12. That if it be the opinion of Her Majesty's Government and those whose previous military training qualifies them to speak with authority upon the subject, that a Confederation of the British North American Provinces was prudent and desirable and requisite for their defence against any aggressive force from without that might be aimed at them or any one of them, then it is the duty of every loyal subject to respect that expression of opinion, to co-operate with Her Majesty's Government, to make all reasonable sacrifices in order to preserve the existing connection with the fatherland, and cheerfully aid in moulding the institutions of the country in the manner best adapted to secure so desirable an object.

13 That as regards the course adopted by the Government and Legislature of Nova Scotia to bring about a Union of the British North American Provinces, it was under the instructions and as nearly as possible in accordance with the recommendation of Her Majesty's Government, as set forth in a despatch dated the 3rd day of December, 1864, written after the sitting of the Quebec Conference, and addressed to Lord Monck as Governor-General etc., etc., in which, among other things, occurs the following:

"It appears to them (Her Majesty's Government), therefore that you should now take immediate measures in concert with the Lieutenant Governors of the several Provinces for submitting to the respective Legislatures this project of the Conference. And if, as I hope, you are able to report that these Legislatures sanction and adopt the scheme. Her Majesty's Government will render you all the assistance in their power for carrying it into effect. It will probably be found to be the most convenient course that, in concert with the Lieut. Governors, you should select a deputation of the persons best qualified to proceed to this country, that they may be present during the preparation of the Bill, and give to Her Majesty's Government the benefit of their counsel upon any question which may arise during the passage of the measure through the two Houses of Parliament."

And this recommendation was but the embodiment and reiteration of the sentiments of Her Majesty's Government as delivered by the late Duke of Newcastle expressed in relation to the subject, and to be found in a despatch to the Earl of Mulgrave, dated the 6 h day of July 1862 After refering to some such conference or consultation as that held at Quebec, that great statesman and friend of the Colonies remarked.

"But whatever the result of such consultation might be the most satisfactory mode of testing the opinion of the people of British North America would probably be by means of resolution or address proposed to the Legislature of each Province by its own Government."

TUESDAY 11th.

Repeal resolutions under decussion, when Mr. Flynn spoke at some length in favour of Repeal, denied the charge of disloyalty as applied to his party, and expressed himself confidently as to the result of the delegation to England. Mr. Blanchard followed in support of amendments submitted on the previous day, and combatted the arguments of Atty. Gen. and Messrs. Troop and Flynn.

WEDNESDAY 12th

In the forenoon Mr. Blanchard again took the floor, and concluded his address by moving amendments. In the afternoon Mr. Morrison addressed the House upon the constitutional aspect of the question. Mr. Smith followed arguing principally against the mode in which the Union had been affected.

THURSDAY, 13th.

After a number of petitions had been presented Mr. White suggested that a Committee be appointed to confer with the Mayor of Halifax, who holds a sum of money, granted by the Provinces of Ontario and Quebec, to the suffering poor, in reference to the expenditure of the amount. The Government are also in possession of a sum donated to the distressed fishermen, and as he presumed, the money was intended for the relief of the destitution generally, he thought that it would be well that there should be an understanding as to how it was to be appropriated at as early a date as posible. Messrs. Northup, Blanchard, Ryerson, Townsend, and others, made brief remarks upon the subject, and a Committee was appointed as suggested.

Mr Blanchard, in refering to a statement by Hon. Mr. Annand in the Legislative Council as to the probable early adjournment of the House, asked the Government for further information.

Hon. Attorny General replied that it is the intention of the Government to adjourn the House at an early day, until such time as the delegation, about to proceed to England, shall have tried out the question of Repeal. The House will probably be adjourned for three months.

