M.H.O.'S REPORT ON CITY'S MILK

Dairies and Their Output Graded by Classes.

STORES WILL BE INSPECTED

Board of Health Deal With Several Matters Affecting the City's Sanitary Condition.

The board of health met yesterday afternoon, the members present being Chairman Charles Taylor, Wm. Skinner, Dr. Cl. T. Campbell, H. C. McBride, Inspector McCallum, M. H. O. Hutchinson, and Secretary Bell. The medical health officer presented his half-yearly report on the dairies, which furnish London's milk supply. The board dealt with several other matters affecting the city's health and cleanliness.

THE MILK REPORT.

M. H. O. Dr. Hutchinson presented his semi-annual report of his inspection of herds and dairies, and the qualities of the milk supplied by them in the city of London, for the six months, ending May 31, 1902. As heretofore, the herds and dairies are classed A, B and C, according to merit. The milk is divided into three classes, determined by the percentage of butter fat. That containing 4 per cent and over is placed in the first class, or No. 1; that containing 3.5 to 4 per cent is second-class, or No. 2; and that of 3 to 3.5 per cent is third-class, or No. 3. The average percentage of butter fat of all the samples collected by Inspector Lutman and given to Dr. Hutchinson for examination was 3.99, a very good one for this season of the year. Twenty-nine herds and dairies are now in the first class, an increase of nine since last inspection. One hundred and thirty-two persons, exclusive of those employed by the Sanitary Dairy Company, are engaged in supplying milk to the city. Ten thousand quarts are sold in the city daily, compared with 9,000 a year ago.

The list of dairies and their standing is given below. Those marked with an asterisk sell to the Sanitary Dairy Company:

