RESIGNED.

Berlin, Oct. 21.—Baron von Wissman, governor of German East Africa, has resigned owing to ill health.

NEARLY 12,000 SICK SOLDIERS.

Madrid, Oct. 21.—From Havana it is officially reported that there are 11,718 sick soldiers in the various military hospitals.

THE GOLD MOVEMENT.

London, Oct. 21.—Samuel Montague & Sons says that yesterday's large withdrawal of gold—$4,500,000 in American coin—is owing to the advance in wheat, much of the 60 days' exchange falling due and the rate of exchange, in consequence, being lower.

SWEDEN'S NEW NAVY.

Stockholm, Sweden, Oct. 21.—The Government will apply to the next Riksdag for a credit of 10,000,000 kroner to build an ironclad, several million kroner to build torpedo boats and cruisers, and 6,000,000 kroner with which to begin the fortification of the Gulf of Bothnia.

THE CASTLES COMMITTED.

London, Oct. 21.—Mr. and Mrs. Walter M. Castle, of San Francisco, were brought up on remand at Marlborough Street Police Court, charged with the theft of various articles from London stores, etc., and were committed for trial. Both pleaded not guilty, and were released on $150,000 bail.

THE DARDENELLES TREATY.

London, Oct. 21.—A Berlin dispatch to the Standard reports that the Frankfurter Zeitung has a dispatch from Constantinope which says that negotiations are on foot between the powers and the Porte for the abrogation of certain portions of the Dardanelles treaty. The Sultan is not averse to the project, says this dispatch. The powers will guarantee protection to the Sultan and the integrity of the Turkish Empire if the measure is carried out without fresh atrocities.

DOESN'T TAKE IT BACK.

London, Oct. 21.—Sir Edward Clarke, Q.C. (Con.), referring to the adverse criticisms of his recent speech on the Venezuelan question, in which he said that "No honest and impartial arbitrator or commission could decide in favor of England's claim upon the evidence," has written a letter to the Associated Press on the subject. He says: "The speech was deliberately made, in the belief, which I still entertain, that it will be of public service, and was, of course, made after a full study of all the documents officially published on the subject."

SPANISH REVERSES.

London, Oct. 21.—Advices from the Philippine Islands show that the rebellion against Spain is more widespread than generally supposed. Reported defeats of the insurgents have been greatly exaggerated, and it is now asserted that the revolution is beyond the control of the Spanish authorities, and that unless reinforcements are sent to Manilla immediately the Spanish forces are now in danger of final defeat. The rebels now hold the province of Cavite, are well organized, and have 8,000 Mauser rifles. There are many natives in the Spanish troops, and the officers are afraid to take the native regiments into the interior because their loyalty is doubted.

The Hong Kong press says editorially that there is no longer room for the least doubt that affairs on the Philippine Islands will in a short time assume the proportions of the Cuban rebellion. The natives are determined. As each rebel signs an agreement he writes his name on his arm with blood and swears vengeance against the Spaniards.

VIOLENT ATTACKS ON EUGENIE.

Paris, Oct. 21.—The memoirs which Gen. Trochu left are ready for the printer, and will appear without much delay. They will be interesting mainly for their violent attacks on the Empress Eugenie. Trochu went to his grave with the solemn conviction that she was the instrument used by Providence to chastise sinful France, and he says so plainly, besides giving a great deal of testimony, some of it new, to support this attitude. It seems that the Empress distructed the general on account of a belief that he was secretly devoted to the Orleanist princes, and that she allowed this baseless suspicion fatally to handicap him in his efforts to save the Empire. It is a curious comment on time's whirligig that Eugenie should now be believed in France to be hand in glove with the Orleanist intriguers. Recognized Bonapartists told me, when I was in Paris last week, that they knew this to be true. They say little about the prospects of their own little party, but are keeping a hopeful eye on Prince Louis Bonaparte, whom the Czar promoted to a general's rank while he was in Paris, giving the first news of this fact to the young man's aunt, the Princess Mathilde, when she lunched at the Russian embassy on the 7th inst.

Bari En Fete.

Arrival of Princess Helene and Her Betrothed.

Unique Proclamation Issued by the Municipal Authorities.

