The New Government Is Looking Over Those Orders-in-Council

WHICH LORD ABERDEEN DIDN'T SIGN

Two Important Schemes will be Taken Up by the Cabinet.

Liberals Will Likely Deal Favorably With the Fast Atlantic Service and the Pacific Cable—The Behring Sea Commissioners—Mr. John Cameron of London Objects to Mr. Mills Being Left Out of the Laurier Cabinet—Militia Camps Will be Held This Year—Mr. Martin's Chances.

Ottawa, July 16.—(Special.)—The task of reviewing the legacy of unsanctioned orders-in-council, left by the late administration, has been the principal occupation of the new Government during the past week. Two sessions daily have been devoted to this work and it is now said to be completed. Still, it is scarcely probable that much new business will be undertaken until after the bye-elections. Indeed, there will be barely a quorum of Ministers in town after this week. To-day Sir Oliver Mowat left for Toronto and will be absent several days. Upon his return he will take up house, having obtained a lease of Mr. Justice Sedgwick's furnished residence on Cooper-street. Sir Oliver's appointment to the Senate will probably be gazetted next week. Sir Richard Cartwright will leave to-day for a short trip from the Capital; but he will not depart for the South Oxford campaign until next Wednesday.

Two Important Schemes.

The Cabinet has taken the two important subjects of the fast Atlantic service and the Pacific cable into consideration and will doubtless formulate some sort of a policy on both in the course of a few days. Now that they are invested with the responsibility of power, the Liberals are not likely in either case to make much of a departure from the progressive course inaugurated and followed up so successfully by the late Conservative Administration. There was any amount of cheese-paring sentiment afloat on the Opposition benches when these schemes were under discussion last year, but the narrow-gauge wing of the Grit party will probably have to lie low and sing small from this out. Mr. Laurier may of course, take a different view of the offers sent in, which did not quite comply with the specifications, from that taken by Sir Charles Tupper, who appears to have considered the Allans' offer as not only the lowest, but the only one promising a service conformable to the requirements of the specifications.

The Behring Sea Commissioners.

A Washington despatch in to-day's World announces the appointment of Mr. Justice King of the Supreme Court of Canada as joint commissioner with Judge Putnam of the United States District Court, to determine the claims of Canadian sealers to compensation for illegal seizure in Behring Sea. It is just possible that the press despatch was news even at the official quarters in Ottawa, whence announcements of the policy on the subject of the fur seal controversy might be expected to emanate. The treaty agreeing to an international commission to assess the claims in question provides for the appointment of one commissioner each by Great Britain and the United States. The usual course has been to allow the Canadian Government to recommend a commissioner to Her Majesty's Government, as was done in the case of the Alaska boundary adjustment, the Imperial Government, however, making the actual appointment. It is just possible that the recommendation in this case may have been misunderstood to mean an "appointment" by the Dominion Government, which led to the presumably premature announcement from Washington. However, no real harm appears to have been done, for as far as could be ascertained from official sources yesterday there is no doubt that Judge King will be the commissioner appointed on the British behalf.

John Cameron Objects.

John Cameron of The London Advertiser, arrived in Ottawa this morning and is said to be protesting against the exclusion of Mr. Mills from the Cabinet coterie.

Militia Camps Will be Held.

The indications are that militia camps will be held this fall, notwithstanding drawbacks referred to in yesterday's despatch. The department will stretch a point to overcome the difficulty of a tardy supply, and doubtless will succeed in making necessary arrangements to have drill performed. It would certainly be an unpropitious commencement for the new administration of the Militia Department, and Dr. Borden is not the man to incur dissatisfaction for the sake of a little extra effort in Committee of Supply.

Joseph Martin's Chances.

