CHILDREN AT THE FAIR.

(Continued from First Page.)

in a musical instrument has long been the dream of musicians and manufacturers of musical instruments, but it has never been realized until now. The cabinet organ is lacking in power, and the pipe organ lacks variety unless at an expense beyond the general reach. If the vocalion are found both power and variety, adapting it especially for halls and smaller churches. Messrs. Mason & Risch manufacture at Worcester, Mass., for the United States and foreign markets, and control the Warren factory at Toronto to supply the Canadian and English trade. On the opening day Sir John and Lady Macdonald made straights for the Annex, the vocalion being their special attraction. The public ever since have evinced an equal interest.

E. S. Williams & Son.

This old and reliable firm of piano makers have their exhibit on the south side of the main building. It consists of two grand pianos, 7 upright and one square, one of the grands being a concert grand and the only one on exhibition. All the instruments are splendid specimens of their workmanship, and admired by all for their elegant finish and full, rich and clear tones. The concert grand is an instrument that has no superior and probably no equal on the continent. It weighs 1300 lbs. and is valued at $1 per lb. This is the pioneer piano house and distinctly Canadian; and the fact that their pianos are purchased by musical experts in preference to the best grades of American pianos is the best tribute to Canadian skill and enterprise. They have mammoth works both at Toronto and Oshawa, and both are taxed to their utmost capacity to supply the orders.

Hamilton Manufacturing Co.

are in the annex, and make a big display of their manufactures, which consist of baby carriages, girls' tricycles, velocipedes, children's wagons, carts, sleighs, coasters, &c. In carriages they manufacture some 40 styles, some of them being entirely new and original. There are features about them also that are deserving of attention. The wheels are superior to any in the market, being all steel with the spokes screwed into the hubs, making them strong and durable, and all are tinned by a new and improved tinning process. A combination baby carriage and rocker is something at once useful and original, and is always surrounded by hosts of admirers. It appeals to our common sense, and no doubt will tickle the popular fancy. One of the claims of the company attached to a bicycle reads: "We advance in cycles and lead on wheels," which claim is well borne out, as everything is finished in the most superior manner and nothing but the best material used.

Dominion Organ & Piano Co.

have a spacious building of their own southeast of Main building, and show one of the largest exhibits on the grounds. There are 10 upright and two squares, in California rosewood, English oak, Cocoa Bola, Queen's Burl, rosewood, ebony and mahogany. The organs are in a variety of styles, including pipe backs and cabinet styles, and also church organs in walnut, mahogany and ebony. The company has been in existence 14 years, and the vast proportions to which the business has attained is the best proof of the superiority of the instruments manufactured. Pianos are manufactured in 16 or 18 styles, and one striking feature is the handsome appearance of the cases in fancy woods. Their factory is at Bowmanville, employing 243 hands, and turns out 70 to 80 pianos and 260 organs per month. The instruments of this firm have achieved a world-wide reputation and the company have representatives in every civilized country on the globe. Toronto agency, 68 King-street west.

It might be mentioned that the Dominion organ has a number of advantages peculiar to itself, among which are "Scribner's patent vocative and humane stop, giving a pipe-like quality of tone possessed by no other; "Foley's Automatic Pedal Cover," a contrivance that covers the pedals and bottoms, making them mouse and dust proof, and a still further improved attachment of a similar nature, Russel's Patent Overlaying Tubes, and other ingenious devices and improvements which this enterprising firm have adopted, and which combined with musical qualities have given their organs the high standing they possess. At the Ottawa Exhibition just over the Dominion Piano took first prize.

J. F. Smith

of Roche's Point is one of the cattle exhibitors and in shed No. 15 on the west side shows a splendid specimen of a Jersey bull. He is called "Ladies' Prize," registered No. 17589 in A.J.C.C. Sire, "Medorse"; dam, "Lady Butterfield"; breeders, G. B. & C. L. Smith. Mr. Smith is late of Huntsville, Muskoka.

The Abernathy Farm Gate.

Mr. John McRae of Mooretown, Lambton, exhibits near the wind mills a most ingenious farm gate, known as the Dyer patent. It is simple, handy and serviceable, and has an adjustable latch that will rise and fall as the gate is raised and lowered. It is besides a marvel of cheapness.