Bari, Italy, Oct. 21.—The Italian yacht Savoia, having on board the Princess Helene of Montenegro, her betrothed husband, the Crown Prince of Naples, and the members of the the princely family of Montenegro, who are to be present at the marriage, arrived here this morning escorted by a squadron of Italian warships. The royal yacht experienced very bad weather while crossing the Adriatic, and nearly all the travelers were seasick throughout the passage. The prince and princess were warmly greeted on landing, a vast concourse of Anatolians and others who had arrived in the town, crowding it to its utmost capacity. The local attempts at decorating were universal, but it must be added that they were ludicrous. They were made in response to the following municipal edict, which was posted on the walls of the principal thoroughfares:

"Citizens of Bari: It is your duty to clean the streets of all unseemly mud.

"Used and tattered washing linen must be taken away from the windows.

"Little children must no longer run naked in the streets.

"Goats, cows, hens and drunken men must be kept at a proper distance.

"No dust bins may, for three weeks, be emptied into the streets.

"Licensed coachmen are forbidden to wear ragged liveries, and are advised to borrow disused police uniforms.

"Let these things be done, and our citizens will prove themselves worthy of their ancestors, and our city will be duly garnished for greeting the royal bride."

ITALY'S ROYAL WEDDING

Princess Helena Will Be Given a National Welcome at Rome.

Rome, Oct. 20.—All Italy is getting ready to be en fete for the royal wedding, when the Prince of Naples, heir to the house of Savoy, espouses the beautiful Montenegrin. It has been intimated that the burly mountain ruler will be present at the ceremony. This may prove to be the case, but it is doubtful. He prefers the society of his dogs to the splendors of Rome. Princess Helena will have a national welcome. Her beauty and temperament are such as appeal most strongly to the Latin races; and the cordiality of the reception Italy will give her will be all the greater for the sake of the love element of the match.

The prince refused to wed unless he could have the woman who was once marked out for the bride of the Czar. The court ceremony will be performed at the palace of the Quirinal by the President of the Senate, Signor Farini. In honor of the event King Humbert has approved the proposal of his Cabinet to grant amnesty to a large number of prisoners on the wedding day.

An Unfair Attack on Mr. Wm. Buckingham Resented.

THE CROW'S NEST PASS.

Ottawa, Oct. 21.—Vice-President Shaughnessy was in the city today to feel the pulse of the Government on the question of the Crow's Nest line in southern British Columbia. He saw the Premier and Minister of Railways. The Crow's Nest Railway is a line projected to run from Lethbridge to Nelson, a distance of 300 miles, and is designed to open up the Kootenay mining country. The C. P. R. Company intend, if they receive the countenance of the Government, to construct this railway, with branch lines running north and south to serve the various mines. The railway would carry the ore to a central point, where it could be smelted. There is no reason why the smelting should not be all done in Canada. The late Government were prepared to loan the C. P. R. $5,000,000 to construct this road, but whether the C. P. R. will ask the present Government to revive this arrangement or not is not known outside the railway management. It is a fact, however, that so far the C. P. R. have not made any formal proposal to the Laurier Ministry. The British Columbia members of Parliament are in favor of the construction of the road, but some in British Columbia believe that the Government should build the line.

BY THE CANADIAN ROUTE.

The Government has been advised that the Canadian route is to be utilized by the Imperial authorities for the new parcel post service between England and Japan. The first parcel mail under the new arrangement leaves England on Thursday. Postage rates on 3 pound parcels from England to Japan will be 44 cents; from 3 to 7 pounds, 84 cents; from 7 to 11 pounds, which is the limit of weight, $1 25. Canada's action three years ago in establishing direct parcel post with Japan has undoubtedly influenced the Imperial Government to follow a similar course, the Dominion gaining by the utilization of her route.

REWARD FOR BRAVERY.

The Government has decided to present a gold watch, suitably inscribed, to Stephen Bradley, of Miller Lake, Bruce county, and a silver watch to Henry Hughes for their gallant conduct in rescuing the captain and crew of the barge Severn, which was wrecked in Boat Cove, Bruce county, on the 8th October, 1895, when on a voyage from Ashtabula, Ohio, to Owen Sound. The rescue of seven persons was effected at great personal risk, when the seas were running very high, and it is felt that some recognition is due the two men for their gallant exertions.

