BOARD WAS ORGANIZED

Education Trustees Elect Mr. McCormick Chairman.

Committees Struck and Presiding Officers Chosen.

Very Little Business Apart From the Routine Transacted—A New Solicitor.

The organization meeting of the board of education was held at the city hall last night. Apart from a small amount of routine business, the election of the chairman and the division of the board into committees was the only business put through, and as this had all been arranged beforehand, it took up very little time. Trustee McCormick was chosen as chairman of the board; Trustee Hamilton will preside this year over No. 1 committee; Trustee Evans over No. 2, and Trustee Teasdall over the audit committee. The members of the board must intend to cultivate a spirit of good will towards the aldermen this year and have no more legal battles with the council, as they established a precedent by choosing as their legal adviser the city solicitor. More peculiar still, the trustees did not have a banquet after the meeting. How they broke off the habit which they have been so assiduously cultivating for the last two months or so, is not recorded in the minutes. It is a fact, nevertheless, that they got back to their homes without first visiting the abode of the convivial oyster, and a great sorrow consequently fills the heart of the purveyor of bivalves. However, let them not yet rend their garments nor plaster their pates with ashes. Surely the educational appetite has not been satisfied.

ELECTIONS.

Secretary McElheran introduced the newly-elected members—Messrs. Birtwistle, McLean, Dromgole and Gammage, and announced his readiness to receive nominations for the office of chairman.

Trustee McLean, seconded by Trustee English, nominated Trustee Charles McCormick.

"Well, we may as well have a contest," said Trustee Birtwistle, so he nominated Trustee Blackwell, the seconder being Trustee Macpherson.

Fifteen votes were cast, 9 for Trustee McCormick and 6 for Trustee Blackwell.

Trustee McCormick was therefore declared elected, was escorted to the chair by Trustee McLean, and introduced as chairman.

In returning thanks for his election, the newly-elected chairman said:

"Gentlemen,—I can assure you that I appreciate more fully than I can find words to express, the very great honor you have conferred on me by electing me your chairman for 1902. The honor is all the more appreciated as it came unsought by me, and I can only say that I will do all in my power to discharge the duties of the position in a manner which will, at the end of my term, be satisfactory to you and the citizens at large. I ask the co-operation of all the members, and particularly the assistance of the more experienced ones.

"It gives me pleasure to welcome to the board of newly-chosen representative from No. 4 ward, the city council representatives, and the representatives from the separate school board. I trust their assistance and advice will aid us in the proper discharge of the obligations laid upon us as members of the board of education.

"From what has already been stated by my predecessor, it appears that we start the year with an overdraft of $2,500 in the public schools; that is, after making an allowance for accounts not presented, in addition to the figures already given. In the Collegiate Institute department the overdraft is small, and will cause no inconvenience.

"I think it but right that an explanation in connection with the overdraft in the construction account should be made. The whole of the architect's fees, the advertising, sidewalks and heating one room at Chesley avenue school, and other minor items amounting to nearly the whole of the overdraft, has been charged against that account. This was not contemplated by the board, if I understood the discussion which took place at the time the tenders were opened by the committee and contracts let by the board. However this may be, the overdraft will have to be met. On a business as large and as varied as that conducted by the board of education, it is not a serious matter.

"I trust that we will all do our very best to economize in the expenditure for the year upon which we have entered, but any economy practiced should not be at the expense of our schools. Such a step would be a false one.

"Again, gentlemen, permit me to thank you for the honor you have done me in placing me in this honorable position."

The address was received and sent to committee.

Secretary McElheran and Treasurer Pope were unanimously elected to the positions they formerly occupied.

When it became time to choose a solicitor for the board, Trustee Macpherson said that in his opinion it was unnecessary to have a solicitor other than the city solicitor, and moved that he be appointed. Mr. Birtwistle seconded. Trustees MacRobert and Hamilton nominated ex-Trustee R. A. Bayly, and Mr. P. Bartlett was nominated by Trustees McLean and Colerick.

