AGENTS.—ON JULY 27TH THE FOLLOWing appeared in the leading papers throughout the Dominion: "Lady Macdonald and Mr. Hugh John Macdonald, M. P., for Winnipeg, request us to say that the advertisements of Lieut.-Col. James Pennington Macpherson's Biography of Sir John Macdonald contain statements which are entirely incorrect. The book has no sanction nor approval, nor has the writer had any information, assistance or encouragement from either of them, nor is he in possession of any of the late Sir John Macdonald's papers, documents, or private opinions. They further desire to state that the authorization and collaboration announced in these advertisements as having been given by Sir John to this work amounted to, as they were told by Sir John himself, nothing more than a bare acquiescence in its preparation. Such acquiescence it was Sir John's custom to accord to all proposed biographies of himself, on the distinct understanding that by so doing he did not in any way imply approval, or even knowledge of their contents." Our Life of Sir John is sold to the public on its merits, and sells without the necessity of deception. Agent's wanted. Send 50 cents for Agent's Outfit. Circulars with terms mailed on application. ANOTHER FIRE, the origin of which is a mystery, was discovered about 7 o'clock last evening in an old shed attached to a barn near Moncton market. In a few minutes two or three old sheds and barns were a mass of flames, but the fire was drowned out quickly after the firemen arrived,

THE ANNIVERSARY of the Queen square Methodist church will be held to-morrow. There will be a prayer meeting at a quarter to ten; public service at eleven; love feast at 3.30, and public service at seven. The Rev. Joseph Dougal of Morley, Northwest territory, will preach at the morning and evening services.

AT LAST evening's meeting of the Presbyterian synod in Halifax J. G. Forbes spoke on the subject of home missions in a happy and effective style, dwelling particularly on the work in western New Brunswick. Rev. N. McKay of Miramichi told of the work that could be done in the lumber camps. Addresses were made by a half dozen other speakers and the report was adopted and the synod adjourned.

CONCERT AT MILLEDGEVILLE.—An enjoyable concert was held at Milledgeville hall, last evening to raise funds for a library at that place. The success of the affair was due largely to the efforts of Miss Annie and Miss Edith Williams. The programme included choruses, recitations, dialogues and tableaux, and addresses were given by Mr. H. J. Thorne and Dr. G. A. Hetherington. A party of young ladies went out from the city to take part in the concert and as they were starting to return home one of them fell out of the wagon and received some bruises and a bad shaking up.

A SHOCKING DEATH occurred at a party last night given by Mr. and Mrs. Nelson Arnold to the officers in camp at Sussex and citizens of the town. About 11 o'clock as a waltz was being danced Mrs. Suratt, a young widow from Boston or vicinity, asked her partner to stop dancing and walked with him from the parlors into the hall, where she fell to the floor dying almost instantly. Dr. Brown of the I. S. C. and Dr. Raymond were two of the guests and of course used every effort to restore the lady, but without avail. Mrs. Suratt is related to the Halletts and more distantly to the Arnolds of Kings county.

NATURAL HISTORY SOCIETY.—The Natural History Society will resume its meetings on Tuesday evening next at the rooms in the market building. It is proposed this winter to hold a course of elementary lectures in view of the meeting in this city of the Summer school of Science for the maritime provinces, to give those who wish to attend an opportunity to do some elementary and laboratory work in such subjects as geology, botany, zoology and chemistry. The meeting on Tuesday evening will be addressed by Rev. J. deSoyres, Dr. Stockton, Dr. Hetherington, I. Allen Jack, Esq., and Rev. Mr. Bruce. An invitation is extended to the teachers of the public schools and others who wish to do work in natural science to be present.

THE EQUITY COURT.

An Important Judgment Delivered by Judge Palmer Today.

In Wright va Wright, Judge Palmer delivered judgment. In effect, he said, the facts were that the plaintiffs were tenants in common of a lot of land and house, from which to the highway there had been a way used across the lot in front of such house, and between it and the highway used for over twenty years by the persons under whom plaintiffs claim, and also a well of water with a way thereto used as aforesaid.

That this case was another instance where the extreme nicety of the pleader has rendered it difficult to dispose of the rights of the parties in the suit as they should be. To begin with it is clear that without an amendment I could not declare the rights of these plaintiffs to this three acre lot for there is no claim put forward to it in the bill only the claim of the two several easements I have stated.

I will again point out the rule that I think the practitioners should follow in drawing a bill,—it is thus stated in the 22nd sec. of 53 Vic, cap. 4, which enacts:—

That it shall contain a brief narrative of the material facts on which the plaintiff relies, numbering each allegation as in the form, adhering as nearly as may be to the brevity of such form. What does that mean? In order to determine this we must find out what was the law before and how far that enactment has altered it, if alteration there has been. I take the law to have been that before the enactment a bill in chancery contained several parts, which I need not enumerate, were by that enactment reduced substantially to; that is what is called the stating part of the bill and the prayer. Such stating part of the bill should contain a clear and exact statement of all the matters of fact which would consist of the rights of the plaintiff the manner in which he is injured, the person by whom it is done, the material circumstances, time, place and manner—in other words the relief which he seeks and every material fact of which the plaintiff means to offer evidence ought to be distinctly stated or otherwise he will not be permitted to offer any evidence of such fact, a general statement, however, of a matter-of-fact is sufficient and it is not necessary to charge minutely all the circumstances which may be adduced to support the general charge for all these are properly matters of evidence.

Now, assume, as I have a right to do by the frame of this bill that all the plaintiffs wanted was what they have asked for by their prayer—that is, an injunction against the interference of the defendent in their crossing the land in the way that they have been accustomed to do, as set out in the bill or interfering with them having the use of the water of the well referred to and to have a declaration of right to the extent which would authorize the court to grant such an injunction order, it would appear to be enough for them to allege that they had the right to such way and to the use of the water of the said well—and the question is have they done so. It appears to me they have sufficiently shown such right and also how they acquired it in this way. They have alleged that the testator, John H. Wright used this way and this well for over twenty years, that he bought the land and had it conveyed to the defendant who held it in trust for him through which the way went and the well was situate, and devised the whole thing by will to these plaintiffs for their lifetime at least and therefore I think to that extent I am bound to give them the relief prayed for but I cannot go any further without amending the bill which I do not feel at liberty to do at this stage of the proceedings although it is true, as the plaintiffs counsel has argued before me, that the matter has been wholly tried out without objection.

The decree will therefore be to declare that the plaintiffs are entitled as tenants in common during their life to the right of way and use of the water of the well as stated in the bill and that the injunction order herein granted restraining the defendant from interfering with them should be made perpetual and it follows that the defendant must pay the costs of this suit.

In re Steen infants, Peter Campbell was made guardian pro tem of Willie Steen. Further consideration of the matter was postponed till 19th inst.

Cussack and Moore stand over till 27th inst.

In the claim of the Albert Southern of engine in possession of the receiver of the Elgin, Petitcodiac & Havelock railway. The attorney general claimed to intervene on behalf of crown, but His Honor Judge Palmer held otherwise. Judg ment in main case was reserved after having arguments of C. W. Weldon Q. C., for claimant and C. A. Palmer, Q. C., for receiver.