A. Marshall, London township—A; supplies Victoria Hospital.
*Kanes Bros., Westminster—A.
*John Gillmore, London township — A.
*David Gillmore, London township—A.
*C. E. Wilson, Westminster—A.
*Isaac Saul, West Nissouri—A.
*William John Saul, London township—A.
*Joseph O'Brien, Westminster—A.
*Uptigrove Bros., Delaware township —A.
*Firman White, Lambeth—A.
*James Routledge, Lambeth—A.
*H. Mann, Westminster—A.
*John Kelly, Westminster—A.
*Fred Kanes, Westminster—A.
*C. M. Tye, Westminster—A.
*Wm. Winter, Lambeth—A.
*James Griffith, Westminster—A.
*Mrs. Knott, North Dorchester—A.
*Samuel Millson, Westminster—A.
*Alfred Comfort, Westminster—A.
*John Beakley, London township—A.
Sanitary Dairy Company, city—1.
John W. Griffith, Westminster—A; sells to F. Cox.
James Byers, London township—A; supplies Wm. Phoenix.
Wm. Bell, London township—A; supplies A. E. Hourd.
Elmore Routledge, Lambeth—A; sells to John W. Jarvis.
W. J. Walker, Westminster—A, 1.
C. H. Sumner, Westminster—A; supplies George Tupholme.
Daniel Ferguson, Westminster—A; sells to Smith Bros.
Smith Bros., Westminster—A, 1.
C. W. Hourd, Westminster—B.
*Andrew Cornish, Westminster—B.
*Wm. Haldane, Westminster—B.
*Joseph Barter, London township—B.
*B. T. Wilkin, Westminster—B.
*H. F. Whetter, Westminster—B.
*Samuel Tye, Westminster—B.
Wm. Player, Westminster—B, 1.
George Hunt, Westminster—B, 1.
Albert Higg, London township—B, 1.
Wm. Stevenson, Nilestown—B; supplies Duncan Ross.
Duncan Ross—1.
*H. F. McNiece, Westminster—B.
W. A. Sage, Nilestown—B; supplies Alfred Pack.
*John Rollston, London township—B.
*Ola Johnson, London township—B.
*Charles Rollston, West Nissouri—B.
Hugh Dale, Westminster—B, 1.
James McPhee, Appin—B; supplies A. Windrim.
Wm. Cooper—1.
Wm. Kettlewell, Westminster—B; supplies John Topping.
*W. A. Langford, London township —B.
*William Sloan, London township—B.
*E. L. de Hart, London township — B.
Geo. H. Sommer, London township—B, 1.
Jacob Dale, Westminster—B; sells to John Topping.
Joseph Purvis, London township — B, 1.
McArthur Bros., Westminster — B; sell to John W. Jarvis.
John Kay, Westminster—B; supplies E. Polle; no sample.
Luke Dyer, London township—1.
R. Windrim—1.
John Blanchard, Lobo township—B; supplies James Blanshard.
James Blanchard—1.
*Thomas Beattie, London township —B.
Thomas Hill, Westminster—B, 1.
James Hill, Westminster—B; no sample received.
U. S. Evans—1; supplied by Firman White and Jas. Routledge.
John Armor—1.
F. D. McClary, Nilestown—B; supplied by P. F. McClay.
A. Catnack, Adelaide street—B, 1.
Wm. Phoenix—1; supplied by James Byers.
T. W. Sanborn—1.
J. W. Jarvis—1; supplied by McArthur Bros. and E. Routledge.
Henry Webb, city—B, 1.
R. Windrim—1.
Frank Cox—1; supplied by John W. Griffith.
Andrew Hogg, London township—B; supplied by Blaney.
Simon Edworthy, city—1.
Henry Mossop—1.
T. J. Nelly, London township—B, 1.
Mrs. Lawrence, West London—B, 1.
Chas. Elliott—1.
Mrs. G. Heard, Adelaide street—B, 1.
John Markham—1.
J. A. Spence—1.
Allen Norton, Westminster—B; sells to John Courtin.
Wm. Sommers, Westminster—B; no sample received.
J. Blaney—1; supplied by Andrew Hogg.
Colton Griffith—1.
*H. M. Odell, Westminster—B.
Mrs. Redding, Gray street—B; no sample received.
*Webb Bros., London township—B.
John Wilkinson, London township—B; supplies Wm. Wilkinson.
Chas. Dyer, London township—B, 1.
E. Tanton, London township—B, 1.
Thos. Davidson, London township—B, 1.
Albert Copeland, Westminster—B; sells to Geo. Tupholme.
Geo. Cushman, London township—B; sells to Jos. O'Brien.
Joseph O'Brien, London township—B, 1.
John O'Brien, London township—B; supplies Wm. O'Brien.
Wm. O'Brien—1.
R. McCullagh—1; supplied by Wm. Piper.
P. F. McClary—No sample received.
Geo. Hawkins—1.
John Rogers, Adelaide street—B, 1.
Henry Horne, London township—B, 2.
Mrs. Freeman, London North—B, 2.
R. McMillen—2.
R. Windrim, jun.—2; buys from Jas. Hill.
A. Windrim—2; supplied by James McPhee, Appin.
Samuel Robb, London township—B, 2.
Thos. Legg, London township—B, 2.
John Coulter—2.
John Clark, London township—B, 2.
A. E. Hourd—2; supplied by James Bell.
A. E. Wilkins, Westminster—B, 2.
Alfred Pack—2; supplied by W. A. Sage.
J. Carroll & Sons, Westminster—B, 2.
F. J. Hackett, London township—B, 2.
W. Wilkinson—2; supplied by John Wilkinson.
Mrs. A. McMillin—2.
Chas. O'Hagan, London township—B, 2.
John Topping, Westminster—B, 2; supplied in part by Jacob Dale.
Foster Bros., London township—B, 2.
T. F. McMillen, London township—B, 2.
James Yeo, Westminster—B, 2.
Geo. Tupholme—2; supplied by Geo. Sommers and A. Copeland.
Wm. Morden, London township—B, 2.
Levi Crouse, Westminster—B, 2.
J. L. Wilkinson, Huron street—B, 2.
Wm. McKone—2; buys from Wm. Hill.
James Walker, London North—B, 2.
John Courtise, Westminster—B, 3.
S. Anderson—3.
Wm. Hill, London township—C; sells to Wm. McKone.
*Caleb Millson, Westminster—C.
Wm. Piper, London township—C; supplies R. McCullagh.
Spettigue Bros., Westminster—C, 1; this herd and dairy barely got into the lowest class, and unless in better condition at next inspection will not be placed in any class.
Wm. Murphy, North London—C, 2.