The vote stood thus:

Meredith	7	9
Bayly	5	6
Bartlett		3

Mr. Meredith was therefore elected.

Messrs. MacRobert, English, Colerick, McCormick, Gillean and Blackwell were appointed a striking committee and reported as follows:

No. 1 Committee—Teasdall, English, Gammage, Gillean, Birtwistle and Dromgole.

No. 2 Committee—Colerick, Evans, MacRobert, Strong, McLean, Macpherson and Blackwell.

Trustee Gillean desired to exchange places with Trustee Macpherson, and was therefore placed upon No. 2 committee.

The report, as amended, was then adopted.

The committees thereupon adjourned to elect their chairmen and representatives on the audit committee.

Trustee Hamilton was elected to the chairmanship of No. 1 committee, and Trustee Teasdall to the audit committee.

Trustee Evans was chosen chairman of No. 2 committee, and Trustee Blackwell appointed to the audit committee.

Dr. Teasdall was then elected to the chairmanship of the audit committee.

Trustees Teasdall and Gillean were named for the position of representative of the board on the Western Fair board. The latter declined the nomination and Dr. Teasdall was elected.

COMMUNICATIONS.

Secretary Ellwood's communication in regard to the use of city water for skating rinks at the schools was received and sent to No. 2 committee.

City Clerk Kingston requested, on behalf of the city council, that the board's estimates be sent in for the first meeting of the council in March.

Principal Merchant, of the Normal School, wrote that at the school there was a well-equipped room for the teaching of domestic science, and said that if the board desired to try the experiment of introducing domestic science into the public schools, the room was at its disposal at such times as would not interfere with the teaching of the Normal's ordinary classes. He suggested that if the experiment were made, the classes first taught should be one or more from the Collegiate Institute or in the highest grade in the public schools. Referred to No. 1 committee.

Miss Claire Taylor's application to be placed upon the public school teaching staff was sent to No. 1 committee, and No. 2 committee will consider Mr. Wm. Bruce's request for increased salary. Mr. Bruce is janitor at Victoria school.

Mr. Robert Simpson, who lives across from Wonderland, asked that his two children be permitted to attend Victoria school, and his request was granted. A similar request, made by Mr. Miles, of London township, was also granted.

AHEAD OF LAST YEAR.

Principal Radcliffe, of the Collegiate Institute, reported that during January, the general course had been attended by 510 pupils, the average being 462; and the commercial course by 92—average, 83. The total showed an increase of 95 over January of 1901.

Mr. Radcliffe's recommendation that the usual $100 grant be made to the institute was adopted.

The concluding bit of business was a presentation to the secretary, which was made by Trustee Blackwell on behalf of himself and a few of his confreres. It was a group picture of the members of the board—the heads being neatly attached to the most incongruous bodies. The effect of the whole was extremely ludicrous, and for awhile threatened to overcome several of the trustees. The picture will be hung in the secretary's office.

The members present were: Trustees MacRobert, McLean, Dromgole, McCormick, Blackwell, Gammage, Evans, Birtwistle, Hamilton, Colerick, Macpherson, Gillean, Teasdall, English and Strong.

Farmer's Backache.

There is scarcely a farmer in this country but knows what backache is. The hard work and heavy lifts, the constant grind of toil from early morning till late at night, frequently bring the stabbing pain in the back or the dull grinding ache that knows no let up. Then too there are often urinary troubles, swelling of the feet and ankles, puffiness under the eyes, rheumatic pains in the joints and muscles.

Dr. Pitcher ought to be held in high esteem by every farmer in the land on account of his Backache Kidney Tablets, which are doing such a grand and noble work in banishing backache, kidney and urinary troubles, which are such universal complaints on the farm.

HEAVY WORK.

Mr. C. E. Lane, King Street East, Ingersoll, Ont.: "I have been subject to attacks of backache and kidney trouble for some years, owing to heavy work on the farm in my early days. Every attack of cold aggravated it. I have tried other remedies in the past but with little effect, and decided to try a bottle of Dr. Pitcher's Backache Kidney Tablets. I got a bottle from A. E. Gayfer, druggist, using at first three and then two at a dose, as they proved a little too laxative. With the two tablet dose the pain and other trouble disappeared, and since then there has been no return, consequently I am sure they are a good medicine."