Aerial Railway.

One of the most popular amusements of the fair is Mackenzie's Aerial Railway from Presque Isle Park. It is south of the main building. The ride is obtained by holding on to a pair of handles attached to wheels, which run on inclined wires overhead. All who have tried say the sensation is delightful. Safety baskets are provided for the little ones.

Royal Cattle Spice.

In the main building Thomas Myers, lately arrived from England, has an exhibit of royal cattle spice which is attracting the general attention of farmers and stock-raisers generally. The spice is not for cattle alone but for horses, sheep, pigs, poultry or other domestic animal. It is not a medicine, but a condiment, given that the animals may relish their food on the same principle that the human family uses pepper, mustard and other condiments. It has been established in England 27 years, and is endorsed by all the great cattle kings and stock raisers of the United Kingdom. It has carried off more medals than any other spice in the world. Her Majesty the Queen and various other crowned heads in Europe and all the high dignitaries who pride themselves on their herds use the spice sprinkled on the fodder given to the cattle to stimulate the appetite and put on beef. Mr. Myers' object in coming to America is to build up a business larger if possible than the one in the Old World.

Canopy Hammocks.

The Fuller Manufacturing Company of Trenton, Ont., exhibit samples of their goods in front of the annex. These hammocks are the very embodiment of ease and luxury, combined with durability and convenience. They are constructed of thin elastic hardwood slats, suspended by galvanized wire cables from the upright posts of a strong, though light and portable framework, surmounted by a beautiful striped awning, water-proof and imperious to the glare of the sun. It is a wonderful improvement over the old netted kind, as the slats do not close up and entangle the dress like the other and they form besides a home-like and picturesque ornament to any lawn. The canopy hammock is manufactured complete with pillow at different prices, and is also supplied without the canopy, or the hammock alone can be ordered. Parties who have used them testify to the pleasure and comfort they have received from their use. In fact it seems one is in one of the most desirable retreats, and induces people to court the fine and healthful outdoor air.

The canopy hammock tent is another desirable article for seaside camping or home use, as the sides can be looped up at will. In this way it can be used as a closed tent or as a canopy.

R. H. Wanzer & Co.

have part of their exhibit on the ground floor in the northeast corner of the main building, and the sewing machine part in the first gallery. A full display is made. The celebrated Wanzer lamp and the Wanzer patent portable cooker and Wanzer portable and irons downstairs. This lamp has no chimney, no smoke, no odor, no explosions, and is as the cheapest mechanical lamp sold, burning only a pint of coal oil in 8 hours. The cooker is in several size up to a capacity of 3 or 4 courses for a large family, and the cost for cooking a dinner in the largest size is only about half a cent. The advantages of these articles in economy and effectiveness are so apparent that they are bound to come into universal use. The Wanzer Co. have the finest exhibit of sewing machines they ever made in Toronto. Their new styles and best woodwork is the finest ever produced. The Wanzer gas fire places for spring and fall use are cheap and most economical. Be sure and examine them.

Aurora Sienna.

Rd. Wells of the Queen's Hotel, Aurora, is exhibiting in Fleury's Sons section of the agricultural implement building samples of sienna, showing the sand as dug up and in the pure washed sienna. This is another valuable addition to the minerals of Canada. Heretofore sienna has only been found in England and Italy and the discovery of a large deposit in Canada will create a revolution in this important article of commerce. Raw it makes a rich looking fawn color and when burnt it gives a cherry tint. Specimens of wood show what it is capable of accomplishing. On all wood work it fills up the pores and puts on a beautiful finish. A binder and other implements painted with this Aurora mineral are exhibited by Fleury's Sons and no more pleasing or restful colors will be found on the grounds. The deposit on Mr. Wells' farm covers 30 acres and averages from one to three feet in depth on the course of a spring creek, with mineral deposits at the head of every peculiar porous rock. All the manufacturing required is to stir the mineral up in water and the sand sinks to the bottom, while the sienna forms a layer on the top. Parties interested will be shown the lands, &c., by Mr. Wells at Aurora, as he is ready to dispose of them to the right parties.

"Copperine."