TUBERCULOSIS CONVENTION.

Dr. Hutchinson presented a well-prepared report of the tuberculosis convention held at Ottawa on April 17 and 18. After reviewing the work of the convention, Dr. Hutchinson summed up the results of its deliberations as follows:

That tuberculosis is contracted and not inherited, that it is curable in from forty to sixty per cent. of the cases when cared for in properly conducted sanatoria, and that sanatoria for the treatment of tuberculosis are not a danger to the community in which they may be situated. The well-founded belief now of medical men that consumption is not inherited, except through milk from an infected mother, must have an important bearing upon life insurance. The old idea of heredity and incurability should be abandoned, as it is now recognized to be a communicable and curable disease. That an open air life, sufficient exercise, nourishment, rest, sleep, and the avoidance of excesses made the human body resistant to the disease germs, and that according to Pasteur it is in the power of man to cause all parasitic diseases to disappear from the world.

THE YEARLY CLEAN-UP.

Inspector J. W. McCallum reported that the house and yard inspection for the current year had been completed, with the following results: Premises visited, 9,074; closets reported unclean, 1,384; yards reported unclean, 288. The orders for cleaning have all been acted upon with a few exceptions. The number of days occupied in inspecting was 143½, which at $1 50 per day made the cost $215 25. The report was adopted.

Mr. McBride brought up the question of inspecting the different store premises. He said that in many of the business places in the center of the city the socalled sanitary conveniences were in anything but a sanitary state. He instanced several business places and said many more would be discovered on inspection.

On motion it was ordered that Inspector Lutman make a systematic inspection of all stores, and order the cleaning of all places not in good sanitary condition.

OTHER BUSINESS.

A letter from Mrs. E. R. Yarker, corresponding secretary of the local council of women, forwarded to the board from the city council, asked for the passage of a bylaw to prevent the contamination of fruits, fish, vegetables and other articles of food exposed for sale in front of stores. The matter was referred to Chairman Taylor and M. H. O. Hutchinson, who will consult the city solicitor and ascertain the city's power to enact such a bylaw.

A motion was passed asking the city council to pass a bylaw regulating the use of checks or coupons for the sale of milk and bread.

Dr. Hutchinson reported that the hitherto filthy lane, running north from King street, east of Richmond, was being graveled and put in proper condition.

Macbeth & Macpherson presented a bill of $144 45 for legal services in connection with the Hill and Coursey cases, in which London Township sought to prevent the dumping of night soil within its borders. The board decided to give $50 toward payment of the bill, the defendants to pay the remainder.

Assistant Inspector Lutman was granted an increase in salary of $50 per year, to date from July 1.

Retrospect.

It is an evil day for the wife and mother when she scans her worn face in the mirror, and asks the question, "Does it pay? Does it pay to sacrifice health and happiness to wedded love?" But there is another question which rightly takes precedence of Does it pay? It is this: "Is it necessary to sacrifice health and happiness to wedded love?" Half a million women answer, No! They have been weak and have been made strong by Dr. Pierce's Favorite Prescription. They were sick and "Favorite Prescription" made them well. It will do the same for almost every woman who gives it a fair and faithful trial. It stops weakening drains, heals inflammation and ulceration and cures female weakness. It tranquilizes the nerves and encourages the appetite.