Dr. Pitcher's Backache Kidney Tablets are 50c. a Box, at all druggists or by mail, THE DR. ZOLA PITCHER CO., Toronto, Ont.

Letters to the Editor

Col. F. B. Leys, M. P. P., of this city, has received the following communication, which is self-explanatory. Any of our readers who can furnish information that will lead to the recovery of the person named will kindly communicate with Col. Leys, or The Advertiser.—Editor.]

Toronto, Feb. 3, 1902.

Dear Col. Leys,—Lord Strathcona has applied to this department for information with respect to Mr. Jesse Singleton, who was last heard of at London, in this province, and who is understood by Lord Strathcona's correspondent to have been a member for some Ontario constituency in the House of Assembly or in the House of Commons.

Can you conveniently give the department any information which would enable the high commissioner's correspondent to make further inquiries in the matter? Yours very truly,

G. E. LUMSDEN.

How to Get Up an Appetite.

Distaste for food often follows Grippe, and fevers, and is associated with a general weakness of the system. To impart a real zest for food, and give power to the stomach to digest and assimilate, no remedy can equal Ferrozone. This is a new and startling discovery. It strikes at the root of disease, and by removing the cause, cures quickly and permanently. Ferrozone will quickly enable you to eat and digest anything. Mr. Strong, druggist, can tell you a great deal more about Ferrozone, how it cures, and why it cures. Call today and see him.

An Ideal Medicine

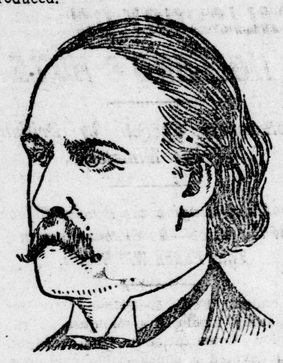
A New Discovery Which Cures All Forms of Catarrh.

The tablet is the ideal form in which to administer medicine, but until recently no successful catarrh tablet had ever been attempted. There is now, however, an excellent and palatable remedy for catarrh in tablet form, known as Stuart's Catarrh Tablets, and sold by druggists, composed of the most recent discoveries in medicine for cure of catarrh and results from their use have been highly gratifying.

The old-time treatment of catarrh was in the form of inhalers, washes, douches, sprays, etc. Later on internal remedies were used with greater success, but being in liquid or powder form were inconvenient to use, and like all medicines in liquid or powder form, lose their medicinal properties when opened or exposed to the air.

Stuart's Catarrh Tablets contain highly concentrated antiseptics, Red Gum, Blood Root, etc., which kill the catarrh germs in the blood and mucous membrane, and in this respect are strictly scientific and modern, because all authorities are now agreed that catarrh is a constitutional blood disease, and local applications can have only a transitory effect.

The use of inhalers, douches and sprays is a nuisance an inconvenience and can in no wise compare favorably with the same antiseptics given in tablet form internally, where they can reach the stomach and blood and kill catarrh germs right where they are produced.



A prominent lawyer and public speaker of Pittsburg, says: "I have been troubled with catarrh of the head and throat for twelve years. In this climate it seems impossible to get rid of it. The continual dropping of mucous from the nose into the throat caused irritation and hoarseness, seriously interfering with my public speaking. It took me an hour or more of coughing, gagging, expectorating and sneezing every morning before I could settle down to work, and this condition gradually brought on catarrh of stomach, causing loss of appetite, poor digestion and a foul breath, which annoyed me exceedingly. My physician advised me to try Stuart's Catarrh Tablets, and I took them for two months and was astonished to find how quickly they cleared my head, throat and stomach, and I have no hesitation in recommending them. They are not only pleasant to take, but they seem to get at the very root of the trouble, because since using them I have had no trace of catarrh.

