TIPS FROM WALL STREET.

The market closed weak to-day.

Earnings of Burlington for the month of August show an increase in gross of $759,746 and a net increase of $344,000.

The indications are that St. Paul will fall this year to surpass its previous high record of gross earnings. It should, nevertheless, come very close to them, and it is probable that its net earnings and the surplus available for the stock will be the highest in the history of the company.

The most active stocks to-day were: Sugar 19,800 shares, St. Paul 21,800, Rock Island 16,800, W. U. 4100, Union Pacific 13,400, Jersey Central 1700, Northern Pacific, pre. 18,900, Mo. P. 5300, L. & N. 11,200, Burlington 45,800, Omaha 2800, C. & O. 4900, Chicago Gas 51,800, Manhattan 5000, N. Y. Gas 7400, Tobacco 3800, Southern, pref. 4100, Atchison, pref. 8000.

NEW YORK GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch from New York to-day:

After some show of strength at the opening the market turned weak again under renewed liquidations, and aside from a feeble rally in the middle of the day the tendency was downward. Consolidated Gas made a sensational decline, selling down to 208, after opening at 217. Chicago Gas was also a weak point in the market, and predictions are made that it will sell below 90. The decline in prices is not due to any change in the favorable outlook, but simply to the over-bought condition of the market. Railroad earnings continue favorable. B. & O. reports gross increase for August of $759,000 and net increase of $344,000. The market will no doubt continue weak, while sales are pressing on account of light margins, but when this enforced liquidation has run its course the improved business conditions will again be a factor.

McIntyre & Wardwell (John J. Dixon), received the following despatch from New York to-day:

The stock market developed further irregularity to-day, influenced largely by continued absence of bull support and fresh liquidation and hammering by bears. There was a report current of a disagreement between the leading bull interests and this was given as a particular reason for the recent heavy selling and steady decline in the Flower group, especially Rock Island and Chicago Gas. The Burlington statement officially announced, although showing an increase of $344,000 in net earnings for August, was disappointing, as the street had been led to believe it would increase $450,000 to $500,000. There was general selling upon this announcement for both long and short account. London and Chicago houses also sold freely. There was some good buying by commission houses and banking interests were on the decline, but buying power was not strong enough to hold the market. Pressure was renewed in the last half hour and the market closed weak and irregular, showing net declines of 1 to 2 points in the railroad list. Chicago Gas lost 2¾, and Consolidated Gas broke 10 points. The outside news continues favorable, while trade conditions are better than three weeks ago, when bull fever was on, but for the present the street sees nothing but a preponderence of selling pressure and it is therefore apparent that the movement must run its course before the advance can be renewed.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch from Chicago to-day:

With cables only ⅝ lower than yesterday our wheat market opened steady and filled firm the greater portion of the day, with one weak spell caused by the weakness in September wheat, which sold 4c to 5c under December. This was caused by the fact that No. 2 spring will not be deliverable on contract after to-day. Shortly before the close there was a stampede among shorts, causing an advance of 1½ cents, and the close was firm at the highest price of the day. France will have to import 113,000,000 bushels, according to the Paris Gazette Commerciale. Large engagements were reported for export, but it is impossible to find out how much some of the large operators were reported as buying the May option. We think the price is low enough and think purchases made on weak spots will prove profitable.

Corn and oats—Ruled firmer in sympathy with wheat and closed ½ cent higher than yesterday. We are inclined to think that low prices have been seen for a time in both cereals.

Provisions—The receipts of hogs were under the estimate and prices firm to slightly higher. Closing prices show gains for hog products, despite the fact of considerable liquidation of the October option.

McIntyre & Wardwell (John J. Dixon), received the following despatch from Chicago to-day:

Wheat—The vote yesterday to re-instate No. 2 spring as contract wheat was overwhelmingly in favor of the maintenance of the present grades, namely No. 2 red winter and No. 1 northern. This, we think, had not a little to do with the advancing tendency in the market to-day. Confidence was manifested by some local traders who bought wheat in considerable volume, mainly for May delivery, and that future was consequently much stronger than December, gaining about ⅜c. The market closed firm at best prices of day and about 1⅜c higher than last night. Cables were lower, but not as weak as generally expected. The foreign trading did not suggest any panicky feeling abroad. There was no export business reported. Receipts at primary points continue large, being for four days this week 850,000 bushels. Shipments from the Atlantic seaboard in same time 1,634,000 bushels, wheat and flour. These figures indicate another large increase in visible supply. The situation looks much mixed and until news grows stronger we think wheat should be sold on advances.

