THE GLOUCESTER MINING ASSOCIATION.—We have pleasure in stating, that W. J. Henwood, Esq. Geological Surveyor to the Duchy of Cornwall, arrived in this City on Saturday last, and left on Tuesday morning for Fredericton, on his way to Bathurst. Mr. Henwood came out in the Great Western, specially engaged by the above Association to survey the Counties of Gloucester and Restigouche, and report upon the value and extent of the lodes of copper, several of which are already being worked by the Association with considerable success. Mr. Henwood is a fellow of the Royal Society, and also of the Royal Geological Society of London; and his name ranks high among the scientific men of the age. We cannot but congratulate the Province that a gentleman of great practical knowledge in the Mining, has been deputed to visit us, (as we understand, by permission of the Government,) for the purpose of assisting to search out the mineral treasures of New Brunswick, and direct the best modes of mining. We hail this event as a proof that our Province is becoming better known and attracting more attention in Britain than heretofore, and that Dr. Gesner's Geological Survey is silently but surely advancing our interest on the other side of the Atlantic, where, we are assured, the Doctor's Reports are read with much attention and excite great interest.—*Courier.*

A WHALER.—We have much pleasure in announcing the return of the *Margaret Rait*, one of Mr. Stewart's whalers, manned entirely by British subjects, from an unusually successful voyage. She has been absent only twenty-three months, and brings home a full cargo of 2320 barrels of Oil, and 22,000 lbs. of Bone, in addition to the 900 barrels of Oil, and 7000 lbs. of Bone, shipped to London in March, 1839. —*Ib.*

INQUESTS.—An Inquest was held at Indian Town on the 3d instant, before Dr. W. Bayard, Coroner, on view of the body of Stephen Lyons—Verdict, "Accidentally drowned while bathing." Also, on the 6th instant, an Inquest was held on view of the body of John M'Elwin—Verdict, "Accidental death by falling from the first story into the area of a new house."

On Friday, an inquest was held on view of the body of *William Agan*, who was found dead, hanging to a tree, in the woods near Lily Lake.—The Jury returned a verdict of—"deceased came to his death by hanging himself."

KING'S COLLEGE, *Fredericton*, June 30.—At a Convocation, held this day, the degree of Bachelor of Arts was conferred by deploma on Mr. Henry Smith.

KING'S COLLEGE, *Windsor*, June 26.—At a Convocation held this day, Philip Canteret Hill and James Odell, Scholars, and James Hall Thorne, and Charles Merritt, Commoners, of this University, were admitted to the Degree of Bachelor of Arts.

The Great Western takes out 158 passengers—a larger number than on any former trip—whose passage money amounts to about 18,000 dollars. The amount paid for letters she takes out will not vary much from 3200 dollars, and she has besides packages and freight.—*New-York paper.*

Montreal Market, July 3.

FLOUR.—The quantity which has arrived of both American and Upper Canada has been very large; still prices have varied little for the past month; the former found ready buyers at 26s 3d. for Fine, for immediate consumption and the lower ports, and the latter at 30s. for shipping—the whole was mostly sold on time. In the early part of this week, one lot of 1000 barrels American Fine changed hands at the above figure (26s. 3d.) although we have not heard of any sales of Upper Canada under 30s.; still there are more sellers than buyers at that rate. A reduction on these quotations is anticipated, and we would not be surprised to see American Fine *D.5* per barrel before many days. It is a matter of astonishment to many that shippers should pay 30s. for Fine, considering the *prospect*, and the low price of bread stuffs in the 'home markets.'

PROVISIONS.—There is a considerable quantity of Pork and Beef in Market; but very little doing in the way of making sales. A few small lots of Prime Pork changed hands, this week, at 62s. 6d. per barrel, and Prime Mess at 75s. Butter has been sold at 5½d. *a* 6d.; and Lard at the same figure; but very little doing in either.

SUGARS.—A very considerable reduction has taken place on Muscovado since our last report; bright has been sold at 38s 6d *a* 41s 6d; Middling 37s *a* 39; and Dark, 32s 6d *a* 36s; Refined has also declined, and can now be bought at 65s 8d for Single, and 7d *a* 7¼ for Double, at private sale.—*Transcript.*

CORN CROPS AND TRADE.—This market is now inactive. There is only a small demand from the east ward, which is easily supplied from the immense stock in hand. Prices of Genessee range from *D*4 50 to *D*4 62, but the large quantity of bread stuff in the country must soon reduce them to *D*4.