Alonzo W. Spooner of Copperine fame called in at The World yesterday. His famous non-fibrous anti-friction box medal is on exhibition at the fair grounds. This metal is today used in most of the machinery manufactured in the country. In new machinery it is of priceless value and in repairing old it is practically indispensable. The Toronto waterworks engine bearings are lined with it and by its use have run for five weeks without stopping. In order to better realize the conditions of such a record, it must be stated that the weight of shafting on this machinery is about twenty tons and the pressure is over two hundred and fifty tons. It has given excellent satisfaction. Nothing previously used can compare with it. The devices for putting up the metal are all patented.

Mr. Spooner, the inventor, is an old mechanic who has made this metal the study of a lifetime and deserves the hearty patronage of all the machinery men of the country. Copperine is manufactured only at Port Hope, Ontario.

Office Furniture.

Visitors at the Exhibition last year will remember the fine exhibit of office and library furniture made by Messrs. Guggleberg Bros. of Preston, Ont. We are informed that they were unable to exhibit this year on account of the enormous demand for their celebrated Patent Rolling Swing Desks. They have so many unfilled orders on hand that they found it impossible to spare desks enough to make an exhibit. However, a full line of their goods can be seen at their Toronto Salesroom, 3 Leader-lane.

Puritan Plug Cut

is not a "cheap" tobacco; it is manufactured from the finest tobaccos procurable, and is placed on the market not for a day or a year but for all time. Those who have tried it pronounce it a remarkably fine, cool and sweet smoking tobacco. As its merits become known, the demand increases. Many years' experience in handling tobaccos with every facility for manufacturing and purchasing, insures the smoker a good article at a price consistent with the quality of same. D. Ritchie & Co., Montreal, the oldest cut tobacco manufacturers in Canada. 136

Samson Kennedy & Co.

The World's Inquisitive Young Man took a look through the extensive dry-goods warehouse of Samson, Kennedy & Co. yesterday and was delighted and amazed with the attractive and immense stock carried. He was first shown over the top floor, the men's furnishing department, where he saw full lines in hosiery and gloves, and everything pertaining to men's wear. The principal feature here is the men's neckwear; while in rubber clothing, shirts, collars and cuffs there is an endless variety. Coming to the next floor below he was met by a brilliant array of ribbons, laces, dress goods, mantle cloths, silks, plushes and fancy wool goods of the most beautiful tints imaginable; and all kinds of muslins, jerseys, etc.

In the haberdashery department on the next floor much of interest is seen. The World was informed that this department is the largest of its kind in Canada. On all sides was an endless profusion of everything conceivable in staple haberdashery. There were dress trimmings of all kinds, Berlin wools, art materials, and an immense variety of German, Austrian and French fancy goods. The reporter's eyes fairly bulged out at the brilliant display of buttons and the thousand and one lines of notions that were so attractively arranged. The most recent novelties in fancy necessaire goods suitable for Christmas presents were to be seen; gonps, jewel cases, including one style with musical box in interior, toilet, manicure and smoking sets mirrors, barometers, albums, etc. etc., all beautifully finished. On the ground floor is the staple department. Here are to be seen all classes of domest c and imported goods. The stock is unusually large and well assorted. There are bales upon bales of Canadian underwear, cotton and woollen goods, linens, prints, cretonnes, linings, etc.

A specialty in this department has been introduced this year in the importation of German table linens of decidedly taking appearance. On the basement floor are all kinds of blankets, flannels and heavy goods. Just about this time in considerable demand. In rear of the establishment is the packing and shipping room, where many busy clerks are more than employed. The firm report that they are turning out more goods up to date this year than ever turned out before.

To thoroughly appreciate an article it is necessary to compare it with others. Not until the "Athlete" made its appearance in the market were cigarette smokers enabled to judge of the vast difference that exists in tobaccos. Result—the "Athlete" in a very short time proved its superiority by outselling the oldest and most extensively advertised brands of cigarettes in the market, notwithstanding the price (5) that were offered as but to those unfamiliar with this brand. Our sales are simply enormous and constantly increasing. The only inducement we offer smokers is a superior article at a fair price. D. Ritchie & Co., the largest cigarette manufacturers in Canada. 136

Diamonds and Jewelry.

Money is saved in buying diamonds, watches and jewelry at D. E. Cunningham's, 77 Yonge-street, 2 doors north of King. 136

City Hall Small Talk.

