A New Serial.

In our next issue will commence a new serial entitled : "Fettered by Fate or the Man with the Black Glove." This will be a particularly interesting serial and should be read by all. Do not fail to get a copy of next week's issue.

Is Fredericton Strapped?

The following sign was displayed on a schooner lying at the North Market wharf yesterday. Relief for Fredericton.—Gazette.

We might just say for the information of the Gazette that the sign should have read "Relief from Fredericton."

Will Dissolve Partnership.

The firm of B. Yerxa & Co., will be dissolved the 1st of May next, Mr. McKay retiring from the business. Mr. B. Yerxa who will continue to carry on the grocery business will remove to the store on York street now occupied by Mr. Tupper, who intends going out of business.

Again to the Front.

We are again to the front with a beautiful line of spring and summer cloths suitable for suitings, pantings, and overcoatings. We carry the largest and best assorted stock of cloths to be found in the city, and can furnish you with anything in custom made clothing at the lowest prices. All work guaranteed at Joseph Walker's, the West End tailor.

Progressive Game Party.

The progressive game party given by the Misses Hagerman, Brunswick street, Wednesday night was a most successful and enjoyable affair. About nine o'clock the gong sounded and the games began. Ten tables had been organized and after three hours playing resulted in the prize going to Miss M. Gunter, Mr. Arthur Thompson capturing the booby prize. About twelve o'clock supper was served after which all present proceeded to thoroughly enjoy themselves. The party broke up about two o'clock. The guests numbered about forty.

will Open a Store.

Mr. A. Staples, late of the firm of Davis, Staples & Co., druggists, will open a drug store on Queen street, opposite A. F. Randolph & Sons, about the 1st of May. Mr. Staples has been engaged in the drug business in this city for nearly a quarter of a century and through his ability, energy and enterprise succeeded in making the firm with which he was lately connected the leading establishment in the city. Mr. Staples when in his new quarters, will be in a position to supply all, with anything and everthing to be found in a first-class drug store, and will without doubt receive the large amount of patronage to which his standing as a first-class druggist entitles him. The GLOBE wishes him success in his enterprise.

The Trend of Matters Political Parlimentary or Otherwise.

Some Touch-and-Go Notices of all Mentionable Manner of Things.

The Knight of Pythias at John attend-in a body the funeral of Wm. Patchell which took place the first of the week. Victoria and Cygnet divisions appeared in full uniform led by the city cornet band.

* * * *

If the proposed amount of asphalting to be done this summer by the city council is fully carried out our beautiful little city will compare favorably with any city in the Dominion as far as good sidewalks are concerned.

* * * *

The Ellis contempt case which came up in the Supreme court yesterday morning was postponed until the first day of the Trinity term, owing to the official papers from the appeal court at Ottawa not coming to hand.

* * * *

The government have granted $2.000 to provide for the Bathurst school investigation. The opposition who agitated this matter, must feel rather small when they take into consideration the position they have placed themselves in in the eyes of their constitutents.

* * * *

The Fredericton electric light bill was but short lived, it being unable to get through committee. There is not any doubt in any person's mind that our city should be properly lighted, but unfortunately we will be compelled to put up with the same poor light for at least another year. There must have surely been "a nigger in teh wood pile."

* * * *

The time in the legislature this week has been nearly altogether taken up with passing bills and doing other solid work. Considerable discussion was caused Thursday by the leader of the opposition bringing on a long debate as the committee were going into supply and which was merely a rehash, and was the means of wasting a lot of valuable time, as all the debating, which was on expenditures, brought forth nothing new.

* * * *

Dr. Silas Alward is counsel for Wm. Cameron of North End, St. John, who has been charged by Isaac G. Oulton, of that place, with passing spurious money. It appears that on April 6th Cameron gave Oulton a large amount of confederate money for $69 in Canadian currency, which Cameron said he wished to deposit The reason, he told Oulton that he wanted the Canadian money was because the banks would charge him discount on the American money. A few days afterwards Oulton found that he had been swindled and he reported the matter to the police.

