Assessment System

SOME INTERESTING INFORMATION REGARDING THE

Canadian Order of Chosen Friends

This prosperous Fraternal Insurance Order is becoming more popular every day, particularly owing to the fact that it is purely Canadian, and managed by our own people.

WHAT IT COSTS TO JOIN.

A candidate for initiation into an existing Council and taking $2000 of Insurance would be required to pay the following fees:

1. Medical Examiner's fees, usually	$1 00
2. Initiation fee, usually	3 00
3. Life Insurance Certificate fee	1 00
Total cost of admission	$5 00

THE COST AFTER YOU ARE A MEMBER.

At the age of 18, for one year, on $2000 of Insurance:

The benefits given are very liberal, and include a Funeral Benefit of Fifty Dollars.

ITS PROGRESS.

The Society is a purely Canadian organization, and has no connection whatever with any American society of a similar name. The progress since its organization in the year 1887 has been marvelous. Look at the following:

GRAND RECORD.

Year	Number of Members.
1887	175
1888	347
1889	1,832

APPROVED APPLICATIONS.

Year 1900	3,227
Year 1901	3,772
Year 1902 (to June 30)	1,824

—an increase over the previous year of 200, and this year the society is starting out to make the number 4000, if possible.

The society is in first-class financial condition, having been managed in a very economical manner, as evidenced by the fact that the cost of management has been exceedingly low for many years.

IT HAS COMPLIED WITH THE LAW.

The society has complied with the law and is fully authorized to do business throughout the Dominion of Canada.

There is still room for a few more good organizers. Liberal remuneration given to the right men. For further information apply to Wm. F. Montague, Grand Recorder, or W. F. Campbell, Grand Organizer, Hamilton, Ont., where the head office is located. 6

ENTRIES AND BUILDINGS.

Former Close To-Day at Exhibition Offices—Repairs on the Latter.

Entries of live stock, (horses, cattle, sheep and swine), dairy products, manufactures, fine arts, photography, ladies' work and honey for Toronto Exhibition close to-day at the office, 82 East Kingstreet, city. The offices will be open the entire day for the receipt of the same. All the space has been allotted on the ground floor of the main building, and also in the stone building. Carpenters are now at work refitting those buildings, the fixtures having been removed to accommodate the militia on the occasion of the royal visit last fall. Repairs to the roof of the other buildings are nearly complete.

WILL BE READY BY FAIR TIME.

Architects Report Satisfactory Progress on Exhibition Buildings.

The progress that is being made on the new buildings at the Exhibition grounds is fairly satisfactory. The Board of Control on Friday morning met the different architects and they assured the controllers that they were satisfied that the work would be completed by Sept. 1. Mr. Jarvis, architect for the art gallery, thought that that building would be ready by Aug. 25.

Will Invite the Premiers.

The Mayor drew the board's attention to the fact that the Premier of Australia and the Premier of New Zealand would be in Canada sometime next month and he suggested that it would be fitting for the city to invite the two distinguished visitors to Toronto. The board authorized the Mayor to communicate with the gentlemen and find out when they expect to arrive in the city, and then further arrangements will be made.

Claims Architect is to Blame.

According to James Sherlock, contractor for the plumbing at the cattle market, Architect Denison and not he is to blame for the delay in completing the work. Mr. Denison wrote to the board complaining about the backwardness of the work, and asked for permission to dismiss Sherlock. Now, however, the latter says his work was further ahead last June than it is now. The reason of this was that he was ordered to take the plumbing out by Mr. Denison's assistant after it had been finished. The architect had not himself visited the place from the time the work had been started until July 4, and then he was shown the way the work was done before it was taken out, and he ordered it to be put in again in the same way, and also said that it was a mistake in taking it out in the first instance. Sherlock stated further that he had been awaiting instructions in writing from the architect, so as he would be safeguarded, but no such instructions were sent, and the work has been delayed for five weeks thru the fault of the architect.

The board refused Architects Denison's request to dismiss Mr. Sherlock.

City Hall Notes.

The tax receipts to date amount to $540,000.