Provisions—Opened strong and higher. Receipts of hogs were 4000 less than expected. Packers were good buyers of October ribs. Exporters bought December and January lard. Cudahy Packing Company sold January ribs. The market ruled steady throughout the session and closed strong about highest prices of the day. Estimated receipts of hogs to-morrow 23,000.

HAD SEVERE FIGHTING.

General Jeffreys' Force Had Hot Engagement.

BRITISH OFFICERS KILLED.

Lieutenant-Col. O'Bryen and Lieutenant Browne-Clayton Met Death.

Senate Reading Room Library

Lieut. Peacock Severely and Capt. Styles Slightly Wounded—Three British and Seven Native Soldiers Killed and a Number Wounded—Twelve Mohmand Villages Destroyed and Their Towers Blown Up—Resignation of the Greek Cabinet—General Cable News.

Simla, Oct. 1.—The troops under General Jeffreys had some severe fighting at the villages of Agrah and Gat. The insurgent tribesmen occupied positions behind rocks, and a hot engagement at close quarters was fought before the two villages were destroyed. Lieut.-Col. O'Bryen and Lieut. Browne-Clayton were killed. Lieut. Peacock was severely wounded, Capt. Styles was slightly wounded, three British soldiers were killed and 15 wounded; seven native soldiers were killed and 23 wounded.

In consequence of their failure to accept the terms of the British commanders, the punishment of the Mohmands was resumed on Wednesday. Twelve of their villages were destroyed, and their fortified towers were blown up without opposition.

AFRIDIS ARE DARING.

They Attacked a Patrol of British Lancers Near Peshawur.

Peshawur, Oct. 1.—The Afridis attacked a patrol of British Lancers, near Fort Bara, this morning. It was an unpleasant surprise to the British commanders to find that the enemy has ventured so close to Peshawur. Fort Bara is only a few miles distant from here.

Ameer Orders Arrest of Afridis.

Simla, Oct. 1.—The Ameer of Afghanistan has ordered the arrest of any Afridi Jirgahs appearing at Cabul.

THE CRISIS IS ON.

Greek Ministry Has Resigned—Newspapers are Discontented.

Athens, Oct. 1.—The Premier, M. Ralli, this morning officially tendered the resignations of the Cabinet Ministers and they were accepted by King George.

All the newspapers, with the exception of the Delyannis organs, express the deepest discontent with the crisis.

The Asty declares the Chamber has accomplished a shameful betrayal by placing party interests before the interests of the country.

GERMANY WAS THE KICKER.

Threatened to Withdraw From the Concert if Greece Refused Peace Proposals.

Athens, Oct. 1.—The contents of the white book presented to the Chamber are now generally known. It confirms the statement that Germany threatened to withdraw from the concert of the powers in the event of Greece not accepting the peace conditions, and it also confirms the statements made regarding the warning to Greece which the French Minister for Foreign Affairs, M. Hanotaux, issued on May 30, relative to the internal situation of the country, declaring that any attack upon the dynasty would threaten the very existence of Greece.

SPAIN'S CABINET CRISIS.

It is Taken for Granted That Sagasta Will be Made Premier.

Madrid, Oct. 1.—The Liberals are preparing to give an ovation to Senor Sagasta, their leader, upon his arrival here to-day. It is taken for granted that he will form a Cabinet, of which probably Senor Gamazo will be Minister for Foreign Affairs; Senor Moret y Prendergast, Minister for the Colonies, and General Correa, Minister for War, although Senor Moret y Prendergast has been mentioned for appointment as Spanish Minister at Washington to succeed Senor Depuy de Lome.

It is not expected that the Cabinet crisis will be ended for another week.

King George has invited M. Zainos to form a Cabinet. M. Zainos is a member of the Delyannis party, and hesitates to undertake the task. His acceptance would cause a split among the Deylannists.

GERMANY AND SAMOA.

Berliners Would Rather See Britain Get It Than the United States.

Berlin, Oct. 1.—The officials of the United States Embassy and of the United States Consulate here say there is no truth in the story contained in a despatch from Berlin to The Daily Chronicle of London, saying that President McKinley has instructed the new United States Consul-General at Berlin (in the absence of the United States Ambassador, Andrew D. White, who has been spending a fortnight at Heringsdorf), to give an opinion as to an alteration of the Samoan treaty, and that it was believed that the United States intended to invite a new conference on the subject. It was added that Germany was certain to object strenuously to any weakening of her hold on Samoa, and that the complete cession of the group of islands to Great Britain would meet with far more support in Berlin that would American occupation of the islands.