Druggists sell Stuart's Catarrh Tablets at 50 cents for full sized package.

They can be carried in the pocket and used any time and as often as desired since they contain no cocaine, mercury or any other injurious drug.

Mr. P. Bartlett was nominated by

JOTTINGS FROM NEAR-BY PLACES

ILDERTON

Ilderton, Feb. 5.—Mr. E. Ironside, of the firm of Ironside & Knight, is about to leave our town to go to Montreal, where he will keep books for his brother, Mr. Robert Ironside, of that city.

Miss Maggie McIntyre, of Strathroy, is visiting here with her grandfather, Mr. Donald McRae.

Mrs. Abbot is visiting here with her nephews and nieces.

Mr. Stormant McIntyre, of Strathroy, has returned home after spending the week with his uncle, Mr. J. H. McRae, postmaster, of this place.

Mr. Huber and Miss Gussie Coleman, of Birr, were in the village on Saturday.

The many friends of Mrs. Wm. O. Telfer will hear with pleasure that she is recovering, though slowly, after a long and dangerous illness, of inflammation of the lungs.

Mr. and Mrs. Robert Graham, of the Ilderton House, drove out to Strathroy to see a few of their old acquaintances.

Our G. T. R. freight agent, Mr. G. W. Knight, shipped four carloads of logs on the Friday evening freight train.

Miss Georgena Knight is able to be out once more after her illness, which to the pleasure of her many friends.

Mrs. R. C. Robson has returned home after spending the week with friends in the city.

Miss Clare Walker left here on Monday's evening train, bound for London. She will spend a few days with friends in the city, and from London will go to Chicago to live with her sister, Mrs. Berch.

ARKONA.

Arkona, Feb. 6.—Mr. J. T. Showler and son Earl spent Sunday with T. W. Showler, of Arkona.

Mr. T. W. Showler reports to have lost his pocketbook, containing $110, on Tuesday night.

The Misses Lillian Wiley and Delia Woodhull are visiting at Mr. Robert Riggs'.

A number of Arkona people took in the toboggan slide on Richter's hill last Friday evening.

A number of Arkona people attended the young people's social held at Geo. Gott's on Tuesday evening.

Mr. Alex. Thomas is treating the inside of his shop to a fresh coat of paint.

FAITH NO FACTOR

IN THIS MAN'S CURE.

Persuaded to try South American Rheumatic Cure it proved its potency. Seven years pains dispelled forever in twelve hours.

I was Rheumatisms victim for seven years, being confined to my bed for months at a time. I had no faith in rheumatic cures I saw advertised, but I was persuaded to try South American Rheumatic Cure and inside of twelve hours after taking the first dose I was free from pain—three bottles cured me."—J. D. McLeod, Leith, Ont.

TRAIN WHEELS SEVERED HEAD

C. P. R. Conductor Killed at St. Thomas Last Night.

While "Checking Off" Cars He Was Struck by No. 3 Wabash Train—Lived in London.

Conductor Richard D. Allen, of the C. P. R., who lived at 766 Queen's avenue, this city, was struck by No. 3 Wabash train at St. Thomas, about 1 o'clock this morning and instantly killed.

Conductor Allen had been working in another conductor's place, and had the run between St. Thomas and Toronto Junction. As usual, last night, he was "checking off" the cars of his train, that is, taking the number of each car in his report sheet. He was walking along on the tracks, and owing to the windstorm raging, and perhaps also because of escaping steam, did not notice the approaching Wabash train. He was struck by the front part of the engine and thrown under the wheels, which passed over his neck. Several of the cars passed over him, and his head is said to have been severed from the trunk.

There was no more popular man on the entire C. P. R. system. He had lived in London for many years, and besides his wife is survived by a three-year-old boy. He was a member of the Conductors' Union.

HON. J. E. BLAND: KNIGHT ERRANT.

Former Londoner Enacts Role of Deliverer.

Storms a Farmhouse, Captures a Fair Maiden, and Restores Her to Doting Grandparents.