The work of laying the twin conduits across the Bay will commence next week.

When ever the Leader-lane widening is settled the upper part is to be asphalted.

The Scaffolding Committee was to have met yesterday but a quorum could not be got together.

The City Council will probably meet on Monday night to discuss the Drill Shed complication.

The work of laying stone setts in the Parkdale subway has been suspended owing to the supply of stone failing.

The amount of taxes paid in on the second instalment is estimated at $400,000, leaving $300,000 due next month.

The latest scheme on deck is the sale of the present Registry Office and the erection of a new one on the present courthouse site.

There is great trouble experienced by the Assessment Commissioner in finding the owners of the asylum lots recently divided up.

It is stated that E. A. Macdonald will not run again for alderman from St. Matthew's ward, his latest ambition being to be the first Reeve of Chester.

A building permit was issued yesterday to O'Keefe & Co. for a brick addition to the brewery at Victoria and Gould-streets to cost $11,000. Charles Steinle was given one for a two-story brick factory in rear of 258 King-street east to cost $4500.

St. Louis Lager.

At the Paris Exposition, where Bass, Barclay and Perkins, Allsopp and Guinness, the world renowned English brewers, as well as hundreds of rivals from Austria and Bavaria competed, the experts pronounced the St. Louis beer superior to any malt liquor ever drunk upon the Continent. W. E. Turner, general-agent, 74 Colborne-street. Local agent, William Mara, 382 Queen-street west. ed

For Singers—Adams' Tutti Frutti.

THE JUNCTION COUNCIL.

What the Town Fathers Did at their Meeting Thursday Night.

Thursday night the Council of West Toronto Junction held a busy meeting. All the members except the Mayor and Deputy Reeve Laughlin were present. Reeve Armstrong was in the chair.

Communications were received from J. B. Bruce asking for a 16-foot sidewalk in front of his new block in Dundas-street, he offering to pay for the work of removing present walk and relaying the new one. From Amos Bean, B. P. Shiff and J. W. Harrison applying for the position of street commissioner in the place of G. W. Holdenby, resigned.

From Messrs. McQuillan & Co., contractors, to the effect that the waterworks were now complete and ready for the test, which calls for 200 pounds pressure at the pumping station for five consecutive hours as a test of engine, pumps and mains, while the fire test requires four efficient streams 125 feet high from four hydrants in different parts of the town, out of one hundred feet of 2½ inch hose 1½ inch nozzle. From the Board of Health, drawing the attention of the council to cellars being drained into box drains. Referred back for further information.

The petition of J. C. Horner and others asking that a portion of Lotten-street be block paved on the local improvement plan was referred to the clerk. The application of H. M. Halford for shop license was referred to the Finance Committee.

Dr. McConnell of Brockton addressed the council in reference to the opening up of Humberside-avenue to Dundas-street. He stated that he held an offer for a part of his property from a company desiring to locate an extensive milling concern which he felt inclined to accept, and wished to know what action the council proposed to take previous to closing, as the opening of the street would materially affect the present plan of the property. The block-paving petition of Lakeview-avenue property owners was rushed through.

Mr. Hess was again present, and stated he was now in a position to arrange with the town. He would start with at least 50 skilled mechanics, and would erect a four-story building at $125, and hoped to be in running order before the new year provided the necessary arrangements can be made. He was requested to make this proposition in writing. Councillor Spears reported water-metres would cost from $525 to $620 according to size, and a telephone service connecting the waterworks station with the town about $1200.

Only one tender was received for coal, McCormack & Jackson, 900 tons screened coal at $4.80 per ton delivered as required. This was accepted, on condition that should less be required the price would remain the same.

The action of Carter's Little Liver Pills is pleasant, mild and natural. They gently stimulate the liver and regulate the bowels, but do not purge. They are sure to please. Try them. 36

Notes of Amusement.

The Hanlon's Fantasma Company will give two performances at the Grand Opera House to-day, Matinee at 2. The engagement will close with the performance this evening. Next week Daniel Sully will appear in his great Irish comedy Daddy Nolan, which is said to be brightest and funniest comedy on the stage.