Ald. Lamb thinks St. Lawrence market will be opened about Sept. 1. Among the schemes he has in view is to organize a rapid delivery system in connection with the market; to install a cold storage counter system, and to supply telephones to every tenant at a cheap rate.

SEARCHING FOR HER BODY.

Not Since Miss Adams' Drowning Have Efforts Been Relinquished.

North Tonawanda, N.Y., Aug. 8.—The funeral of Dr. T. Howard Gray, who was drowned Monday night, was held from the North Presbyterian Church yesterday. Interment followed in the Elm Lawn Cemetery, on Delaware-street. The search for the body of Miss Ruby Adams, the Toronto young woman, whom Dr. Gray endeavored to save, is still in progress. Not once since the accident occurred has the search been relinquished. While a large number of row boats are still being operated about the point where the drowning occurred by men with various kinds of grappling outfits, several steam, gasolene and sailing yachts are patrolling the river. Dynamite is being discharged at intervals in the hope of raising the body to the surface.

Accident to Alfonso's Train.

Madrid, Aug. 8.—Considerable alarm was felt to-day, during King Alfonso's journey from Oviedo to Leon. While the train was in a tunnel near Livares, the door of the King's saloon suddenly opened, and was broken off. The King convinced himself personally that the occurrence was accidental.

Trolley Strike Settled.

New Haven, Conn., Aug. 8.—This afternoon it was announced by the Citizens' Committee that they regard the trolley strike as practically settled. The company will reinstate the discharged employes, and the strikers will return to work if the company will agree in future to meet a committee of the employes.

A CURE FOR ASTHMA.

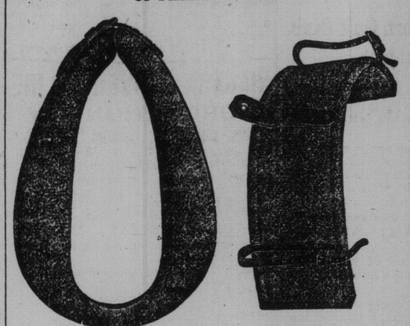
Asthma sufferers need no longer leave home and business in order to be cured. Nature has produced a vegetable remedy that will permanently cure Asthma and all diseases of the lungs and bronchial tubes. Having tested its wonderful curative powers in thousands of cases (with a record of 60 per cent. permanently cured), and desiring to relieve human suffering, I will send free of charge to all sufferers from Asthma, Consumption, Catarrh, Bronchitis and Nervous Diseases, this recipe in German, French or English, with full directions for preparing and using. Sent by mail. Address, with stamp, naming this paper, W. A. Noyes, 847 Powers Block, Rochester, N.Y.

A FIRST-CLASS INVESTMENT.

30 Per Cent. Guaranteed For Five Years.

NATURE'S FACING FOR HORSE COLLARS

THE AMERICAN INTERLACED HORSE COLLAR CO.
OF PHILADELPHIA.



Nature's Facing. Nature's Pad.

Comes before the investing PUBLIC with a BUSINESS PROPOSITION OF UNUSUAL attractiveness. THE COMPANY'S special Claim lies in the ACKNOWLEDGED SUPERIORITY OF HORSE COLLARS, SADDLE PADS and RIDING HOUSINGS, made with Interlaced CURLED HORSE HAIR, which is fully protected by UNITED STATES LETTER PATENTS and other PATENTS now pending also in FOREIGN COUNTRIES.

One of the Company's specialties, which are proven far superior to anything of the kind on the market is THE INTERLACED HORSE COLLAR, made of PURE CURLED HORSE HAIR. For years the great want felt by horsemen has been a collar that a horse could wear and be worked in that would keep his shoulders cool; also one that a horse with tender shoulders could wear in the heaviest kind of work without fear of galling. It is almost impossible for a horse to get galled or sore shoulders or sore neck, no matter how tender, when working with this collar, which can be washed with either hot or cold water without injury to it in any way. The washing does not stiffen or harden it as it does a lined collar, being faced with the purest kind of curled horse hair. The hair comes in direct contact with the animal's skin, and the hair being porous, allows the healthy action of the skin and flesh. It at once absorbs the sweat, and in hot weather is invaluable, as it prevents the gathering of lather, as is the case with most cloth or leather-faced collars. These collars will out-wear a cloth or leather-faced collar, as the hair is practically indestructible. These collars are no experiment. They have been in use for 1½ years, and have proven their merits without the shadow of a doubt. Everyone who has used them can testify to their efficiency. They are admittedly the most commonsense horse collars in the world.

