Violent Protest Against Increased Taxation.

One Rioter Killed and Several Policemen Injured.

Windy Climax of the Parnellite League Meeting.

Daring Test of Canada's Repute in the World's Money Market.

INSURANCE COMPULSORY.

Berne, Oct. 12.—The national council, by a vote of 101 to 9, has adopted a bill making insurance against sickness compulsory in the case of all persons not having independent means.

FOR FRANCE. VIA BALLOON.

Eastbourne, England, Oct. 12.—Chas. Pollock, a nephew of Baron Pollock, started in a balloon from here this morning, in an attempt to cross the channel. He hopes to descend safely in France.

A SANGUINARY SHEPHERD.

Lyons, France, Oct. 12.—A shepherd named Vacher has been arrested at Belley, 44 miles from this city, charged with committing a series of so-called Jack-the-Ripper murders. He has confessed to killing three shepherds, three girls and two old women.

MR. BLAKE CRITICISED.

London, Oct. 12.—The Pall Mall Gazette comments on the speech made by Hon. Edward Blake at Toronto on the subject of Irish unity and the Irish abroad. In his speech Mr. Blake prophesied that the differences among the Irish would soon disappear, and, referring to this prophecy, the Gazette says it would be much more impressive if the arguments upon which it is based were stronger.

IRELAND'S POTATO CROP.

London, Oct. 12.—Mr. Timothy Healy, anti-Parnellite member of Parliament for North Louth, who has just returned from a cycling tour in Ireland, says: "The potatoes are generally bad; but all the crops have been saved where the farmers had the sense or the money to spray them. No doubt there will be keen distress in the southwestern and western counties during the coming winter and spring. In some places it may approach starvaton." Mr. Healy admitted that there had been some exaggeration of the difficulty.

CIRCULAR FROM THE PORTE.

Constantinople, Oct. 12.—The circular of the Turkish Government sent to the powers on the subject of the Island of Crete proposes the disarmament of both Christians and Mussulmans by Ottoman troops, co-operating with the international forces, all to be commanded by a European general in the Turkish service; the appointment of a governor of Crete by the Sultan and the formation of a gendarmerie corps. The circular firmly points out the necessity of taking immediate action.

NEW OCEAN GREYHOUND.

London, Oct. 12.—Wm. Oldham, of Nottingham, proposes to cross the Atlantic in a steel boat, 99 inches long, 26 inches beam and 42 inches deep. It will be propelled by a screw driven by a bicycle-like arrangement. A sort of hood that can be used in rough weather will completely protect the occupant. The boat will be provisioned for 50 days, in which time Oldham expects to reach New York. He essayed to start from Liverpool on Sunday, but a defect compelled him to delay his departure for a week.

THE EUROPEAN CONCERT.

Paris, Oct. 12.—Speaking at Remiremont, Prime Minister Meline said: "We have succeeded in circumscribing, I hope in extinguishing, the conflagration in the east. Thanks to the inflexible tenacity with which M. Hanotaux clung to that safety anchor, the European concert, which formerly was an empty phrase, has become a living reality, and a great historic factor, opening a vast horizon full of hope for the future." M. Meline adds the concert was chiefly made possible by the close union and identity of views of France and Russia.

THE RASKOLNIKI.

St. Petersburg, Oct. 12.—It is announced that the police have discovered at the town of Bender a branch of the Raskolniki, the sect that believes its members can gain salvation by self-immolation. Bender is 58 miles from Odessa, near which city the bodies were found of a number of the fanatics who had allowed themselves to be buried alive. The leader of the Raskolniki at Bender, a woman named Kalowa, who is the owner of a vineyard, has disappeared, and several other persons are missing. It is supposed that they have all been buried alive in the vineyard.

CANADA'S GOOD CREDIT.

London, Oct. 12.—Despite some unfavorable features in the money markets, such as an advance of the Bank of Germany rate today, and the gold movements to America, the new Canadian government issue of £2,000,000 has been well received in the money market and on the Stock Exchange. The issue price of 91 makes the transaction yield about 2¾ per cent. This is the first colonial attempt to borrow money so low as 2½ per cent, and is a daring test of Canada's repute in the world's money markets. Hon. W. S. Fielding himself is confident, and the general expectation is of complete success at an appreciable advance upon the minimum.

LESE MAJESTE.

