Non-jury sittings at 2 p.m.: St. Margaret's Church v. Stephens, Macdonald v. Bell, Macdonald v. City of Toronto, Dickerson v. Radcliffe, Ewing v. City of Toronto.

NO STANDARD CAN.

But a Standard Measure Will Satisfy Milk Producers and Retailers.

The milk producers and some of the milk retailers met at the Albion Hotel on Saturday to discuss the advisability of asking Parliament for a standard can of eight gallons, continuing the Imperial measure from 2 pints 1 qt., and 4 qts. 1 gal. to 8 gal. 1 can; but the retailers, who now supply the producers with cans of various sizes, some 8 gal. 1 qt., others 8 gal. 2 qts., and still others 9 gallons, were opposed to the idea. These various sized cans, the farmers fill and call 8 gallons, but in some instances special bargains are made to the effect that the can shall contain 8 gal. 1 qt., and the farmer is paid accordingly. Many producers complained that they should give this extra quart without being paid extra for it, while the dealers claimed that in making the bargain for the year's supply they reckoned on getting the extra quart. After some discussion the milk producers gave way to the retailers and passed a resolution which precludes the idea of asking Parliament for a standard can, and consisted of three clauses:

1. That the farmer supply one set of cans.

2. Therefore, there will be no over plus milk to pay for.

3. A can of milk as bought on the Toronto market shall contain 8 gal., 1 qt.

The second clause of this resolution is merely a conclusion drawn from the discussion which ensued, and signifies that should more milk be put in a can than 8 gals., 1 qt., the producer shall be paid for the extra amount. The idea aimed at is, that the farmer shall buy one set of cans, and the man he deals with a set, each can to contain 8 gal., 1 qt. When the producer brings his cans to market, the retailer gives him his cans in return, "therefore," in the words of the resolution, "there will be no over plus milk to pay for."

The retailers present did not represent the Retailers' Association, hence any resolution passed was not a ratified agreement between producer and retailer. It is more than likely the 8½ gal. and 9 gal. cans will not be destroyed, and that they will continue to be sent out for farmers to fill. Some thought "a set of cans" meant one can measuring 8 gal., 1 qt., and that they would measure their milk in this before dumping into the retailer's can, but the retailers were emphatic on this point, that they will not accept cans unless filled. Cans brought to the market short of being full are said to churn the milk in transit, and make it unsaleable. The resolution signifies that the milk producers will now go shares with the retailers in supplying half the cans, a concession that the retailers say they are glad of, while the producers say had they done it years ago, they would have saved money by it. The meeting adjourned to meet at the call of the chairman and the secretary's handed in his resignation.

Government Employes and Garnishees.

Editor World: I notice in yesterday's World's report of the Business Men's Association of Hamilton the following paragraph: "It was decided to ask the Dominion and Provincial Governments to exempt government employes on the same footing as those in other lines and to do away with exemption from garnishee."

Now, sir, being an unfortunate victim, I have given this matter my attention for some time. I held the idea of a garnishee law as a remedy, but after careful enquiry I discovered the way the Government of England treat their employes, and I have also discovered that the Local Government in Toronto, following the Home Government, issued the following order:

Order-in-Council, approved by His Honor the Lieutenant-Governor, the 9th day of October, A.D., 1896: The Committee of Council advise that the following public service regulations be adopted:

1. That failure personally to attend to and supervise the duties of his office by a public officer or servant shall be a sufficient cause for removal from office.

2. That incurring debts hereafter by officers or clerks of the civil service which they shall be unable to pay by reason of living beyond their means shall be a sufficient cause for removal from office; and the giving of orders upon the Treasury by such officers or clerks, unless previously authorized so to do by the Treasurer in writing, is prohibited.

Now, this order-in-council is on the line of action that has been pursued by the British Government for many years, and has worked well. It is preferable to a garnishee law, for the following reasons:

1. A man becoming unfortunate in business may become a Government officer or servant. To apply a garnishee law to him would mean his utter ruin.

2. The Government should be the proper authority in dealing with all officers and servants in their employ, and I think the order-in-council referred to above is a step in the right direction, but as you are after these Governments with a sharp stick I would like to hear from you if you don't prod too hard. Reader.

The Dead of '66.

