Everything Is Set for the Big Manufacturers' Track Meet

Athletic Event Suspended During War Resumes With 12-Mile Marathon As Feature—Competition Appears Keen and Big Entry List Is Looked For.

Everything is set now for the manufacturers' athletic meet which is to be staged at Queen's Park on July 10, and in conjunction with which the Free Press marathon road race will be run.

The resumption of the meet after five years finds enthusiasm at a high pitch and competition of the best promised for this year.

Eight open and eight closed events comprise this year's program, and they were varied enough to give an evenly-balanced program. The various industries from which entries are assured report a splendid spirit of competition amongst their employees, who are working out every night in preparation for the big meet. The open events may be expected to attract some good athletes from the whole western end of the province, as they did in former years.

The use of Queen's Park for the meet has been definitely secured, and sanction for it is expected within a few days.

Last night at a meeting of the executive a special committee was formed to look after the details of the marathon. These are: W. P. Mitchell, A. McLeod, H. Kompass and D. Allen.

The events are:

Toronto, June 9.—Ontario swimmers will be well represented in the Canadian Olympic swimming trials, which are to take place in Montreal on July 2 and 3. Edgar Galvin, of this city, representative for this province, of the Canadian committee reports entries from various parts of the province, for the eleven events on the program—nine for men swimmers and two for ladies. Expert swimmers here express the opinion that the Montreal trials may result in the choice for the trip to Belgium, not necessarily of well-known swimmers, but possibly of small town or village swimming pond enthusiasts who have been previously unheard of.

ONTARIO CROPS ARE SHOWING UP GOOD FOLLOWING RAINS

Insect Pests Doing Damage in Some Sections.

Toronto, June 9.—The following is a summary of report made by agricultural representatives to the Ontario Department of Agriculture:

Rains on Saturday brought a measure of relief to the needy crops; but while in the eastern part of the province the rainfall was fairly heavy, in some of the western and southwestern counties it was comparatively light, but sufficient in most cases to give the late-sown fields a real start, and help pastures. More showers were promising as returns were coming in.

Low temperatures were threatening tender crops in the latter part of the week, but the cloudy nights saved the situation.

Insect pests have been giving more trouble than usual of late. Newly-planted corn and other crops have been suffering from the white grub, and the wire-worm is also complained of. Lincoln states that some cabbage patches in that county have been practically ruined by the maggot, and Norfolk also reports injury from this cause.

Fall wheat generally is still promising a good yield, although some of it looks poorly on clay lands.

Clover is looking short and thin in stand, and a light yield is looked for. Essex expects to see the first cutting of in about ten days. Alfalfa is making a better showing than clover.

Sugar beets seem to be getting more extra attention than any other field crop this season. Several counties speak of an increased acreage. Lambton states that a number of townspeople are interested in about 500 acres of this crop grown on farm land as a sort of speculation or investment.

York reports that on account of the recent dry weather a considerable acreage of mangels will have to be resown.

Brant is of opinion that the potato acreage will be less than was originally intended, owing to the high value of the seed, which is estimated to be worth from $60 to $80 per acre—and even more if purchased late.

Ontario County reports that a considerable acreage of flax will be grown for fibre this season.

Fruit trees as a rule are laden with setting fruit. Strawberries also promise a big crop, but require more rain.

Oxford asserts that the supply of all kinds of fodder was never so low as at present. Hay is selling in the province at from $24 to $40 a ton.

Live stock on the grass are not making flesh as satisfactorily as usual owing to the poor condition of pastures. Peterboro reports sales of cattle at from 10 to 13 cents a pound, and of calves at from 15 to 17 cents a pound. Elgin quotes export steers as going at from 13 to 14 cents a pound.

Some dairymen in Brant are disposing of a number of their cows rather than sell their milk at present factory prices, the June rate being set at $2.55 a cwt. for a 3.5 test. Lambton reports that a Detroit firm has cream buyers and gatherers on the road in that county who are giving prices ranging from 58c to 62c per pound of butter-fat.

Cheese sold on the Kingston board last week at 29¼c per pound.

Bacon hogs are selling at from $18 to $19.50 a cwt. Some correspondents report the marketing of brood sows. Grey states that hogs have been shipped at weights ranging from 150 to 250 pounds, although some drovers prefer to finish off the lighter animals. Little pigs range in value from $14 to $16 a pair.

The Grey representative reports that many inquiries have been received regarding the disposal of wool, and says that a considerable number of farmers in that county will sell co-operatively this year.

SOLICITED AN ORDER FOR WHISKEY FROM LICENSE INSPECTOR

Brothers Are Arrested, Found Guilty and Fined $200 Each.

WINDSOR, June 8.—Bert Ham, Montreal, and his brother, Louis Ram, of Detroit, were each fined $200 and costs in police court at Sandwich today on a charge of violating the Ontario temperance act by soliciting orders for the Dominion Liquor Company of Montreal. They claimed their father was manager of the Montreal concern, and that they were merely taking orders along the border for the firm. They met Inspector Connor of the Ontario License Board, who arrested them when they tried to obtain an order from him.