"I expected to become a mother, and a threatened mischance greatly weakened me," writes Mrs. E. A. Nations, of Witts Springs, Searcy Co., Ark., "and my old disease returned. My husband got another doctor for me but I seemed to just drag along and get no better. At last I told the doctor that if his medicine did not help me I would go back to Dr. Pierce's medicines. I did so, and by the time I had taken them one month I could do my own housework, except washing, and tended my garden too. I was stouter than I had ever been while waiting baby's coming since my first baby came (this one was the sixth child). She is now eleven months old and is a healthy child. As for me, I feel as young now as I did at eighteen years of age; am thirty now. I can cheerfully recommend Dr. Pierce's medicine to all suffering womankind."

Doctor Pierce's Pleasant Pellets cure biliousness and sick headache.

AGED FARMER SWINDLED

York County Man Confidenced Out of $5,000—An Old Game.

Toronto, July 9. — One of the most heartless of recent "confidence" swindles has just come to light, involving the loss of the savings of a lifetime. Silas Toole, the victim, is an old and respected farmer of Whitechurch township, York county. A week ago he was visited at his farm by a couple of well-dressed city-looking men, who said they were nephews of Sir Wm. Mulock, the postmaster-general, and M. P. for North York. They were looking around for farms for investment, and Toole's farm had so favorably impressed them that they were willing to pay $10,000 for it.

A bargain was struck, and the young men said they would return in a few days to make the transfer. They asked that in the meantime Toole keep careful watch over a satchel they would leave with him containing the purchase money. Toole said he would, and after showing him what looked like a large roll of bills they locked the bag and handed it over to him. Late the same day they called again, and said they had made a bargain to buy the farm of Joshua Wilson near by for $5,000. They had not the price with them, however, and asked Toole to advance the money till they got back to the city.

The poor old man, thinking he had $10,000 of their money in his keeping, actually went to Newmarket, drew out $5,000, and handed the money over to the rogues. Three days ago, hearing nothing from them, he opened the satchel left in his care, and found that he had been swindled out of a lifetime's savings. He came to the city today and gave Inspector Stark a description of the men. It has afforded no clue to their identity.

A Hot Weather Breakfast.

It Should Be Comforting to the Stomach and Healthful to Digestion.

MALT BREAKFAST FOOD

The Ideal Summer Breakfast Cereal Is the True System Nourisher.

All experience goes to prove that a hot weather breakfast should be made of food that is comforting to the stomach, easily digested, readily absorbed by the system, and at the same time a true nourisher and builder of flesh, tissue and muscle. Malt Breakfast Food fulfills all these conditions perfectly. A dish of Malt Breakfast Food at the morning meal gives energy and vim for the day's work. Ask your Grocer for it.

WRECKED JAIL WALL

Prisoners Used Dynamite and Made a Futile Dash for Liberty.

St. Joseph, Mo., July 10. — James Blade, Leck Allen and James Murray, prisoners in the Buchanan county jail, wrecked the rear wall of the jail building yesterday with a powerful charge of dynamite. Then they made a fierce fight for liberty, but the guards beat them back with Winchesters.

Seventy-five prisoners are confined in the jail, most of whom mad no effort to escape. Those who did were clubbed into submission. No one was injured, although the explosion was felt several blocks away.

Blade and Allen are under sentence for highway robbery, and Murray is a government prisoner. They are now chained to the floors of their cells. Other prisoners were told what was to happen about five minutes before the fuse was lighted, and on the advice of the leaders they sought safety in their cells. The jailer was at dinner in another part of the building. Until the damage to the jail and the court house can be repaired a large armed guard will be necessary to restrain the prisoners.

The ashes, so called, from volcanoes are simply lava that is finely pulverized.

Among new surgical instruments is a steam saw for removing diseased parts of the liver.

The authorities of Baltimore county, Maryland, furnish antitoxins to the poor without cost.