The Repeal debate was then resumed, when the House was addressed by Mr. Northup and Dr. Murray,

FRIDAY 14th,

The House was addressed by Messrs. Dickey, Chambers, Alex, Campbell, and Kidston in favour of Repeal resolutions, and by Mr. Pineo against. Mr. Pineo thought an error had been made in not submitting the question of Confederation to the people before making it law, but now that we are confederated he was of opinion we should "make the best of it."

SATURDAY, 15th.

Addresses on Repeal resolutions were made by Messrs Kidston, Chambers, Lawrence, Vail, Hooper and DesBrisay; while the latter gentleman was speaking, a call was made to clear the galleries, and then the House adjourned.

MONDAY, 17th.

This being the day for drawing the committee on the petition against Mr. Blanchard's return, the petition was read, and that gentleman by his counsel, James McDonald, Esq., appeared at the Bar of the House, and entered his protest against the proceedings, on the ground that both of the bondsmen of the petitioners were members of the House. The Hon. gentleman cited several cases in support of his objection. The Hon. Speaker ordered the galleries to be cleared while the question was being decided by the House.

Subsequently the following Committee to judge upon the case was chosen by ballot and sworn:—Hon. Mr. Robertson, Messrs Lawrence, Ross, Ryerson, Johnson, Freeman and D. McDonald. The House then adjourned.

As he did not return home at the time he was expected, his little boy was sent into the woods to look for him, where he found the unfortunate man lying upon his face with a tree across him, two limbs of which had pierced his back. He had remained in that position for four hours, suffering the greatest agony. He was removed to his home, and at last accounts was still living.

Mr. Casper Hiltz, of Murder Point, about eight miles from Mahone Bay, with his oxen, went into the woods on the 8th inst., for a load of firewood. His brother becoming alarmed at his prolonged absence, went to look for him, and found the unfortunate man under a large load of wood, the team having been upset.—Mr. Hiltz liaed but a few minutes after being dragged out.

LONDON. Feb 15—Lennon, who was convicted of treason-felony, but not of murder, was yesterday brought before the court and sentenced to imprisonment at hard labor for a term of 15 years. UNSOLICITED TESTIMONY.

From Rev Francis Lobdell, Paster of the South Congregational Church, Bridgeport, Connecticut.

"I consider it a duty which I owe to suffering humanity to bear testimony to the virtues of DR. WISTAR'S BALSAM OF WILD CHERRY. I have used it—when I have had occasion for any remedy for Coughs, Colds, or Sore Throat—for many years, and never in a single instance has it failed to relieve and cure me. I have frequently been very hoarse on Saturday, and looked forward to the delivery of two sermons on the following day with sad misgivings, but by a liberal use of the balsam my hoarseness has invariably been removed, and I have preached without difficulty.

I command it to my brethren in the ministry, and to public speakers generally, as a certain remedy for the bronchial troubles to which we are peculiarly exposed."

AN EFFECTUAL WORM MEDICINE.

Brown's Vermifuge Comfits,

OR WORM LOZENGES. MUCH SICKNESS, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worm, so hurtful to children.

Children having Worms require immediate attention, as neglect of the trouble often causes prolonged sickness.

Symptoms of Worms in Children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making BROWN'S "VERMIFUGE COMFITS" is such as to give the best possible effect with safety.

A NEW AND GRAND EPOCH IN MEDICINE.

Dr. Maggiel is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach, and paralyze the bowels, must give precedene to the man who restores health and appetite with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of wonderful and all-healing Salve.

These two great specifics of the Doctor are fast superceding all the sterotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dose, and in which every box full taken creates an absolute necesity for another. One or two of Maggiuo. Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits lights and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected its functions are restored and if the nervous system Is feeble it is invigoratitg. This last quality makes the medicine very desirable for thei wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfecting power of Maggiel's Salve. In fact, it is here announced that Eaggiel's Billious, Dyapetic and Diarrhœa Pills cure when all others fail. While for burns, sealds, Chilblains, Cuts, and all Abrasions of the skin, Maggiel's Salve is infallible. Sold by J. Haydock, 11 Pine street, New York, and all druggists, at 25 cents per box.