The demand throughout the country is quite small. Immense shipments abroad have been made, and from American ports, on the Lakes, into Canada. To Europe they have nearly ceased, in consequence of the favourable appearance of the crops there, and the demand therefrom being supplied for the present. To the Canadas, however, and to New-Brunswick, flour is still going. It is estimated that upwards of five hundred thousand barrels will be our shipments this year to British North America. Some go higher, even to one million, but the former estimate is within bounds. Part of this in ready made flour, and part in grain. From Cleveland alone, about sixty thousand barrels of flour, and six hundred thousand bushels of wheat, equal to one hundred and ten thousand barrels of flour, will go into Canada. A portion of this great supply will find its way to England, at a less duty than if it went hence direct. Another portion will go to the West Indies, and the balance be consumed by the Canadians and the fifteen thousand English troops now stationed north of us.

There being few orders from Europe, and the wants for home use being small compared with the great supply, prices have materially fallen, and may now be considered as merely nominal. At Cincinnati, June 22d, D.3 per barrel; at Pittsburg, 20th, D.2 62 per barrel.—*N. Y. Herald.*

LOOK OUT!—*Conviction and Escape of Lett the Conspirator.*—We learn by a gentleman from the North that the notorious Lett was tried at Oswego a few days since, before Judge Bridley, on the diabolical charge of having attempted to blow up the steamboat Great Britain, and that he was promptly sentenced, forthwith, to seven years imprisonment and placed in the cars to be sent to the Penitentiary at Auburn. But it appears there are, to the disgrace of the morals of our State, persons still here whose false ideas of sympathy for Canadian patriotism go so far that they have colluded with this felon who richly merits a gallows; for when within four miles of Auburn, the cars going, it is affirmed, at the rate of 20 miles an hour, Lett mysteriously made his escape, having been found missing at this juncture. It behooves very magistrate and man in this community to use the utmost vigilence to apprehend and secure this renegade, who is prowling at large, and may commit some other enormity.—*N. Y. Empire State.*

Passengers in the ship *Herald*, Capt. Stephenson, which sailed on the 4th instant, for Cork:—Dr. Robb, late of King's College, Fredericton; the Rev. Richard Williams, (Wesleyan Missionary,) and family; Mr. John Owens, of Portland, and Mr. Ross of Inverness-shire, Scotland.

The Hon. Chief Justice Chipman, Lady and Neice, and the Hon. A. E Botsford, of this Province; and the Rev. Messrs. W. & E. Ryerson, of Montreal, were among the passengers in the packet ship *Oxford*, which sailed from New-York on the 1st inst. for Liverpool.

In the list of passengers in the *Great Western*, which left New-York on the 1st inst. we notice the names of Mr. Archibald Mackay, of this City; Mr. J. S. W. Dewolfe, of Liverpool, and the Rev. Matthew Richey, of Toronto. The latter gentleman is well known to the Provinces as an able and zealous Minister in the Wesleyan Methodist connexion; he is at present Principal of a College in Upper Canada, and visits England for the benefit of his health.

The Clockmaker.—We understand that the Author of this work has the third Series of the Savings and Doings of Samuel Slick, now ready for the Press, and that the MS. will go to England by the Britannia. It is said that the Tour commences at Halifax, passes through New Brunswick, Maine and New England, and terminates at New York, where Mr. Slick embarks for England. It is probable, therefore, it will be followed by an English Series.—*N. Scotian.*

SEMINARY FOR

YOUNG LADIES.

MRS. WEISBECKER

RESPECTFULLY informs the inhabitants of Saint John that she has opened a SEMINARY for Young Ladies, in Mr. Holman's house, Duke street. Mrs. W. begs leave to say that she was educated for the profession of a Teacher, by the most qualified persons, under the superintendance of her father, who was an eminent Classical and Mathematical Scholar, and that she, and her Sister, for a long period, conducted a Boarding Scoool for Young Ladies, in Limerick.—Should Mrs. W. be honored with the confidence of the public, she trusts that her exertions will meet the same approbation and success, here, that always attended them in her native city.

The course of Education will comprise the following Branches—Reading, Writing, Arithmetic, English Grammar and Composition, History, Geography, the use of the Globes, French, Italian, Drawing, &c.

The Musical department will be conducted by Mr. Weisbecker. 23d June, 1840.
