LIFE.

All that is beautiful passeth away;
One little hour
Withers the flower;
Blossoms of morn,
Scattered and torn,
Heap the cold earth at the close of the day;
Change, change—
Dust onto dust;
Life is a mystery, strange, strange;
Onward man travels, for travel he must.

Bright is the dawn of the cherub-like child;
Mirthful the moments of angel-eyed youth;
Time hurries on, and the visions that smiled
Drop and decay
Vanish away,
Quenching the light that was lovely as truth.
Troubles and tears,
Sorrow and fears—
Clouds o'er the sun of life's evening are roll'd
Darkness descends,
Sorrowing ends, [knoll'd.
The last sigh is breathed, and the death knell is
Change, change—
Dust onto dust;
Life is a mystery, strange, strange;
Onward man travels, for travel he must.

GOLDEN FLEECE.

HOLLOWAY'S OINTMENT.

EXTRAORDINARY CURE OF A CASE

ABANDONED BY

Guy's, the Metropolitan, King's College, and Charing Cross Hospitals.

SUMMARY OF AFFIDAVIT.

Wm. BROOKE, Messenger, 42, Union street, Southwark, London, maketh oath and saith, that he (this deponent) was afflicted with FIFTEEN RUNNING ULCERS on his left arm, and ulcerated sores and wounds on both legs, for which deponent was admitted an out-door patient at the Metropolitan Hospital, in April 1841, where he continued for eight long weeks. Unable to receive a cure here, the deponent sought relief at the three following Hospitals—King's College Hospital, in May, for five weeks; at Guy's Hospital in July, for six weeks; and at Charing Cross Hospital, in August, for nine weeks, without more; which deponent left being in a far worse condition than when he came in, *the ulcerated sores and wounds on his legs had to LOSE Weight*, chief The deponent thereupon called upon the deponent's own physician, of Guy's, who, on viewing the condition, kindly and liberally said—"*I am utterly at a loss what to do for you! but lay this in a sovereign; go and try HOLLOWAY, and try what effect his Pills and Ointment will have, as I have frequently witnessed the wonderful effects they have in desperate cases.*" You can let me see you again." This unprejudiced advice was followed by the deponent, and a perfect cure effected in three weeks, by the use alone of HOLLOWAY'S PILLS and OINTMENT; after four Hospitals had failed!!! Mrs Dr Brigh was shown by the deponent, the result of his advice and charity, he said, "I am both astounded and delighted, for I thought that if I ever saw you again alive, I would be without your arm. I can only comprehend this cure to a charm!!!"

Sworn at the Mansion house of the city of London, the 8th day of March, 1842.
Before me, JOHN PIRIE, Mayor.

WM. BROOKE.

IN ALL DISEASES of the Skin, Bad Legs, Old Wounds, and Ulcers, Bad Breasts, Sore Nipples, Gouty and Ulcerated Cancers, Tumours, Swellings, Gout, Rheumatism, and Lumbago, likewise in cases of Piles, the Pills, in all the above cases, ought to be used with the Ointment; as by this means cures will be effected in half the time, and with greater certainty; yea, in half the time that it would require by using the Ointment alone. The Ointment is proved to be a certain remedy for the bites of Musquitoes, Sand-flies, Chigo-foot, Yaws and Cocoa-bay.

Burns, Scalds, Chilblains, Chapped Hands and Lips, also Bunions and Soft Corns, will be immediately cured by the use of the Ointment.

THE PILLS are not only a General Medicine when used with the Ointment in Nervous Affections, but as a purifier of the purest service, leave them no; without exception, the finest purifier of the blood ever discovered, and ought to be used by all!!!

N. B.—Directions for the guidance of Patients affixed to every Pot.

Sold at PETERS & TILLEY'S, No. 1, King Street, St. John, N. B.

July 9. Nelson street.