Mr. Joseph Martin is expected hourly at the Capital. Of course, his mission is to push his claims to the still vacant Cabinet position. He does not relish the idea of being relegated to the same boat with Hon. David Mills, the rejected candidate of Bothwell, but his chances of prevailing upon his late friends to include him in the new Cabinet are certainly slim at present, in fact the indications are that the portfolio of Interior is being reserved for either Mr. Greenway or Mr. Sifton, with the chances in favor of the latter, and that it will not be filled for some time. The impression is that it will be kept open until a start has been made by the commission which is to be appointed to investigate the Manitoba school question. It would scarcely be politic to have a member of the present Manitoba Government in a Cabinet which might be called upon to take action in regard to the school question at variance with the professed policy of the Provincial administration. The probability of the Interior portfolio being left unfilled for the present is enhanced by the fact that Mr. Greenway is not coming East after all. He only got as far as Chicago, when he received the tip to return to Winnipeg.

Mr. Bostock Has Claims.

Mr. Bostock, the new member for Yale-Cariboo, is here. He is also a candidate for the portfolio of the Interior. His claims are large interests in the West and services to immigration as a member of the recent convention.

THE HUSTLING POLITICIANS.

Sir Oliver Arrives in the City—Mr. Burton as a Backer of the Third Party.

Mr. Laurier has got his Cabinet well into shape at Ottawa, the politicians of the party are hustling to disperse to their homes. Sir Oliver Mowat, the new Minister of Justice, arrived in Toronto at 7 o'clock last evening and attended a dinner given at Government House in honor of the accession of his successor, Hon. A. S. Hardy, to the Premiership of Ontario. Sir Oliver, before he goes East again, will likely arrange to remove his residence to the capital.

Hon. William Paterson, Minister of Customs, and Mr. William Gibson, M. P. for Lincoln, also came to the city last evening. They stayed over night at the Queen's.

Another gentleman deeply interested in the recent elections, who registered at the Queen's last night, was Mr. James L. Burton, the wealthy Barrie lumberman. Mr. Burton is one of D'Alton McCarthy's chief supporters, and for years has been one of the Third party leader's biggest financial backers. It is interesting to know that Mr. Burton came very near running as a McCarthyite candidate in Algoma. Mr. McCarthy urged him to stand, but his large business interests prevented his entering personally into politics. It is said that had he consented to run he would have been unopposed except by McDonell, the Conservative. As Mr. Burton has large lumber interests throughout Algoma and as he is part owner of the White Line of steamers which ply between Algoma ports and other Northern lake points, he would have stood a good chance of carrying the seat.

Hon. J. M. Gibson returned from the East yesterday and attended the first meeting of the Hardy-Ross Cabinet held in the afternoon. Messrs. Ross and Gibson were the only two Ministers besides the Premier present. Mr. Harty is ill and the other members of the Governmnt are out of town. It is likely that Mr. Gibson will within the next day or two become Commissioner of Crown Lands, Hon. W. D. Balfour taking the Provincial Secretaryship in his stead. Messrs. E. J. Davis and J. R. Stratton, the other two aspirants for the vacant portfolio, were both up at the Parliament Buildings yesterday.

THE BIG FIRE DID IT.

A Chattel Mortgage for $490,000 Given by Howry & Sons to the Bank of Toronto.

Saginaw, Mich., July 16.—News has been received here of the filing of chattel mortgages by J. W. Howry & Sons, lumbermen of this city, but whose offices and operations are at Fenelon Falls, Ont., The main mortgage is for $490,000, and is given to the Bank of Toronto, covering all their Canadian interests. Two mortgages for $18,000 on real estate in this city and county are given to H. K. Howry and S. L. Wiggins, receivers for G. H. Wiggins, and two for $4000 each to Grace H. Howry. It is said that another mortgage is prepared, covering a New Mexico ranch, to secure creditors. The disaster was probably precipitated by a $200,000 loss by fire some weeks ago, in which all the insurance money went to the Canadian Bank.

THE ARMY WORM PEST.

Devastation in Many States—The Loss to the Farmers Will Foot Up Into Millions.