There will be two more performances of "Lost in New York" at Jacobs & Sparrow's Opera House: At 2 p.m. and at 8. All next week the strong melodrama, "Under the Lash," will hold the boards.

The regular weekly Saturday afternoon pupils' concerts which were of so much interest to the College of Music students and their friends last season, will be resumed next Saturday, Sept. 21, at 3 o'clock, when a very interesting program will be provided. Friends of the pupils are invited.

Call at Gidden, the old reliable cigar store, 182 Queen-street West, for your cigars and tobacco, the cheapest place in the city; everything below cost.

Two Dangerous Gentlemen Under Arrest.

George Saunders and Charles Jarvis, two men released last month from Kingston Penitentiary, were arrested yesterday afternoon on suspicion of being concerned in the Berner's burglary at 572 Queen-street east, and that of which C. B. Oakley, 996 Bathurst-street, was the victim a few days ago. All the Berners property except the money was found on Saunders. A full kit of burglars' tools, supposed to belong to the prisoners, is also in the possession of the police. Inspector Stark believes that Saunders and Jarvis were the parties who attempted John Malcolm's safe, 421 Queen-street west, and G. H. Shaw, 885 Bloor-street west.

The Monster from Dufferin.

Down in a tent next to the St. James Hotel York-street, there is to be seen part of the remains of the mammoth recently unearthed on Mr. W. D. Jelly's farm in the township of Amaranth, county of Dufferin. These remains include a horn over 12 feet long, teeth that weigh 16 pounds, ribs 50 inches long and the other bones in proportion. Mr. John Jelly, an old and esteemed resident of Shelburne, is in charge of the exhibition and ready at any time to give an account of the monster's discovery.

The Grand Jury's Work.

These bills were returned yesterday: Thomas Fahey, assaulting peace officer; John Southworth, house-breaking, larceny and receiving, true bills; James E. Walton, fraudulent appropriation; Thomas Pearce and John Pearce, larceny and receiving, no bills; Thomas Maloney, felonious injury; Elizabeth Whiteside, assault occasioning grievous bodily harm; true bills. George Johnston and William Hodgson, burglary and larceny; Annie Ewart, assault occasioning grievous bodily harm, no bill.

Gibbons' Toothache Gum is guaranteed to cure toothache instantly. Prepared by J. A. Gibbons & Co., Toronto, and sold by druggists. Price 15 cents. 6

At the Hotels.

The Buffalo Polo Club are at the Queen's.

Capts. Allan, Port Dover, is at the Queen's.

J. G. Ogilvie, Montreal, is booked at the Rossin.

Dr. Burns and wife, Caledonia, are at the Palmer.

E. E. Flagg and wife, Gananoque, are at the Palmer.

Hugh C. Dennis, Cobourg, is registered at the Rossin.

Mayor Derbyshire, Brockville, is staying at the Walker.

Captain A. M. Campbell, England, is at the Queen's.

Samuel Armstrong, M.L.A., Parry Sound, is staying at the Walker.

W. V. Heygate, England, one of the directors of the G.T.R., and Miss Heygate are registered at the Queen's.

Dr. H. R. Hopkins, Buffalo; Dr. J. W. Phillips, Philadelphia, and Dr. D. A. Harrison and wife, Brooklyn, are at the Queen's.

Among the Societies.

L.O.L. No. 588 had three propositions last night. Bro. E. Rowers presided.

L.O.L. No. 173 conferred degrees upon several candidates last night. Bro. E. Major presided.

Legion No. 6, Select Knights A.O.U.W., had routine business last night. Bro. Forbes presided.

Queen City Sanctuary, A.O.S., had one initiation last night. Bro. Chick presided.

Toronto City Council No. 2, R.T. of T., had two initiations and five propositions last night. Bro. Buchanan, P.D.C., presided.

Look Out for Him.

A youthful real estate schemer is offering small houses on monthly payments and using the name of a real estate firm in King-street east as a leader. When his advertising bills came due some time ago the firm in question repudiated him; now, however, they continue to allow their name to be used by him to push his monthly instalment scheme.

Don't be Humbugged

with the foolish idea that Catarrh cannot be cured. The world moves, and medical science is progressive. The proprietors of Dr. Sage's Catarrh Remedy will pay $500 reward for a case of Nasal Catarrh, no matter how bad or of how long standing, which they cannot cure. Remedy sold by druggists, at only 50 cents.