SANDS'S SARSAPARILLA,

For the removal and permanent cure of all Diseases arising from an impure state of the Blood, or habit of the system, viz:

Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules in the Face, Blotches, Biles, Chronic sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, stubborn Ulcers, Syphilitic symptoms, Sciatica or Lumbago, and diseases arising from an injudicious use of Mercury, Nodes or Strictures, Aversions or impatience in Life; also, Chronic constitutional disorders, &c.

"EVERY cell and organ of the human body" says a distinguished medical writer, "is originally built of, grows and is renewed by an independent vital force; and when causes which have arrested each growth or renewal, are removed then by the influence of this vital force, the actions in a part, or in the whole system, resume their harmonious course, and the ravages consequent upon disease are overcome, obliterated and repaired." Here the whole theory of disease, and the same author proceeds to say, are so many diseases "substances are conveyed into the blood which are incapable of assimilation." In order therefore, to restore this "vital force" and get rid of these substances, it is necessary to employ an agent which will act with directness to expel or eliminate from the blood in the process of its purification, preventing the introduction of non-assimilating substances, and thus curing away, as it were, the effects, and thus curing away, as it were, the effects, roots of disease. That this preparation is such an agent is abundantly proved by the innumerably successful results that have attended its use. It expurgates the source of the disease, and of course its outward evidence, robbed of their infectious substance in the blood, are rapidly absorbed, and the patient is restored to health.

The Proprietors submit to the Public the following *unsolicited certificate from a highly respectable source, of a cure made by using their preparation of Sarsaparilla.*

Norwich, N. Y., Oct. 6, 1846.

Messrs. A. B. & D. Sands—

Gentlemen—Feelings of gratitude induce me to make a public acknowledgment of the benefit I have derived from the use of your Sarsaparilla. I have for several years been afflicted with scrofulous swellings in my head, which at times would gather and discharge at my throat, nose, and ears and at others would break out in different parts of my head and face. These continued until my throat, face and head were almost one complete sore, and for a long time I was so hoarse that it was with the utmost difficulty that I could speak above a whisper. During this time I had several physicians of the first and other diseases. I consulted different physicians, and tried various remedies, but received no benefit until I commenced using your Sarsaparilla. I am now well; the sores are all healed, and I attribute the result entirely to the effect of your valuable medicine. Your's with respect and gratitude,
PERSE CAMPSON.

Being personally acquainted with the person above named, I believe her statement to be correct.
JAMES M. D. CARR, Justice of the Peace.

The following testimonial from the Agent to the value of the Sarsaparilla in a case of leprosy will be read with interest by all similarly afflicted:

BEAVER, Pike Co. Ohio, sept. 7, 1846.

Messrs. A. B. & D. Sands:

Gents—A man near here used six bottles of your valuable Sarsaparilla for the leprosy, and has received more benefit from it than all other remedies combined for six years past. It restored a hand, leg and foot from a situation that no people would have known they belonged to a human body, as all appeared to be one mass of putrifying sore. His hand and other diseased parts are all restored to their natural size and feeling; are entirely healed over, and his leprosy cured; he intends using a few more bottles to permanently establish his health.
Your's respectfully, G. W. REYNOLDS.

For further particulars, and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.

RILEY'S DENTIFRICE.

As an essential point of beauty the TEETH must ever stand pre-eminent. No regularity of features, no brilliancy of complexion, no sparkling eyes, or silken hair, can render that lady beautiful who, when she opens her lips, (though they be of coral) displays a set of discoloured Teeth. On the contrary, even homely features and a sallow complexion are embellished and rendered agreeable by a set of white Teeth. On the other hand, the effects of decay, the accumulation of tartar, the black teeth, and tainted breath, which are invariable accompaniments of a bad state of the mouth, will always prove loathsome and disgusting.

Among the various disorders of the mouth, there none so destructive as scurvy—which on first entering the gums causes them to bleed on the most trifling occasions, and produces the most offensive and putrid breath. *There is more loss of Teeth from this Disease than from all others.*

Could persons afflicted with it see for a moment the state of their mouth, or catch the odour of their breath, they would rejoice in finding a remedy so cheap and simple, and yet so efficacious, as the one now offered.