* * * *

The legislature will prorogue to-day. The government are to be congratulated on the stand they took this session with regard to the Bathurst schools. They felt that charges had been made against them with regard to the matter of school regulations, and when the regulations came before the house for discussion there were only two members in the house who did not express themselves as satisfied that the changes made in the school law in 1875 were made with a view to peace and harmony, and that serious results would follow the rescinding of those concessions, as proposed by Mr. Pitts. It is to be hoped, the matter will be satisfactorily settled, but as long as this agitation is continued by certain parties it will be rather a difficult task.

SIR JOHN C. ALLEN'S

Portrait Unveiled in the Supreme Court Room.

It was a notable gathering and for a worthy purpose that assembled in the supreme court room a short time before one o'clock on Thursday. The object was to witness the unveiling of the protrait of Sir John C. Allen, chief justice of the province. Those present included the judges of the supreme court, viz. Hon Justices Palmer, King, Fraser, Tuck and Hanington. Hon. Judge Hodgson of P. E. I. also occupied a seat on the right of the chief Justice, and Judge Stevens was among the audience. The members of the bar present included C. W. Weldon, Q C., president of the Barristers society; D. Jordan, Q C., J. D. Phinney, Q C., George F. Gregory, Q. C., Dr. Pugsley, Q. C., Dr Alward, Q. C., Dr. Stockton, Q. C., C. N. Skinner, Q. C., Hon. A. S. White, Hon. Jas. Mitchell, Hon H. R. Emmerson, Hon. L. J. Tweedie, Albert Mott, M, P. P., L. A. Curry, A. S. Crocket, J. H. Barry, Geo. A. Hughes, F. St. John Bliss, Col. J. R. Armstrong, Harvey Atkinson, John Black, J. W. McCready, H. W. Frith, John L. Carleton, H. B. Rainsford, W. Wedbury Mills, M. P. P., Mayor Peters. Speaker Burchill and others.

Mr. Weldon said that the portrait about to be unveiled had been procured by the members of the bar in order to mark the high respect in which the chief justice was held by the profession. That respect, he said, was not confined to the members of the bar, but was universally shared by the people of the whole province. He suggested that a place be made for the portrait on the walls of the room beside those of Sir John's predecessors in office—Chief Justice Chipman and Parker. He expressed the earnest hope that our present honored chief justice should long live to adorn the high position he had for so many years distinguished, and asked that a record of these proceedings be entered upon the records of the society. Upon Mr. Weldon's request the portrait was then unveiled amid the applause of the assembly. Judge Palmer replied from the bench that the record suggested by Mr. Weldon would be made and directed the secretary to enter the same.

Sir John C. Allen was completely overcome when he rose to reply, and it was some minutes before his voice found utterance in speech. He thanked the members of the bar for this token of regard. It was not the first time he had been remembered by the profession. On the fiftieth anniversary of his admission to the bar he had been presented with a handsome piece of plate. His honor here mentioned the fact that he had heard of this movement some time ago, but had thought the matter had been dropped, until a short time ago he had been requested to sit for this portrait at Montreal. He had caused the picture to be examined by competent art critics, and their report to him had been most satisfactory. In attempting to again thank the bar his honor broke down and was compelled to resume his seat.

Married at St. John.

The wedding of Mr. Percy C. Powys, of this city, and Miss Susan Beverley Robinson of St. John, was solemnized in Trinity church there at 5.30 o'clock last Wednesday evening, Rev. Canon Brigstocke being the officiating clergyman. The bride, who wore a handsome dress of white corded silk, in which she looked particularly attractive, was attended by Miss M. Robinson and Miss Eleanor Powys. Miss Gretchen Allison was maid of honor. The groom received the necessary support from Lieut, A. H. Macdonnell of the C. R. I. Mr. John R. Robinson, the bride's brother, gave her away.

