ASEPTO PREMIUM PLAN ADVANTAGES

Talk No. 5.

A lady called at our store yesterday and during conversation expressed unbelief in premiums, remarking that she never got a premium that was any good. We immediately showed her a pair of boots that were made by one of the best manufacturers in Canada, and asked her "If she considered them a good premium?" "Oh yes! If one could get premiums like that!"

She did not understand our plan and when we fully explained it her purchase totaled about $10.00.

Every article is for sale and every article a premium. Every article comes direct to us from the maker. Our premiums are the best and we handle many lines.

Are you buying from your grocer ASEPTO SOAP, ASEPTO SOAP POWDER, and our other lines?

We have a big Xmas surprise planned for all the users of our Asepto products, the more you have bought the greater the gain.

"We shall not run the Miramichi pulp mill again if the reciprocity bill passes," remarked Mr. George Keyes to one of his managers in the county, "as we will in that case be able to get chemical pulp cheaper at home." He looks forward, we presume, to the natural fruits of the arrangements—the unrestricted shipment of pulpwood to the United States and the continuance of the United States duty on pulp. If the treaty provided for free admission of chemical pulp to the United States, the Miramichi mill would, no doubt, resume operations at once. But the reciprocity pact will keep the mill closed.

Canada expects that on September 21st every man will do his duty. To patriotic Canadians the duty is plain and the message clear. They will have no part in a treaty which aims to weaken British Connection.

NORWAY'S KING AND HEIR TO THRONE.

KING HAAKON OF NORWAY AND PRINCE OLAF.

The heir to Norway's throne has always been looked upon with special interest by the people of Great Britain, partly on account of his sweet disposition and partly also because of his close blood relationship with the English royal family, his mother being Princess Maud, daughter of King Edward VII.
