AROUND THE WORLD.

.....Herbert Spencer never heard of Oscar Wilde until the latter's trip to America.

.....It is estimated that upward of thirty thousand lives have been destroyed by the explosive products of petroleum.

.....The first college to be formally affiliated to the University of Cambridge, England, under the new statutes, will be University college, Nottingham

.....Mrs. Hope has given her granddaughter, the Lady Emily Pelham Clinton, the handsome wedding present of £50,000 on her approaching marriage with Prince Doria.

.....Capt. Burton will soon publish, in pursuance of his project of translating the whole works of Camoens, his version of the sonnets of the Portuguese poet. It is complete in manuscript.

.....M. D. Bikelas of Athens has resumed his enterprise of translating Shakespeare into modern Greek. Three plays, "Romeo and Juliet," "Othello," and "King Lear," appeared in 1876. He has now issued "Macbeth" and "Hamlet," and more are to follow.

....King Ludwig of Bavaria has presented Wagner the composer with two superb swans, the identical birds which, yoked to an elegant boat, have often drawn his majesty, dressed up as Lohengren, across the lake of Hohen-Schwangau.

.....Miss Helen Gladstone, daughter of the premier, has accepted the vice-principalship of Newnham college, in place of Mrs Henry Sedgwick, who will resign in October.

.....Upon the railways of the United Kingdom during 1881, 42 persons were killed and 1161 injured by accidents to trains, rolling stocks, permanent way, etc, as compared with 51 and 1023 respectively in 1880. Of those killed 23 were passengers and 19 servants of the companies, and of those injured 993 were passengers and 168 servants.

....Complaint is made that the German universities are overcrowded. During the season of financial speculation that followed the French war the attendance seriously fell off. But now students are coming in larger numbers than ever, with the result, it is said, of injuring productive industries and depreciating the standard of examinations.

.....In the Orkney Islands the trout with which the Loch of Harray abounded have assembled in large shoals in the shallows. The farmers have taken advantage of it to land the fish in hundredweights. One farmer landed one thousand trout at one sweep, while another succeeded in landing five cart loads. The men wade into the water and drive the fish into the nets.

.....The most contradictory reports circulate with regard to the crowning of the Emperor of Russia, and it appears certain that Count Ignatieff is straining every nerve to induce the emperor and empress to alter the decision of the Imperial family council, and celebrate the coronation this year, the count offering with his life to guarantee that no attempt of the nihilists will take place.

.....One of the most eminent of medical men is reported as saying that there are not less, probably, than 10,000 persons in Germany who have become slaves to the habit of hypodermically injecting morphine. There are many who take as much as eighteen injections every day. Some have hardly a square inch of skin on their bodies in a basket, and before supper they are passed around, and each gentleman takes one, and the lady whose name he draws is his partner for supper, which is probably eggs.

Mike Mykens, a Denver newsboy, has made a fortune of $50,000 selling papers and blacking boots.

The Bishop of Melbourne, Australia, has declined to grant the petition of some of the people of his diocese to pray direct for rain. He says that material phenomena are under the control of laws which will not be changed or interrupted in answer to prayer, and that prayer should be a request for spiritual blessings only.

A. S. Napier, an old Oxford man, who has for some years past acted as teacher of the English language in the University of Berlin, has just been appointed an "extraordinary professor" in the Philosophical faculty at Gottingen. This is probably first modern instance of an Englishman achieving such a position in Germany.

Considerable alarm and perplexity have been created at the Chatelet theatre in Paris by certain malicious attempts which have been made during the last three months to injure the young women engaged as supernumeraries in the representation of a spectacular piece called the "Mille-et-Une Nuits." These attempts, which have invariably been directed against the performers in one particular scene, were twice unsuccessful. The third time, however, several of the girls were severely injured. They were supposed to represent nymphs swimming, and were held aloft by iron supports or "stays." One of these supports gave way, precipitating a girl on to another group of performers, who in their turn fell from a considerable height to the ground. The stay was found to have been deliberately filed almost in half.

The total number of works licensed to be printed in Japan during the past year was 4910, as against 3792 in 1880. School books take the lead with 704; then poetry, 567; political, 545; drawing and writing, 339; history, 276; medicine, 267; law, 255; belles-lettres, 193; geography, 164; commerce, 113; mathematics, 107; ethics, 93. Unless included under this last heading, theology and religion would seem to be entirely unrepresented. One hundred and forty-nine newspapers were born during the year, but only thirty-four survived. Among the translations were Mill's "Three Essays on Religion," Buckle's "History of Civilization," Lord Chesterfield's "Letters" Roscoe's "Chemistry," Smiles' "Character," Leone Levi's "International Commercial Law," and Palgrave's "Chairman's Handbook."