THIS COMPANY IS NOT TRYING TO CREATE, nor is it asking investors for THEIR MONEY to experiment with. We have gone through the experimental stage, and now have our articles as near perfection as they can be gotten. The material we are using in the Facings and Cushions of our Collars and Pads is not a New Article, but is the True and Tried Material, PURE CURLED HORSE HAIR, which has decied and has outlived all imitations.

It is the policy of THE AMERICAN INTERLACED HORSE COLLAR COMPANY to license or re-let the privilege of Facing Collars under their patents to the numerous harness and collar makers in the United States, of whom there are over 35,000.

The profits from this source alone will undoubtedly be large, and in a very short time enable the Company to pay large dividends on its Stock. This will increase the value greatly, and will enable those who take advantage of this first-class offer to make well out of their investments.

The Company has already a complete factory in Bridesburg, a section of the City of Philadelphia, equipped with the latest patterns of machinery for the manufacture of its products, free from all indebtedness.

As Our Articles of production are of the most stable kind, and to thoughtful people articles of necessity, therefore, it is necessary that we bring the Articles before the People in general, and in order to do so, we offer to the PUBLIC A LIMITED AMOUNT OF THE TREASURY STOCK (ALL THE STOCK IS COMMON), THEREFORE ALL INVESTORS WILL SHARE EQUALLY AND FULLY IN THE COMPANY'S PROSPERITY.

In order that we may at once push the business forward, for we have an immense field before us, Free from Competition on articles of merit:

We will sell 10,000 Shares of the Treasury Stock for One Dollar Per Share, after which the next 10,000 Shares will be sold at Two Dollars Per Share, and the third 10,000 Shares at Two Dollars and One-half Per Share. After which the sale will be withdrawn and the price will be Five Dollars par.

So positive are the officers of this Company that this business will be a sure success, and yield large returns to the investors, that they will sell the above allotment of stock at the prices stated above, and will guarantee a dividend of Six Per Cent. per annum at the least on the par value of the stock for five years.

We will attach ten coupons to the certificates of stock, payable in January and July.

Thus paying 60 per cent., 15 per cent. and 12½ per cent. on the investment, according to the allotment secured.

This is a reasonable offer, as large revenues will be derived from the re-letting system, which guarantees us to make the above offer.

Aside from this there will be large profits from the sale of the goods and from the material furnished those who re-let the system.

The revenues from the business will be such as to make this a first-class investment.

Every dollar from the sale of this stock will go into the treasury of the Company, free from all expenses, and the Business will be conducted on a very conservative and economical basis.

This is not a Stock Speculation Scheme, but it is the intention of the Officers to establish the Business on a Solid Basis.

After the Business has been extended in the U.S. it is the intention of the Company to extend its Articles at once to the Foreign Markets, from which there will be Large Returns, and an Immense Business Established.

All subscriptions for stock which shall be in the secretary's hands before the 15th day of August will receive a coupon due January 1st, thus paying six months' guaranteed interest.

Persons wanting to take advantage of this exceptional opportunity will have to do so at once, as all the allotments will be quickly taken up, and no stock can be bought on the market, as none can be had.

We call your attention to the fact that the 30 per cent. interest only applies to the first 10,000 shares, and as considerable of this has already been sold, the balance will shortly be taken, so in order to secure the same and be on the ground floor send your subscriptions at once.

A FEW TESTIMONIALS.

From a Leading Saddlery of the U.S.

Office of Buck and Mehlbach,
106 Chambers-street, New York,
Thursday, March 14, 1901.

American Interlaced Horse Collar Co., Philadelphia, Pa.:

Gentlemen,—I have your letter of yesterday, wherein you ask me to send you whatever letters of recommendation or approval we may have received, treating on the interlaced hair saddle cloths, etc., since we have been handling them—now about one and one-half years.

