Hamilton Happenings

World subscribers in Hamilton are requested to register complaints as to carelessness in late delivery at the Hamilton office, room 7, Spectator Building. Phone 965.

ASSESSOR'S SON APPEALS AND $200 IS LOPPED OFF

Humors of Court of Revision—Trial of Wm. Burgess—Sewers Committee Proceedings.

HAMILTON, Oct. 30.—(Special.)—The court of revision dealt with appeals from Ward 4 to-day and knocked off only about $14,000. Assessor Neligan has charge of this ward and he boosted the assessment of one of his sons by $800. The son appealed gainst it and the court cut off $200. In many cases only small amounts were cut off, in some cases the court going as low as $10, which would mean a saving to the appellant of exactly ten cents in taxes.

Isaac Robinson was arrested to-night charged with obtaining goods to the value of $60 from H. Levitt by false pretences.

The charge against William Burgess, accused of a serious offence, was continued this afternoon before Judge Snider and was adjourned until next Tuesday in order to allow the defence to get the evidence of a Miss Sullivan, who is now in a Toronto reformatory. The defence to-day called several witnesses to testify to the alleged loose character of the little girl in the case. They could tell nothing except gossip, and the judge said he did not want to hear any more of that kind of evidence.

George Barr, a former employe of the G.T.R., and latterly of the firm of Reid & Barr, died this evening at his residence, 70 North Catharine-street.

The sewers committee this evening decided to advertise for tenders for the construction of a sewers system on the mountain, to cost about $22,000. The pipes will be laid in the same trenches as the water pipes. The whole cost will be borne by the residents of the district. The city will probably settle for a pipe down the mountain side connecting the mountain with the city system and which will cost about $220.

Since opening, the Britannia Roller Rink has done an enormous business, showing that this popular pastime is not on the decline.

On Wednesday evening next the 91st Highlanders have this popular rink engaged for themselves and friends. On Friday evening a grand carnival will be held and success is assured already by the talk it is causing.

Wife Was Too Vindictive.

The police magistrate this morning sentenced Hugh Cameron to one week in jail for abusing his wife. The wife begged him to make the term longer, and because she did so the magistrate cancelled the sentence and simply bound the husband over, remarking that the wife's anxiety to see her husband punished indicated that she was not entirely blameless, since his experience on the bench had taught him that the woman most abused was the most forgiving. Joseph Leslie, the bailiff, pleaded guilty to failing to make returns of $6 collected for J. H. Plunkett, and was remanded for sentence.

S. Mergenthaler, who shot himself at London, lived until a short time ago with his aunt, Mrs. James Franks, 243 North East-avenue, who says that he had been complaining of pains in his head and was very melancholy. She says that he brooded over the death of his wife and the fact that he had not heard from the people with whom he had left his little daughter.

This morning Judge Snider fixed bail at $1500 for Private Detective Huckle, and $1000 for John Tierney. The judge said he would allow no woman except the prisoner's wife to risk her property on the detective.

The receipts of the street railway for the first nine months of this year, as compared with the corresponding period of last year, show a decrease of $3678, the figures being: 1907, $239,592; 1908, $235,914.

Some criticism is aimed at the harbor committee for making a deal with Contractor Kennedy for leveling some earth behind the revetment wall. The contractor was allowed a rake-off on the laborer's pay, charging for them at the rate of 25 cents an hour and paying them 20 cents, or whatever he could get them to work for.

Hamilton investors in Cobalt securities should entrust their orders to Messrs. A. J. Barr & Co., Sun Life Building, Hamilton, or Standard Stock Exchange Building, Toronto.

Corner Barton and Catherine-streets, Hamilton, modern and strictly first-class. Rates $1.50 to $2 per day. Phone 1465. 26

NO EVIDENCE OF BRIBERY.

And One of Two Accused in Sundridge is Dismissed.

SUNDRIDGE, Oct. 30.—The trial of the man Agar, accused of election bribery, took place to-day. It transpired that the information was laid by Johnstone, bailiff of the division court. Epple, the man who it was alleged had been bribed, stated that Agar had not approached him in any way, and that he was not aware that any information had been laid against him. The magistrate therefore dismissed the charge.