The following account of a gallant deed of knight errantry appears in the Detroit Evening News, and the hero is a London old boy, who has achieved distinction in the land of his adoption. Representative Bland requires no introduction to London readers:

"Representative J. Edward Bland, whose encounter with a burglar a few months ago placed the laurels of fame on his brow, has revamped his heroism by a new act, namely, the rescue of a young miss from a stepmother and returning her to her doting grandparents, Mr. and Mrs. Trent, of 232 Thirteenth street.

"Several weeks ago little Gertrude Trent was taken over to the care of her stepmother by her father, Capt. Trent, a vessel man, who has since mysteriously disappeared. Ever since Mrs. Trent No. 2 has clung persistently to little Gertrude, hoping to bring her derelict spouse back by the possession of his daughter. With this intent, the mother is said to have flitted from town to town, secreting Gertrude wherever she went, and meantime making strenuous inquiries after the father.

"In the meantime, too, the inconsolable grandparents, armed with guardianship papers for Gertrude, were seeking her everywhere. The case was turned over to Representative Bland. He was adjured to scour the state for Gertrude, and return her to her grandparents' home, at 232 Thirteenth street, where she had always lived until her stepmother took her away.

"Representative Bland girt himself up and set out last Thursday afternoon. He was armed with the guardianship papers and the knowledge—incorrect it afterwards proved—that three husky farmer lads would be awaiting him with drawn pitchforks. But this did not deter him. If blood must be spilled, why, so much the more heroic it would be. Mr. Bland felt like a regular Sir Galahad.

"He went first to Evart, on a clue furnished him, but the maid and her stepmother were not there. Then he went to Saginaw, then to Belding, and here he discovered that Gertrude was off on a desolate farm at a place called Grattan. To the farm for Sir Galahad!

"He secured a rig and driver, and at noon on Saturday rapped his mailed fist on the farmhouse door. Gertrude herself responded. In answer to questions she told her name, and just as Sir Galahad was preparing to swoop off with her the stepmother shrieked down the stairs for Gertrude to come up.

"The little girl did so, and was at once admonished to take off her shoes and retreat to a dark, small corner and make herself scarce.

"Meanwhile Sir Galahad, his knightly ire aroused, began to make a search. He invaded pantries, bedchambers, clothes closets, and at length came upon the crouching little figure in the dark corner.

"Without further ado he picked her up just as she was, and ran for the door.

"Thereupon noonday was made hideous with feminine shrieks. Three women clung to the knightly garments, made vicarious grabs at himself and his burden, and raised Cain generally, but to no avail. The serpent's sting was added by the small maid herself crying and protesting against this knightly appropriation of herself. But that was because she didn't just know who Sir Galahad was, and why he was carrying her off.

"As the driver whipped up the horses and she was borne off in the arms of her captor, the farm house bell was rung loud and long, giving just the needed touch of medieval tumult to the whole thing.

"Gertrude's shoes dropped out on the way to town, and the representative bought her a new pair. Then he proceeded to ingratiate himself by buying her candy and telling her stories and being a good fellow generally.

"They took the train at Orleans, a little station, arrived in Detroit at 2 a.m. Sunday morning, took a carriage, and were driven direct to 232 Thirteenth street, where lights were burning in expectation of the arrival.

"Gertrude and her grandparents had a most affecting meeting, and Sir Galahad found it necessary to look hard at a picture of Niagara Falls in the family album to curb his emotion. Then he came in for his share of heartfelt thanks from the old people, who were overjoyed at the return of their granddaughter.

"Miss Gertrude, by the way, is a much-litigated-over young lady. In her short career she has had her father, her stepmother and two sets of grandparents contesting over her possession. A couple of years ago her mother's parents, in Port Huron, insisted on keeping her, and her father had to resort to legal measures to recover her.

"She is a dear, bright little girl, very pretty and well mannered. She is glad to get back and attend school again and be with her grandparents and her brother Tommy, who is a year her senior. And she very bashfully apologizes for the fuss she kicked up when Sir Galahad first tried to carry her off, and confesses she thinks a good deal of him now."