Editor World: Now that Canadian nationality has come to the front for good, as our country has outgrown the colonial condition, I hope you will allow me to point out the anomaly which exists in the park. The statues of George Brown and John A. Macdonald, two leaders of colonial parties, are in the full front, while the monument to the men who died in '66 to make Canada a nation is hidden away in the backyard.

This is not as it should be. The monument to our comrades of '66 should be in the centre of the lawn in front of the building, and we their survivors will not be satisfied till it is placed there.

A Captain of '66.

Bicycles Without Bells.

Buffalo, Oct. 10.—Charles E. Kelly and Robt. J. Brown, two innocent young Canadians, came to town on bicycles yesterday. They were riding down Delaware-avenue, without bells on their wheels, when Patrolman Laughlin of the bicycle squad made them his prisoners. He took them to Police Station No. 3, but when it was learned that they were in ignorance of the bicycle regulations they were released.

Australian Gold Miners Arrive.

Victoria, B. C., Oct. 10.—The steamer Miowera, which arrived this morning from Australia and New Zealand, brought 120 miners bound for Klondike.

SURETIES MUST PUT UP

The Amount of Frontenac County Treasurer Vanluven's Defalcation—Some Kingston Men Will be Stuck.

Kingston News.

Mr. Laing of the Provincial Auditor's Department arrived in the city yesterday, and has taken a look over the books of the County Treasurer. In conversation with a News reporter to-day Mr. Laing said that he was simply here to see how the work was progressing. The Auditor was now preparing a report to be in readiness for the meeting of the Council on Oct. 19. The News was not far astray when it published several weeks ago that the deficit would be between $27,000 and $30,000. Speaking of his visit to Kingston in July last, Mr. Laing said as soon as he looked at Mr. Vanluven's books he knew that there was something wrong. Mr. Vanluven admitted to him then that he was behind, but said he intended to make it up right away. He, Mr. Laing, reported the matter to the County Council. At the present time he was of course unable to estimate the whole loss.

Speaking of the sureties and their liability to the county, Mr. Laing stated that the different sureties from the time that the deficit started until the present would have to account to the Council. It had already been decided in the court that the fact of county auditors passing the books did not relieve the sureties in any way. The sureties had to take their chances. If the auditors were incompetent that was their funeral. Mr. Laing left for Toronto at noon to-day.

From this it will be seen that the property of several local men may be brought in for some of the deficit. The various sureties will have to put up the amount taken while their names were used as a guarantee.

TRADE IN CANADA.

What Bradstreet's Mercantile Agency Will Say To-Day About the Progress of Trade in the Provinces.

Bradstreet's Review of to-day will contain the following:

British Columbia.

Victoria, Oct. 9.—No material change is reported in the business situation throughout the province from former week, although in some districts the demand for general merchandise is improving. Collections are fairly good.

Manitoba.

Winnipeg, Oct. 9.—There is no material change in prices this week, although trade is irregular. There has been a heavy trade in hardware, nails, building supplies, groceries and general requirements for lumber and mining camps, these being hurrying in large stocks before navigation closes. The lumber stocks on hand at present are said to be the smallest since operations were established consequent upon the large demand and increased trade resulting from the favorable crop conditions. Collections also show a considerable improvement already. The wheat movement is easy, supply of cars being more plentiful. Farmers are shipping freely to elevators, shipments averaging about a quarter million of bushels a day. Considerable loss and much distress had been caused by prairie fires prevalent in the Winnipeg district, but the fires were confined mostly to the hay and bush country. A couple of general stores were destroyed. Clearings for the week ending Oct. 7 $3,116,663, balances $603,082. These figures outstrip all previous records, and indicate the great increase in volume of business being transacted.

Maritime Provinces.

Halifax, Oct. 9.—Trade during the week has been fairly active, and on the whole quite satisfactory. The Provincial exhibition continued to attract large numbers from the country districts, and wholesale houses report a greater number of customers than for some time previously. Shipments of coal from Cape Breton mines during the past month have been very heavy. St. John, New Brunswick, reports small receipts of fish, but they seem fully equal to the demand. The provision market is firm with no change in quotations. It is believed that the lumber cut will be small, and that next year will be a quiet one in the lumber trade. The hay crop throughout New Brunswick is an average one, but it is not expected that the market will be as good as last year. Reports from Newfoundland are very discouraging. The low price of fish, and the high prices of provisions will, it is feared, result in much hardship amongst the people.