The Pearce Family Arraigned.

At the General Sessions yesterday the numerous members of the Pearce family were arraigned on the various charges of burglary, shooting and receiving stolen goods. All pleaded not guilty. They will be tried next week.

THE RACE WAS A FARCE.

AND THE REFEREE'S DECISION HAS NOT BEEN GIVEN.

Gaudaur Finishes Ahead of Teemer But the Smoky City Man Claims a Foul—A Slugging Match After the Race—General Sporting News.

PITTSBURG, Sept. 13.—Gaudaur defeated Teemer in the scull race at McKeesport this evening in 22 minutes. Teemer claims a foul.

The race was a miserable farce. At 5.35 Teemer rowed to the starting point amid the cheers of hundreds of admirers. Numerous bets of $100 to $75 and $100 to $60 were offered, but none were taken. Teemer's friends then offered two to one on their favorite and several small bets were taken. At 5.45 Gaudaur came to the starting point, and his trainer entered the boat at a quarter of a mile further up the course and took a position well out from the shore.

Gaudaur won the toss for position and took the north shore of the river. The referee J. D. Prangle, sporting editor of The Pittsburg Despatch, gave the word "go" at 5.47.

Teemer took the lead at the first stroke. When they had reached the point where Hamm set out Teemer was nearly two boat lengths ahead and soon took the inside track. Before a mile had been made Hamm was seen by those on the referee's boat to get directly in Teemer's way and collide with his boat. Soon Teemer fell behind both Gaudaur and Hamm, who rowed leisurely away from him, followed closely by the river craft carrying spectators. They reached the end of the course at 6.06.

Teemer although apparently pulling with all his might was nearly half a mile behind. Teemer's friends made a claim of foul when Hamm was seen to get in Teemer's way. Teemer continued over the course although the waves from the numerous steamers which had passed him were running four feet high.

At 7 o'clock the referee, Gaudaur, Hamm, Teemer and a few of their friends had a conference at a hotel. Teemer claimed the race on a foul. He said Hamm ran into his boat knocking a hole in it and causing it to fill with water. Hamm denied this and intimated Teemer was lying, whereupon the latter struck him a fearful blow in the face. The two men clinched and rolled on the floor but were separated, and Hamm was induced to leave.

The crowd outside clamored for a decision by the referee. In order to avoid violence tonight the referee said he would not announce his decision until to-morrow afternoon. It is generally believed Pringle will decide that Teemer won the race.

The crowd along the river banks and on the boats numbered 25,000 and as Hamm rowed ahead of Gaudaur the crowd mistook Hamm for Teemer and the shouts which went up for Teemer lasted several minutes before the mistake was discovered.

Gaudaur Declines Sculler's Challenge.

PITTSBURG, Pa., Sept. 13.—John A. St. John has received a cablegram from Searle, the champion sculler, offering to row Gaudaur on the Thames in one month for $2500 a side, allowing $500 for expenses. Objection he will row him on the Paramatta. Mr. St. John says Gaudaur will not row on the Thames or Paramatta, but is willing to row on any English or Irish lake.

BASE VICTIMS.

The Hams Defeated by the Home Team in a Six Innings Game.

The Tailenders were easily defeated by the Torontos yesterday. Of the Hams Ward was the only man outside of the battery to occupy his regular position. Gibbs was slugged without mercy. Touhey, their new catcher, is a good one. A feature of the game was Hoover's long hitch hit to centre for four bags. The Hams made two runs in their half of the seventh, but the game was called on account of darkness, and the score reverts to the sixth:

Dust From the Diamond.

The Torontos and Hams will do battle again this afternoon. Game called at 3.30 o'clock.

This is the last game with Hamilton here this season.

Serad and Blair will likely be the opposing pitchers this afternoon.

A Curling Convention.

The 22nd annual convention of the Grand National Curling Club of America takes place next Wednesday and Thursday at Albany, N.Y. Business will occupy the first day; on the second the 22nd annual championship quoit match for the Bell silver medal will be played.

Racing in the Rain.