Hamburg, Oct. 12.—The editor-in-chief of the Hamburg Echo, Herr Rheinhold Stenzel, charged with lese majeste against Leopold, King of the Belgians, was tried at Hamburg yesterday, convicted and sentenced. The offense imputed consisted in the publication of several articles asserting that King Leopold habitually encouraged gambling, that he had his own tables at Ardennes, and personally protected the gambling saloons of Ostend. After Stenzel had admitted the authorship of the offending articles, but accepted responsibility for them, the defense wanted to cross-examine the prosecution's witnesses with reference to King Leopold's relation to the Congo enterprise, but the court refused to allow that matter to be raised. The court imposed a sentence of eight months, and ordered the immediate arrest of Herr Stenzel.

$20,000,000 FOR THE MERSEY DOCKS

London, Oct. 12.—The Liverpool Post says that the Mersey Dock Board is preparing a great improvement scheme that will involve the expenditure of £4,000,000. It is said that the board will modernize the central docks so that the largest vessels will be enabled to discharge at any state of the tide, and will probably build a new deep water dock at Birkenhead, across the river from Liverpool.

RIOTS AT ROME.

Rome, Oct. 12.—A large procession of tradesmen, headed by the pro-syndic of Rome and the president of the Chamber of Commerce, marched to the office of the minister of the interior yesterday to protest against and confer with the government regarding the increased taxation. Premier Sudin received a committee representing the tradesmen, and promised that all possible would be done to promote friendly relations and greater equity between the tax collectors and the taxpayers. In the meantime a large crowd of people had collected around the ministry. Angry shouts were heard, and some of those present tore up paving stones and otherwise assumed a very threatening attitude. This caused the police to make an attempt to disperse the violent portion of the crowd, and in the conflict which followed six policemen were injured and one rioter was killed. The mob raised revolutionary cries while the fighting was in progress, revolvers were freely used, many persons in the crowd were injured, and twenty of the leaders of the disturbance were arrested. The condition of three of the wounded policemen is serious.

In all there have been 24 arrests. The rioter who was killed appears to have been a workingman. The prefect of police has ordered the dissolution of the Roman Socialist Union.

THE IRISH LEAGUE.

Dublin, Oct. 12.—At yesterday's meeting of the Irish Independent League, the climax of the convention was reached during the speech delivered by Wm. Redmond, M.P. Incidentally he said that when the Dillonites rejected Parnell they "alienated the United States, thus killing the goose which laid the golden egg." Mr. Redmond said he would never walk into any room to be controlled by Dillon and Healy, though he was for unity, adding: "With all the royal processions through our streets, it is time for Irishmen to say something. The great mass of the Irish people are today, and will be until liberty is given them, the enemies of England. England is a bully, a pirate and a savage. Whether in India or in Africa, the bloody flag of the British empire has been advanced by plundering and destroying poor people. Our sympathy goes out to these poor people. Three cheers for the men in India who are fighting England."

The delegates thereupon climbed upon their seats and shouted "Down with Britain!"

There was much denunciation of Great Britain's proposal to give Ireland a Catholic university. The participation of the priests in politics was also denounced, and the Healyites were denounced as the "assassins of Parnell." There was no discord whatever. The resolutions were all adopted with enthusiasm, and the reading of a telegram from the Irish Independent League of New York was heartily cheered.

The proceedings of the convention were finished in the evening, and the predictions made of a revolt against the leadership of John Redmond proved entirely unfounded. The delegates cheered him enthusiastically, and on the adjournment they warmly praised his speech.

CABLE NOTES.

A dispatch to the London Times from Montevideo says that Prof. Sanarell, who discovered the "Yellow Jack" bacillus, announces the discovery of a curative serum.

The executive committee of the Amalgamated Engineers' Society threatens to withdraw the engineers in the ocean mail service in the event of a continuance of the present dispute.

Herr August Bebel, the famous German Socialist, has been nominated as the candidate of the Hamburg Socialists in the forthcoming Reichstag elections.

Japan has accepted the invitation from Washington to send a representative to the sealing conference, shortly to be held in the United States capital, on the understanding that the whole sealing question is to be discussed, and not simply the questions which are covered by the Paris award, Japan having no interest in the Pribyloff Islands.

The London Morning Post, in an editorial, accuses the American jingoes of "trying to force a quarrel with England or Spain for the purpose of diverting the attention of the country from home troubles, Bryanism and the general revolt against the domination of professional politicians." It expresses the hope that Spain, like Lord Salisbury, "will maintain coolness and good temper in the face of President McKinley's provocative attitude."

Gold Galore!