The Skin

PEARLINE does not injure the hands in the least.

Mrs. Rev. B. M. N.

We use PEARLINE for bathing, and find it excellent—do not like to bathe without it.

Rev. H. D. S.

Two of the Millions. 687

WILL EXPEND $100,000,000!

Pennsylvania Railroad Making Costly Improvements.

A DEPOT TO COST $8,000,000

Four Tracks, Magnificent Roadbed, Sans Grade Crossings, Mile-a-Minute Speed.

Philadelphia, July 10. — President Cassatt, of the Pennsylvania Railroad, and his associates expect rapid development in the transportation business in the near future, and are accordingly preparing the Pennsylvania system with improvements which will cost not less than $100,000,000 in the next three or four years. The entire road between New York, Philadelphia, Baltimore, and Washington, Cleveland, St. Louis and Cincinnati is being practically rebuilt, with four tracks from New York to Pittsburg, double tracks on the western system and between Philadelphia and Washington. Grades are being reduced everywhere, curves straightened, new rails, weighing 100 and even 120 pounds to the foot are being laid, stone ballasting is being put in, and other improvements made for the promotion of economy and speed.

The distance from New York to Washington is now made in five hours. As soon as the improvements are completed it will be made in four hours. The ordinary running time between New York and Chicago is now 24 hours, and a new train was recently put on to make it in 20 hours. Within a year or two this will be reduced to 18 and perhaps to 16 hours. The latter will require a steady gait of a mile a minute — that is, 986 miles in 986 minutes, which at present is beyond the speed of any long-distance train in the world.

ENORMOUS EARNINGS.

Last year $10,529,735 was expended on the lines east of Pittsburg. About $7,000,000 was spent for new equipment also. The total gross earnings of the Pennsylvania system of 10,485 miles for the calendar year 1901 were $198,626,878 14, an increase from 1900 of $23,390,524 44. The net earnings over and above all expenses were $64,913,491 89, an increase of $10,175,414 38. During the year 243,408,035 tons of freight were carried, an increase of 24,331,658 over 1900, and 104,4[illegible] 201 passengers, an increase of $20,794,8[illegible] over the previous year.

NO GRADE CROSSINGS.

When the scheme is complete there will be no grade crossings in any of the cities or towns of importance, between New York and Washington. The tracks are elevated upon solid embankments of earth, sustained by heavy stone walls, and the track will be laid in ballast of broken stone, probably the most expensive roadbed in the world. The elevation of the tracks make new stations necessary in nearly all the towns south of Jersey City, which will be of the highest order of architecture, of substantial materials and up to date. At Newark, New Brunswick, including a bridge across the Raritan, $5,000,000 has already been spent. The New Brunswick bridge has 21 arches of stone, with four tracks, 1,500 feet long, 57 feet wide.

FOUR-TRACK BRIDGE.

At Trenton the track is being elevated and a new four-track bridge of stone across the Delaware has been built, which has 18 arches, 1,270 feet long and 54 feet wide. The improvements at Trenton cost $3,000,000.

At Philadelphia almost the entire system of terminals is being reconstructed, including two new bridges over the Schuylkill, several tunnels and a new double-decked station at the corner of Market and Thirty-fourth streets, so that through trains between New York and the south and west will not be required to back into Broad street station, as at present. Every possible curve and grade within the limits of Philadelphia has been eliminated, and there are no more grade crossings. The improvements in Philadelphia will cost not less than $3,500,000.

At Camden similar improvements are going on, and at Wilmington and Chester the road is being entirely rebuilt. The cost at Wilmington will exceed $5,000,000.

FINEST IN THE WORLD.

The company proposes to spend $8,000,000 in Washington erecting the finest railway station in the world, of white marble and of architecture corresponding to that of the capitol. It is intended to be an appropriate gateway to the seat of the nation. Daniel H. Burnham, the famous Chicago architect, is now drawing the plans. It is to be a union station, and will stand on Massachusetts avenue, about half way between the capitol and the government printing office. It will be reached through tunnels, all grade crossings being eliminated.