Washington, July 16.—Reports to the Agricultural Department indicate great ravages by the army worm in all states from Maine to Wisconsin. The pests have been particularly destructive in New York, Massachusetts and Pennsylvania. There is no doubt that the losses will foot up into the millions. A report from Dover, N.H., says millions of the worms struck a farm in Dover Neck yesterday, and in a few hours destroyed several acres of grain and corn.

THE IRISH CONVENTION.

Hamiltonian Sons of the Emerald Isle Elect Delegates to Visit Dublin.

Hamilton, July 16.—(Special.)—At a meeting of local Irishmen in the St. Lawrence Hall to-night, Rev. Dr. Burns presiding, resolutions of sympathy and co-operation in connection with the Irish National Convention to be held in Dublin on Sept. 1 next, were passed, on motion of Father O'Reilly and Mr. James O'Brien, and Messrs. J. B. Nelligan and James Shea, both resolutions expressing a hope that Ireland would soon secure home government. The following were named as delegates to the convention, and in case none of them can attend, the resolutions will be forwarded: Bishop Dowling, Rev. Dr. Burns, Father O'Reilly, Messrs. James Shea, James O'Brien, Dr. Balfe and John Ronan.

Ed Corrigan Slashed.

Cincinnati, July 16.—Ed Corrigan, the race horse owner, was viciously attacked this morning by John Phillips, a negro stableman. Phillips had been discharged by Corrigan. In a spirit of revenge he slashed his former employer several times with a knife, and escaped. Corrigan's injuries are not serious.

TWENTY MEN WERE DROWNED

Another Most Appalling Disaster Occurs at Cleveland, Ohio.

FERRY BOAT UPSETS IN THE RIVER

Fourteen Bodies Are Lying in the Various Morgues of the City.

The Victims Were Members of a Gang of Ore Handlers Who Were Going to Their Homes in the Evening—The Boat Was Overcrowded in Order That Fares Might be Cheaper—Mostly Germans and Poles With Families.

Cleveland, July 16.—A most appalling disaster occurred here to-night at 8 o'clock. While a flat-bottomed ferry boat, loaded with between 40 and 50 laborers, was crossing the old river channel, it was capsized and all the men thrown into the channel, and between 15 and 20 drowned. The boat was very much overcrowded. Seven bodies have been taken from the water up to 10 p.m.

The men were all members of a gang of ore handlers, and were going to their homes. The life-saving crew was summoned, and within a short time seven of the unfortunates were brought to shore and taken to the Morgue for identification. Those who escaped scattered in every direction, and it is uncertain just how many lives were lost, but 20 men are reported missing, and the dragging of the channel is still in progress.

The crowding of the boat was due to the fact that the ore gangs pay just so much per trip on the ferry, and the more that get on the less cost to the passengers. The men were all Germans and Poles, and their families cannot speak English.

By 11 o'clock to-night 14 bodies have been recovered and taken to the various Morgues.

Among those who were rescued were Richard Masten, engineer of the new steamer Sir Henry Bessemer; William Benlow, a pressman; Charles Sproeke, William Saunders, August Hasten, Michael Lynch, Fritz Bortels, Chris. Gerlach, Frokup, Charles Bohermeister, Julius Erkhe, Chris. Gehren, Charles Kraus, Edward Ryan and two unknown men.

HE STONED THE TRAIN.

Antics of a Half-Witted Toronto Youth—He Will Appear in the Police Court To-Day.

Yesterday morning it was reported to the Detective Department that Samuel R. Berry, a half-witted youth, who resided at 29 Alice-street, was missing. His friends thought perhaps he might have started to walk to Hamilton, as his grandfather lived at 566 James-street, in that city.