Ontario.

Toronto, Oct. 9. — Local Ontario trade shows steady improvement as farm produce is marketed and farmers receive proceeds therefor. The movement of all kinds of grain and produce, but particularly wheat, from farmers' hands is large, and the railways have to exert strenuous efforts to prevent freight blockades. Drygoods, hardware, groceries, boots and shoes, and all staple lines of merchandise are actively required for. Large orders are being received by local wholesale houses from Manitoba, where the heavy grain movement has put several millions of dollars into farmers' hands. Retail trade there is becoming active. In Ontario it promises to be active in the near future. One adverse condition is found in the continued dry weather. This prevents fall plowing and seeding. It is feared that the acreage of fall wheat will be light. This will not be so serious here as in some winter wheat States where they cannot grow spring wheat. Ontario being adapted to growing both spring and fall wheat. The most serious result of the drought is the bush fires. They have been raging in Eastern Ontario for a week past, doing great damage. The export movement of grain and produce at Montreal is heavy and ocean freights are firm. Call loans are steady at 4 per cent. and discounts are unchanged at 5 to 7 per cent.

Quebec.

Montreal, Oct. 9.—The wholesale trade report sales up to the average at this time of the year, with collections a little easier. Hardware jobbers report a good demand for heavy goods, with prices steadily advancing. Drygoods and groceries are active, sugar market remains firm. In clothing and shoes orders are coming in freely. Flour millers are having a better demand from country buyers, with a tendency to firmer prices. Dairy produce quiet, with an unsettled feeling, and prices about the same. Exports of apples continue heavy, good prices being realized. Money abundant, call loans steady at 4 per cent.

Low Water in the Canal.

Port Colborne, Ont., Oct. 10.—Steamers are finding trouble in passing through the lock to-day, on account of the low water, owing to the easterly wind, which has lowered the water in the canal to 13 feet 6 inches and less at times.

Steamers Norwalk and Omaha grounded in the canal north of the railway bridge, and are still on the bottom, drawing more water than there is to float them through. The steamers Superior and barge Owen Prince are detained in a similar manner.

Related to Eugene Sue.

Catskill, N.Y., Oct. 9.—Word has been received at her home here of the death in Belgium of Rose Amelia, Comptesse de Wilbaux. She and her sister, wife of Gen. Adam Badeau, through their mother, were relatives of Eugene Sue, and were said to be the originals of the characters Rose and Blanche in "The Wandering Jew."

Reports Exaggerated.

Kingston, Jamaica, Oct. 9.—The reports which have recently gained circulation in the United States that yellow fever had become epidemic here are exaggerated. Only 53 cases of yellow fever and 18 deaths from that disease have been recorded during the past three months.

S. Ackerman, Commercial Traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for Inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others as it did so much for me." ed

WHEAT CONTINUES STRONG.

An Advance in New York on Saturday.

LIVERPOOL CABLES STEADY

The Local Stock Market Quiet and Somewhat Weaker.

Some Realizing in Canadian Pacific on Saturday—Another Large Decrease in Cash Reserves of New York Banks—Stocks on Wall-Street Fairly Active and Very Weak—No Session of the Chicago Board of Trade—Grain Statistics—Latest Commercial News.

Saturday Evening, Oct. 9.

There was no session of the Chicago Board of Trade to-day. Dec. wheat sold on the curb at 92⅛c, an advance of ½c.

In New York wheat was higher, Dec. closing at 95⅞c, an advance of 1⅛c.

Liverpool Dec. wheat closed ½d lower.

Oil closed at 70½c in Oil City.

Receipts of hogs at Chicago to-day 13,000, or 4000 less than expected; official Friday 24,084; left over 3000; estimated for Monday 32,000. Market active and 5c to 10c higher; heavy shippers $3.30 to $4.

Cattle receipts at Chicago to-day 300, market unchanged. Sheep 2000; market steady.

Lake freights from Chicago to Buffalo: Wheat 2c, oats 1⅞c.

Argentine shipments of wheat this week were nil.

English farmers' deliveries of wheat the past week were 67,100 quarters, and the average price 32s 1d.

