit to New Brunswick.

"It has been announced that our colleague, Prof. J. P. Sheldon, has arranged to go out next month to St. John, New Brunswick, to superintend a working dairy, the equipment for which will be chiefly supplied by the Dairy Supply Co., Museum Street, London, W. C., and to deliver addresses on the subject of dairy farming in general and buttermaking in particular. The dairy will be in operation at the Centennial Fair, which will be held in St. John during the first week of October, and it will, no doubt, be a point of considerable interest to the New Brunswickers, as it so often has been to us in this country at several of our leading shows. The venture is made under the auspices of one of the leading firms in St. John, and we understand that the Provincial Government will avail themselves additionally of Mr. Sheldon's services during his stay on the other side of the Atlantic, and it is more than probable that the visit will be the means of doing some good to the dairying industry of the "Blue Nose" country—an industry which, as we happen to know, is greatly in need of reform in that part of Her Majesty's dominions. Mr. Sheldon will take out with him an assistant, whose name we hope to be able to announce next week, and will sail on the 20th proximo, on the Allan Steamship Company's magnificent new boat, the Parisian. Mr. Sheldon is no stranger in Canada, and it is the hospitable treatment accorded to him three years ago in New Brunswick, which has induced him to pay a second visit to that interesting Province. Many of our readers will remember the series of articles which appeared in our columns, during the autumn of 1880, from Mr. Sheldon's pen—articles descriptive of Canadian agriculture, and of Canadian prospects in general; and we may soon expect to present them, in due course, with a second series, descriptive of this special portion of the Dominion."

The above is taken from the *Live Stock Journal*, an English agricultural paper. Prof. Sheldon's visit to the Exhibition will no doubt be one of both pleasure and profit to all those interested in agriculture attending the exhibition. The working dairy made mention of above, will be placed on exhibition solely through the enterprise of Messrs. Manchester, Robinson & Allison, one of the leading dry goods firms of St. John. The dairy will be in working operation every day during the exhibition, and Prof. Sheldon who will be in attendance will give lectures, and all information desired relative to the improved methods of butter making. Our farmers and their wives should certainly make this exhibit one of their chief objective points in the exhibition.

— We refer our readers to the letter in another column in answer to that of "X" in our issue of the 22nd ult. "One Who Knows All About It," has furnished us with private information bearing on the statements contained in his letter, that throw considerable light on several matters that have been a matter of perplexity to us. However, more anon. Our columns are, and always have been open to anyone, irrespective of politics, who can furnish any information in regard to the Nictaux and Atlantic Road.

— The French are going to get themselves into trouble if they are not careful, judging by the following extracts from an exchange:—

Admiral Commerall at the Newfoundland station, reports to the Government an aggravation of French encroachments along the extended coast line. He reports them as stopping access to ports and rivers, netting salmon approaches, driving off Newfoundland fishermen, and hindering the lobster potting companies. Earl Granville has invited the French Government to discuss a final settlement of the Newfoundland disputes.

THE FISHERY BOUNTY.—No claims for fishery bounty of 1882-3 will now be received, the time for accepting such claims having closed on Saturday last. All claims for bounty of 1883-4 must be filed with the Marine and Fisheries Department on or before December 31st.

— Since our last issue, notice of the following additional exhibits for the Dominion Exhibition have been sent in from this and Kings Counties:—

C. Gates, Son & Co., Middleton, Proprietory Medicines.

Samuel Chipman, jr., Cornwallis, Jersey Bull, Lorne, No. 26., N. S. S. R., and two dogs.

J. L. Cox, Canning, trotting or carriage stallion Colt, St. Valentine, 2 years old.

Burpee Rand, Billtown, trotting or carriage horse, 3 year old stallion, Cato.

C. W. Croscup, Lower Granville, Smoked Herring.

Mrs. Jacob Hall, Middleton, Southdown Sheep.

ANNAPOLIS ITEMS.

— The Committee of Arrangement have decided to have the regatta on the 11th inst., to commence at 3 p. m., the weather proving favorable.