Here is the sequel. When passenger train No. 36, from Hamilton, due at the Union at 12.15, was three miles west of Mimico, a large stone was thrown through the window of a coach. A woman passenger had a narrow escape from being struck. The train was stopped and a man seen standing on the track. Chief of Police Skirving of Ingersoll, who was a passenger, ran after and captured him. When brought to No. 1 Police Station, the stone thrower was identified as the missing lunatic from Agnes-street. He will be arraigned in Police Court this morning on a charge of insanity.

CROPS IN ONTARIO.

They are Very Poor in Haldimand, But Good East of Toronto.

The reports concerning the crops in Haldimand County are not very encouraging. Mr. E. F. Snyder of Abingdon, who called on Deputy-Minister of Agriculture James yesterday says that owing to the drought, the crops in the four townships of Seneca, Caistor, Canboro, and Rainbrook, are total failures. He gives, as an instance, one farm of 300 acres, which will not yield four wagon loads of produce altogether. Wheat, oats and roots are all dried up, and the worst of it is that this being the third successive year of drought, the timothy and clover throughout the district is all dead.

The department gives more encouraging reports from the East. Between Toronto and the St. Lawrence district, the rain-falls have been plentiful, and the crops are in good condition. Along the Ottawa Valley, however, the weather has been excessively wet, and, as a result, the growing crops have been somewhat damaged. As hay has for two or three years given a very light yield in Ontario, the report that this crop is an abundant one throughout the eastern portion of the province is good news.

Another Massacre of Armenians.

London, July 16.—The Chronicle will tomorrow publish a despatch from Constantinople, saying that four hundred Armenians have been massacred at Egin in the Diarbekir district. The town was pillaged. The date on which the massacre occurred is not given.

TWO KILLED BY ONE BOLT.

Senator Tillman's Daughter and Rev. R. A. Lee, Her Escort, Met an Awfully Sudden Death.

Columbia, S.C., July 16.—Miss Addie Tillman, eldest child of Senator Tillman, and her escort, the Rev. Robert A. Lee, pastor of the Episcopal Church at Yorkville, were killed by the same bolt of lightning at Brevard, N.C., yesterday afternoon. They were caught in a rain storm and sought shelter under some bushes near which was a large oak tree. Miss Tillman was 20 years old.

BRANTFORD IS RIGHT IN IT NOW.

The Citizens of the Banner City Will Royally Entertain Messrs. Hardy and Paterson This Evening.

Brantford, July 16.—The citizens of Brantford are preparing a splendid demonstration upon the return of the Premier of Ontario, Hon. Mr. A. S. Hardy, and the Minister of Customs, the Hon. William Paterson, to the city to-morrow night. These two distinguished Brantfordites will arrive at 8 p.m., when they will be met by three or four thousand people. Two bands have been engaged. The Mayor and corporation officials will be present, and addresses will be delivered by citizens of both political parties. There will be a torchlight procession and a grand display of fireworks. The guests will be accompanied by a mounted guard of yeomanry.

THE DRIER BURST.

How a Collingwood Man Was Injured in a Laundry—A G.T.R. Employe Takes an Apoplectic Fit.

Collingwood, July 16.—This morning about 10 o'clock Mr. H. Ivey, a clerk in the drygoods establishment of Messrs. Mellville & Co., met with a serious accident. He was in the Star Laundry transacting some business, when a centrifugal drier burst, the fragments striking him a terrible blow in the abdomen and on the right leg. He was removed to his residence and Drs. Stephens and Aylesworth were summoned. He is suffering much pain, but is not thought to be in any serious danger.

Mr. James Campbell, the baggageman at the G.A.R. Station, fell in an apoplectic fit while attending to his duties this afternoon. Dr. Stephens was called and had him taken to his home, where he is lying in a precarious state.

THE BOAT CAPSIZED.

Warner Freure Had an Awful Time Trying to Save His Family From Death—Baby Was Drowned.