REST AND COMFORT TO THE SUFFERING

"Brown's Household Panacea," has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago, and any kind of a pain or ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle.

MOTHER! MOTHERS! MOTHERS

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents bottle.

The Globe and the Party.

(From the Bowmanville Statesman.)

This clearly sets forth Mr. Blake's views on the N.P., but the Globe has not advocated these views on the tariff, but has all along taken quite a different position. The Globe's action, therefore, served to intensify and perpetuate the opposition of the manufacturers, whose support and influence had no little to do in returning Sir John Macdonald and his party to power. Then, again, hundreds of professed reformers voted for N.P in 1878. These men are by no means conservatives, nor do they wish to be counted out of the reform ranks, but the conduct of the Globe towards these men will not induce them to return to their party. A great many young men—mechanics and laborers—who voted for the first time at this election, identified themselves with the conservatives and the N.P. party, and as first impressions are not easily removed, it is quite safe to count these against us in the future. It will take years of faithful and persistent effort and work to overcome the injury that has been done to the reform party by the Globe's action during the recent contest. We regret that it is necessary to speak so plainly against what is considered to be the leading organ of our party in Canada, but we speak our mind and the mind of many prominent reformers.

Mocha Coffee.

It is probable that before the lapse of any very long period the famous Mocha coffee will cease to appear in the European markets. The imports from Mocha itself have been on the decline for some time past. Twenty-five years ago Mocha and its entire Arabian neighborhood could only send out 8000 tons, while South America was sending 160 000, Java 55,000 and India and Ceylon 38,000. We learn from an Italian consular report that the once world-famed and flourishing Mocha is now reduced to a group of sixty-eight poor huts, with about 400 inhabitants who have hard work to keep body and soul together. The coffee plantations are lying waste and uncultivated, and its once busy harbor is sanded up. All the European merchants have forsaken Mocha. One only, at least, remains, an Italian, but he does not occupy himself with the export of coffee, but with the import of European wares for the Arabians. Hence we may say with assurance that the best cup of coffee now to be had is not likely to contain a single particle of real Mocha.

Mounted Police Drowned.

(From the Fort Benton Record.)

On the evening of May 25, after the Red Cloud, on her trip up the river, had landed for the night near the mouth of the Big Muddy, just above Budford, one of the 205 mounted police recruits on board was drowned. He was fishing from the fan-tail of the boat and fell off accidentally. He was a young German, named Wahl. On the evening of May 30, after the boat had tied up near Buffalo shoals, another policeman, McCann by name, was drowned.

The Two Jameses.

(From the Hamilton Spectator.)

James Somerville, Esq., M.P., for West Bruce, dropped in to see James Somerville, Esq., M.P. for North Brant, at Dundas, the other day. Each James Somerville, Esq., M.P., could conscientiously say to the other James Somerville, Esq., M.P., that he admired James Somerville, Esq., M.P., above all other men.

Egg Festival.

In western districts egg festivals are the latest. Each lady brings an egg, with her name written upon it. They are deposited in a basket, and before supper they are passed around, and each gentleman takes one, and the lady whose name he draws is his partner for supper, which is probably eggs.

Mike Mykens, a Denver newsboy, has made a fortune of $50,000 selling papers and blacking boots.

The Bishop of Melbourne, Australia, has declined to grant the petition of some of the people of his diocese to pray direct for rain. He says that material phenomena are under the control of laws which will not be changed or interrupted in answer to prayer, and that prayer should be a request for spiritual blessings only.

A. S. Napier, an old Oxford man, who has for some years past acted as teacher of the English language in the University of Berlin, has just been appointed an "extraordinary professor" in the Philosophical faculty at Gottingen. This is probably first modern instance of an Englishman achieving such a position in Germany.

Considerable alarm and perplexity have been created at the Chatelet theatre in Paris by certain malicious attempts which have been made during the last three months to injure the young women engaged as supernumeraries in the representation of a spectacular piece called the "Mille-et-Une Nuits." These attempts, which have invariably been directed against the performers in one particular scene, were twice unsuccessful. The third time, however, several of the girls were severely injured. They were supposed to represent nymphs swimming, and were held aloft by iron supports or "stays." One of these supports gave way, precipitating a girl on to another group of performers, who in their turn fell from a considerable height to the ground. The stay was found to have been deliberately filed almost in half.

