The Board of Works has appointed a sub-committee to try and arrange a compromise with City Engineer Jennings.

The grand jury has returned a true bill for murder against Edward Handcock, charged with killing his daughter Sophia. The trial has been postponed until next assizes on account of the absence of an important witness. Application for bail will be made.

The three medical colleges—the University, Trinity and the Woman's—had their opening ceremonies yesterday.

An old man named James Leonard was struck and killed yesterday morning on the Canadian Pacific at Locust Hill by No. 5 express from Montreal. He was walking along the track in the same direction as the train, and although the engineer blew the whistle he did not seem to hear. Leonard was struck in the head and tossed to one side. He lived about Locust Hill and picked up a living by working for farmers.

Value of the C. P. R. in War Time—Big Locomotives for the Erie Road.

The directors of the Missouri Pacific Railway Company on Wednesday formally passed the company's dividend.

It is the intention of the G. T. R. Company to start work on the cut-off between Kingscourt and Glencoe in a few days.

New semaphores have been erected on the M. C. R. east and west of Dutton.

Mr. J. G. Lilly, general bridge foreman, M. C. R., has resigned and will leave for Chicago. Mr. J. T. Webster will succeed him.

The Montreal Star's special correspondent at London says: "I understand that the Imperial War Office has requested the Canadian Pacific to submit an estimate of the cost of transferring troops between the Atlantic and Pacific. It is intended to test the value of this route for this purpose towards the close of the year. If the trial is successful the route will be adopted as a regular imperial channel."

A Hamilton telegram says: The Grand Trunk Railway Company kept to its promise to-day in regard to the forwarding of the Montreal mails. The connection at Toronto was not made and the company sent up the mail bags by special train. By this means the mails were distributed several hours earlier than they would have been under the plan. The Board of Trade and the Grand Trunk Railway are receiving the thanks of the merchants for the improvement.

At the annual meeting of the Ontario and Western Railway Company, held on Wednesday in New York, the old Board of Directors was re-elected without opposition. The Erie has just received a new invoice of gigantic locomotives from the Baldwin works. One of the number has just been put on the road for a test of its capabilities. It took 80 cars of coal out of the Susquehannah yard. It weighs 70 tons, is a "Mother Hubbard" passenger engine, and after being given a trial on the Swale division, will be sent up on the Western and Buffalo divisions for five trial trips each. Its cylinders are 21x20; the diameter of the smallest boiler ring is 72 inches and the main rods weigh 600 pounds each. It is said that it burns no more coal and requires no greater tribute of sweat on the part of the fireman than other engines that are not doing as much work.

FIERCE FLAMES!

Fire at Halifax Gets Beyond Control of the Brigade—All the Military Called Out.

HALIFAX, N.S., Oct. 1—About 10 o'clock to-night fire started in the planing mill on Taylor's wharf in the center of a densely built wooden district on the waterfront. At midnight it is raging with unabated fury, having burnt north through Butler, Brookfield, Liverpool, Dewolf and Hamilton wharves. Davison Bros.' and Humphrey's is now burning. The Cunard big docks come next; and it is feared they cannot be saved. The fire is also burning south, having burned over Taylor's and Cronan's immense wharves, and the buildings are now burning. All the fire engines in the city and Dartmouth are at the scene. The fire is the most disastrous which has occurred in this city for many years. Large stores of oil are burning, mostly of the Standard Oil Company and Eastern Oil Company. The loss will probably be from $250,000 to $500,000. So far no loss of life is reported.

Oct. 2—2 a.m.—The entire military have just been called out with all their fire apparatus, as the conflagration is now beyond the control of the city fire department. The Engineers are blowing up buildings to try and prevent the spread of the fire.

OSHAWA, Oct. 2.—Fire at midnight completely gutted Thomas' restaurant and billiard rooms, Butland's butcher shop, Jones & Coughlin's millinery, McLean's furniture warerooms and the kitchen of the Central Hotel.

WANTS TO MARRY BY PROXY.

The Curious Request Made by a Lazy Lover in the West.

NEW YORK, Oct. 2.—Among the immigrants who were landed at the Barge Office several days ago was Louisa Dobbert, a young German girl, who came from Rixdorf, a small town near Berlin. She was detained as a person likely to become a public charge, and when informed that she would have to go back she was much distressed and said that she had come to this country to fulfill a marriage engagement with Carl Von Hoff, a resident of Wisconsin, who had preceded her to this land. Upon this statement a telegram was sent to Von Hoff informing him that his fiancee awaited him at the Barge Office, who would be sent back if uncalled for.

The following curious response was received by the acting superintendent of immigration yesterday:

State of Wisconsin, } ss.
County of Milwaukee. }

This is to certify that I, Carl Von Hoff, am willing to marry Louisa Dobbert, provided that I can do so by proxy, as I am too busy to spare the time. And I do hereby authorize Gen. J. R. O'Beirne to select some gentleman to act as my proxy. CARL VON HOFF.