— On Monday evening quite a large number of friends convened at the residence of Mr. A. S. Ruggles, to celebrate the tenth anniversary of their marriage. After having spent an enjoyable evening in social parlor amusements, the lady of the house was presented with numerous gifts suitable to the occasion, accompanied with many hearty and sincere congratulations. The table, which was bountifully supplied with delicacies, having been disposed of, the company retired fully satisfied with the evening's enjoyment.

— A short time ago a Cricket Match was played between the pupils of the preparatory and intermediate departments of the public school, in which those of the former were defeated. On Saturday last, the same parties appeared on the ground for a similar contest, which resulted in favor of the pupils of the preparatory department.

— Some internal improvements are being made in the Methodist church of this place. Rev. Mr. Harrison of New Brunswick preached in the Court House on Sunday evening to a large and appreciative audience.

— The tugs Cyclops and Havland, in successfully towing a huge raft of piles from St. John around Cape Cod to New York, have performed a memorable feat, which may mark an epoch in coastwise navigation. It would be unsafe, however, to generalize hastily from this exploit upon the future of towing. One unsuccessful raft voyage would offset many safe ones, and the trade of sailing vessels in carrying timber has doubtless by no means yet come to an end.—*Ex.*

The St. John *Sun* says the extent of the success of the above enterprise may be judged by the fact that six schooners are now loading piles at the wharves.

Local and Other Matter.

— Sickles and Reaping Hooks for sale by R. Shipley. 1i

— Extensive forest fires prevailed in the vicinity of Bear River, during last week, and in Digby county.

— Refreshing showers fell this week and have been most welcome. The fields look greener, and there is now a prospect of fair after feed.

— Annapolis County Rifle Association competition will be held at Paradise on the old range on the 18th inst. See adv.

— The Kelly Motor, so long being constructed in Philadelphia, was finished on Tuesday. Her first trip to New York will be made shortly.

—Mr. E. Ruggles, barrister of this town, has sold his fine chestnut gelding "Dan" to Mr. S. DeForest, of St. John. "Dan" was one of the finest horses in the County.

WANTED IMMEDIATELY.—3 first class Coat makers, and 2 Pants and Vest makers. Good wages given. Also girls to learn. Apply to A. J. Morrison, Merchant Tailor, Middleton, N. S. 1i

— Grasshoppers have visited our grass lands in perfect swarms this season, and have made a very considerable difference in the after feed and in the pasturage.

— Messrs. John L. Cox, and Daniel Palfrey of this town, have been appointed Justices of the Peace.

— To arrive this week: Apple Parers, with parer, corer and slicer combined. R. Shipley. 1i

— The Annapolis Co., Baptist Ministerial and Missionary Conference, will meet in the Baptist Meeting house at Granville Ferry, on Tuesday, 11th inst., at 10 o'clock a. m. Preaching in the evening by Rev. J. Clark, of Nictaux.

— H. D. Ruggles of Annapolis, and C. W. Robinson, son of W. J. Robinson, of Moncton, won the prizes offered for competition at the recent matriculation examinations at Mount Allison. The attendance at the college is good—all the rooms being occupied.

PERSONAL.—We had the pleasure of call from Mr. H. V. Barrett last Friday, who arrived in Annapolis during the week, and is now stationed there as the representative of the popular London fruit firm, Messrs. John S. Townsend & Co., in the same capacity as the late Mr. F. H. Mitchell.

— Messrs. Chute of Bear River recently performed the feat of moving the Episcopal Church at Smith's Cove, Digby Co., via land and water to Deep Brook. The church was moved without removing the spire or any portion of the building, and arrived safely at its destination.

— Nova Scotia can boast of some pretty vigorous old gentlemen, but we think Archibald Walker, Esq., of Kingston, 77 years of age, can claim a place in the van. Last Friday afternoon, he with the aid of a pair of horses, sowed and harrowed in ten bushels of rye in four hours. We are inclined to believe that it would bother some of our young men who consider themselves smart to beat this.

