ARGOS HAD EASY VICTORY

Won First Heat For the Grand Challenge Cup.

Argonauts' Bow Man Lost His Seat, But They Recovered Ground Lost by Mishap and Won the Race Easily—London Papers Say Their Success is Very Popular—Results of Tuesday's Trials.

Henley, Eng., July 9.—Yesterday the racing in the Coronation Henley Regatta began at 12.30 p.m.

In the first heat for the Grand Challenge Cup Leander Rowing Club beat the Kingston Rowing Club easily by a length and a quarter. Time 7 minutes 34 seconds.

Argonauts' Fine Work.

In the second heat for the Grand Challenge Cup the Argonaut Rowing Club of Toronto beat University College, Oxford, by 2½ lengths in 7 minutes, 25 seconds. This was a good race for a mile. The Argonauts, stationed on the Berks shore, jumped off with the lead, but bow slipped his seat, and University led at the half mile. The Canadians, however, gradually overhauled their opponents and ultimately easily defeated the Oxonians, who were the head of the river (leading crew) at Oxford this season.

The Argonauts will row third Trinity, Cambridge, on Wednesday.

The final heat for the Grand Challenge Cup for the day resulted in the London Rowing Club beating the Thames Rowing Club by a length and a quarter in 7 minutes 58 seconds.

Titus Again Victorious.

In the fourth heat (first of the day) for the Diamond Sculls C. S. Titus, Union Boat Club, New York, beat W. W. Field, Exeter College, Oxford, by three lengths in 9 minutes 17 second. Titus' easy victory over Field, who is the holder of the Oxford University sculls, increases the American's chances for the Diamonds. Titus, who was on the Berks station, had the measure of his opponent from the first. The Oxonian stuck to his work manfully for three-quarters of a mile. At Frawley Court (half the course) Titus, whose time up to that point was four minutes 26 second, was only a foot ahead, but thence the American drew further and further away, Field being completely exhausted.

Titus' performance made such an impression that even money was laid on his winning the Diamond Sculls.

In the fifth heat for the Diamonds J. Beresford of the Kensington Rowing Club had the Berks station and led his opponent, St. George Ashe of the Thames Rowing Club, from the mark. Beresford kept some lengths ahead of Ashe throughout, and paddled in, the easiest of winners, in 4 minutes.

In the sixth heat for the Diamond Sculls R. B. Etherington-Smith beat H. T. Blackstaffe easily. Time 9 minutes 1 second.

In the seventh heat for the Diamond Sculls, F. S. Kelley, Balliol College, Oxford, beat A. H. Cloutt, London Rowing Club, Kelley won easily. Time 8 minutes, 54 seconds. This was the last heat of the Diamonds for the day.

Other Contests.

In the first heat of the Thames Challenge Cup, Thames Rowing Club beat London Rowing Club. The Thames Rowing Club won by three lengths. Time, 8 minutes 16 seconds.

In the first heat for the Ladies' Challenge Plate Radley College Boat Club beat Jesus College, Cambridge, by a length. Time, 7 minutes 37 seconds. This was a grand struggle, and was won by a bare length.

In the first heat for the Silver Goblets Ward and Taylor, Third Trinity, Cambridge, beat Sonville and Crippbrugge, Club Nautique of Ghent. Ward and Taylor won easily. Time, 8 minutes 45 seconds.

In the second heat for the Thames Cup, Trinity College, Dublin, beat Molesey Boat Club, by a length. Time 7 minutes 45 seconds.

The second heat for the Thames Cup proved to be a very fine race. The Irishmen got the best of matters at Frawley Court and won by a bare length.

Argos' Victory Popular.

The Argonauts' victory at Henley is generally popular. Their form for several days past has suggested victory. The evening papers agree that they worn easily on their merits. The Argonauts' next opponents are Third Trinity. If they beat them, they stand a good chance to win the Grand Challenge Cup.

Colonial Agents in London.

London, July 4.—New Zealand has determined to appoint commercial agents in British and other parts of Europe, and also in South Africa. The opinion prevails among Canadians here that Canadian appointments should not be politicians or men selected on account of political pull, but experienced business men, thoroughly posted on all branches of Canadian industry.

DAMAGE BY RAIN INDICATED

Reports From All Parts of the Province on the Crops.

Prospects Are Bright For Everything Except Outstanding Hay—Lowland Crops Injured, But Those on the Highlands Will Not Suffer—If Weather From This on Is Favorable Much Apparent Damage Will Be Averted.

Toronto, July 10.—Reports received from all parts of the province as to the prospects of the hay, grain, root and fruit crops, show conclusively, that, had this been an average season, and free from the extraordinary amount of rain that has fallen, the yield, in every particular, would probably have been a record one.

Even as it is, the prospects for crops, either up to or above the average, are very bright all over, except in the matter of hay. The rain has played great havoc with the hay crop, which, while it was an extra large one, has not been harvested successfully, owing to the recent almost continuous rainfall. Corn, too, has suffered from wet and cold, and the yield will be rather poor.

In some localities it is the crops on the lowlands that will suffer, while the high lands will escape damage. Fall wheat will be from an average to a very good yield. The heavy rain has done it good in places by drowning off the Hessian fly, but continued wet weather threatens it with rust. The oat crop seems to promise well all over, and so does barley. Peas have suffered severely in some parts of the Province.