The charge against Unger was sent for trial. No evidence for the defence was given. Mr. Watson and Mr. Ard, president of the Conservative Association, went his bail. It is reported that charges may be laid against Johnstone.

HON. THOS. GREENWAY PASSES AWAY AT OTTAWA

Railway Commissioner and Ex-Premier of Manitoba Succumbs to Asthma.

OTTAWA, Oct. 30.—(Special.)—Hon. Thomas Greenway, member of the railway commission, former premier of Manitoba, and M.P. for Lisgar in the last parliament, died rather unexpectedly at the Windsor Hotel at 7 o'clock this morning.

Mr. Greenway caught cold on his way to Ottawa to begin his duties as railway commissioner, and asthma developed, for several days his condition being considered serious. On Friday last he was pronounced out of danger, but yesterday morning serious symptoms again developed. In the evening he was better again, but early this morning he took a turn for the worse, and while the nurse was out of the room he passed away, death being due to heart failure.

Hon. Thomas Greenway was a leader of Manitoba Liberalism ever since his entrance into the political life of that province in 1878. He went in that year to Manitoba from Huron County, Ontario, and in the following year he was elected to the legislature for the constituency of Mountain. In 1882 he became leader of the opposition in the assembly, and in 1888 became premier. He was leader of the government till its defeat in 1900.

It was when Greenway was premier that the legislature abolished the system of separate schools in Manitoba, to restore which the federal Conservative government introduced the remedial bill in 1896.

During the earlier years of his administration there was a good deal of important legislation, including the abolition of the railway monopoly, the abolition of the use of the French language in parliament and in the courts, the new Judicature Act, the act establishing a bureau of crop statistics, and the National Schools Act. There were battles over all of these except those relating to law procedure and agriculture, which will be recalled by all Canadians.

Mr. Greenway was elected to the house of commons for the constituency of Lisgar in 1904, and sat thru the late parliament. A month ago he was appointed member of the railway commission, along with Mayor D'Arcy Scott and Prof. McLean of Toronto. His death, therefore, creates a vacancy on the board.

Silent Member.

Mr. Greenway's political career at Ottawa was not distinguished by any particular public act, but he attended regularly the sittings of parliament, and when the house was "up" he would always be found, weather permitting, smoking his pipe on one of the benches of the main walk ruminating on his former greatness. He seldom addressed the house. Last session his only speech had to do with the election bill, and his taciturn and non-communicative nature earned for him the appellation of "The Sphinx." But no man in public life was, perhaps, better informed than Mr. Greenway.

Came to Canada a Boy.

The late Thomas Greenway was born March 25, 1838, in Cornwall, Eng., and came to Canada when a boy, first settling near Bowmanville, and afterwards in Huron County. He received a common school education in the Township of Stephen, and was reeve of the township for ten years. He was an unsuccessful candidate for the house of commons, as an Independent Conservative, but was elected at a by-election in 1875, caused by the unseating of the sitting member. In 1878 he declined nomination and moved to Manitoba in that year, taking up 800 acres of land near Crystal City. Mr. Greenway was an uncompromising free trader, and when Sir John Macdonald brought in his protectionist resolution Mr. Greenway voted with the government against his leader. In the general election of 1878 Mr. Greenway was offered the nomination by the Liberals of South Huron, but declined to run, offering to assist M. C. Cameron. In that election the Conservative majority of seventy-eight in the Township of Stephen was converted into a Liberal majority of about the same size.

W. J. Greenway, commissioner of crown lands, leaves to-night for Crystal City with the remains of his father.

REPORT OMITS VALUES

Continued From Page 1.

shareholders was encouraging. So that, according to this, the huge diversion of construction capital does not mean that a correspondingly heavy liability to be overcome rests on the bank thru its holdings in the road.

May Not Be $9,000,000.