Cured After Years of Pile Torture.

James Kenton, Memphis, Tenn., says: "I suffered the tortures of itching piles for years, and not even mercurial ointment would relieve me. One 50 cent box of Pyramid Pile Cure cured me entirely." All druggists sell it. Book, "Piles, Causes and Cure," mailed free. Pyramid Drug Co., Marshall, Mich.

UNEQUALED IN THE WORLD

Diamond Dyes Tested for Over Twenty Years Are the Popular Home Dyes—Scientific Chemists Say They Are the Purest, Strongest, Fastest and Most Brilliant.

Diamond Dyes have no equals in the world; they are the only package dyes that can be used with safety and success. The imitation and crude dyes sold by some dealers for the sake of a little extra profit are a source of danger to home dyers. Those common dyes sold at the same price as the Diamond, are dear at any price, as they ruin fabrics and garments. It is therefore wise to examine each package you buy. If the name "Diamond" is not on the package, they are deceptions and frauds. Diamond Dyes are fully warranted by the manufacturers; they guarantee success at all times.

BLIZZARD IN MICHIGAN.

Grand Rapids, Mich., Feb. 5.—The while of Western Michigan is being swept by a terrific blizzard, the fiercest of the year, and one of the worst the railways have had to contend with in years. Trains from the north were from three to five hours late, and big plows are doing their best to prevent a complete blockade, which seems likely, as the snow shows no sign of abatement. This storm is the worst experienced in many years.

Buffalo and vicinity experienced a blizzard on Tuesday night, and travel was much interfered with.

MR. BROWN'S SCIATICA

He Tells the Story of His Great Suffering, and How He Was Completely Cured.

Bolestown, N. B., Feb. 3.—Wm. A. Brown, of this place, has suffered fearful pain for years with Sciatica. The story of his sufferings and cure he relates in his own words as follows:

"I had Sciatica in my back and hip so bad that I could not walk without suffering awful agony and pains that seemed like knives running through me. I commenced a treatment of Dodd's Kidney Pills.

"Before the first box was all used I thought I felt some better, and by the time I had used three boxes I was sure of it.

"I continued the treatment, and soon the pains all left me, and I have had no return of them since.

FATAL POWDER-HOUSE EXPLOSION

Telluride, Col., Feb. 6.—E. D. R. O'Connell and Alphonso Florieta, both married, were killed and four other men seriously injured as the result of an explosion of powder in the powder-house at the mouth of the Japan tunnel. Some powder which was being thawed out exploded, the concussion setting off the entire powder supply, amounting to several hundred pounds.

BALDNESS!

PROF. DORENWEND

..COMING..

He will be at GRIGG HOUSE, London, **Monday, Feb. 17th**

With Ladies' and Gentlemen's WIGS, TOUPEES, BANGS, WAVY and PLAIN FRONTS, SWITCHES of every description, etc.

He can improve your personal appearance. Thousands owe their fine looks to the skill of Prof. Dorenwend.

Human hair ADORNS and PROTECTS the head.

Don't fail to see his new PATENT HAIR STRUCTURE, patented all over the world.

Private apartments secured at hotel.

First-class cut hair, especially gray and white hair, taken in exchange. 100c-wyt

Omega Oil

IN OLD AGE—As people get old their bodies dry up, like plants when winter approaches. Their skin wrinkles and their joints harden. The back aches. The shoulders and arms get lame. The legs become weak. The feet are tender and sore. The natural oils of the body are exhausted, and something is needed to produce the strength and vigor that Nature herself supplies in the earlier years of life.

The best thing for this is Omega Oil. It is a godsend to the aged if ever there was one. It makes the declining years of life free from the pains that come as the days go by. Many a grandfather and grandmother find in Omega Oil the only thing that does their aches any real good. They simply rub it on their sore spots, and the pain stops. It is good for everything a liniment ought to be good for.