Port Rowan, Ont., July 16.—This morning Warner Freure, electrician and proprietor of the electric works here, took his family, consisting of wife, two small children and his sister, who is visiting from New York, out for a short sail on the bay. By some accident the boat was capsized and all the occupants thrown out. Mr. Freure succeeded in placing his family on the bottom of the boat, but on getting on himself, his added weight being too much, they were all washed into the water again. He once more managed to place them safely on the boat, himself in the water, holding on to a rope. One of the children, aged 18 months, was again washed off and drowned. After being three hours in the water they were discovered from the shore and another boat went to their rescue. The body of the child was afterwards found.

POTTS WANTS DAMAGES.

The Former Toronto Newspaper Reporter Suing the City of Victoria, B.C.

Victoria, B.C., July 16.—A number of actions are likely to be very soon entered against the city and the tramway company on account of the Point Ellice bridge disaster. One entered for suit is that of Mr. A. S. Potts, who, with his wife and Mr. and Mrs. Jordan, was driving in a carriage alongside the car and was carried down with it. Mr. Potts is suing the city and the tramway company jointly for damages received in the fall. The statement of claim charges the city with negligence in not keeping the bridge in repair and the tramway company is alleged to have been negligent in having allowed the car to be overloaded.

The Potts referred to used to be a Toronto newspaper reporter, who, like the prophet, received no honor in his own country.

Wedded at Kingston.

Kingston, Ont., July 16.—This morning at 10.30 o'clock a fashionable company gathered in St. Mary's Cathedral to witness the marriage of Miss Joanna Mary Sullivan, eldest daughter of Senator Sullivan, to Mr. Charles J. Crookall, accountant of the Merchants' Bank, Galt, and son of a former manager of a branch at Berlin. Very Rev. Vicar-General Brown of Port Hope, uncle of the bride, conducted the service. The bride, beautifully costumed in white, was accompanied to the altar by her sister, Miss Fanny, and her brother, Dr. V. Sullivan.

FIGHTING JOE MAY GET IT.

Attorney-General Sifton Says Martin Has Nothing to Fear from Him.

MR. GREENWAY DIDN'T GO TO OTTAWA.

The Manitoba Premier Took a Quiet Journey to Chicago and Back.

Now He Says He Does Not Want the Portfolio of Interior in Mr. Laurier's Cabinet—Saskatchewan Liberals do Not Like the Premier's Suggestion and Want to Run a Local Candidate Instead of Mr. Paterson—Editor Richardson Holds His Seat.

Winnipeg, Man., July 16.—(Special.)—The re-count in Lisgar constituency was concluded this morning and resulted in confirming the election of Editor Richardson, the Liberal candidate. He gained 11 on the re-count, his majority being 54.

Mr. Martin Likely the Man.

Mr. Martin, it now turns out, rushed off to Ottawa on a false alarm. Premier Greenway did not go to Ottawa to get the vacant portfolio. He came back to Winnipeg, having only gone as far as Chicago. Mr. Greenway says he does not want the portfolio, though his friends say he might be coaxed into accepting it. Attorney-General Sifton said to a friend: "Martin has nothing to fear from me." So it looks as if Fighting Joe was, after all, to become a Cabinet Minister.

They Want a Local Man.

The Liberals of Saskatchewan held a meeting at Prince Albert last night to discuss Mr. Laurier's request that they allow him to resign and elect William Paterson of Brant his successor. The request was not favorably considered, and it was evident that the feeling was strongly in favor of a local man. The meeting finally adjourned without coming to a decision. If the Liberals of Saskatchewan finally do consent it will not be with the best grace.

HOW DID BERNARD DIE?

A Strange Case of Death in Montreal—A Priest Said to Have Caused Trouble in His Home.