The Vossische Zeitung expresses the opinion that Samoa ought to become German, as two-thirds of the land is owned by Germans. The Vossische Zeitung also says: "The existing treaty must be abolished and order re-established."

Other newspapers express similar views on the subject.

The Pope's Condition.

London, Oct. 1.—The Globe this afternoon says it hears the Pope's weakness is increasing and that the church dignitaries are afraid he will not rally from the extreme feebleness and exhaustion he now betrays.

A Lawyer for the Fifth.

London, Oct. 1.—The Daily News says this morning that the fifth Venezuelan arbitrator will be an international lawyer of the highest reputation, whose name will be published in the course of a few days if he finally accepts the post.

Earthquakes in Borneo.

Singapore, Oct. 1.—Earthquakes are reported to have shaken many places on the northeast coast of Borneo, and a new island has been thrown up near Mempakul.

Algeria's New Governor.

Paris, Oct. 1.—A despatch from Rambouillet says that M. Faure has appointed M. Lepine, Prefect of Police of Paris, Governor of Algeria, in succession to M. Jules Cambon, who has been appointed French Ambassador to the United States.

Premier of Natal Resigns.

Durban, Natal, Oct. 1.—Hon. Henry Escombe, Q.C., Premier of Natal, has tendered his resignation, on the ground that the country is not favorable to his proposed loan for railway construction.

A PLAGUE OF TYPHOID.

Business Paralyzed at Maidstone, Kent, England—People Leaving Their Homes.

London, Oct. 1.—The prevalence of typhoid fever at Maidstone, Kent, is increasing, and trade is absolutely at a standstill. There are now 1172 cases of the disease, and there have been 46 deaths, six of which occurred last night. The surface impurities of the water supply, due to the declinage from a hop-picking encampment, have not abated. In addition to the many doctors and nurses who have arrived from other places to care for the sick a large number of volunteer nurses have been advertised for.

Some of the residents have become panic-stricken at the alarming state of affairs and the continual tolling of the church bells denoting the burial of the dead, and many are leaving their homes.

GREAT FIRE IN LONDON.

Much Destruction in the Business Section of Blackfriars Road.

London, Oct. 1.—A big fire broke out this evening shortly before midnight in the Blackfriar's-road and before it was quenched did enormous damage. It originated in Pascall's confectionery stores and spread rapidly to the Saunders' bacon curing establishment and then to the adjacent premises occupied by the Perceivals, well-known Government contractors. In spite of the efforts of the firemen all these large structures were virtually destroyed.

FOUND DEAD IN A GULLY.

Supposed Suicide of a Young Man Who Has Been Missing Since the Toronto Fair.

Herbert Allen, aged 26, who had been in the service of Mr. James McLean of the second concession of West York, left on Sept. 9 to attend Toronto Industrial Fair. This was the last heard of him by his employer. Yesterday the body, in an advanced state of decomposition, was found in a gully on the rear near Lansing, by Joseph and Leonard Jackson. Dr. Richardson of Eglinton made a post-mortem examination, the result of which points to suicide. An inquest will be held at York Mills at 3 o'clock this afternoon.

CONUNDRUMS FOR THE GOVERNMENT

Editor World: The following are some of the "whys" for our Canadian Government to consider:

1. Why allow American citizens to own Canadian tugs under an assumed Canadian name and do the work which our Canadian tugs should do?
2. Why allow American tug boats the privilege of bonding coal while our Canadian boats have to pay duty?
3. Why allow American citizens to run Canadian tugs?
4. Why allow Canadian logs to be towed over to Michigan, duty free, to supply the Michigan mills with saw logs, while the Georgian Bay mills have to be closed?
5. Why allow the American lumber to come in free while ours is taxed $2.00 per M.?
6. Why not have the export duty on logs the same amount as the Americans tax our lumber?
7. Why not have our timber, the natural resources of the country, all manufactured in Canada?

MAIL BAGS MANGLED.

Cars Ran Over Them and Letters, Parcels and Papers Strewn About—Registered Letters Cut Open.

Morrisburg, Ont., Oct. 1.—For some time past the early morning mail from the west has been thrown off at this station on account of the train not stopping here. This morning the bags were put off in the usual manner, but in some way they came in contact with the car wheels and were badly torn. Letters, parcels and papers in a mutilated condition were distributed along the track for about 300 yards from the depot. Registered letters were cut open, leaving the contents exposed and it is probable a number have been lost. A lot of unused stamps were also strewn about. At present it is impossible to say what the loss will be.

