A UNIQUE ALIMONY SUIT.

A Wife Sues for Support After Twenty Years' Absence From Her Husband's Roof.

An order was made yesterday by Mr. Winchester extending for one week the time for delivery of the statement of claim in the alimony action of Greaves v. Greaves. The parties to the action originally lived at Collingwood, but the defendant, now an old gentleman, resides at present with his daughter in Parkdale. Mrs. Greaves is his second wife, and she lived with him only a few weeks after the marriage. She left him of her own accord and without any just reason, so the defendant alleges, 20 years ago, and has never had any communication with her husband since that time. Now, after the lapse of so many years, she is suing for alimony, and the question as to whether she has not barred her right to alimony by her laches is an interesting one and may prove an impediment in her way. Robinson, Gibson & O'Brien are solicitors for the defendant, and the plaintiff's interests are looked after by her brother, Mr. J. Birnie, barrister of Collingwood.

A motion was also made to dismiss the action of Mary Smith against W. B. Clark for want of prosecution. The parties reside at or near the village of Watford, and the action is for damages for breach of promise of marriage, and for the maintenance of an illegitimate child of which the defendant is the alleged father. An order was made allowing the plaintiff to take her action to trial at the next Sarnia Assizes on payment of the costs of this motion.

Charles Coleman is suing the City of Toronto for $10,000 and Solina Ann Coleman is suing for $4100, damages caused by Ashbridge's Bay.

Messrs. Best & Holmes, acting for Frank Dibb, have issued a writ against George Wood of York township asking for $2000 damages for false arrest and imprisonment and malicious prosecution.

CHOSEN FRIENDS.

The Annual Meeting of the Order Convened in the City.

The Provincial Council of the Order of Chosen Friends held its regular monthly meeting Wednesday in the office of Dr. C. P. Lennox, Yonge-street Arcade, Ald. James Gowanlock, Provincial Councillor, in the chair. There was a large amount of business before the council.

The council was most hearty in its approval of the Executive's action in securing the services of Friend J. A. McMurtry as their chief organizer and deputy provincial councillor. Everything points to a great and prosperous year for the order; new lodges are being organized all through the province. The Provincial Council now controls its own beneficiary fund, and is to all intents and purposes a Canadian beneficiary order, although in affiliation with the Order of Chosen Friends in the United States.

Reciprocity with Canada.

[From The Newcastle (Eng.) Chronicle.]

The speech delivered by Lord Dunraven in asking, in the House of Lords on Friday night, for a copy of the reciprocity resolution agreed to in the Dominion Parliament last month, deserves attention, because there is reason to believe that it represents the opinion of a large and increasing section of Englishmen, who, in His Lordship's words, are tired of sitting still and allowing the forces of disintegration directed against our empire and our trade to do their work. While, however, we recognize the growth of a reciprocity feeling, aye, and even of a protectionist feeling, in this country, we doubt whether the reversal of our economic policy, should a reversal ever occur, would commence with the imposition of a tax on corn. We should reach that sooner or later, of course, but it is hardly conceivable that we should begin with it. Nevertheless, the Canadian offer, as we understand it, coupled with the influence of the Imperial idea, might prove a tempting bait. At any rate, as Lord Balfour of Burleigh said, it is well that we should know precisely what it is that Canada proposes, the more so as the Dominion complains of having been misrepresented, and therefore we are glad that Lord Dunraven's request was granted.

An Important Conference.

Chairman Shaw of the Board of Works has invited a number of the local electrical experts to meet the committee to-morrow to discuss the question of securing the burying of all wires in King-street, between Sherbourne and Simcoe-streets, and from Bloor to Front-streets in Yonge-street previous to relaying the pavement in these streets. The gentlemen invited to the conference are: H. P. Dwight, Great Northwestern Telegraph Company; H. Pringle, Canadian Pacific Telegraph Company; J. J. Wright, Toronto Electric Light Company; Frederic Nicholls, Toronto Incandescent Light Company; H. J. Dunstan, Bell Telephone Company; Donald Gibson, City Electrician, and H. A. Everett of the Toronto Railway Company. It is to be hoped that these gentlemen will show true public spirit by assisting in carrying out this very commendable idea.

Let the Mayor Resign.

Editor World: It would surprise any non-resident of this city if he only knew the amount of misery brought on, I am sorry to say, by the now too well-known policy of our Mayor (whom I voted for) and his clique. Through it trade is at a standstill, and if it is hurting anyone it is the working class.

A certain large drygoods house, not a thousand miles from King-street, are now discharging hands or else giving them six months' holidays in the hope that at the end of that period there will be a change in Mayor and policy. DISGUSTED.

Bellwoods-avenue, June 16.

The New Hospital Staff.

The new resident house staff of physicians at the General Hospital began their duties yesterday. Their term is one year. The new men are: Drs. Middlebro, Bruce, Brown and Way from the University of Toronto Medical College, and Drs. Anderson, Fenton, Parsons and Tilley from Trinity Medical College.

The Don Arbitration.

Mr. C. C. Gregory, arbitrator on the claim of Messrs. Manning and Macdonald for $250,000 damages to their property, owing to the Don improvement, has given his decision. By it the city will have to give about $70,000, besides $43,000 already conceded. The costs, some $7000 or $8000, will also have to be borne by the city.

City Hall Jots.

Engineer Rust has found that the houses at 313 and 315 College-street encroach on the street. He will compel the owners to move them back.

The claim of Thomas Hogarth for the Broadview-avenue pavement has been settled for $450.