— Mr. James H. Andrews, proprietor of the Willow Park Nurseries of Halifax, suffered a heavy loss by the gale of last Wednesday night. 100 feet of his greenhouse, 24 feet wide and with 25 feet sides was completely destroyed, together with his peach and grape crop, then nearly ready for market, his grape vines, about twenty peach trees and 100 stock plants, causing a loss, so Mr. Andrews states, of between $2,000 and $3,000.

— Capt. R. Beeler, H. E. Reed, and a little boy five years of age, started on the 21st inst., from Port George for Bear River, but a gale of wind came up after they had gone a mile or so on their journey, and drove them on a ledge of rocks, a quarter of a mile from the shore and capsized their boat, to which they, however, fortunately managed to cling until they were rescued from their perilous position by two seamen in a dory.

THE PRESBYTERIAN CHURCH.—On Sunday next, Sept. 9th, in the Presbyterian Church, at the usual morning hour, 11 o'clock, Rev. P. G. McGregor, D. D., of Halifax, will preach and dispense the sacrament of the Lord's Supper. The regular afternoon services, at 3½ o'clock, will be conducted by Rev. C. A. R. Janvier, M. A., of Trenton, N. J., who was the stated supply of the church last summer. The Rev. Mr. Greene will preach in the Methodist Church in the evening. The latter gentlemen states that his services in Bridgetown for the summer will terminate on the 16th inst.

SHIPPING NOTES.—Some anxiety was felt for the safety of the St. John packet schooner Meteor, Graves, as she did not turn up in St. John after being out in Wednesday night's gale. Tidings of her safety were however received yesterday morning. She was blown off Briar Island without damage, and un expectedly found there an excellent market for a quantity of early apples she had on board—selling them at from $3.00 to $3.50 per barrel.

Schr. Spring Bird, Mosher, cleared yesterday for Halifax.

Schr. Ivica, Longmire, arrived in port on Friday last from Apple River. Cleared yesterday for St. John.

—A scandal has been in circulation for some time in this town in reference to a certain young gentleman and lady, residents here, which appears to have arisen out of a malicious misunderstanding by some one, of an event related by two parties in Granville, with which the parties slandered were in no way connected whatever, as the gentleman was a hundred miles from here at the time. The slander when first heard was placed to the credit of the Granville parties, and legal proceedings were at once instituted against them by the young gentleman slandered, on his arrival home, to have the affair fully investigated. The matter will not, however, come to trial, as the parties in Granville have signed documents in which they utterly disclaim having stated anything to warrant such an evil report being circulated about those who have thus had to bear the odium of a base and most damaging slander, through what seems to be the only possible motive—the devilish malliciousness with which scandal-mongers like to twist idle stories into something that will sully the characters of their neighbors.

GUNPOWDER VS. SMALL BOY. — On Thursday last, an eleven year old boy, the second son of Mr. W. J. Glendross while attempting to discharge an improvised cannon made out of a brass tap, had his hand badly torn, one eye injured, and his face considerably burned by the bursting of the tap on its discharge. The tap was filled nearly to the end with dampened powder, rammed in tight, and the lad and his companions made a number of ineffectual attempts to set their cannon off, one of the boys holding it at one time in his hand, while the other held a lighted match to the touch-hole. Fortunately it did not then explode, and it was finally set on the ground, and there fired by the injured lad alone, the others removing to a safe distance. The consequences were bad enough as it was, but nothing to what they might have been. The tap was literally blown to fragments.

We suppose we ought to preach a homily to the youngsters about how they flourish with gunpowder, but what is the use, they will do it, and so has every boy that is a boy, since gunpowder was invented, and the only wonder is that there are not more accidents.

— The Lunenburg *Progress* is about to take the Liberal Conservative side of politics.

—The President of the Board of Health has got his coat off, and our fighting editor is holding it for him.

PROPERTY CHANGES.—Mr. Henry Parker, of Wilmot, has recently repurchased the farm lately sold by him to Mr. Gordon Blair, who returns to this town.