The root crop generally will be up to the average, if not a little better. The fruit yield promises to be heavy. Berries will be a large yield, and apples will likely be plentiful. Cherries and plums look well. It seems to be the general opinion that, if the weather from now on proves in any way favorable, much of the apparent damage done in some places may yet be avoided.

EACH PAYS HIS OWN COSTS.

The Judge Refused to Make Order in Lennox Appeal.

Toronto, July 10.—At Osgoode Hall, yesterday morning, Mr. Justice Maclennan handed out judgment in the application for costs, in the appeal against the recount in Lennox. Hon. S. H. Blake, counsel for the Conservative candidate, asked for costs because his client had been successful in both the appeal and cross-appeal. George H. Watson, for Mr. Madole, held that his opponent had only been partially successful in the appeal. The judge refused to make any order, and each side must therefore, pay its own costs. It is likely that this will be considered a precedent in other cases, where there is both an appeal and a cross-appeal.

The North Grey Cross-Appeal.

At 10.30 o'clock this morning, Judge Maclennan will hear the cross-appeal against the recount in North Grey.

The necessary $1,000 deposits in the protests in West Huron, against M. G. Cameron, and in North Wentworth, against R. A. Thompson, were made at Osgoode Hall yesterday by Messrs. Bristol, Cawthra and Bayly.

Frontenac Deposit Up.

Kingston, July 10.—Yesterday morning the $1,000, to accompany the protest of W. J. Shibley against the return of J. S. Gallagher, was deposited with A. McGill, registrar of the High Court of Justice.

Men Who Will Supervise Construction of Temiskaming Railway.

Toronto, July 10.—The commissioners who are to supervise the construction of the Temiskaming Railway have been appointed by the Ontario Government. There are five of them, and their names are: A. E. Ames, chairman; Hon. Thomas Bain, ex-Speaker, House of Commons; B. J. Folger, Kingston; M. J. O'Brien, Renfrew, and E. C. Gurney.

The position of secretary has not yet been filled.

In selecting the commission the Government has considered the agricultural, financial, commercial and industrial interests. Mr. Ames may be consiered as representing the financial interests; Mr. Bain, the agricultural; Mr. Gurney, the industrial; Mr. Folger and Mr. O'Brien, the commercial interests.

Each of the commissioners will receive an honorarium of $1,000 a year and actual expenses.

PORTFOLIO FOR HON. S. H. BLAKE.

Mr. Whitney May Possible Take Him in If There Is a Change.

Montreal, July 10.—A leading gentleman in Toronto, writing to a political friend in this city, states that although Mr. Whitney and the Conservative party would never think of a coalition with any of the present Ontario Ministers as members, they might consider the possibility of offering a portfolio to Hon. S. H. Blake, K.C., who is, he adds, at the head of a large and influential section of the Liberal party who will have no more to do with the machine.

A Woman With a Conscience.

Windsor, July 10.—William McGregor, Customs Officer, Windsor, received yesterday morning 123 one-cent stamps, which a conscience-stricken Toronto woman said were for duty on articles that she smuggled from Detroit several weeks ago.

RAILWAY EMPLOYES IN LUCK.

Montreal Street Railway Co. Give Them 10 Per Cent. Increase.

Montreal, July 10.—The head of the Montreal Street and the Park and Island Railways have given an increase of 10 per cent. to their conductors and motormen. Following a meeting of the directors yesterday, Mr. Wanklyn issued a circular increasing the pay of the men who had been in the company's employ over two years from 15 to 16¼ cents per hour, and those under two years from 14 2-7 to 15¼ cents per hour, amounting to $50,000. The company made a similar increase in 1899.

This Strike About Settled.

Chicago, July 10.—The strike of freight handlers is virtually settled. Meetings of the strikers will be held to-day to ratify the action taken last night by President Curran of the order.

The Color Line in Labor.

Toronto, July 10.—The Iron Moulders in convention assembled had rather a warm debate on the question as to whether the negroes of the sunny South were to be admitted in to the union. The Southern delegates warmly opposed the move to have the negroes of the Southern States admitted, and used some very strong arguments backing up their view of the question. The delegates from the Northern States spoke up in favor of the negro and insisted that he had rights as a toiler just the same as the white man. Canadian delegates stood for the negroes. The question was not settled. The event of the day was a resolution brought in favoring the cause of the striking coal miners in Pennsylvania. The convention decided to give them $1,000 should the need arise.

CRISIS IN LANCASHIRE.

Cotton Trade Thinks Reduction of Output Only Salvation.

London, July 10.—The cotton crisis in Lancashire is growing more acute, and the trade regards a heavy reduction of the output as being its only salvation. A meeting has been called for July 11 to consider the replies to circulars advocating joint action of the spinners in resorting to short time, as was done during the last two summers. The general opinion is that a curtailment of the production on even a more extensive scale than heretofore will be necessary to avoid heavy losses.

President Charles W. Macara of the Masters' Federation says the short supply of cotton and the big discount in the price of future delivery are the main causes of the crisis. He declares that speculators have secured possession of the raw material and that the firms running full time are playing into their hands. The only hope for the Lancashire cotton industry is for the trade to act unanimously.

The charges arise from the Gardener inquiry. It is alleged that Hickman ducked two natives in a stream in order to obtain information. He is further charged with having ducked a third native, who died from the maltreatment.