The new stone arch bridge at Harrisburg is the largest in the world, 3,970 feet long and 52 feet wide, with 48 arches. It cost about $1,000,000 and consumed 200,000 tons of stone. The company has already spent $5,000,000 in Pittsburg and will spend as much more before the new freight terminals are completed.

Corresponding improvements are contemplated at Chicago, but the plans have not been announced. It is known, however, that a new union station will be erected on Canal street, more than three times as large as the present one.

Warning.

An inferior article is never imitated, and one of the best evidences as to the value of Foot Elm is the fact that there are so many cheap imitations. The proprietors have secured an injunction with damages against one firm for imitating this well known remedy. The public are requested to report all cases of imitation, and if they find difficulty in securing the genuine article it will be sent postage paid to anyone writing direct to the manufacturers, A. Stott & Jury, Bowmanville.

It is doubtful if any article ever placed on the Canadian market, has gained so much favor in so short a time. In every town and village in Canada you will find people speaking of the wonderful relief to be found by using this cheap and serviceable article. Be sure and get Foot Elm when you ask for it.

Sea Side Resorts.

Now is the time and the Grand Trunk Railway system the best and most comfortable route. The Eastern Flyer, leaving London daily at 6:40 p.m., carries through sleeper to Montreal. Cafe parlor cars to Montreal. Pullman sleeper Toronto to Portland, and Pullman sleeper from Buffalo to Kingston wharf, and passengers can remain in car until time to take R. & O. steamer for trip through the Thousand Islands and rapids of St. Lawrence.

This is the connecting train for all points in New Brunswick and Nova Scotia. Round trip tickets London to Portland, Me., $30 60; Old Orchard, $31 10; Quebec, $25 10; St. Andrews, $36 80; St. John, $39 85; Bar Harbor, $36 60; Chicoutimi, $32 10; Halifax, $45 10; Cacouna, $29 40.

Full information at ticket office, E. De la Hooke, City Passenger and Ticket Agent. 32-n

Women teachers in Prussian schools get, besides free dwellings, only $175 a year to begin with. This is raised to $390 after 31 years of service.

Scrofula, dyspepsia, rheumatism, kidney complaint, catarrh and general debility are cured by Hood's Sarsaparilla. k

Up to the present slower progress is being made with the construction of the Edward VII. than of any warship built at Devonport.

SOMETHING MORE THAN A PURGATIVE.—To purge is the only effect of many pills now on the market. Parmelee's Vegetable Pills are more than a purgative. They strengthen the stomach, where other pills weaken it. They cleanse the blood by regulating the liver and kidneys, and they stimulate where other pill compounds depress. Nothing of an injurious nature, used for merely purgative powers, enters into their composition.

An official report gives the estimated additional cost necessary to compete Siberian railroads as $36,050,000.

HOW TO CURE ALL SKIN DISEASES.

Simply apply Swayne's Ointment. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment.

Plans have been prepared for a four-million dollar union depot to be erected at Kansas City.

FOR THE OVERWORKED.—What are the causes of despondency and melancholy? A disordered liver is one cause, and a prime one. A disordered liver means a disordered stomach, and a disordered stomach means disturbance of the nervous system. This brings the whole body into subjection and the victim feels sick all over. Parmelee's Vegetable Pills are a recognized remedy in this state, and relief will follow their use.

Japanese coal costs about $6 a ton at Vladivostock, while Cardiff coal costs more than $20 a ton.