Receipts of wheat at Minneapolis and Duluth to-day 1140 cars.

Exports at New York to-day: Flour 2064 barrels and 5958 sacks, wheat 71,867 bushels.

The world's schipments are indicated to be under 8,000,000 bushels. A small decrease afloat is expected.

Bradstreet's report of the world's supply of available wheat, Oct. 1, show a total of 92,150,000 bushels, 23,450,000 bushels less than one year ago, 37,031,000 bushels less than two years ago. The September increase in the world's stocks of wheat, 25,246,000 bushels, is the largest gain in that month in any year.

Present European and afloat wheat supplies are smaller than those at like dates for five years preceding last year.

Exports of wheat (flour included as wheat) from both coasts of the United States and from Canada this week aggregate only 4,835,041 bushels, against 8,304,000 last week, but compared with 4,050,000 bushels in the week a year ago, 2,244,000 in 1895, 3,317,000 in 1894 and 2,202,000 bushels in 1893.

Corn exports aggregate only 2,129,000 bushels, against 3,108,000 bushels last week, 2,772,000 bushels in the week a year ago, 1,367,000 bushels in 1895, 184,000 bushels in 1894 and 1,080,000 bushels in 1893.

NEW YORK BANK STATEMENT.

The associated bank statement was more favorable than had been expected. Cash reserves decreased $2,064,900, and the surplus is now $13,485,580, as against $15,598,975 a year ago and $14,136,180 two years ago. There was a decrease in loans for the week of $262,300. Specie increased $1,583,409, legal tenders decreased $4,302,300, deposits decreased $2,616,000 and circulation increased $29,800.

NO OUTSIDE SUPPORT.

New York, Oct. 9.—The Evening Post says: The influence of to-day's disappointing bank statement on the stock market was very considerable. As soon as the returns were sent out over the tape a vigorous selling movement began from the professional contingent, and prices broke with great rapidity. Before the two hours' business was over such declines had been scored as 1⅞ in St. Paul and Rock Island, 1 in Sugar, 2 in Burlington & Quincy, 1½ in Omaha and 2 in Manhattan. Final prices were very near the lowest. Of course, the day's decline was chiefly the work of professional speculators, but the somewhat significant part of the operation was the ease with which the quotations yielded. No other inference can be drawn from such a movement except the conclusion that at the present time outside support has been withdrawn.

TIPS FROM WALL STREET.

The market closed weak.

Gross railway earnings for September are very satisfactory. The total receipts of 64 of the principal systems of America aggregate $39,261,000, a gain over September a year ago of nearly 14 per cent. Three-fourths of the roads reporting show gains. Net earnings reports for August are also very good, the total gross earnings of 51 companies aggregating $51,336,000, and net $18,416,000, an increase of nearly 15 per cent. in gross and over 22 per cent. in net.

The most active stocks to-day were: Sugar 4400 shares, St. Paul 10,100, Rock Island 2200, Union Pacific 7100, U. S. & L. 1100, Wax 1000, Southern Pacific, pref., 6500, Reading 2300, Missouri Pacific 3300, L. & N. 4900, Burlington 8800, C. & O. 3700, Chicago Gas 22,100, Manhattan 2700, N. Y. Gas 2600, Tobacco 1700, Atchison, pref., 3300.

NEW YORK GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch from New York to-day:

The stock market was dull and heavy throughout the entire session to-day, developing considerable weakness in the last hour. The resumption of the bearish pressure against Chicago Gas, which fell over 2 per cent., had an unfavorable influence on the general list. Consolidated Gas broke heavily on offerings by a prominent bear trader. The losses in the railways' list extended to 1 to 2 per cent. The market closed weak on the drought scarce and local politics.

McIntyre & Wardwell (John J. Dixon), received the following despatch from New York to-day:

Stock market developed renewed weakness and irregularity to-day and prices declined quite sharply ¾ to 2 per cent. in general railroad list. The weakness was due to a concerted bear raid by the two most prominent local bears. The selling was based on the failure of yesterday's large gold import engagements to stimulate fresh outside buying, together with the drought conditions of the winter wheat belt. The Gas stocks were made a particular point of attack and were hammered vigorously all afternoon, particularly Chicago Gas and Consolidated Gas. The Gran