—Lunenburg elections will probably take place on the 1st inst.

—Probate Court was held in this town yesterday. Considerable business was transacted.

—Solid Ash and Walnut Bedroom Suits, remarkably low in price, at Thos. Kelly's. tf

GRANVILLE CENTRE.—The Hon. Wm. B. Troop and family, have been called upon to mourn the loss of the only son and brother, Milledge B., who died very suddenly on Sunday last. The deceased had been complaining of feeling rather unwell, but kept about. Nothing serious was even suspected, but the end followed the first decidedly unfavorable symptoms so quickly that a physician could not be brought to his bedside before he breathed his last. Some sort of inflammation is supposed to be the cause. Our sympathies are with the bereaved family in their sad loss.

—Thos. Kelly has received a large lot of elegant Bouquet Stands, in different styles, marble and wood tops, also a nice assortment of Camp, Rocking and Children's Fancy Chairs, Brussels and Tapestry, all of which he offers at very low prices. The most tasteful articles in this line ever seen in Bridgetown. Masonic building, opposite Post Office, side entrance. tf.

The Baptist Convention.

The Committee on the publication of Dr. Cramp's Life of the Baptists have given the contract of the work to Messrs. Rev. Geo. Armstrong and Mr. Woodworth of Kentville, who assume the entire pecuniary responsibility of the issue of 2000 copies.

The treasurer's statement of Acadia College financial affairs, showed a balance to debit of $2,085.84 for the year.

Mr. King, of the Finance Committee, stated at the Convention, that about $3,532 was still required to wipe off the college debt of $30,249, whereupon a number of subscriptions were made on the spot, which amounted to nearly half the amount required.

A number of changes were made in the membership of the convention. No church is now entitled to send more than four delegates, but every church connected with any of the Baptist Associations in the Maritime Provinces, and contributing towards the objects of the convention, may send its pastor and one delegate for every 100 members or fraction of 100 members to represent it at any meeting of the convention.

The Foreign Missions had completed the past year with a debt of only about $120, but an expenditure of $100,000 is necessary to carry on the work for the ensuing year.

The auditors, having examined the accounts and vouchers of the Treasurer of the Foreign Mission Boards, reported the receipts during the past year to have been:

Nova Scotia	$4,718 44
New Brunswick	3,403 98
P. E. Island	303.11
	$3,425 43

Last year Jacob Bradshaw, of New Brunswick, gave $20,000 to be invested for Foreign Mission. The Board expended during the year $3,331.56, and have now in hand $20,638.17. The assets of the Board are now $23,738.17, but the interest of half the Bradshaw Fund goes to Home Missions.

The next annual meeting of the Convention is to be held with the Baptist Church, Moncton, on the first Saturday after the 18th day of August 1880.

The vacancies in the respective boards and committees are to filled as follows:—

Board of Governors of Acadia College—In place of those whose term of office expires this year—Rev S. W. deBlois, D. D., A. C. Robbins, Herbert C. Creed, A. M., Edwin D. King, A. A., Silas Alward, D. C. L., Rev. A. Cohoon, A. M. It is also recommended that the position occupied by J. R. Cohoon, on the above Board be declared vacant, on account of his removal from the Province, and that C. B. Whidden M. P. P., be appointed in his room.

Board of Home Missions.—In place of those whose term of office expires this year, Mr. C. Robbins, Rev. G. E. Day, M. A., W. R. Doty, Revs. A. Cohoon, and J. L. M. Young.

Board of Foreign Missions—In place of those whose term of office expires this year, Mr. C. P. Baker, Revs. G. O. Gates, D. A. Steele, J. F. Bartlett and E. M. Saunders, D. D.

Board of Ministerial Relief and Aid Fund—In place of those whose term of office expires this year—Rev. E. M. Saunders, D. D. and J. W. Manning, Mr Stephen Selden.

Board of Ministerial Education—Similarly appointed—Rev. S. B. Kempton, J. W. Barss and D. F. Higgins, Hh. D.