DR. WISTAR'S BALSAM OF WILD CHERRY—In the whole history of medical discoveries no remedy has performed so many or such remarkable cures of the numerous affections of the Throat Lungs and Chest, as this long tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remidial powers are comprehensite enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint. feb 5 1m

TARIFF, 1867!

Interpretations and Instructions to be observed throughout the Ports of the Dominion of Canada in operating the Tariff Act of 1867.

1.—ACIDS.—Acids do not include "Oripiment" (Yellow) or "Realger" (Red)

2.—BAGS.—Bags when not new may be imported free for the purpose of being filled with Grain, Seed, or Wool, for exportation—on Bonds for exportation being given—or the amount of duty deposited, at discretion of the Collector.

3—CHURCH BELLS.—In the admission of Church Bells duty free, the Collector must be duly certified of the intention of the importer to use them only for such purpose.

4.—CRUDE—The term "Crude" implies the first condition of every article (as merchandize,) and applied to Whale Oil, only when landed in their original packages on board ship. See Whale Oils.

5.—GYPSUM.—Ground Gypsum may be admitted free when imported expressly as Manure.

6.—MACHINERY.—The declaration or Oath of the Importer must be given to the effect, that the machinery, for which exemption is claimed, is to be used in the original construction of a Mill or Factory.

7.—MODELS.—Models are held to be such only when they cannot be used as the articles of which they are said to be the models, such as Stoves or Grates.

8.—PRUNELLA.—The article exempted under this head is the fabric generally used for the uppers of Ladies' boots and shoes; and fabric not so generally used should not be admitted.

9.—SETTLERS' EFFECTS.—When entry of "Settlers' Effects" is not made by the importer in person, his declaration to the correctness of his statement of facts must be made before a Justice of the peace. The exemption in favor of "Settlers" is not to apply to persons domiciled in Canada, or who have been absent from Canada for a shorter term than five years.

10.—SOLE AND UPPER LEATHER—Sole and Upper Leather does not include Leather dressed and prepared for purposes, other than the manufacture of boots and shoes, the value of which is higher than sole or upper Leather.

11.—SUGAR.—In testing the article of Sugar for duty by the Standard provided by the Department, it is of the highest importance, in the interest of the Revenue and of the fair trader, to establish an uniform system in the use of such standards. A rigid adherence to the following simple scale, is therefore enjoined in the valuation of sugar for duty throughout the Ports of the Dominion:—

When equal to No 1		per 100 lbs	$3 60
" "	"No 3 but not equal to No 1	"	2 60
" "	"No 6 " " to No 3	"	2 25
" "	"No 9 " " to No 6	"	1 90
When not equal to No 9		"	1 68

12.—WHALE OIL.—In the entry of Whale Oil, duty free, the importer must produce a certificare duly attested by a Consul or Consular Agent, at the Port of Exportation, setting forth the conditions required by Law, and stating the marks of the casks and the quantities contained therein.

13.—UNWROUGHT OR ROUGH.—The term "Unwrought" applies to stone which has undergone no process of manufacture beyond chipping to reduce bulk. "Rough" to casting which have undergone no process of finishing, such as filling, turning or planing.

14.—WOOD.—The word "Unmanufactured" is to be understood as applying to all timber which has undergone no precess of reduction other than rough hewing.

15.—SHIPS' GEAR, &c.—Under the head "Ships" it will be observed that four articles viz:—"Cables of hemp and grass." "Cordage," "Sail Cloth or Canvas, from No. 1 to No. 6." and "Varnish, black and bright," are free only when used for ships or vessels. Entry of these goods must be accompanied with a declaration or Oath that they are to be used for vessels only. When duty paid, a Drawback will be allowed when evidence is furnished satisfactory to the Collector at whose port the duty thereon was paid, that such articles have been actually used in the building, repairing or rigging or outfit of a ship or vessel. 3i—feb 19.