SHEEPSHEAD BAY, Sept. 13.—The track was in horrible condition to-day and it rained at times. Results:

First race, 2 mile, sweepstakes for 2-year olds; $1000 added. Ralph Hayard won, Miss Belle 2, Corpete 3. Time 1.12 4-5.

Second race—The Speed Stakes, for 2-year olds and upward, $1500 added; ¾ mile. Volunteer won, Tenny 2, Madstone 3. Time 1.11.

Third race—The Mayflower Handicap, $1500 added; 1 mile and three furlongs. Tea Tray won, Retrieve 2, Marauder 3. Time 2.27.

Fourth race—The Bridge Handicap, for 3-year-olds, $2500 added; 1¼ miles. Hindoo Craft won, Eric 2, Diablo 3. Time 2.43.

Fifth race—Purse $1000, 1¼ miles. Letrecia won, Panama 2, Caruman 3. Time 2.14.

The World's Bicycle Tournament.

The first annual tournament of the World's Bicycle and Racing Association will be held in the Caledonian rink during the week of Oct. 21. The entry list promises to be very large and the management predict a big success.

During the Exhibition I take great pleasure in informing the public that I have reduced the price of Beef, Iron and Coca Wine to seventy-five cents. George A. Bingham, 100 Yonge-street.

MORTGAGE SALE
—OF—
FREEHOLD PROPERTY
In the City of Toronto.

Under and by virtue of a power of sale contained in a certain mortgage, which will be produced at the time of sale, there will be offered for sale by public auction by

OLIVER, COATE & CO.

at their Auction Rooms, King-street east, on

SATURDAY, SEPT. 28, 1889,

at 12 o'clock noon, the following valuable property, being composed of parts of lots 14 and 15 on the west side of John-street, in the City of Toronto, said premises being known as No. 243 (old number) Wellington-street west, having a frontage of 22 feet 7 inches, by a depth of 128 feet 6 inches, more or less, to a lane. This property comprises a solid brick house containing 9 rooms, and rented for $25 per month.

Terms—Ten per cent. at the time of sale, 15 per cent. in 30 days thereafter and the balance to be secured by a first mortgage on the premises to the Vendors, with interest at 6 per cent. half yearly, or the purchaser may have the option of paying all cash.

For further particulars and conditions of sale apply to Messrs. Maclaren, Macdonald, Merritt & Shepley, 23 and 30 Toronto-street, Toronto, Vendors' Solicitors. 233

Dated at Toronto, Sept. 6, 1889.

PUBLIC NOTICE IS HEREBY GIVEN that under "The Companies Act" letters patent have been issued under the Great Seal of Canada, bearing date the 30th day of May, 1889, incorporating James Ross of the Town of Sherbrooke, in the Province of Quebec, contractor, William McKenzie of the Village of Kirkfield, in the Province of Ontario, contractor, Fred. Robinson of Beaver, in the Province of British Columbia, lumberman, Nicol Kingsmill of the City of Toronto, in the said Province of Ontario, barrister-at-law, and Alexander Cattanch of the said city of Toronto, barrister-at-law, for the following purposes, viz: To purchase, acquire, hold and sell timber lands and other lands in lieu of otherwise, and also timber and timber limits by lease, license or otherwise and rights to cut and remove timber and other trees, and to manufacture and purchase and sell saw logs, timber and lumber, and carry on the business of lumbering in all its branches, and all other business incidental thereto or connected therewith, and also to manufacture and deal in furniture, doors, sashes, blinds, railway ties, cordwood, and any other articles of whatever kind or nature of which wood shall form a component part, and to build, purchase or otherwise obtain possession of and operate factories, grist mills, flour mills and saw mills, and machinery of all kinds, and to carry on all business incidental thereto, or usually connected therewith, with power to purchase, sell and deal in grain, flour and breadstuffs generally, throughout the Dominion of Canada; to purchase or acquire any business within the objects of this company, to sell or otherwise dispose of the business, property or undertaking, or any part thereof, for such consideration and in such manner as the company or its directors may think fit, and to buy and sell lands for profit,—by the name of "The Columbia River Lumber Company" (Limited), with a total capital stock of thirty thousand dollars divided into three hundred shares of one hundred dollars.

Dated at the office of the Secretary of State of Canada, this sixth day of June, 1889.

(Signed) J. A. CHAPLEAU,
Secretary of State.