The articles will appear in The Sunday World, commencing to-night, and will be found very interesting and instructive.

NEARLY 30 PERSONS INJURED.

A Smash on the Boston and Maine Railroad—The Montreal Express Was the Train Wrecked.

Medford, Mass., Oct. 1.—The Montreal express over the Southern division of the Boston & Maine Railroad, due in Boston at 8.30 o'clock to-night, met with an accident at West Medford at 8.20, whereby nearly 30 persons were more or less injured, but none, it is believed, fatally hurt. There were eight cars on the train, which was running rapidly, and the three rear coaches were derailed. Those injured most seriously are as follows:

A. A. Serva, Somerville, Mass., back injured.

H. W. Fuller, a Harvard student, residence unknown, hip injured.

Mrs. A. M. Allen, Chelsea, Mass., serious injury to spine.

Mrs. A. C. Fiske, Cambridge, Mass., general bruises.

George Baker, Montrose, Pa., left hand and fingers crushed.

W. A. Bond, Lynn, Mass., injured about head and neck.

Mrs. John W. Palfrey, Chelsea, injured about neck, hip and sides.

George E. Jenkins, Whitman, Mass., right leg broken, arms and back badly bruised.

Mrs. Rowen Ely, Boston, spine injured.

Miss Soughcott, St. John's, Nfld., general shaking up.

Mrs. A. Anderson, St. John's, Nfld., spine injured.

John T. Ely, Boston, badly bruised.

The coaches were derailed, it is said, because of a defective truck. The more seriously injured were taken to hospitals in Boston. The others were sent to their homes or their destinations by the railroad officials.

Accidental and No One to Blame.

Coroner Orr held an inquest at No. 6 Police Station last night on the body of Donald A. Parres, the Wagner car porter, who was killed by a Queen-street trolley near Northcote-avenue on Thursday night.

The witnesses examined were the men who manned the cars, Miss Gertie Brown of Spruce-street and Policeman Weston, who witnessed the accident. After a short deliberation the jury returned a verdict that Parres' death was entirely accidental, and that the street railway employes were exonerated from all blame.

STARVING INDIANS.

A Methodist Missionary Tells a Pitiful Story of the Condition of the Redmen—Winnipeg Notes.

Winnipeg, Oct. 1.—(Special.)—Fred Stephens, Methodist missionary between Lake Winnipeg and Hudson Bay, writes concerning the Indians: "I never saw such sad, broken-hearted people as those gathered Sunday last. They came to my tent, told me that they were thankful to God for taking their children from hunger's pangs and the cold's sting. They came, both at the island and at God's Lake, and begged me to tell them if there was any chance of getting a place inland where they could settle. "We cannot live here," they said. We cannot settle down and learn of God and have schools for our children. Can you help us?" As stated in despatches to The World a week ago, starvation will reach many this winter, food being already scarce at the end of August.

THINGS POLITICAL.

The Lindsay Warder (Con.) says the Ottawa Government are about to appoint a Junior Judge for the County of Victoria, and that the aspirants for the position are Messrs. Barron, O'Leary and McIntyre.

James Lister, M.P. (Lambton), had strong hopes of succeeding Sir Oliver Mowat as Minister of Justice. So had Sir Louis Davies. Senator Mills is to get it. Mr. Mills is another member of the Liberal party who was ignored when the Liberal Cabinet was formed, not from any intention of Mr. Laurier's, but by reason of the opposition of a section of the party who wished to bounce not only Mr. Mills, but Sir Richard Cartwright. Sir Richard is to-day the strongest man in the Government, and Mr. Mills, without any solicitation on his part, or any worked-up boom in his favor, is invited to succeed Sir Oliver. As a consequence the aspirations of a number of M.P.'s to Cabinet rank must be postponed for an indefinite period.

Mr. McMullen, Mr. Lister, Mr. Casey, Mr. Charlton, Dr. Macdonald, all expected to be Ministers when the defeat of the Conservatives was known, in June, 1896. Their chances are not growing.

The first judgeship that comes to David Mills to give out in Ontario will go to Mr. Britton, M.P. for Kingston. At least, so a well-known Q.C. said last night. Mr. Britton has certainly the makings of a good and useful judge.

The pressure on Sir Wilfrid Laurier for office is the hardest thing he or any Premier has to encounter. "His heart is about broke now," said a man friendly to the leader of the Liberals.