After the ceremony the wedding party partook of supper at the residence of Mrs. W. B. Robinson, on Broad street. Bride and groom went west on the night express on a tour to several of the principal Atlantic coast cities.

King of Medicines
And His Cure Was
Almost a Miracle

"C. I. Hood & Co., Lowell, Mass.
"Gentlemen: When I was 14 years of age I was confined to my bed for several months by an attack of rheumatism, and when I had partially recovered I did not have the use of my legs, so that I had to go on crutches. About a year later, **Scrofula**, in the form of

White Swellings,

appeared on various parts of my body, and for eleven years I was an invalid, being **confined to my bed six years.** In that time ten or eleven of these sores appeared and broke, causing me great pain and suffering. Several times pieces of bone worked out of the sores. Physicians did not help me and

I Became Discouraged

"I went to Chicago to visit a sister, as it was thought a change of air and scene might do me good. But I was confined to my bed most of the time. I was so impressed with the success of Hood's Sarsaparilla in cases similar to mine that I decided to try it. So a bottle was bought, and to my great gratification the sores soon decreased, and I began to feel better. This strengthened my faith in the medicine, and in a short time I was

Up and Out of Doors

To make a long story short, I continued to take Hood's Sarsaparilla for a year, when I had become so fully released from the chains of disease that I took a position with the Flint & Walling Mfg. Co., and since that time have not lost a single day on account of sickness. I always feel well, am in good spirits and have a good appetite. I endorse

Hood's Sarsaparilla

for it has been a great blessing to me, and to my friends my recovery seems almost miraculous. I think Hood's Sarsaparilla is the king of all medicines." WILLIAM A. LEHR, No. 9 North Railroad st., Kendallville, Ind.

TEACHER'S COLUMN.

Devoted to the Interests of the Provincial Teachers.

In Which We Publish the Entrance, Monthly and Final Examination Papers Used in the Normal School

This Column is Open For Communications, and Will Contain Articles of Special Interest to Every Teacher.—Teachers Wishing for Information on Any School Question Can Obtain the Same by Enquiring Through This Column.

R. B. M.—The Institute will meet at Fredericton, June 28th, 29th, 30th.

The University of New Brunswick has received an additional grant of $1,000 from the government.

New Brunswick has between sixteen and seventeen hundred school teachers drawing government pay.

The next session of the Educational Institute will be held in Fredericton on the 28th, 29tn and 30th of June.

The handsome new school building on York street is a credit to the city. It will be occupied at the beginning of the second term.

The Senate of the University having withdrawn the grant to the High School, the school will be moved into the new York street building.

The attorney general introduced a bill this week, providing for the appointment of women on school boards in cities and incorporated towns. The government and the corporation each may appoint one woman to such position.

Inspector Carter of St. John says :—"The teachers should talk less and the pupils more." The majority of the teachers will not agree with him on this question, however much they wish to give their pupils a chance to learn to express themselves easily and correctly regarding the work of any subject in the course.

Anxiety is exhibited in many quarters about women who are striving for the higher education, meaning the education usually given to college students, and the following arguments put forward. What is it for? What will they do with it? What will they become? The professions are already full; even that of teaching, the least desirable, will eventually at the rate of supply, be overcrowded. There are more women now who write than there are who can read discriminatingly. Why urge so many into the higher education, the college training, for which they will have if the world goes on marrying and baking and sweeping and keeping domestic establishments running, so little use? The question might be briefly answered, to make them women. In detail it might be added to make them more interesting women, better company for themselves and for others, fuller of resources for a life alone or a family life, with an intelligent apprehension of what is going on in the world. To improve the tone of society is excuse enough for the higher education, even if it were not desirable that type-writers should be intelligent. And beyond the needs of society, can it be doubted that if all the mothers of this generation were educated, capable of rightly directing the intellectual development of young minds, the next generation would show a marked improvement over the present? The disappointment about this education arises from misplaced expectations. It isn't the office of education to upset society but to make it better. The professions can absorb a limited number only. Society needs an unlimited number of highly intelligent persons.—Charles Dudley Warner, in the Editor's Study of Harper's Magazine for April.