Subscribed and sworn to before me this 25th day of September, 1891. JOHN THIEMANN, Notary Public.

Gen. O'Beirne decided that he could not comply with Mr. Hoff's modest request, and unless the latter can spare the time to be present at his own marriage the engagement will be called off and the girl returned by the steamship that brought her. She is 23 years of age, blue-eyed and rosy-cheeked, and seems much distressed at the prospect of having to go back to her German home.

PERILS OF THE SEA.

A Schooner Lost With All on Board—The Grecian Loses Thirty Head of Cattle.

LONDON, Oct. 2.—During a severe storm last evening an unknown schooner in distress was discovered off Senner, Cornwall. Owing to the heavy sea eight members of the lifeboat crew refused to put out to her assistance. Seaside visitors from London thereupon volunteered to take the men's places, and the lifeboat started for the distressed vessel. It failed to reach the schooner, which probably foundered with all on board. The men in the lifeboat had a terrible experience, being tossed about all night on the waves. The boat finally reached St. Ives in safety.

MONTREAL, Oct. 2.—The Alian liner Grecian, which has just arrived on the other side, lost 38 head of cattle. The Grecian left here for London on Sept. 6.

A BLOODY SHAM BATTLE.

Massachusetts Militiamen "Lose Their Heads" at a Review—Many Casualties.

DANVERS, Mass., Oct. 1.—At the Eighth Regiment's sham battle here yesterday there was a charge on a battery with fixed bayonets. The men, when they came into close quarters, became excited, and began firing. Private Chamberlain was shot in the forehead, and his face was terribly lacerated by powder. Private McCue was also shot in the face. Corporal Thomas received a wound in the hand. Many men were injured by bayonets and explosions of powder. None of them are seriously hurt, although Chamberlain and McCue will be disfigured for life.

WORKMEN MANGLED.

Fatal Accident on the Big Four—A New York Central Smashup.

DAYTON, Ohio, Oct. 2.—A Big Four work train and a caboose backed into a hand car at Carrolton station last evening. Conductor Morris was killed, and all of the crew of seven men who were with him in the caboose were injured, several seriously.

YONKERS, N. Y., Oct. 2.—The passenger train on the New York Central due at Irvington at 6:50 a.m. yesterday was wrecked under Jay Gould's private bridge at Irvington. The passengers were thrown into a heap and became panic stricken, but no one was seriously hurt.

A Hard Time Getting to Canada.

TROY, N. Y., Oct. 2.—Six head of Hereford cattle imported several days ago from France via New York and consigned to Mr. Gobensky, M.P., but ultimately intended for Premier Mercier, Minister of State Chapleau and Mr. Gobensky, are having a hard time to enter Canada owing to the quarantine. The cattle were first shipped by way of Rouse's Point, and although objection was made they were finally allowed to pass the frontier. Upon reaching Montreal they were not allowed to be taken off the cars and were finally returned to Rouse's Point. They were sent to-day via Schenectady and Buffalo to Sarnia, where they will be quarantined for three months and then be shipped to Montreal. The cattle will travel 1,400 miles to get from Rouse's Point to Montreal, while a bee line is only 45 miles.

Depravity of the Sparrow.
[New York Advertiser.]

Henceforth let no one apologize for the English sparrow. He is as black as he has been painted and considerably more so.

The news from North Plain, Conn., virtually strips him of every feather of respectability and leaves him naked to the scorn of the world. The Baptist Church of North Plain has been robbed, at various times, of sums aggregating $52, and after three years of bickerings, charges and counter-charges, the stolen money has been traced to a couple of English sparrows that had a nest in a vine near the church. The evidence against the sparrows is indisputable as the missing money, in bills ranging from $1 to $5, has been found woven into their nest.

With the discovery of this money peace is restored in a church which has been rent and torn since the thefts were first discovered. The money was always missed out of the sums turned in by the deacons who took up the collections, circumstances sometimes pointing to one deacon as the thief and sometimes to another. At one time the minister was believed to have been caught "dead to rights"; and when a deacon flatly charged him with being "a sneak-thief," he left the church and did not enter it again.

Two deacons came to blows over these mysterious disappearences, and during these three long and terrible years suspicion was continually poisoning each brother's cup—and all because of a thievish propensity of an English sparrow which took advantage of an open window to fly into the church and nip an occasional bank note.

Therefore, on top of his other meannesses, it is here boldly charged that the English sparrow is a thief so steeped in wickedness that it does not hesitate to rob a Connecticut church.

An army of locusts ten miles wide recently swept over the Punjab in India. It occupied five days in passing.