Whatever letters there are of this kind I have not kept separately, and they are, therefore, mixed up with the rest of our filed letters. But, as I told you, my own testimony should be sufficient for intelligent people—for I appreciated the value of interlaced hair for the purpose of saddle cloths, etc., long before I knew you, and at first sight of the cloth—and I am about twenty-five years in the business—I have since, as you know, marketed a great many of them to riders all over this country—South America, Cuba, etc. As you know, we are dealing with the most intelligent people, and when a mining engineer, for instance, tells you: "I have now used so many of these hair cloths, and they keep my horse's back free from sores, while formerly I was constantly troubled with them," and then of his own volition orders another lot, that is good evidence in favor of the Interlaced Hair System—is it not? The Interlaced Hair does everything felt and other like materials do not do. It is elastic, it is cool, it does not pack, it can easily be cleansed, and keeps its shape. For harness pads, it is surely as good as for saddle cloths, while applied in the manufacture of horse collars it is simply ideal; and I surely wish you plenty of success in your undertaking, for your article deserves it.

Very truly yours,
WM. C. C. MEHLBACH.

From Halpen, Green & Co.

Wholesale Grocers, Nos. 18 S. Front-st. and 17 Letitia-st., Philadelphia, December 28th, 1901.

The American Interlaced Horse Collar Co., Bridesburg, Pa.:

Gentlemen,—Referring to the collars which we bought of you something like six months ago, we desire to say that our stableman advises us that they are giving great satisfaction. Would recommend and advise horse owners to use them, especially for heavy hauling.

Yours truly,
HALPEN, GREEN & CO.

From a Rough Rider.

Coatesville, Pa., December 18, 1900.

American Interlaced Horse Collar Co., Bridesburg, Pa.:

Dear Sirs,—In reply to your letter of the 15th instant, I have resigned my position with Buffalo Bill's Wild West Show, but I cannot speak too highly of the Interlaced Curled Hair Riding Housings. This is the first thing of the kind we ever used that would keep horses' backs from getting sore. The sample that was given us for the English Soldiers, they claim they never used anything in their cavalry to equip it, and the cowboys, the acknowledged horsemen of the world, claim it the best housings ever used under a saddle, as it absorbs all perspiration and moisture, so that the air can pass through to cool the backs.

I will refer your letter to the company at once, also will send you size wanted for cowboy saddle, as I wish one of your housings for my own use on the western ranges, which will enable me to introduce them, as I take a great interest in the welfare of horses.

Yours truly,
GEORGE BURCH.
Chief of Buffalo Bill's Congress of Rough Riders of the World.

From a Cavalry Lieutenant.

Camp Detachment, 2nd U.S. Cavalry,
Matanzas, Cuba, February 27th, 1899.

Gentlemen,—I have used your Interlaced Hair Saddle Cloth for sixteen months, and am now prepared to say something of its merits, but can find nothing to say to its detriment.

It is necessary in the cavalry service to save one's horse as much as possible, and particularly his back. Your saddle cloth keeps the horse's back cool, and keeps down the humps that will generally appear after a long, hot ride.

I have used it in Arizona, and during the recent war in Cuba, and am still using it; it has seen some hard service and stood it mighty well.

Yours,
S. M. KOCHERSPERGER,
Lieutenant 2nd Cavalry.

VAILLANCOURT WILL BE RELEASED

Bail for $500 Accepted, Owing to Exceptional Circumstances.

On Friday at Osgoode Hall an order was made by Chief Justice Falconbridge for bail for Magloire Vaillancourt, who is in jail at Sault Ste. Marie on a charge of murder. His own bail of $500 will be accepted. It is the smallest bail for such a case ever granted in the history of Canadian courts.

A grand jury recently reported no bill in the case, and the Crown, not satisfied with their investigation, held the accused for another grand jury. Judge Ferguson allowed him bail in $2000, but Vaillancourt could not furnish the bonds. He is now said to be very ill. He is 65 years of age. Pietro Gusparole was the Italian he is supposed to have shot and killed.