Montreal, July 16.—(Special.)—The sudden death of a man named Bernard on Lagauchetiere-street last evening has given rise to an exceedingly strange report, although the police are very reticent over the matter and very few details can be procured. It is conceded, however, that a kind husband found the woman whom he had sworn to love and protect to be an unfaithful wife, and that he soon after met his death. This part of the story is the most mysterious of all, for, while it is alleged by some that the betrayed husband committed suicide, others declare that his death came from natural causes. It appears that Bernard went home in the afternoon and found his better-half, whom he had always considered a most exemplary person, in a very compromising position with a priest, whose name is given as Rev. Mr. Paquette, and alleged to be from the diocese in the lower part of the province. It stated that the husband did not "stand upon the order of his going," and did not interfere with the guilty couple. Soon after the deceived husband was found dead, and a searching investigation is being entered upon.

CHRISTINE AUMOND'S LETTERS.

Among Her Effects Was Found a Testimonial From Taylor McVeity, Ottawa.

New York, July 16.—The coroner has completed his investigation into the death of Christine Aumond, Mlle. Nita Carritte's maid, who died at the Roosevelt Hospital on Sunday night from the effects of morphine poisoning. Among the letters which were found was one from Taylor McVeity, a lawyer in Ottawa, Ont., where Christine's family lived. It stated that Christine belonged to a good family, her father having been a lumber merchant in the Ottawa Valley, who had suffered business reverses and in consequence his daughters had to go out and earn their own living.

WHO KNOWS JOSEPH TIGHE?

A Man Said to be a Former Torontonian in Jail at Halifax, N.S.

Halifax, July 16.—The city police have received information from the Montreal police, together with a photo, which they think beyond a doubt identifies McBurney, arrested here for flim-flamming, as Joseph Tight, alias McBride, alias Jimmy McShane, and also known as Jimmie Joe. Jimmie Joe lives most of the time in Montreal and Toronto, is about 30 years of age, and has served five years for burglary.

Mrs. Parnell Goes to Ireland.

Bordentown, N.J., July 16.—Mrs. D. T. S. Parnell will sail for Ireland on the 25th inst. She will go on the American liner Waesland, which leaves Philadelphia. Mrs. Parnell's physicians consider their patient sufficiently strong to bear the voyage across the ocean. She has disposed of the famous Ironsides mansion and lands, comprising 215 acres, for $32,000, including a mortgage for $7000.

IS MR. VANDERBILT DYING?

Members of His Family Summoned to His Bedside—Heavy Slump in Stocks Owing to His Prostration.

New York, July 16.—Alfred and Gertrude Vanderbilt arrived at the Vanderbilt home from Newport at 7.45 to-night and shortly afterward numerous bicycle boys and messengers afoot left the house in different directions. There is an apparently well defined rumor that the members of the family are being summoned to Mr. Vanderbilt's bedside.

The following bulletin was issued from the Vanderbilt mansion to-night by the physicians:

"10.15—Mr. Vanderbilt's condition shows no material change. He has passed a comfortable night."

Shortly before midnight Dr. Janeway left the Vanderbilt mansion. A few minutes later Dr. McLane sent out messages to the representatives of the press to the effect that Mr. Vanderbilt's condition was unchanged, that he was sleeping quietly and that no further bulletins would be issued until 9.30 o'clock to-morrow morning.

The illness of Mr. Vanderbilt was the great bear card which forced nearly every stock on the list to a lower level yesterday. The heaviest losses of the day, of course, occurred in the many railroad stocks which the Vanderbilts control or are largely interested in.

The great Vanderbilt system, consisting of about 27,000 miles of railroad, extending in a great trunk line to Chicago and St. Louis, and with ramifications all over the Eastern and Middle Western States, is practically in the control of the man who was so suddenly stricken. He has been the head of the Vanderbilt family since the death of his father, William H. Vanderbilt, in 1885.

No wonder, then, that the serious illness of a man who controlled such great interests, representing millions of capital, should send a tremor through the financial world. No one single man in this country holds a hand on the helm directing such enormous interests, and upon which so many thousand persons depend for a livelihood.