NOMINATED.

Word has been received here that Hon. Clifford Sifton was offered the Liberal nomination for the Commons for Brandon, at the convention yesterday. He said he would not accept it unless the school settlement proved satisfactory to the people of Manitoba, and at his suggestion a committee was appointed with power to receive his nomination after the terms of the settlement are submitted to it.

A NEW GOVERNOR.

Senator T. R. McInnes, of British Columbia, is still in the city. It is generally conceded that he will succeed Hon. Mr. Dewdney as Lieutenant-Governor of British Columbia, when the latter's term of office expires next year.

COUNTERFEIT HALF-DOLLARS.

Advices received here indicate that counterfeit Canadian 50-cent pieces, bearing the date of 1892, have been placed in circulation in British Columbia. The bogus coin is of good color and well executed, but is considerably lighter in weight than the genuine coin. The Commissioner of Dominion Police states that no complaints have been made to him of late respecting the circulation of counterfeit coin in the eastern portion of the Dominion, but it is his intention to look into this particular complaint.

NEW COMMISSIONERS.

Sir Mackenzie Bowell having resigned the position of Commissioner for Canada at the Colonial Office Conference on the Pacific cable question, decided to associate Sandford Fleming with Sir Donald Smith as representatives to the conference. The meeting has been fixed for November 9, at Mr. Chamberlain's office in Downing street.

UNFAIR ATTACK ON MR. BUCKINGHAM.

The Citizen publishes a letter this morning from Wm. Buckingham, who was private secretary to Hon. Alex. Mackenzie, dealing with a very unfair attack which was made upon him in a Citizen editorial a few days ago.

It now turns out that a gentleman of the civil service sent a communication to the Citizen, attacking Mr. Buckingham and justifying Sir John A. Macdonald, in dismissing him. The letter was fixed up for editorial purposes.

Mr. Buckingham cannot conceive why it has been said of him now, and for the first time, that while he was secretary to Mr. Mackenzie he still maintained his connection with the press. He did not do so. Mr. Buckingham says: "It is my misfortune rather than my fault that my name should be freely use at this time in consequence of the precedent set on the defeat of the Mackenzie Government, eighteen years ago, in my removal by Sir John Macdonald from office. I have never taken the first step to have the wrong redressed, except by appeal at the time to the sense of justice and Sir John A. Macdonald himself. I am not now asking, and I have never asked, to have any member of the civil service dismissed in order that I might be reinstated. I want no man's office. I had no correspondence with the Ministers of any kind whatsoever, except to testify what I happen to know favorably of gentlemen diametrically opposed to me in politics, whose positions I had heard were in jeopardy. I have said kind words of more than one such person since June last, and I have neither spoken nor written an ill word against any civil servant. All I desire is to be allowed to continue henceforth in like manner to pursue the even tenor of my way."

Through the Bridge.

Disaster on the Chicago and Northwestern Railway.

Eleven Cars Tumble Into the River—Three Men Killed.

Des Moines, Ia., Oct. 21.—A freight train north-bound crashed through the Chicago and Great Western bridge over the Platte River, 70 miles south of here. Three men were killed.

The engine and part of the cars went over safely, when the bridge collapsed, and 11 cars, including the caboose, were precipitated into the river and down the embankment.

The dead men were crushed in the debris. One was the conductor and two were tramps stealing a ride.

Safe, Sure, Painless.

What a world of meaning this statement embodies. Just what you are looking for, is it not? Putnam's Painless Corn Extractor—the great sure-pop corn cure—acts in this way. It makes no sore spots; safe, acts speedily and with certainty; sure and mildly, without inflaming the parts; painlessly. Do not be imposed upon by imitations or substitutes.

A west side photographer in Chicago has put up a placard that is sure to attract attention. It reads: "Remember! Babies reduced to $2 a dozen."

THERE is not a more dangerous class of disorders than those which affect the breathing organs. Nullify this danger with Dr. Thomas' Eclectric Oil—a pulmonic of acknowledged efficacy. It cures soreness and lameness when applied externally, as well as swelled neck and crick in the back; and, as an inward specific, possesses most substantial claims to public confidence.