The total number of works licensed to be printed in Japan during the past year was 4910, as against 3792 in 1880. RUPTURE CURED

BY four months' use of Charles Cluthe's Latest Spiral Truss. Patented in U. S. and Canada. POINTS OF EXCELLENCE: 1st, Weighs only one ounce. 2d, Perfect ventilation, air circulates freely under pad 3d, Constant pressure. In speaking the tongue acts as a valve in the mouth, which causes a corresponding pressure immediately on the hernia. The pad is so perfect that it instantly imitates the motion of the tongue when speaking. 4th, It will give to the slightest motion of the body. It is made of best brass, therefore rusting is impossible. The pad when pressed (as above shown) has a clamping pressure, the same as by placing the hand upon the leg, extending the thumb and drawing together. This truss is the result of a life's study and 18 years material experience. Twenty-four thousand adjusted in the last seven years by the inventor. Recommended by leading physicians. I defy the rupture I cannot hold with ease. Spinal instruments, most improved. A new apparatus for straightening Club Foot, without cutting or pain. Send 6 ct. stamp for book on Rupture and the Human Frame (registered, by Chas. Cluthe), valuable information. Address

INSURANCE

BANKING AND INSURANCE.

The paid-up capital of the three largest Banks in Canada is $22,565,866. Over Twelve Million Dollars of this capital is kept employed, not in Canada, but at their U. S. branches, earning large dividends for their Canadian stockholders.

THE ÆTNA LIFE INSURANCE COMPANY offers to the business men of Canada a more direct and more profitable investment for their funds, by means of its convenient and valuable

ENDOWMENT BONDS

running for 10, 15, 20, 25 or 30 years, and in sums of $500 to $15,000, and yielding annual cash dividends. These Bonds are issued at various prices, according to the age of the purchaser, and the length of time the Bond is to run. They may be paid for in one sum, or in annual or semi-annual instalments to suit the purchasers' convenience. They are unusually secured, not only by accumulated assets of over $28,000,000, but by special deposits at Ottawa, and by a most valuable experience of 32 years in selecting the safest and most profitable investments.

At age 41.8 a payment of $7,272 will purchase, on a healthy man, an Ætna Endowment Bond for $10,000, payable 10 years from date, or at earlier death, and an *annual cash dividend* besides. The increase of the $7,272 to $10,000, the annual dividends, and the value of the life insurance, have yielded to those living the 10 years through, a return of EIGHT TO NINE PER CENT. AS AN INVESTMENT.

No. 63,784, an Endowment Bond for $2,000 was issued to E. M. MORPHY, Esq., the well-known jeweller, Yonge street, Toronto, in June, 1869, and paid in 1880. MR. MORPHY'S opinion of the investment is shown by his taking three more ÆTNA BONDS. Ask him.

No. 64,944, an Endowment Bond of $4,000, was issued in July, 1869, to C. QUINLAN, Esq., ex-Mayor of Port Hope, and cashed in 1879. Allowing for the 10 years' life insurance received, the balance yielded *better than Eight (8) per cent. Compound Interest.* When receiving his money, Mr. Quinlan expressed regret that he had not taken $8,000 or $10,000 in the first place, and thus saved thousands of dollars lost during the ten years in other investments which then promised better than this. He has re-invested with the ÆTNA on a liberal scale, and on the same 10-year Endowment Plan.

No. 70,607, an Endowment Bond of $1,000 was issued to JOHN ROSS, Esq., Merchant, Galt, in 1876 and paid, with profits, in 1880. Mr. Ross' opinion is expressed in the form of two more, taken in 1880 and in 1882.

No. 74,684, an Endowment Bond of $5,000, was issued to THOS. THOMPSON, Esq., "Mammoth House," Toronto, in June, 1870. He finished his ten payments in 1880, made a careful examination of the subject, and took another $5,000 on the 10-year plan. He now receives two large cash dividends annually.

No. 82,050, an Endowment Bond of $4,000, was issued to JOHN HOGG, Esq., Merchant, Guelph, in April, 1871, and settled in March, 1881. As an investment it resulted almost precisely the same as Mr. Quinlan's, and the company has now a still larger interest in Mr. H.'s good health, as well as that of many of his business friends.

No. 87,957, for $1,000 was issued to DANIEL ROSS, Publisher, of Hunter, Rose & Co., Toronto, in 1872, and cashed in 1882. His opinion is expressed in double the amount for another 15 years.

No. 89,952, for $2,500 was issued in 1873 and paid in 1882, to A. T. H. BALL, Esq., Barrister, Galt, whose opinion is expressed in another of same amount, for another ten years.

No. 92,785, for $5,000 was issued in 1872, and paid in 1882 to JAMES W. GALE, Esq., Wholesale Merchant, Toronto, found a profitable investment, and repeated for another ten years.

The late SAMUEL PETERS, Esq., C.E., of London, Ont., held one of these Endowment Bonds, issued last December, for $4,000. It cost him only $443 to leave $4,000 to his estate.

An additional sum of $100,000 has just been deposited with the Government at Ottawa, making the ÆTNA's total deposit there $325,000.

Write to the undersigned, Toronto, for further information respecting Endowment Insurance, or see an Agent of the ÆTNA LIFE.

WILLIAM H. ORR, Manager.