From the first quotations of the day, which were lower than the closing prices of the preceding day, the prices sagged to the very last. In the roads directly controlled by the Vanderbilts and others in which they are heavy stockholders, the total depreciation of the day amounted to $10,238,198. The aggregate capital invested in these properties amounts to $374,725,335.

In New York Central the net decline was 2 per cent. on a net depreciation of $1,880,000. The greatest loss was in Delaware, Lackawanna & Western, in which the Mr. Vanderbilt is an important figure. This stock showed a net decline of 7¼ per cent., representing a depreciation of $1,885,000. Michigan Central declined 3¾ per cent., and Central Railroad of New Jersey 4½ per cent.

THERE IS NO DANGER.

Canada's Future is Safe, Notwithstanding the Montreal Mugwumps and Their Mugs of Bitter Beer.

Montreal, July 16.—(Special.)—There has been a good deal of foolish talk indulged in in certain papers over the existence of an alleged independence club of this city, and it has been said that the object of this organization is to bring about a French republic on the shores of the St. Lawrence. This is all moonshine. The president of the club is an English-speaking Canadian from the Province of Ontario. The membership is exactly eleven, and they meet once every two weeks, and with as many mugs of beer these Canadian mugwumps discuss the future of Canada. The country is not in danger.

FOR HOLIDAY-MAKERS.

Everything Desirable in the Way of Outing Hats and Caps is at Dineens'.

Muskoka is now the Mecca of large numbers of Toronto's citizens, who will spend a month or two in the sylvan shades of that great holidaying district. Certainly no country in the world is more favored in the matter of resorts than this Canada of ours, a fact that outsiders are not slow to appreciate, for they are pouring into Muskoka in thousands. Many of the summer visitors to the lake country, when passing through Toronto, do as Torontonians do in like case: they go to Dineens' and provide themselves with hats and caps suitable for recreation. The firm of W. & D. Dineen, which has been located on the corner of King and Yonge-streets for over a quarter of a century, always makes a specialty of outing headgear, and now, as in past seasons, they have the largest and most varied stock in Canada. Camping hats in red, white, blue, combinations and marbled colors, yachting caps, regulation blue, white flannel and duck, boating hats and caps, fishing caps, tweed caps, cricket, tennis, golfing and bicycle caps, are all in like variety—every one of the newest style, and lower in price than elsewhere. The name Dineen stands now, as it has stood for two decades, for style and quality. A comparison of prices will persuade the purchaser that good hats and caps are cheaper at Dineens' than at any other store in Toronto.

Mamie's Husband on Deck.

Washington, July 16.—Gen. J. S. Coxey's late lieutenant, Carl Browne, who married Coxey's daughter, "Mamie," the representative of the "Goddess of Liberty" in the Coxey labor parade in Washington on the 4th of July last year, will head the Populist delegation from the District of Columbia to the St. Louis Populist Convention.

Torontos or Tecumsehs?

Both the Toronto and Tecumseh Lacrosse Clubs will do their utmost to obtain victory in their match for the city championship at the Island to-morrow afternoon. The stock of the Torontos has gone up a good deal in the last two or three days, and a good account of the amateur team is expected in this game.

There are but a few of those cycling suits, short pants, 38 and 40-inch, left, $3. You can have them for $5. Treble's, 53 King-street west.

WILL STRETCH A ROPE.

Christian Hanson, a Tramp Swede, Murdered James Mullen at Seguin Falls.

THE JURY'S VERDICT WAS GUILTY.

Neither Judge Nor Jurymen Had Any Belief in the Insanity Plea.

Murdered Man's Wife Actually Identified the Shirt Which the Prisoner Wore in Court as One Belonging to Her Husband—It Took Just an Hour's Consultation to Reach the Verdict—Sentence of Death to be Pronounced Before Court Concludes.

Parry Sound, Ont., July 16.—The trial of Christian Hanson, the Swede charged with the murder of James Mullen, was resumed this morning. The Crown clearly established the identity of the murdered man, as also his companionship with Hanson at the place and up to the time of the murder.