Finance Committee—Rev. G. D. Day, M. D., Mr. John March, Rev. A. H. Lavers.

Committee on the State of the Denomination—Revs. C. Goodspeed, A. M., E. A. Higgins, D. D., G. O. Gates and J. O. Redden.

Committee on Obituaries—Rev I. E. Bill, D. D, T. A. Higgins and E. N. Archibald.

Committee on Travelling Arrangements—Rev. G. O. Gates, Messrs. R. M. King, H. Lovitt, T. B. Crosby, T. M. King, A. H. Lavers and J. March.

Committee on Publication of Year Book—Messrs. J. F. L. Parsons, R. M. King, Prof. Kierstead and Rev. G. O. Gates.

Committee on Arrangements of Annual Meeting of 1874—The Asst-Secretary, the Secretaries of the Convention Boards and the pastor of the Church at Moncton.

Committee to Supervise Editing and Publication of Dr. Cramp's History of the Baptists—Herbert C. Creed, Prof. Kierstead and Rev. S. B. Kempton.

Committee on Constitution—Messrs. B. H. Eaton, E. D. King, Rev. J. W. Manning, H. C. Creed, Silas Alward, Dr. Hopper, Revs. J. A. Gordon, J. A. McLean and G. O. Gates.

The report of the Finance Committee, showed the receipts from all the Provinces for missions and education during the year to have been $26,821.68.

A circular is to be issued to the several pastors of the different churches, asking for added efforts in added efforts in carrying forward the financial interests of the denomination.

A number of interesting missionary addresses were made.

A new hymn book is to be issued as a private scheme under the aid of the following committee:

Revs. Dr. Hopper, G. O. Gates and F. D. Crawley, from New Brunswick; Rev. J. E. Goucher, J. A. Gordon, S. B. Kempton and Bro. Ackhurst from Nova Scotia; and Rev. A. Lavers, of P. E. Island.

Rev. Dr. Saunders, Rev. Prof. Welton and Dr. Rand, were appointed as delegates to the Baptist Union to meet at Brantford, Ont., next May. The following committee of five were appointed to consider the question of a fund for relief and support of aged and infirm ministers and report to the next meeting of Convention, viz.: Mr. Bligh (Antigonish), Revs. J. W. Manning and S. B. Kempton, Mr. R. M. King (Halifax) and Rev. H. S. Cree (Fredericton.)

ANSWER THIS.—Is there a person living who ever saw a case of ague, biliousness, nervousness, or neuralgia, or any disease of the stomach, liver, or kidneys that Hop Bitters will not cure?

Dr. C. P. French's IMPROVED Electro Magnetic APPLIANCES.

A POSITIVE CURE
—FOR—
ANY DISEASE

Caused by

SLUGGISH CIRCULATION OR IMPURE BLOOD.

In wearing them you have a moderate, but continuous current of electricity passing through your system, which quickens the circulation, drives out all impurities, and builds up your general health.

THE WAIST BANDS

will cure the

WORST CASE
—OF—
LAME BACK OR KIDNEY TROUBLE.

We will refund the money in every case where they fail. The

LUNG PROTECTORS

cure any Lung or Bronchial Trouble.

THE LADIES' SUPPORTERS,

CURE FEMALE WEAKNESS AND KIDNEY TROUBLE. THE

INNERSOLES

prevent cold feet and cure rheumatism in the feet and limbs. Send stamp for circular and price list. Our circular contains names of prominent persons who have been benefited, and we have thousands of testimonials besides. Ask your druggists for them.

Orders by mail will receive prompt attention. Address,

Kingston Station, Kings Co., N. S.

A. C. VANBUSKIRK,

General Agent for Nova Scotia.

NOTICE.

ALL persons having claims against the late JOSEPH R. LONGMIRE, of Young's Cove, farmer, deceased, are requested to render the same, as soon as possible from the date hereof, and all persons indebted to the said Joseph R. Longmire will make payment to

MARTIN LONGMIRE,
or BENJAMIN R. LONGMIRE.