Mr. Mulock is insisting that the workmen employed on goods for the postoffice shall be properly paid. So far so good. But Mr. Mulock ought to have applied a similar rule on awarding the contracts for carrying the mails over the inferior postal routes. There are men all over Canada who have taken contracts to run a daily or lesser service that will not give a man and horse 50 cents a day for the trip! How can they live on it?

There is a nice row coming on among the one-time advocates of Ras Wiman's Commercial Union project. We will not at present call it by a harsher name. That project was supported day after day by The Mail newspaper, The Globe, Mr. Hardy, Mr. Laurier, Mr. Dana and The New York Sun. All these were brothers-in-arms in those days. The cry of The Mail was "so much the worse for British connection," and of the others, "we want our natural market," and "this-is-the-continent-to-which-we-belong." Now they are all loyal; but, unabashed by its own treachery and disloyalty, The Mail taunts Mr. Hardy with being disloyal, and quotes from The New York Sun to show that Mr. Laurier is a pro-American. The public can, under these circumstances, appreciate the following choice references to The Mail by Mr. Hardy and The Globe:

Globe editorial, Oct. 1.: The name applied by Dickens to a paper used for the daily distribution of falsehood, ruffianism and moral garbage, "The Daily Sewer," was unduly severe and unfair—to the sewer. The sewer is a necessity, the other thing is a nuisance.

Mr. Hardy, at Strathroy, Sept. 30.: The Members of the Ontario Government were heart and soul as British as any, and it ill-became a paper like The Mail and Empire, which was an annexation paper not ten years ago, to attack them on the score of loyalty. It only needed the mask to be thrown off, and it would be seen that The Mail and The Empire would be exposed to the eyes of the people in all its naked deformity.

Tarte-Grenier Libel Case Nearing Conclusion.

MR. TAILLON'S TESTIMONY

Conflicts Badly With That Given by the Minister of Public Works.

The Ex-Premier of Quebec Said He Never Knew Tarte Got Money from Pacaud or Whelan—And Still the Whereabouts of That $5000 Remains a Mystery—Messrs. Gobeil and Roy Give Evidence Regarding the Customs Department.

Montreal, Oct. 1.—(Special.)—At the Tarte-Grenier libel suit to-day, Judge Wurtele again refused to allow the jurors to leave the Court House, and His Honor announced that some poltroons and cowards had sent him threatening letters, regarding the manner in which he was conducting the case.

Hon. L. O. Taillon was the chief witness to-day and his testimony was of interest from the fact that the ex-Premier of Quebec contradicted Hon. Mr. Tarte's testimony in the most absolute manner. The Minister of Public Works, after accepting $5000 of the boodle which Pacaud had bagged from Contractor Whelan, declared that he had used the amount for political purposes. He then became an active member of the Conservative party, and at the same time intimated that he had told Taillon where the money came from. To-day Mr. Taillon stated most positively that he never knew Tarte got money from Pacaud or Whelan until it came out in the papers, and since that time had Tarte given him to understand that money for organization purposes had come from any other source than from leading Conservatives in Quebec or elsewhere. So far, Mr. Taillon added, were the Conservatives from being accomplices, that he had warned Whelan time and again from paying money to the Quebec toll-keepers, who flourished during the Mercier regime, and it will be remembered that Mr. Pacaud first stated that he had given $10,000 to Mr. Tarte, to keep the Opposition quiet, and Mr. Tarte followed with a prompt denial that he had received $10,000. Yet it soon transpired that he had accepted $5000, but had spent it all to organize the party he was so soon to leave. Now the leaders declare they know nothing about it and the question is, what became of the $5000?

All the Evidence In.

The evidence was concluded this afternoon and the case will be given to the jury to-morrow. This afternoon Mr. Gobeil, Deputy Minister of Public Works, and Mr. Roy, Secretary of Public Works, testified that it was the custom of the department where tenders were the same to consult the member of the locality, if he was a friend of the Government, or otherwise, the defeated candidate. Such letters had been sent when the coal contracts for 1896 were given out to Mr. Petit and other Liberals. When Mr. Petit's letter was published, Mr. Tarte wrote to him saying he could no longer receive any suggestions from him. The custom had not been discontinued.

Mr. Tarte was again put on the stand and swore that he had never been told of Grenier's claim against Le Soir and that he had not promised him any money. He denied that he had told Grenier to go to the devil.

The evidence was then declared closed and the court adjourned. To-morrow the addresses will be delivered to the jury and a verdict is expected to be reached by to-morrow evening.