Mr. Jarvis said: "The items that figure in this report are very much involved, and when I read the report of the accountants I did not make out that the thing stood just as it is there. There are four corporations involved in it, the Chicago & Illinois, Illinois Division, the Wisconsin Division and the Chicago & Milwaukee Electric Railway Company. They may, in what you have there, be doubling them up. Anyway, I never realized that over $9,000,000 had disappeared as it says there, and I think it hardly correct.

"There are no new developments in the despatch; it is only now put in form. It does not add anything to our knowledge, and the publication of the conditions as revealed there does not take away anything from the future of the road as a going concern. The road is completed now, and trains are running, but it is not yet giving a service; but there is no doubt in the world it will be a fine road. Mr. D. B. Hanna, an experienced railway man, is very enthusiastic about the future of it.

"I was aware pretty much of how the road stood when I made my report to the shareholders. It does not alter a particle the chances shareholders may have with regard to realizing on their shares in the bank."

Solicitor Confirms.

W. J. Boland of the legal firm of Macdonell & Boland, who has had to do with the bank, confirmed the view of Mr. Jarvis that those on the inside have known for some time as to how the road stood.

"The fact that the road did not actually cost $18,000,000 to build does not matter," he said. "We knew what it cost, and the bond issue covered so many miles of territory. We knew what the bond issue was, and just how much money it took to build it."

"Any idea of when the road should pay dividends?"

"I am no magician," replied Mr. Boland.

D. B. Hanna, the great railway constructor, will be in Toronto to-day after seeing the railway in working shape from end to end. He may have a few words to say.

A NOTABLE PICTURE SALE.

To-day and on Monday there will be on view in Chas. M. Henderson's art gallery, 87-89 East King-street, a very attractive collection of oil paintings, the work of Harry Britton, A.R.C.A. Mr. Britton is a young Toronto artist, whose work is not only of exceptional quality, but full of promise for the future of Canadian art. A student with Mr. R. McGillivray Knowles for the last eight years, he has been a frequent contributor to local exhibitions, where his paintings gained marked attention, with the result that examples of his craft are now found in the National Gallery, public institutions and in various private collections. It is now Mr. Britton's desire to continue his art studies in Europe, and to aid him to achieve this purpose a number of his canvases will be offered for public auction sale on Tuesday next at 2.30 p.m. in Mr. Henderson's art rooms.

The artist's work is characterized by poetic feeling, delicate and rich color effects, and firm modelling. Another feature which warrants the belief that Mr. Britton has a career before him is the individuality of his methods and his fine feeling for harmonies and gradations of tint. The selection now offered is representative of his best work, and is specially interesting since many of the subjects are taken from the immediate vicinity of Toronto. In the Don Valley Mr. Britton has found much that appealed to his artistic sensibilities, and many charming views are the result. Old Quebec, its quaint streets and picturesque associations, are also reproduced with a quick eye for aesthetic possibilities and the local color is admirably rendered. There are also a few figure studies equally remarkable for their power and purity of color, and no better opportunity could be afforded for acquiring examples of the work of an artist, who, humanly speaking, is certain to attain international reputation.

WHITMORE NOT GUILTY FREED BY AN ALIBI

JERSEY CITY, N.J., Oct. 30.—After being out two hours, the jury in the case of Theodore Whitmore, on trial for the murder of his wife, whose battered body was found on Dec. 26 of last year, in a swamp near Harrison, N.J., returned a verdict to-night of not guilty. Whitmore's defence was an alibi, which he was able to establish by the testimony of a number of witnesses who testified to having seen him in New York at the time of the commission of the crime.

Blames the Old Lists.

The recently-organized Young Liberal Club held a meeting at the Temple Building last night. J. L. Richardson presided. Various members spoke on the recent elections, expressing the view that T. C. Robinette lost his election thru there being no registration, the lists being eighteen months old.

On motion of Louis M. Singer, secretary, the executive will consider some plan for a series of social gatherings.

At Score's It's High Class and Great Value.
And that applies to anything with the Score name on it, whether it's a pair of half hose at three pairs for a dollar or one of those fine, genuine indigo-dyed blue serge suits that are so the vogue for young men at $25 the suit.
