TORONTO, June 22.—The holiday market was quite light, but trade showed a renewed keenness after the somewhat slow business of the early part of the week. The market closed a shade firmer than on Tuesday and Wednesday, and everything was taken up in the early hours of the forenoon. There were only about 400 cattle present today, and about 300 yesterday. Good steers and heifers were somewhat scarce. The heavy ones were nearly all taken up by a few Montreal buyers. Several loads of heavy steers sold as high as $6 10 for butcher purposes to Montreal, but no local buyers paid more than $6. Good steers sold at $6 to $6, with medium cattle averaging $5 40 to $5 75. Cows were a little off, and did not touch anything higher than $5. Bulls were about steady at the same figure. Trade was strong for sheep and lambs, and all the small stock, except heavy ewes, which were still quoted low. Spring lambs sold from $8 50 to $10 50, and yearlings from $5 50 to $6 50. FINANCIAL.

[From Charles Head & Co., by private wire to J. J. Tearney.]

NEW YORK, June 23.—Trading was quiet during the greater part of the first hour. There was a generally firm tone, and where any important changes occurred they were in the direction of higher prices. Room sentiment was decidedly more cheerful, and there was a disposition on the part of important traders to take a position on the long side. This was most pronounced in Union Pacific, that stock moving up on a purchase of 5,000 shares by G. C. Miller, followed by some scattered outside buying. The answer that the Hill roads make to the cry of crop failure is in the form of orders for box cars and rails. It is not likely that Mr. Hill and his lieutenants are going without full knowledge of crop conditions in the northwest.

THE BANK STATEMENT.

OTTAWA, June 23.—Increases in most items are recorded in the Canadian bank statement for May, just issued. The principal figures are:

Deposits payable after notice	563,300,118
Deposits outside Canada	69,142,818
Liabilities	1,076,631,950

Call loans elsewhere	8,745,980
Current loans in Canada	708,095,677
Outside Canada	39,918,314
Assets	1,270,914,407

The note circulation decreased two millions, and current loans by four millions. In other items there are increases of a substantial character.

WALL STREET, NOON.

New York, June 23.—Stocks recovered a large share of yesterday's losses during the morning session. Gains of the first hour were extended before noon. Union Pacific was the feature of the market, but the steady bidding up of this issue failed to impart any show of animation elsewhere in the list. National City Bank extended its rise to 460, a gain of 12 points, and 60 points since the beginning of the month. Bonds were steady.

TAFT GUEST OF NEW YORK CANADIANS

Annexation of Canada by U. S. Unnecessary, Says President.

New York, June 23. — President Taft and Senator Raoul Dandurand, of Montreal, were the guests of honor at the Coronation banquet of the Canadian Society, held last night at the Manhattan Beach Hotel, on the seashore, near Coney Island.

It was nearly 11:30 o'clock before the President reached the Canadian Club banquet hall. In the speech immediately preceding his entrance he had been referred to by the Right Rev. Bishop Courtney as the man to whom England might point and say: "That's the thing that you and I must do for the benefit and blessing of all mankind. The success of Canadians in mingling together the descendants of the French and English races in one nation is worthy of the highest commendation. The President said:

"People talk about annexing Canada to the United States or the United States to Canada. It is entirely unnecessary. All that we ought to do is to cultivate as fully and completely as possible good neighborly relations. The closer we come together, commercially and socially, the better it is for both of us.

"I am an hour and a half behind my time to sail, and I apologize to you for my very desultory remarks, but I hope I have made you feel and understand that I am very fond of Canada, that I am very fond of her people, and I believe in reciprocity."

Senator Raoul Dandurand in an address declared that many well-informed people in the Dominion of Canada were of the opinion that the present reciprocity arrangement with the United States would be favored by ninety per cent of the Canadian electorate if it were not made a party question.

Referring to the reciprocity agreement, the senator said:

"Prior to the signing of this agreement no one in Canada ever saw any danger in the fact that our purchases from the United States increased yearly.

"An annual trade of over three hundred millions has not in the mind of these gentlemen endangered the loyalty of the Canadian people.

"They have been antly asked what is the figure which, in their estimation, will jeopardize the British flag. They can hardly be expected to answer this question with any degree of accuracy, for they do not pretend to fear for themselves.

"I pray you do not expect our anti-reciprocity men to be logical.

"In Canada they are mostly recruited from the ranks of the high protectionists, and their real but unavowed fear is that the farmers may soon clamor for a reduction of duty on manufactured foods."

Dr. Hersey and Mr. Leon Garnier, of the Montreal Canadian Club, also spoke.

ALLEGED WAS STABBED FOUND TO BE DRUNK

George Garlick of Nissouri Appeared in Court on a Charge of Intoxication.

George Garlick, a young man employed by a Nissouri farmer, appears before Squire Chittick this afternoon on a charge of being drunk on the Governor's road late at night about a week ago.

It is stated that two autoists driving past Crumlin were told that a man had been stabbed and that he was lying in the ditch with a knife in his side. They drove to the court house and reported the matter to High Constable Hughes, who returned to the scene with them. The man was still there, and as a result the charge of intoxication was laid.

It is alleged that Garlick has demanded a settlement with Mr. Hughes, charging that the constable kicked him in the face, inflicting a gash over the eye. This matter will in all probability be threshed out at this afternoon's trial. Mr. Hughes absolutely denies the charge, and is desirous for the fullest investigation.

ANTI-PACT COMBINE CANNOT TRIUMPH

Will Go Through Despite the Coalition of Republican Insurgents and Democrats.

[Canadian Press.]

Washington, June 23.—Vice-Chairman Penrose, of the finance committee, said today that the Canadian reciprocity bill will not fail by reason of the new coalition between insurgents, Republicans and Democrats, which placed the regular Republicans in the minority. Speaking of that coalition he said:

"It is a rope of sand and it will not hold. The performance of the insurgents and Democrats on Wednesday was effective for the time, but the differences between the two elements are so radical that the combination will not continue, and if the purpose of it was to defeat Canadian reciprocity it will fail.

"With the tariff question dumped into the senate in connection with reciprocity, delay is to be expected, but in the end reciprocity will go through and it then will remain to be seen what shall be done with the tariff bills now before the senate and those yet to be presented."

Long Debate Ahead.

The outlook in the senate is for a long dreary period of debate, with no visible prospect of relief. Under present conditions, with no party in control and no leadership recognized, no one can say in advance what is going to happen or when anything may transpire out of the ordinary. The regular Republicans control the finance committee, and the eight members of that faction, constituting the majority of the committee, are standing together on most questions of party management; but nothing has been so completely demonstrated by recent occurrences as that they have no party majority behind them in the senate. Consequently while the committee may act on a given question, its action is without vital force and ineffective.

Still when Senator Penrose predicts favorable action on the reciprocity bill he voices what is unquestionably the predominating opinion of a majority of senators regarding the outlook for the measure.

Even Democrats and insurgents agree that the probabilities are favorable to the success of the reciprocity bill, and a majority of the Democrats are now unquestionably opposed to any amendment of it.

This is the season when everybody is anxious to get quick delivery of his car," said an official of the company, "and as our business this year is away ahead of any previous season we are very busy. The large addition to our plant made during the past year has been kept working at full capacity. It is, of course, a little early to talk about 1912 business, but even now every indication is that 1912 will beat 1911."