Bonanza King Galvin's High Estimate

Of the Wealth to be Gathered in the Klondike.

One-Tenth of the Truth Has Not Been Told—A Man Scoops Out $20,000 in a Shift and a Half.

Seattle, Wash., Oct. 12.—Pat Galvin, who is recognized as one of the bonanza kings of the Klondike, and who has been engaged in mining for the past three years, in an interview relative to the gold regions of the north, gave as his opinion that nothing which had been published, so far as he knew, even approximated the truth of what is generally known of these great gold fields.

$20,000 IN A SHIFT AND A HALF.

Seattle, Wash., Oct. 12.—The steamer City of Topeka arrived here last night from Juneau, Alaska. Among her passengers was John F. Maloney, of Juneau, who came out from Dawson with the Galvin party. In an interview Mr. Maloney said: "Hunker Creek and Gold Bottom Creek, it is conceded, will equal, if not rival the now famous Bonanza and Eldorado creeks. More especially is this true of Hunker Creek. Location No. 33 on that creek is among the richest in the Klondike district. Many of the claims on this creek will run $2,000 to the box. On No. 30 Eldorado, Alexander McDonald's claim, one man in a shift and a half (which is about 12 hours) shoveled in $20,000.

A $30,000 SCOOP.

"On Skookum Gulch, which enters Bonanza No. 2 above Discovery on location Nos. 1 and 2, I saw $30,000 weighted out of two box lengths."

Mr. Maloney saw a sixteen-quart brass kettle filled with gold dust in the cabin of R. T. Dinsmore, Harry Spence, Bill McFee and others. No. 31 Bonanza, owned by Oscar Ashley and Billy Leake, will produce $1,000,000. Mr. Maloney says that over $2,000,000 will come out this fall.

A DIFFERENT TALE.

San Francisco, Cal., Oct. 12.—Henry Brannober, the mining expert, who is known throughout the United States from his connection with the Exploration Company, of London, England, has returned from the Klondike. His mission was to ascertain if an opportunity presented itself for investment. He says:

"I found some very good placer mines, but not as sensational in the richness as has been reported. In many cases the claims are comparatively poor, although almost any of them will pay wages. Because one claim is very rich is no reason why an adjoining one should be equally good. On the contrary, the near neighbor of a rich claim is not generally worth much. There are

FEW SUMMER DIGGINGS

in the Klondike, that is, those which can be worked by ordinary sluicing process. Most of the bed rock is 18 or 20 feet below the surface, and the earth is frozen solid except the 18 inches or two feet which thaws in the summer. On the whole, the Klondike may be classed as very good diggings, and I should say there is a good chance for other discoveries this fall."

"As to quartz mining, I consider it impossible at the present time, owing to the difficulties to be overcome. I do not think there is much danger of starvation at Dawson."

TO THE KLONDIKE BY RAIL.

Tacoma, Wash., Oct. 12.—George B. Dodwell, of the two Pacific-Asiatic steamship lines, and Hugh S. Wallace, vice-president of the Washington and Alaska Steamship Company, have organized the Chilcoot Road and Transport Company, and yesterday a contract was let for the tramway, which is to be in operation by Jan. 1. Construction has been begun on the railroad, which starts at Dyea and runs to Greater Lake, and will be broad gauge. The tramway has a capacity of 120 tons of freight daily, and as the line will be completed by January, there will be no danger of a famine at Dawson this winter. THE WAR IN CUBA.

Proposed Radical Changes in Carrying on the Campaign.

Madrid, Oct. 12. — A semi-official statement, issued after the cabinet meeting of yesterday, says that by employing native volunteers in Cuba, instead of European troops, the expenses of the campaign would decrease, and the operations against the insurgents would be conducted more rapidly. Senor Gullon, the minister for foreign affairs, has communicated to his colleagues the views of the European and American press in regard to the new ministry, pointing out that the foreign newspapers are almost unanimously of the opinion that the programme of Senor Sagasta, the new premier of Spain, has caused an important change in the attitude of the Washington cabinet, leading to the belief that the discussion of the Cuban question will now enter upon a more favorable phase, and demonstrating that the steps taken by the ministry have had an excellent effect in showing that the government is choosing practical means to solve the existing difficulties.

The minister for the colonies, Senor Moret, announced at the cabinet meeting that in view of proving the sincerity of the governments, promise to grant autonomy to Cuba, he had telegraphed to Senor Montoro, the leader of the autonomist party, asking him to nominate candidates for appointment to some of the important posts under the Cuban administration.
