MESSRS. GEORGE CARTER & Co. of this city advertise their seeds for 1886. This house is thoroughly reliable, and our farmers will, we have no doubt, do better by dealing with them than with other firms. They will send their Seed Catalogue for 1886 free on application.

MR. J. O'CONNOR, of Clinton, New London, sold his young stallion, one year and eight months old, sired by "Dean Swift," and out of his well-known mare "Nellie C." to M. A. White for $150,—by him re-sold to J. W. McLean of Graham's Road. This colt, no doubt, is a marvel among flyers.

All the services are well attended. Several of the priests from the country parishes are assisting the Cathedral clergy.

THE Benevolent Irish Society Literary and Debating Club held their regular meeting 24th February. The subject before the Club for debate was, "Who is the more beneficial to Society, the Farmer or Mechanic." After the subject was amply discussed, the majority of the meeting were in favor of the farmer. A regular meeting will be held this evening. The subject for discussion will be, "Is the National Policy a benefit or an injury to Prince Edward Island."

ONE of the assistants at the Small Pox Hospital named O'Hare was arrested last Friday for drunkenness, and an overcoat found on him which was identified as the property of Malcolm Steele, who died at the Hospital in November last. O'Hare stated someone very likely placed it in his bundle when leaving the Hospital. On Monday the Stipendiary Magistrate fined him $30 or thirty days for drunkenness, and he was remanded to answer the charge of having the coat in his possession.

MR. S. M. BEST, Secretary of the Scientific Institute, having resigned that office, on account of his taking charge of a school at St. Eleanor's, at a late meeting of said Society, the following resolution was moved by James McDonald, Esq., seconded by J. D. Seaman, Esq., and carried unanimously:

Resolved, That the best thanks of the Charlottetown Scientific and Literary Institute are due to S. M. Best, Esq., for the efficient service he has rendered in the performance of the duties of Secretary-Treasurer, and that we wish him the success in his new field of labor which his literary attainments and amiable disposition in the faithful discharge of the duties entrusted to him deserve.

WE are in receipt of the programme of an entertainment recently given by the Black Bush Literary and Musical Institute, and were we to judge by the names of the performers and the pieces performed, the audience must have enjoyed a rare literary and musical treat. Want of space alone prevents us from publishing the programme in full. After the entertainment the subject chosen for next evening's debate was, "Which is the most profitable to a farmer, to sell the product of the farm or feed it to stock."

WILLIAM DEARNESS was the name of an extremely deaf man, hailing from Montreal, who used to exasperate the waiters at the Rankin House, as they never could clearly comprehend whether he wanted lamb chops or poached eggs for breakfast. He was generally regarded as a wholesale watch trader and jeweller, and usually had his overcoat pockets pretty well lined with cheap timekeepers. The Customs authorities have been on his track for some time and recently pounced upon him, when he confessed to smuggling operations on a large scale. The upshot of the affair is that he has been fined $24,000 and has been stricken with paralysis, the probabilities being that so soon as the fine is paid, the smuggling business will have no more attractions for William.

Problems.

1. Some swallows had alighted upon a barn; at one flight the square root of half of them went away; at another eight-ninths of them; two swallows then remained. How many alighted on the barn?

2. A market woman found that when she counted her barrel of apples two by two, three by three, four by four, five by five, or six by six there was one remaining; but when she counted them by sevens there was no remainder. She said:

"As sure as I'm alive
I have less than thirty dozen
And more than twenty-five."

How many had she?

Gray and White Cottons, Prints, Cretonnes, Ginghams, &c., &c., &c.

A Voice from the Trade of Halifax.

WE, the undersigned Druggists, take pleasure in certifying that we have sold PUTTNER'S EMULSION OF COD LIVER OIL, &c., for a number of years, and know it to be one of the oldest, as well as *(especially of late)*, one of the most reliable preparations in the market for the cure of Consumption, Bronchitis, Asthma, Coughs, Colds, and all Lung Diseases. The sale of it, PUTTNER'S EMULSION, is steadily increasing, and is larger than for all other preparations of the kind in the market combined. We know of no article that gives greater satisfaction to those who use it, and we do not hesitate to recommend it.