739

Never take a substitute for Omega Oil. If your druggist persistently refuses to give what you ask for, the Omega Chemical Co., 257 Broadway, New York, will mail you a bottle, prepaid, for 50c. in cash, money order or stamps.

WESTERN ONTARIO

Live Items Culled for Busy People's Information.

Two young Chatham ladies stopped a runaway the other day.

The St. Thomas Gas Company is suing Mr. Thomas Donley for $676 for using electric light before a contract had expired.

The death occurred at Beamsville on Monday of Mrs. William Gibson, wife of the ex-M. P. of Welland and Lincoln, from an attack of heart failure.

Arthur Merrigold, of Ingersoll, has secured a pension from the United States government for service in the war between North and South. He was one of those who went over from Canada to enlist. Mr. Merrigold secured about $86 on arrears of pension.

A family in Innerkip, in which some of the children were suffering from an attack of the mumps, had a cat of which the children were very fond. While they were confined to the house during their sickness, puss came in for a good deal of fondling, and the consequence was that the disease communicated itself to the cat, and a severe case of mumps was developed. Poor Mistress Grimalkin's jaws are a wonderful size, and it is not yet known what the result will be.

Tilbury East township, which has already handled drainage schemes involving $750,000, proposes to launch another for the reclamation of 25,000 acres in East Tilbury and Romney. That portion of Kent, if reclaimed, would be as rich as any in North America, and a deputation yesterday waited on the Ontario government to ask that aid be granted to the undertaking. The remarkable success achieved in tobacco-growing has encouraged the drainage movement in the whole southwestern peninsula. The views of the deputation were very well received.

General debility—failure of the strength to do and the power to endure—is cured by the great tonic—Hood's Sarsaparilla.

On the announcement in court in Chicago by the counsel in the Dowie-Stephenson suit for a receivership for the Zion lace industries that an agreement had been reached by the parties to the suit out of court, Judge Tuley dismissed the case.

Baby's cold may be cured in a night by using Vapo-Cresolene, which has been extensively in use for twenty-four years. All druggists.

The name of Very Rev. Dean Lennox Williams, of Quebec is mentioned as the possible coadjutor bishop of the diocese of Montreal, such an appointment having been asked for by His Grace Archbishop Bond.

A SISTER'S ADVICE.

Mrs. Jesse Ketchum, of Ottawa, Induces Her Sister to Take Powley's Liquified Ozone for a Stubborn Cough.

IT CURED HER.

It's a question of vitality these days—whether or not your blood possesses its required amount of oxygen, if you are going to escape the coughs, colds, attacks of the grip, pneumonia and bronchitis so common and sometimes so fatal. Powley's Liquified Ozone supplies oxygen to the blood by increasing the percentage of hemoglobin, makes healthy flesh and blood and establishes the red and white corpuscles in their proper proportion, so that there is sufficient resistance in the system to starve out the germs of these winter diseases.

THE OZONE CO., LTD.

Gentlemen:—In view of the universal suffering of humanity, and my favorable observation of the work of Ozone, I send you for publication a brief statement of what I know about it.

My sister, a young woman past twenty, having contracted a stubborn and settled cough, which she could by no treatment get rid of, I induced her to try the much talked of remedy, Ozone In one month the favorable change in her condition was remarkable.

I have also known it to arrest impending diphtheria, and to do good in other forms of disease.

My sister resides in Mt. Forest. I write this that other sufferers may be benefitted.

(Signed) MRS. JESSE KETCHUM,
324 Concession St., Ottawa, Ont.

We want you to know that Powley's Liquified Ozone honestly performs all that we claim for it and more. We publish testimonials which you can readily verify—they are all in Canada from Canadian people. We want you to examine into each case. We believe there cannot ever be too much investigation over affairs pertaining to your good health. Powley's Liquified Ozone is oxygen in fixed liquid form—not a patent medicine at all, as it does not contain any drug or combination of drugs—no alcohol in its composition, simply oxygen, Nature's great health-giving blood food.

50c. and $1.00 at all Druggists. THE OZONE CO. of TORONTO, Limited, TORONTO and CHICAGO.