The Gospel Temperance Society have applied to the Mayor for permission to erect a tent in the Queen's Park for the purpose of holding meetings there on Sunday afternoons.

The City Solicitor has found several faults in the "Scaffold Bylaw" passed at the last meeting of the council, and has requested the Mayor to use his influence to get the council to amend it.

The Chief of Police reports to the Mayor that there is no bylaw to prevent people riding bicycles on the sidewalks, and asks if it is the city's intention to allow this.

THE SYNOD WILL PAY.

An Old Claim Settled—The Superannuation Fund.

The Anglican Synod continued its annual session yesterday. An old claim which has been through the Court of Chancery was brought up by the report of the Executive Committee.

The diocese of Niagara claimed the sum of $5000 from the diocese of Toronto. This claim was connected with the Episcopal Endowment Fund and was disallowed in the courts. A proposal was made for the settlement of the claim, but the Executive Committee recommended that the money should not be paid. Notwithstanding this it was decided that the amount should be paid in ten annual instalments.

Twenty-four delegates to the Provincial synod were elected, after which reports of various committees were received.

Rev. Septimus Jones gave notice that he would introduce a motion to provide for a proportionate reduction in the amounts of annuities should the Superannuation Fund become insufficient.

It was decided to engage the services of Rev. Canon Logan for the purpose of making a canvass of the diocese in order to increase the capital of the fund. It is hoped that the fund will be increased to $35,000 by this means.

A Clever Pianiste.

The pupils of Mr. V. P. Hunt of the conservatory staff gave a musicale on Saturday night in the Y.M.C.A. hall. Among the performers on the piano was Miss Eleanor Milliken, whose playing created much interest in the cultured audience assembled. Miss Milliken played Reinecke's Ballade in A flat, op. 20, and also with Mr. Hunt played the duo Moschelles Homage to Handel.

Fresh Air for the Children.

The superintendents of all the mission schools in the city will please send their addresses to the secretary of the Children's Aid Society, 32 Church-street, at once so that arrangements may be made to benefit all the poor districts of the city at the Fresh Air Fund excursions.

"German Syrup"

Martinsville, N.J., Methodist Parsonage. "My acquaintance with your remedy, Boschee's German Syrup, was made about fourteen years ago, when I contracted a Cold which resulted in a Hoarseness and a Cough which disabled me from filling my pulpit for a number of Sabbaths. After trying a Physician, without obtaining relief—I cannot say now what remedy he prescribed—I saw the advertisement of your remedy and obtained a bottle. I received such quick and permanent help from it that whenever we have had Throat or Bronchial troubles since in our family, Boschee's German Syrup has been our favorite remedy and always with favorable results. I have never hesitated to report my experience of its use to others when I have found them troubled in like manner." REV. W. H. HAGGARTY, of the Newark, New Jersey, M.E. Conference, April 25, '90.

Gossip from Chicago.

Kennett, Hopkins & Co. to Fenwick & Co.: Covering by prominent shorts was the chief feature of interest. It kept the market steady and strong, and toward the close there was a good advance on covering by room traders. The news has been bearish, continued favorable reports from the wheat field, liberal receipts at primary markets and weak foreign markets, but clearances were good and there is a fair foreign demand. Covering by shorts put the market higher temporarily, but we can see little to sustain prices. Corn and oats—The short interest in corn was much larger than supposed, and it covered freely to-day, and prices advanced sharply. Oats followed, and in fact all other markets were affected. Receipts are liberal, but they contain little contract grain, which makes it easy for the clique to manipulate prices. Provisions have simply followed the grain markets, and show a considerable advance. Offerings rather light and shorts were anxious.

Walker & Co. to John J. Dixon & Co.: Wheat has been dull to-day, scalping being the rule. The news favored the short side and the crowd during the early part of the session sold freely when they tried to cover: toward the close the price advanced ⅜c and closed at about the top. Pardridge, who was supposed to be all in on his July, bought about a million bushels early, and some talk of his not being all in yet. He has sold September and December against purchases of July. The cables were dull and easy, the weather was fine, the receipts were moderate. Russia says they will export wheat about the first of July; rumor regarding a short crop denied, the clearances were big. Corn was strong and higher, the demand was good, mostly from elevator interests. The receipts were big, but the grading not coming up to the expectations. Provisions opened firm and advanced on good general buying. The short interest is large and the consumptive demand for meats especially large. Once or twice to-day certain shorts made an attempt to cover, but prices shot away quickly and offerings became very light. The situation continued strong and the market higher. We fear you will not be content to the bull side until the cream of the advance is lost. We say again buy provisions on all easy places.

Henry Allen & Co. to John J. Dixon & Co.: The stock market ran off to-day in two or three quarters. The most marked feature has been provided by whisky trust, which has had a sensational break of half a dozen points. The directors have cut the dividend in two. A good deal of sharp criticism is heard on this score. It is freely charged that the reduction in dividend has been for the purpose of enabling insiders to collect stock. Nevertheless the street is full of points now suggesting that further breaks are probable. One of Wall-street's troubles is that there are too many blind pools in operation. Whisky trust is typical of a lot of others. Nothing American belongs to the same lot. A company which deals in mystery is a company which will play havoc with everybody who trades in its securities. Some bad crop news comes from the west. There is, however, no good reason to trust it. From reliable sources all the information points to a big crop, but of course speculative interests are so large that reports of damages and so forth are to be expected as natural. Intrinsically half the stocks of the line are selling for half what they are worth, and one of these days soon intrinsic values will tell. Gold engagements add something to the manufactured nervousness of the street, but there is nothing anywhere in the money situation to warrant any uneasiness whatever.