To professional men, shop keepers, and trades, men generally, who have much intercourse with the fashionable world, a good state of the mouth must be of the utmost importance.

Besides, is not an offensive breath, which in nine teen cases out of twenty, proceeds from a bad state of the Teeth and gums, very much calculated to prevent the blessings of matrimony? and how often from inadvertence or neglect is the happiness of the married state grievously interrupted from the same cause.

To insist on the importance of these things must be a waste of words were it not obvious that there are numerous persons who never give themselves the trouble to reflect on the subject, who seem scarcely aware that *mind the Teeth*—or, if aware, the gross and culpable negligence renders the fact too apparent to their friends and associates.

Another cause of the rapid decay of Teeth, which is remarkable on the whole continent of North America, is a peculiarity in the climate—the rapid and sudden changes from one extreme to another which are of almost daily occurrence.

This source of decay, as well as the scurvy, is annihilated by using

RILEY'S DENTIFRICE,

which makes the Teeth beautifully white, eradicates the scurvy, preserves and restores the enamel, prevents decay, preserves the gums, preserves the Teeth sound and handsome until the most advanced age, and by constantly using will prevent the toothache. It was used and most highly approved of by the late Majesty GEORGE THE FOURTH, (the most perfect gentleman of the age he lived in,) and by the principal nobility of his Court; and has never failed to give the most unqualified satisfaction. In several instances the inventor has received considerable presents from patients as a mark of gratitude for the benefit their Teeth had received from the use of it. Mothers may test assured, that if their children have sound Teeth at present, they will by using this DENTIFRICE never have occasion to employ a Dentist—as their teeth will remain sound and beautiful until the most mature age.

☞ *Observe that* G. RILEY'S *name is signed, in his own hand-writing on the table of each box.*

☞ PRICE—HALF A DOLLAR PER BOX.

Messrs. PETERS & TILLEY, of Saint John, N. B., are my Wholesale Agents for the Provinces of New Brunswick and Nova Scotia, for the sale of the above celebrated article.
September 25. GEORGE RILEY.

Are patent.

TRIUMPHANT SUCCESS OF Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR

Colds, Coughs, Asthma, and Consumption.

THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the Great English Remedy.

It has been tested for upwards of seven years in Great Britain and on the continent of Europe, where it is universally considered the great and only remedy for this awful malady, and is now introduced to the public under the immediate superintendence of the inventor. Within three years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike astonishing and triumphant.

As a preventive medicine, and an antidote to the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs inflammation of the Lungs, croup, &c. it is unrivaled. But the Proprietors so confident of the merit of this great remedy, in the worst forms of consumption, that he prefers to have it used by the DYING INVALID, rather than by persons afflicted with some simple and less dangerous disorder of the throat and lungs;—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pronounced an infallible remedy in all cases, but it is the most INFALLIBLE remedy known to the civilized world. It is the best preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipient consumption—and it is the great and only remedy for that fearful *softening of the lungs—inflammation of the membrane, and tuberculous decay*, which are the last effects of that dreadful scourge, and which are erroneously supposed to be beyond the reach of medical aid;—the agent or proprietors of other medicines dare not claim for their preparations a power like this: they know that in no case have such effects been produced;—the grand object and purpose of the common 'remedies' is simply to *give relief—not to cure*; this is easily done by an intelligent Physician or Druggist; but while dallying with these delusive compounds, the patient rapidly declines, and every day places him farther and farther beyond the reach of hope.

Such is not the case with the Hungarian Balsam It is always salutary in its effects—never injurious. It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a fatal security. It is a great remedy—a grand healing and curative compound; the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquerable malady. It is in fact the *best remedy in the world!*

[From the John Bull, newspaper, London.]

There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life, which the medical faculty are unable to discover, or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analys
