MINNEAPOLIS, Aug. 2.—Close: Wheat, Sept., $1 00⅞ to $1 01; December, $1 02 to $1 02⅛; May, $1 05⅞ to $1 06; No. 1 hard, $1 04⅝; No. 1 northern, $1 02⅞ to $1 04⅛; No. 2 northern, 99⅝c to $1 02⅝; No. 3 wheat, 97⅝c to $1 00⅞c; No. 3 yellow corn, 63c; No. 3 white oats, 40c to 40½c; No. 2 rye, 79c to 79½c; bran.

Winnipeg, Aug. 2.—The market was again nervous and narrow. In the opening it was bid up on scare reports from the south, and October sold up to 95⅝c, or ⅜ to ⅞c over the previous close, but demand was not sufficient to sustain the price, which dropped to 94⅝c, and ultimately closed unchanged. December went through much the same experience, and closed ⅛ to ¼c down. The weather map showed almost ideal conditions, the range during the day being 68 to 80, and during the night 40 to 50, with a few very light showers. There was nothing new in the gossip, the changes continuing to be running on the rust scares. It is a weather proposition from start to finish, and likely to be so for a couple of weeks. NEW YORK, Aug. 3.—(Noon)—After the early recessions, a stronger tone developed, and before the end of the first hour a rallying tendency was reflected in an upturn that carried many of the leading issues slightly above yesterday's close, complete recoveries being effected. The upward movement was made easy by the fact that for the time at least the impressive selling noted since last Thursday had ceased. The extreme declines in the early part of the hour were due to some extent to the reaching of stop orders. This was the case in Union Pacific. The decline in Utah Copper was due chiefly to stop orders also. London did practically nothing in today's market, and although some houses with foreign connections said Berlin was uneasy over the political situation, only a small amount of stock was sold for the continent.

Dr. J. B. Campbell was summoned, and found that while the little girl was very badly bruised she will recover.

NO MORE CARNIVALS.

Hamilton, Aug. 3.—Hamilton will bother with no more summer carnivals. The manufacturers who made the last one an immense success by subscribing thousands of dollars, have decided Hamilton is too big a city now to tie its business up a whole week just for fun, and they have placed themselves on record as strongly opposed to another carnival such as proposed.

STRUCK ABOVE EAR BY FALLING BOARD

London Township Man Meets With Serious Accident.

While unloading sheaves with slings Wednesday morning Sidney Snell, of lot 6, concession 8, London Township, was very seriously injured when a pulley broke and pulled down with terrific force a board, which struck him just above the ear, rendering him unconscious for some time. The board which struck the injured man with tremendous force, inflicted two very severe wounds, and it was thought for a time that he would not recover. Dr. MacNeill, of Arva, was called at once and attended his injuries. It was found that there had been considerable internal bleeding in the ear, and it was thought for some time that there had been a fracture of the base of the skull. However Mr. Snell is now doing as well as could be expected, and there are good hopes of his recovery.

NO FOUNDATION TO YARNS ABOUT NIOBE

Not Sent Out For Political Purposes, But Was on Summer Cruise.

[Special to The Advertiser.]

Ottawa, Aug. 3.—The naval department declared there is no foundation for the report that the Niobe was sent for political purposes into dangerous waters. The fact is the Niobe was on her regular summer tour of Canadian ports on the Atlantic Coast. The boat had finished her Quebec cruise, having called at several ports, and the Nova Scotia cruise had been started. The call at Yarmouth was on the schedule. It is understood here that the Niobe was caught in the typhoon which a short time before had hit New England with a force which sailors 20 years on the coast say was beyond their experience. This was complicated by fog, which could not be seen through, and a disturbance of the strong currents of this coast added to the difficulties of the boat's position. Reports indicate that the pumps can easily cope with the leak. As soon as the weather steadies the Niobe will go to Halifax for repairs. She will be towed, and not proceed under her own steam.

LOCAL ITEMS

Special Car Service.

During Old Boys' week the London Street Railway Company will provide a special morning service from 12 o'clock midnight to 2 o'clock a.m. A ten-cent fare will be charged.

Bolton—Brown.

A quiet wedding took place at Florence on Wednesday, July 26, when Miss Agnes Brown, of Oakdale, became the wife of Mr. George Bolton, of Shetland. The ceremony was performed at the Methodist parsonage by Rev. A. D. Whaley.

A Berlin Picnic.

It is expected that 1,500 people from Berlin will picnic at Springbank, this city, on Aug. 15. Yesterday afternoon Mr. Harry E. Buttrey received word from that city to the effect that London was being considered as a suitable place for the picnic, and he at once communicated with Ald. F. G. Mitchell, chairman of the reception committee. He got in touch with the Berlin people, and it is quite certain now that they will come here.

Off for the West.

More than 600 harvesters went to the west this morning on the special train which the Grand Trunk put on in connection with an excursion to the west. About 40 of the harvesters were from London and the immediate vicinity, and the rest from outside points. Many of them are just going with the intention of staying until the fall, but a number are taking along a lot of their effects and will homestead in the west. The special is going via Chicago.

Dangerous Dogs.

A couple of coach dogs kept at a house on Piccadilly street, prove themselves to be a dangerous menace to the people living in the neighborhood. On Tuesday last one of them attacked a small boy, biting him severely on the arm. They seldom allow anyone to pass without making unpleasant advances, and are looked upon with fear by many. The owner justifies himself with the plea that he pays taxes on the dogs he has a right to keep them. This may be true, but the law does not justify him in keeping two dangerous dogs which are admitted to be a perfect nuisance to the public.

A MORTAL FOE

Continued from Page One.

made themselves rich by concocting "bug death," "knobug" and other preparations with fancy names.

No Need for Paris Green.

In some parts of the United States beetles are known which prey upon the potato bug so that paris green is never called into requisition. The average potato consumer may not realize how much the potato harvest is affected by the Colorado beetle. If it is not checked early in the season there will be no potato crop at all, as the insect multiplies rapidly and will eat the leaves and stalks of the potato plant clear to the ground. Should the potato grower be unable to attend to his patch at once, his potato plants will be seriously retarded in their growth and his potatoes will be late for market. Every week or ten days they have to be re-sprayed, and the labor involved amounts to a good many days' work in the average season.

Identifying the Beetle.

Mr. McKone is following up his discovery and is taking steps to properly identify the new beetle which he has discovered for the first time in this locality.

Although the destruction of the Colorado beetle may not avert the threatened potato famine of this season, yet in future it will have the effect of encouraging farmers to plant large acreages of potatoes. New potatoes cannot now be purchased at less than $2 per bushel on the local market, and the price is likely to go higher, but if the potato lover can manage to subsist throughout the coming winter he may safely look forward to cheaper and better potatoes next season.