KNOX THE BETTER MAN.

Got Into an Altercation in a Cafe, But is Unhurt.

New York, Aug. 8.—Attorney-General Knox admitted to-day that he was a participant in an unpleasantness in a cafe at Atlantic City last Wednesday night, but said that published accounts are greatly exaggerated. His version is that he requested the waiter to suppress some boisterous men sitting at the next table. The men became more obnoxious, and Mr. Knox and his party left the cafe. The Attorney-General returned later, and an altercation ensued, in which one of the men struck at Mr. Knox, but missed him.

In an interview Mr. Knox said in part:

"One of the men aimed a blow at my stomach, but failed to reach me. What happened to him I am not prepared to say. Those things occur quickly. I am quite satisfied, however, that he does not feel as well as I do to-day.

"I understand that John T. Suthof and one of the Crampe of Philadelphia were in the party, but I am not positive."

Genial Still, But Not a Stammerer.

From The Berlin, Ont., News-Record.

The editor of The News-Record had the pleasure of meeting Mr. J. B. Lobb of Galt on Saturday. He is now, and has been for twelve years past, in the employ of the G. T. R. Co. at Galt. Previous to that he was stationed at Berlin. Many of our citizens will remember him for two things—his genial manner and the impediment in his speech, which caused him to stammer badly. But the latter has been removed. Mr. Lobb has been a patient under Dr. W. J. Arnott for several weeks, and nothing but the genialty remains. He now speaks as easily and well as though he had never been afflicted, and says he owes it entirely to the course of treatment received here. Several years ago Mr. Lobb attended a stammering institute at Toronto, and, while receiving relief through a mechanical, one-word-at-a-time method, was not cured, and soon relapsed. In fact, in comparing the two, he aptly says: "At Toronto I was taught a system; at Berlin I was taught how to talk."

Nearly all infants are more or less subject to diarrhoea and such complaints while teething, and as this period of their lives is the most critical mothers should not be without a bottle of Dr. J. D. Kellogg's Dysentery Cordial. This medicine is a specific for such complaints and is highly spoken of by those who have used it. The proprietors claim it will cure any case of cholera or summer complaint.

has restored health and strength to thousands of weak and impotent men. It gives strength to every nerve, organ and muscle, and drives pain out of the body. It is an absolute remedy for Nervous Debility, Backache, Rheumatism, Stomach, Liver, Kidney and Bladder Troubles, Varicocele, etc. It is arranged for women as well as men, and cures Female Weakness.

Sir: My bowels are in fine condition and regular. I have never taken any medicine since I got the Belt. I wish I had sent for it years ago.—Mrs. D. CAMPBELL, Prosperity, Assa.

Sir: The rheumatism I had in my joints has all left me. I feel ten years younger. I was bothered in other ways, but now I am all right. I'll tell my friends as well as others that the Belt renewed me so quick.—ARCHIE COPEGOG, Christian Island, Ont.

And how is it with you? Have you rheumatism and back pains, dull ache across your kidneys? Have you pains and aches, dizzy spells, despondency, losses by night and by day, confusion of ideas, weak back, varicocele, and are growing weaker in every way? Cure yourself now and enjoy happiness for the rest of your life.

The confidence I have in the wonderful curative powers of my Belt allows me to offer any man or woman who can give me reasonable security the use of the Belt at my risk, and they can

PAY WHEN CURED

WRITE FOR FREE BOOK—If you can't call at my office, write for my beautiful book, which describes my method and gives prices. All letters are given prompt attention. Statement blanks will be sent you, and upon receipt of your symptoms I will advise you fully whether my Belt will cure you, and the cost. I will hold your letters sacredly confidential.

If you have an old belt of any other make which has burned and blistered you, or one that did not possess electricity, bring it in and I will allow you one-half the price of mine for it.

SPECIAL NOTICE—The Dr. McLaughlin Electric Belt is the only one on the market to-day with which you receive the advice of a physician. You are under his charge until you are cured. The success of any electric appliance depends upon intelligent application. No agents or drug stores are allowed to handle my Belts.