Arbor Day.

Arbor day was celebrated May 13th last year. It is just possible it will be somewhat later this year. This is held with a view of improving the appearance of the school grounds as well as cultivating, on the part of the pupils, habits of neatness, and a taste for the beautiful. Any Friday during the months of May or June can be set apart for that purpose.

County Teacher's Institute.

Last year county institutes were held in all the counties excepting Kent and Sunbury. Sunbury and Queens have been united for Institute purposes and the first Institute for the two counties will be held at Gagetown next month.

The aggregate number of teachers who enrolled at the county Institutes last year was 690.

Summer School of Science.

The seventh session of the Summer School of Science will be held in the Memorial Hall of Mount Allison college at Sackville, during the first and second weeks of July next, and promises to be one of unusual interest. At these sessions work and recreation are combined in a most pleasant way, and the organization has proved to be of great educational value to teachers. It being interprovincial in its character, draws its membership, as well as its staff of instructors and managers, from the three maritime provinces.

Natural History Society.

The lectures at the Natural History Society at St. John this season have been very interesting and well attended. Mr. G. U. Hay lectured to a well filled hall, on the structure of plants, and illustrated his subject by the use of numerous specimens from the collections of the society and by blackboard drawings.

The botanical members of the society intend to do a good deal of field work this season, and several of them will attend the camp that will be held in August at Grand Lake.

A circular has been issued to members throughout the province asking them to observe time of flowering of plants and to make lists of plants in all localities. It is intended that all communications be sent to the secretary or Mr. Hay sometime in October.

Mr. Hay will lecture next Tuesday on Plant Life.

Changes in the Course of Study.

Committees representing the Educational Institute met at the request of Chief Supt. Inch in the Victoria school St. John last week and considered the advisability of making some changes in the course of study in the schools and text books.

The changes proposed are to be in the natural science course. The aim will be to make it more practical that it has been hitherto, and better calculated to bring out the the observing powers of children.

Other changes recommended were to decrease some of the mathematical work in grades 7 and 8, and leave more for the high schools to do. It was also suggested that Latin be omitted in grade 8.

A course of study for the high schools was also outlined, and some changes recommended which will relate especially to the natural science course. It was resolved to ask the university of New Brunswick to give but one book of Virgil, instead of two as at present, for examination at the completion of high school work.

A committee on text books had before them several books which it is proposed shall take the place of those now used in the schools.

The revision committee were : Chief Superintendent Inch, Messrs. B C Foster J M Palmer, G A Inch, Fredericton; Inspector Carter, Superintendent March, Messrs. W M McLean, W S Parlee, Thos. Stuthart, G U Hay of St. John; S C Wilbur, of Moncton; R P Steeves of Woodstock; J G A Belyea, of Shediac; and Wm. Brady of St. Andrews.

St. John School Board.

H. J. Thorne of St. John, has resigned the chairmanship of the board of school trustees. He has been a member of the board since Nov. 1. 1883 On the union of the two cities in 1889 Mr. Thorne was appointed chairman of the board by the local government. C. W. Weldon is to be appointed Mr. Thorne's successor as chairman.

A special meeting of the board of school trustees was held Wednesday afternoon, Dr. Hethering presiding. The board adopted a resolution expressing their high appreciation of Henry J. Thorne, chairman of the board who has resigned the position and also their appreciation of the valuable work Mr Thorne has performed since his appointment in November 1883. The resolution, which was framed in the form of a minute of the board, was ordered to be handsomely engrossed and presented to Mr. Thorne, after its signature by the members of the board and the officers. Mr. Thorne, who was present, thanked the trustees for the same and expressed the conviction that the schools of St. John were in an extremely satisfactory condition.