During the adjournment of the court at noon to-day the prosecution had two shirts, which were worn by the prisoner in court this morning, taken off him, and producing the garments in court this afternoon, had them positively identified by the murdered man's wife as being those worn by her husband.

The only evidence offered by the defence was that of the jailor, the jail surgeon, and from Dr. Walton, a local physician. The testimony of these witnesses was intended to prove the probability of insanity on the part of the prisoner, brought about by epilepsy, but both medical men could give no positive testimony from their short observation of the prisoner.

The argument of the prisoner's counsel, Mr. Haight, was to impress uncertainty as to the prisoner's mental responsibility on the minds of the jury, and the great improbability of one of sane mind committing a deed of such a nature without apparently greater motive.

Mr. Heyd, for the Crown, clearly reviewed the evidence and presented a strong argument for conviction.

Justice Ferguson began his address to the jury at 6.45 and exhaustively treated the subject. His address occupied one hour's time. It could not be understood otherwise than as being strongly against the prisoner and strongly against the insanity theory.

After being out an hour and a quarter, the jury brought in a verdict of "guilty."

The Crown prosecutor moved for the sentence of the Court, and His Judge, recording the motion, said it would be given some time during the sitting of the court.

The prisoner appeared quite to realize his position.

PREMIER BLAIR RESIGNS.

He Hands in His Resignation to the Lieut.-Governor of New Brunswick—Goes to Quebec to be Sworn in.

Fredericton, N.B., July 16.—Hon. L. G. Blair at 5 p.m. to-day handed in his resignation as Premier and Attorney-General of New Brunswick, and recommended Governor Fraser to send for Hon. James Mitchell and entrust him with the formation of a new Administration. Mr. Mitchell was immediately summoned by His Honor and accepted the commission, but as yet has not completed his task.

It is understood, however, that he will also summon Mr. Blair as Attorney-General, and that he has offered the Provincial Secretaryship to Hon. L. J. Tweedy, Surveyor-General in the Blair Government. The latter is consulting his friends in Northumberland, some of whom are against his leaving the Crown Lands, and he will give his decision to-morrow. Should he accept it is probable that Hon. A. T. Dunn of St. John County, who was a member of the late Government without portfolio, will be called to the Surveyor-Generalship, and that Hon. Messrs. Emmerson and White will continue respectively as Minister of Public Works and Solicitor-General, and that a representative of one of the river counties will join the Government without portfolio.

Hon. Mr. Blair left to-night en route to Quebec to be sworn in as Minister of Railways and Canals. He has not yet selected his constituency, but it is thought to be either Albert or Gloucester.

The Pope Has a Cold.

Rome, July 16.—The Pope is suffering from a slight cold, which has affected his voice, which is at no time very strong. For this reason he is obliged to postpone the reception he intended to give yesterday to the new French Ambassador to the Vatican.

The New Q.C.'s.

The city is full of stories about the new Q.C.'s.

All the King-street west tailors have sent out circulars to the hundred and odd from Ontario offering them Q.C. coats, red bags and silk gowns at special rates. A London (Eng.) tailor has also been busy through his Toronto representative in canvassing them. It is said Sir Oliver Mowat, the new Minister of Justice, is enough of a protectionist to insist on the Canadian tailors being given a preference. If the newly-honored do not do this he will take them all into his most serious consideration.

The day before yesterday a well-known citizen entered the Albany Club at luncheon. A broker ran up to him and said: "Mr. Blank, you can have the best in the house, what'll it be?" "Why is this?" asked the astonished citizen. The reply was: "Because you're the only fellow that's come in here to-day who isn't a Q.C."

A Canadian Q.C., registered at the Hotel Brunswick, New York, the other day as John Smith, Q.C., Montreal. An inquisitive guest asked the clerk what Q.C. meant. He replied: 'I do not know, but it's something that most of the people from Canada write after their names."
