Truth for the Million.

THE great number of parties, (including the most eminent physicians of the Province,) who have tested the efficacy of these waters, whilst they place them high in the estimation of the public, has induced some other proprietors of mineral springs, to try to put their waters on the same footing with the Plantagenet. Nothing can be more absurd than this. These other springs have been known to the public in the province for fifty years, and in that time what have they done? Have they anything to show for the patronage they have received from the public! How have they stood since the Plantagenet came into the field? It is now only three years since the Plantagenet Mineral Water was introduced to the Public, and in that short space of time it has become of other Springs, which have been before them? Can any amount of puffing make the public believe that they deserve to be mentioned in the same breath with the Plantagenet Spring? It may be safely said that no one of the six used the Plantagenet Water, will ever use any other water. Their inferiority is so marked, and they are comparatively so worthless, that medical men have declared that they would sooner pay twenty times the price for Plantagenet Mineral Water, than for the best of them. These Springs have a great advantage in reputation over the Plantagenet, in as much as they are nearer Montreal, and are accessible, (if they are worth seeking,) to all classes without difficulty.

The great cause of this preference is the distinct character of the Plantagenet Water, and more especially its solidity of body, and the glutinous quality it possesses, which distinguishes it in a remarkable degree from all other waters, which appear poor and thin in comparison with it. It may be truly said to have done more for the public health in four years, than any other water has ever performed in fifty, and some of the cures it has effected are truly miraculous. Many of these facts are already before the public, and others can be ascertained at Plantagenet, where the public are invited to judge for themselves. In cases of rheumatism and other chronic diseases it is almost infallible, a number of cases having occurred where parties who had lost the use of their limbs have been restored to health and vigor by the use of it. The public are invited (in confirmation of this fact) to peruse the numerous testimonials of medical men and others, and particularly that of Dr. Nelson, who speaks of effects produced on members of his own family. Such being the case, it cannot be wondered at that the Plantagenet Water has driven all competitors from the field, and that its value should be placed so high above all other Springs ever discovered in the country.

As evidence of this, it is only necessary to refer to the names of the eminent Physicians, and public and private individuals, who have certified to the value of the Plantagenet Waters, and who regard it as a boon to the country.

In conclusion, let it be borne in mind, that it is not simply as a saline drink that these Waters are beneficial, but because they have an oily, fatty substance, of a nature entirely unknown to any other known mineral water, which, probably, the most valuable Waters on this Continent.

"Gaspe D. Gun, M.D.,
"Licentiate Royal College of Surgeons, Ireland, "Physician to the Montreal Dispensary.

Montreal, 6th August, 1850."

The following certificate is from the Hon. Peter McGill, one of the Legislative Council of the Province, and President of the Bank of Montreal:—

"Montreal, 1st August, 1850.

"I have drunk during the year past, used the Plantagenet Water, as well known, and so highly commended in the Medical Faculty by many of our most eminent Medical men, I can bear testimony to its salutary effects on my own health, and that, not in ordinary cases, but in cases of a very dangerous nature, which I attribute to its use, and shall, on occasion, recommend its use to all those who may freely use it. The value of this Water has been generally acknowledged in this community, and I speak from my own experience of its excellent qualities, in thus adding my testimony to its beneficial effects.

"Peter McGill."

LIFE ASSURANCE COMPANY,
No. 1, Princess Street, Bank, London.

CAPITAL—ONE MILLION STERLING.

Empowered by Special Act of Parliament, 4 Vict., Chap. 9.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended the Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at much lower Rates of Premium than those of any other Assurance Company assuming business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.