EXTEND TIME FOR PATENT MEDICINE SALE

OTTAWA, June 8.—In order to permit distributors and retailers of patent and proprietary medicines to dispose of stock which was in hand on the 7th of July, but which, through the amendment by section 5 of chapter 66 of the statutes of 1919, which was not possible, an order-in-council has been passed authorizing the sale or disposition of such medicines, provided the same comply with the provisions of the proprietary or patent medicines act, 1908, up to the 1st of September, 1920.

It is expected that this extension will permit of the sale of the articles referred to by distributors and retailers. On and after September 1 next the department of health will enforce the provision of the amended act of 1919.

Bisons Could Do Little With Leaf Hurler's Elusive Bends

Skeeters Get More Runs on Fewer Hits and Take Final Game.

TORONTO, June 8.—The leading Buffalo Bisons could do nothing or even less with Bader's elusive benders today, and as a result Toronto won 5 to 2. Three widely scattered hits were Buffalo's total, and bases on balls had a lot to do with Buffalo getting their two runs.

The score:		R.	H.	E.
Buffalo	000 100 010	2	3	1
Toronto	001 003 10x	5	11	2

ORIOLES BEATEN.

BALTIMORE, June 8.—Baltimore outhit Jersey City here today, 12 to 8, but the Skeeters were victorious in the final game of the series, 6 to 5. Sullivan's wildness and loose fielding were responsible.

FREE TO MEN

Manly Vigor, Something New

Here is a little free pocket compendium in book form, illustrated with 40 half-tone photo reproductions, and containing 8,000 words of easy advice on private matters, which I gladly send to any man anywhere in the world absolutely free of charge, and inclosed in a perfectly plain sealed envelope, so it is received by you like an ordinary private letter. I take all this special precaution in sending my free book because, where the health is concerned, and especially with reference to debility and nerve weakness, people everywhere prefer to keep the matter entirely to themselves. For this reason I seal the envelope and prepay full letter postage. I have thus mailed over a million of the books to men all over the world who requested them

You, reader, will like this little book immensely, and can grasp the full meaning of its special advice from one or two careful readings. It contains a great deal of heretofore unpublished information of interest to all men—young or elderly, single or married, and may easily be of value to you throughout your entire lifetime.

In one part of the book I describe my little mechanical VITALIZER, which was invented by me to assist men to regain lost vigor. However, you are not to think of getting this VITALIZER at the present time, but first send for the advice book and read up on the subject of self-preservation without drugs.

Please use the coupon below and the book will come to you free, sealed, by return mail.

SANDEN, Publisher.

Reader, did you ever stop to consider that it is not looks which makes the real man? Nor is it necessarily a large man who wields the most power in his community. However, whether big or small, young or elderly, we invariably find that vigorous, manly manhood stands behind all of the world's greatest achievements and successes. In this respect, I give it as my honest opinion, based upon over 30 years' experience, that no man need lose hope of himself restoring his full manly power if he but be willing to make a fair, square effort, and will lead a decent, manly life, free from excesses, and free from dissipation. My free book gives you all the desired information. According to my belief, lost manly strength is no real organic disease in itself, and, for that reason, should easily respond to any mode of treatment which puts new vital force into the weakened nerves and blood.

The little VITALIZER mentioned above was designed by me to render natural aid to the man who really WANTS to get strong, and who is willing to make a reasonable effort to regain his manly vigor. To the man who persists in living an unnatural life of excess and dissipation, no hope can be offered, but for the other kind there is every hope and encouragement, because in regulating his habits he has taken the first grand and necessary step, which prepares the way for the action of any natural treatment which may resupply his body with the FORCE which it has been drained of.

MANLY MEN ARE ALWAYS IN THE GAME.

With respect to my VITALIZER, you simply buckle it on your body when you go to bed. Thus, while you sleep, it sends a great, mysterious power (which I call VIGOR) into your blood, nerves, organs and muscles, while you sleep. Men have said it takes pain or weakness out of the back from one application; that 60 to 90 days' use is sufficient to restore normal, manly strength.

With special attachments, which carry the FORCE to any parts of the body, my VITALIZER is used by women as well as men, for rheumatism, kidney, liver, stomach, bladder disorders, etc., and I have had some most remarkable testimony in respect to its almost miraculous effects in individual cases, where every known treatment had failed.

Therefore, first get the free book of general advice to men, which also describes my VITALIZER. Then, if in the future you feel you would like to use one of these little appliances in your own case, I will make some special proposition whereby you may have one to wear. If you happen to live in or near this city, I would be pleased to have you call. Otherwise, just use the coupon and get the free book by return mail. Office hours, 9 to 6.

BOOK, 8,000 WORDS, FREE

Remember, I will send you, as stated above, my little book or pocket compendium, containing 40 illustrations and 8,000 words of private advice, free, sealed, by mail. This book is meant to point out to men certain errors which are being committed all over the world today by those who do not realize the harm resulting. It gives, in condensed form, and in easy language, the truths that I have learned from years upon years of experience. It deals with vigor and manly power as against weakness and debility. One part of the book describes my little VITALIZER, so all information is complete in this one volume. Please write or call today. Satisfaction guaranteed in every case.
