CHINESE TAKEN BACK TO SHIP

Deserters Had to Be Carried From Commissioner's Office--Threats of Vengeance.

San Francisco, Aug. 9.—A dramatic scene was enacted in United States Commissioner Peacock's court-room yesterday when it finally dawned upon the twenty-four Chinese who deserted the German ship Tolosan that they would have to go back to that vessel.

They had listened with anxious faces, while negotiations were carried on between the Chinese vice consul and German consul. When their representative finally announced he had done all he could for them and their case was hopeless, a concerted wail of despair went through the court room. Some of the Chinese threw themselves on their knees before the vice-consul and wildly implored him to save them from a voyage back to China on the Tolosan. Others cast themselves prostrate and beat their heads on the floor, tearing their hair in their frenzy of mingled rage and despair.

United States Marshal Elliott and his deputies tried in vain to restore order. Sobs, curses, shouts of vengeance, cries of anger and declarations of defiance echoed through the court-room. It was a quarter of an hour before the men could be quieted.

When the time arrived to take the men on the Howard Street wharf, there to embark in launches and be taken to their ship, there was another uproar. Many Chinese refused to get up from the floor. Even after they had been handcuffed and had to be lifted bodily. They were handcuffed in pairs and twelve of the most unruly were fastened together by a chain. They were marched down stairs and loaded into two express wagons, and guarded by half a dozen federal officers, started their journey to Howard Street wharf.

The Chinese were then taken aboard the Tolosan in launches. They sat stoically in the boats but as they neared the ship many broke out again in sobs and constulations against going aboard. The German officers were disposed to feel very bitter against the men who had testified against them at the hearing.

MOTHER'S ANXIETY

The summer months are a time of anxiety for mothers because they are the most dangerous months in the year for babies and young children. Stomach and bowel troubles come quickly during the hot weather and almost before the mother realizes that there is danger the little one may be beyond aid. Baby's Own Tablets will prevent summer complaints if given occasionally because they keep the stomach and bowels free from offending matter. And the Tablets will cure these troubles if they come suddenly. The wise mother should keep these Tablets always at hand and give them occasionally to her children. The Tablets can be given with equal success to the new born babe or the well grown child. They always do good — they cannot possible do harm, and the mother has the guarantee of a Government analyst that this medicine does not contain one particle of opiate or harmful drug. Sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE CROP REPORTS.

Conditions Have Improved and Harvesting Will Be General Within the Next Few Weeks.

Winnipeg, Aug. 9.—Reports received to-day are again of a very favorable character, and there is scarcely a complaint from any point of view. Many of the agents now speak of the commencement of harvest, and it is likely that it will be general within the next few weeks. On the whole, judging from this report, the yield generally will be better than previous reports had indicated. As a general rule harvest will be general about one month from date.

Portage la Pririe reports wheat filling well, and with a continuation of the present warm weather a good yield is assured.

Fort Saskatchewan predicts that the yield will be superior to that of last year.

The other stations all give favorable reports of a general character. On the Miami section the report shows that conditions have improved wonderfully during the past week. At Miami the wheat cutting will commence in three weeks. The reports from the Emerson section are also favorable, and the only drawback spoken of is that the crops are a little late.

The weather conditions in the Neepawa section have also been favorable during the first half of the week. It was very warm, with good rains, and as a result grain is filling out well. The average wheat yield there will be twenty bushels to the acre.

Reports from Prince Albert are of a general character, but without exception are favorable.

From the Carmen and Virden sections reports it is shown that the prospects have continued to improve during the past week.

Despite the fact that in some regions of Manitoba the crops are not as favorable as in other years, the number of applications which are being received for farm labor at the provincial immigration office are daily increasing, and the requests are already as great as they have ever been at a similar period either last year or the year before. The same shortage of farm help is as apparent this year as previously, and even though the applications for assistance from rural points will be much greater nevertheless the present time it is with the utmost difficulty that the present needs are satisfied.

While it is yet impossible to say how many will be required to harvest this year's crop, it is felt that the number of men who will be needed to aid in the work will be as great as ever, as the crop situation in Saskatchewan and Alberta is reported to be excellent. Requests are coming from the far west for help, and already a number of points have made special arrangements with the C. P. R. in order to surely secure the necessary help. At present at the offices of the provincial immigration building there are requests for 150 men to be sent immediately, and there are no available men to fill the vacancies.