PRESENT:

His Excellency the Governor General in Council.

On the recommendation of the Honorable the Minister of Customs and under the authority given and conferred by the 123 clause of the Act 30 and 31 Vict, Cap. 6, intituled: "An Act respecting the Customs."

HIS EXCELLENCY in Council has been pleased to make and prescribe the following "Regulations" respecting the Warehousing and Bonding of WHEAT, MAIZE or other GRAIN that may be ground and packed in bond, that is to say:

1. That the Collector or other officer of Customs at any Warehousing Port in the Dominion of Canada, may deliver without payment of duty, to the Importer of any Maize or other grain from which flour or meal can be manufactured on proper entry being made of the same, any quantity of such Maize or other grain for the purpose of drying, grinding and packing in such place and on such premises as shall be particularly described by such importer or owner.

2. That such buildings used for drying, grinding and packing of Maize or other grain and the premises thereto belonging, with the description to be given thereto as aforesaid, shall, for the purposes of drying, grinding and packing Maize and other grain under the above mentioned Act, be deemed and considered a Government Bonded Warehouse, and that none of the Maize or other grain so brought into the said drying, grinding and packing building or upon the said premises, shall be removed therefrom without a proper ex-warehouse entry and due payment of all duties on the same, if intended for home consumption within the said Dominion, or upon due entry thereof for removal or exportation under the usual bonds; nor shall any flour, meal or other products from the maize or other grain aforesaid, be removed from the said premises without due entry as aforesaid, either for consumption as aforesaid, far removal or exportation and payment of all Customs duties legally due on the flour, meal and other products into which the said maize and other grain shall have been manufactured as the case may be, allowance having first been made of five per cent on the said flour or meal for shrinkage in those cases in which the corn or other grain has been kiln-dried before grinding.

3. That before the importer or owner of any maize and other grain aforeside shall, for the purpose of drying, grinding and packing, been entitled to obtain the delivery thereof either ex-ship upon the importation into the said Dominion, to be carried immediately to the drying, grinding and packing buildings and premises aforesaid, or out of any Customs Warehouse, in which the same may be warehoused, he shall give bond with two sufficient sureties to satisfaction of the Collector of Customs at the port where such Maize and other grain are imported or warehoused, in a penelty of double the amount of duties payable on the same, with the conditions that the whole amount of the duties payable on the same, with the conditions that the whole amount of the duties so payable upon the quantities of maize and other grain so delivered upon arrival out of Warehouse as aforesaid, for the purpose of being dried, ground and packed in bond, shall within six months from the date of the bond to be so entered into, be well and truely paid to the Collector of Customs aforesaid for the use of Her Majesty, and the said importer or owner shall before he can obtain the delivery, aforesaid, further enter into and execute to the Collector for the use of Her Majesty as aforsaid, a general bond, the said importer or owner in the penal sum of one thousand five hundred dollars, and two approved sureties in the sum of three hundred and seventy-five dollars each, conditioned that at no period shall the quantity of maize or other grain, or the product thereof in the said building or premises be less than the quantity on which the bond or bonds for duties herein before mentioned, shall be outsanding and unpaid.

4. And for the purpose of further securing the due observance of the foregoing Regulations, the Collector of Customs, the Surveyor of Customs or warehouse keeper, or other approved officer of Customs at the port where the maize and other grain shall be so bonded or at port nearest to the said drying or grinding and packing premises, shall at all times when such operations are being carried on therein have free access to and upon the said drying, grinding and packing buildings and premises for the purpose verifying the quantity of maize or other grain and their products therein, and any reasonable expences attending such inspection shall be bore and deferyed by the importer or owner of the maize and other grain so undergoing drying, grinding and packing in Cond.

The order of his Excellency in Council of the 1st of August, 1867, prescribing Regulations on the above subject, but restricted to the Provinces of Quebec and Ontario, is hereby revoked.