BLOOD POISON

On account of its terrible effects, blood disease is called the king of all diseases. It may be either hereditary or contracted; so while it may not be a crime to have the disease, it is a crime to permit it to remain in the system. It may manifest itself in the form of Scrofula, Eczema, rheumatic pains, stiff or swollen joints, itchiness of the skin, eruptions or blotches, ulcers in the mouth or on the tongue, sore throat, falling out of hair, disordered stomach, and a general depression of the system. If you have any of these symptoms don't neglect yourself. You have no time to lose. Beware of "old fogy" treatment—beware of mineral poisons—beware of Quacks and Fakirs. OUR NEW METHOD TREATMENT is guaranteed to cure this disease, never to return. Bank Bonds will protect you. Our treatment is not injurious in any way, but reaches the very root of the disease and eliminates all poison from the system. The symptoms of disease gradually disappear. The blood becomes pure and enriched, the whole system is cleansed and purified, and the patient feels prepared anew for the duties and the pleasures of life. CURES GUARANTEED OR NO PAY. 25 Years in Detroit. 250,000 Cured.

To Develop Canadian Land.

Des Moines, Iowa, July 9.—The Syndicate Land Company, with a capital of $1,000,000 has filed articles of incorporation. The company has purchased and has options on millions of land in Manitoba and Assiniboia, and proposes to colonize and develop these lands as rapidly as possible. The land will be sold to the colonists in such a way that they will be able to pay for their homes in money and labor. Agents will be maintained in Iowa, Dakota, Kansas, Nebraska, Minnesota, and the other Western States for the purpose of securing emigrants.

The company will have its home offices in Des Moines. Alexander McRae, B. C. Bowman and Wm. Wilkinson are the incorporators.

57—62 the Critical Age.

Height of vigor past—nature's power slowing down, vitality less, recuperative power less, indurance less. Stop the progress of decay, tone up the weakened nerve centers, impart vigor to the tiring brain, prepare for the crisis. A means of remarkable protency is the renewal of decreasing vigor is found in Ferrozone. It brightens up the whole being, imparts a sense of power and strength. By the use of Ferrozone, old age is pushed back twenty years. Ferrozone gives strength, vigor, indurance, vim. Get a box today from W. T. Strong & Co.

The State of New Jersey is about to build a sanitarium for indigent sufferers from consumption.

NO PERSON should go from home without a bottle of Dr. J. D. Kellogg's Dysentery Cordial in their possession, as change of water, cooking, climate, etc., frequently brings on summer complaint, and there is nothing like being ready with a sure remedy at hand, which oftentimes saves great suffering and frequently valuable lives. This Cordial has gained for itself a widespread reputation for affording prompt relief from all summer complaints.

During last year 72,000,000 pounds of butter came to Europe over the Trans-Siberian railway.

Unnecessary to Suffer from Asthma.

This distressing complaint can be perfectly cured by inhaling Catarrhozone, a vegetable antiseptic that destroys the germs which cause the disease. Catarrhozone is inhaled at the mouth from a convenient pocket inhaler, and after permeating the minutest air cells is exhaled slowly through the nostrils. It stops the cough, makes breathing regular, and eradicates the asthma so thoroughly from the system that it never returns. Don't suffer from asthma; use Catarrhozone, it will speedily cure you. Large outfit, $1. Small size, 25 cents. Druggists or by mail from Polson & Co., Kingston, Ont.

Educational Growth...

McMaster University has from its inception held a recognized place among institutions of learning.

Its growth in numbers has been remarkable; as has also the success of its graduates in business and professional careers. Recent additions have been made to its equipment.

Young men and women should write for a calendar to the Registrar.

McMaster University, Toronto.

Queen's Dessert and Royal Navy (sweet), and Perfection and Caracas (unsweetened).

Are the Purest and Best

261-w

It has been suggested that all English theaters give one matinee a year in aid of theatrical charities.

Backache, swelling of feet and ankles, puffing under eyes, frequent thirst, scanty, cloudy, highly-colored urine, and all urinary troubles lead to Bright's disease, dropsy, diabetes, etc. Doan's Kidney Pills are a sure cure. W
