Large as a Dollar

Were the scrofula sores on my poor little boy, sickening and disgusting. They were especially severe on his legs, back of his ears and on his head. His hair was so matted that combing was sometimes impossible. His legs were so bad that sometimes he could not sit down, and when he tried to walk his legs would crack open and the blood start. Physicians did not effect a cure. I decided to give him Hood's Sarsaparilla. In two weeks the sores commenced to heal up; the scales came off and all over his body new and healthy flesh and skin formed. When he had taken two bottles of

HALIFAX BADLY BEATEN.

HALIFAX, N. S., July 30.—The cricket match between the Germantowns, of Philadelphia, and the combined Halifax eleven ended to-day in favor of the Americans by an inning and 31 runs. Score: Germantowns, 207; Halifax, 176.

THE TRIGGER.

KANSAS CITY, July 31.—There was a large crowd of sportsmen out at the Kansas City Shooting Park yesterday to see the competition between Jim Elliott and Jas. A. Bolf for the American field championship cup given to the champion wing shot of America. Elliott successfully defended the cup by a score of 49 to 40 out of a possible 50. This makes the cup the individual property of Elliott, he having won it twice in succession.

BASEBALL.

ALERTS VS. BLUES.

The Tilsonburg Blues, assisted by Pete and Fred Wood, of this city, mopped the diamond with London's crack team, the Alerts, at the Kensington grounds Saturday afternoon. The home team as usual won, though their chances for victory seemed very slim until the last moment. The game was without any exciting features, until the last two innings when the crowd warmed up. When the Alerts, through deplorable errors, allowed their opponents to pile up four runs, the crowd rather lost heart. With Hiscott taken from short and placed in the box, the infield is greatly weakened, as Johnson is removed from his proper place at first and a general shift of players occasioned. Hynd was hit in the head early in the game and was not in his usual form, while Quinn was the victim of some very badly-thrown balls.

At the end of the sixth inning the score was 8 to 3 in favor of the visitors. The Alerts added three in the seventh and eighth. In their half of the ninth the excitement became intense, as they wanted but one run to tie the score. Wylie was on third, Johnson on second and Hiscott on first; two men were out. Player was at bat. The latter hit a fly behind second base within easy reach, but the fielder dropped the ball. Two runs came in and the crowd went fairly wild with delight. The Blues went to pieces after that, and before they recovered the Alerts had made five runs, the score standing 10 to 7. The visitors went in for their last half and managed to fill the bases, with only one man out. Hiscott struck McPhail out, Tait popped an easy fly to Player, and the match was ended.

The crowd was one of the largest seen on the grounds this season, and the enthusiasm augurs well for the game. A pleasant feature was the large attendance of ladies. The score is appended:

BOSTON BALL TOSSERS COMING.

The Alerts, of this city, have made a date with the Boston Athletic Association team to play in London on Monday, Aug. 6. The club is making a tour of the States, and London is probably the only Canadian city they will visit. They are one of the best amateur teams on the continent, most of the players being Harvard University men. The only professional on the team is Miah Murray, who caught for the Tecumsehs when Phil Powers was manager. As the Alerts are under heavy expense in bringing the team here, lovers of the game should support their enterprise by turning out well. The crack Chatham team will also play in this city on Aug. 9. The Alerts are to be commended for the vigor they are putting into the national game here.

AQUATIC.

THE SWIMMING RECORD LOWERED.

PHILADELPHIA, July 30.—The first annual swimming championship meeting of the Atlantic Association of the Amateur Athletic Association was held in the Upper Schuylkill River this afternoon under the auspices of the Philadelphia Amateur Swimming Club. The low condition of the river presented almost dead water, there being no perceptible current. Arthur Thomas Kenney, of the Philadelphia Amateur Swimming Club, won both events, the 100 yards and the one mile, breaking the American record in the first race and and lowering the world's record in the latter event.

A Toronto dispatch says Edward Durnan, the sculier, has addressed a letter to city papers stating that illness which caused him to make such a poor show at the regatta here was cramps, and the persons who have been charging him with dishonorable practices will be brought to legal book.

NEW YORK, July 30.—The Columbia Yacht Club race over the triangular course up the Hudson from the club's boathouse at the foot of West Eighth-sixth street and across to the Jersey shore was sailed this afternoon. It was won by Charles T. Wills in 2:17:50. The distance of the course is about ten miles. The race is for the cup presented by Commodore Charles T. Wills to be won in Saturday afternoon races. In the cat-boat race between the Clara R. and Yonkers the latter broke down and the Clara went over the course alone.

FATEFUL FLAMES.

Great Fire Raging in Cambridge, Md.—Other Conflagrations.

CAMBRIDGE, Md., July 30.—A great fire is raging here. The fire started in Handley's livery stable and spread to Fox's and the Maryland Central Hotel adjoining. The office of the Cambridge Chronicle and News are in the midst of flames. The whole business portion of the town appears to be doomed.

ALVINSTON, Ont., July 30.—G. Temple's dwelling house here was destroyed by fire this morning. Part of the contents were saved. Insured in the Economical of Berlin, for $500. Cause of fire unknown.

FROM OTTAWA.

Marine and Fisheries Contributions for the World's Fair.

The C. P. R. and the Parry Sound Colonization Company—The Dominion Quarantine.

OTTAWA, July 30.—The Department of Marine and Fisheries is about to send out circulars to all persons interested in fish or fishing, inviting them to send exhibits for the Canadian contribution to the Chicago World's Fair. The circular sets forth the classes into which such subjects are divided: Fish and other forms of aquatic life, sea fishing and angling, products of fishing and their manipulation, and fish culture. Assistance is asked in making Canada's exhibits in these groups as complete as possible. Those who signify their intention to exhibit, the department will furnish notice when and where to ship goods for collection at some central point.

Mr. J. R. Booth was seen by a reporter in relation to the report that the C. P. R. had secured control of the Parry Sound Colonization Company, and was asked what action he proposed to take. Mr. Booth said he thought it was true the C. P. R. had secured control of that company, and if that were true they evidently contemplated building to Parry Sound, in which case his road, the Ottawa, Arnprior and Parry Sound, would not for the present be extended beyond Arnprior or Renfrew, as he did not propose to enter into a fight or competition with a large corporation like the C. P. R. Mr. Booth further stated that if the C. P. R. did build a line to Parry Sound he would probably swing his line around in the direction of Lake Nipissing and French River, where he has large timber interests, which alone would create traffic enough to sustain a railway for many years. Mr. Booth furthermore stated that he should take no action towards extending his line beyond Renfrew or securing an entrance into Parry Sound until he was assured that the C. P. R. did not contemplate building through to that place and that he was not a competitor with them for the purchase of the Parry Sound Railway. A prominent capitalist spoken to on the subject said he considered a line built in an alternate direction as above would be of much more value to the Canadian Atlantic Railway, as it would be in a direct line to the "Soo," and if a lake portion was required one could be attained at the mouth of French River, which would be a much better deep-water terminus than Parry Sound. With a through all-rail line to the "Soo" and a lake and rail line from some point at or near French River, the Canada Atlantic Railway would become one of the most complete railway companys on the continent.

The London Mutual Fire Insurance Company of Canada.

To Our Members:

Since the formation of this company, over 33 years ago, every opportunity has been taken to stem the tide of success that has always distinguished this, "The Pioneer of Equitable and Reasonable Insurance in Canada." First and last, the old time companies that held all their own way in charging aggressive rates on farm property and private residences before the advent of this company, in order to make up for their losses on hazardous property, have taken advantage of every circumstance that might tend to our injury. They have not only subsidized so-called insurance papers, but have employed their cohorts of agents in traducing the "London Mutual." The latest of their falsifications has been the circulation of base statements that the "London Mutual" was connected with one or two other mutual companies that had the misfortune to fail, owing to embarking in business more hazardous than their capacity of strength would allow. The failure of these companies has been a test for decrying the system of mutual insurance. The parties who use this cry, forget that companies organized as stock companies—such as the English "Athenæum," the English "Times," the English "Beacon," the English "Equitable," all who came into Canada with a loud flourish of trumpets, ignominiously failed; besides, they forget our "Provincial," our "Erie-Ontario," our "Canada Fire and Marine," our "Dominion Fire," our "Union, of Ottawa," our "Canada Agricultural," and other stock companies that have gone where "the woodbine twineth." But the present circular is not to discuss the merits of the different systems of insurance, but merely to show that the "London Mutual" now has nor had it ever any connection with any other company, stock or mutual; but has always stood on its own principles and merits, and continues to do, at the safest rates, the largest business in Canada. And in passing it might not be out of place to add that the company works under a license from the Dominion Government; its deposit, taking into account the class of risks written, is as large as any other company, and larger than many. No mutual company licensed by the Dominion has ever failed. The directors of the company, ever guardful of the interests of the members, and in consequence of the rumors alluded to in this circular, thought it expedient to have an examination of the books, made by a party entirely separated from the company, and not connected with the regular auditors, and consequently employed Mr. G. A. Savage, a chartered member of the Society of Accountants in Canada; and the result of his investigation is fully set forth in the following report:

To the President and Directors of the "London Mutual Fire Insurance Company":

"Gentlemen,—I beg to report that I have completed a special audit of your books, for the period commencing Jan. 1, 1890, and ending Dec. 31, 1891. I found the system of bookkeeping in vogue to be concise and direct, and the books neatly and carefully kept. The statements published by your company for the year 1890 and 1891 correctly set forth the business done during the period of my audit. I also ascertained that there is not nor has there been any connection between your company and the "City Mutual Fire Insurance Company," or any other fire insurance company, save in the way of re-insurance, as between all fire insurance companies. All of which I respectfully submit." Your obedient servent,

(Signed.) "G. A. SAVAGE,
"Chartered Accountant."

London, July 16, 1892.

The directors trust this may prove satisfactory to our members, and beg to assure them that the same candid, liberal course will be pursued in the future as in the past, and look forward confidently to an increase and improving business.

D. C. MACDONALD,
London, July 20, 1892. Manager.
