MICHIE & CO., Wine Merchants 5½ King-st W. TORONTO.

CHILDREN'S AID SOCIETY.

Interesting Figures Given Out at the Annual Meeting — Depravity Among Young Girls—Officers Elected.

In the absence of His Worship the Mayor, Ald. Scott occupied the chair at the fifth annual meeting of the Children's Aid Society, held in the Shelter, 135 Adelaide-street east, yesterday afternoon. The annual report read by Mr. J. K. Macdonald included all the reports.

The Agent's report showed the number of juvenile offenders before the Children's Court in the past year: Larceny 234, disorderly 17, vagrancy 34, gambling 18, trespass 70, pocket picking 11, assault 7, housebreaking 20, incorrigible 23, horse-stealing 4, arson 13, burglary 2, malicious injury to property 36, till tapping 17; total 506.

APPLICATIONS FOR CHILDREN.

One hundred applications for children were received during the year, all of which were carefully investigated and for the most part deemed suitable.

The following figures give the number of children who have been made wards of the society during the year and how they have been disposed of: Awaiting homes Oct. 1, 1895, 14; by transfer from other institutions, 11; order of court, 10; adoption, 34; children offering themselves, 4; adopted out, 48; placed out, 48; boarded out, 15; died, none; awaiting homes Sept. 30, 1896, 10.

Very much help has been given the Shelter in preparing morally, physically and socially children who have been made wards of the society for their foster homes by the appointment by the Public School Board of regular teachers.

MORE ROOM WANTED.

A great need felt by the society is to increase the size of the shelter in order that the divisions of the boys and girls may be entirely separate.

On October 1, owing to the necessity felt for a trained nurse in the home, Miss Anna Gordon was appointed Matron and Chief Nurse.

Following is the number of children admitted to the Shelter during the year and why: From misfortune of parents, 31; viciousness of parents, 63; desertion of parents, 10; on remand by Magistrate, 103; vagrancy, 72; apprehension by society's officers, 22; from hospitals, 37; from other institutions, 19; returned from country, 13; in Shelter Oct. 1st, 1895, 38; total 443; boys 320, girls 123.

Number of children discharged: To parents and friends, 147; to foster homes, 57; to hospitals, 37; to Protestant institutions, 59; to Roman Catholic institutions, 15; by Magistrate from custody, 76; committted to Victoria Industrial School, 11; committed to Alexandria Industrial School, 1; to Penetanguishene Reformatory for Boys, 7; to Industrial Refuge for Girls, 6; to police of other municipalities, 1; escaped, 7; in Shelter Sept. 30th, 1896, 28. Total 443.

YOUTHFUL DEPRAVITY.

A feature of the girls who were admitted to the Shelter is the number between the ages of eleven and fourteen, and the sad state of depravity into which some of them, though so young, had fallen. Six girls had to be sent to the Mercer Reformatory for this reason.

There have come to the Shelter a few children of weak intellect. This is a class which reaches the homes in the city as well as the Shelter.

Financial statement showed total receipts $6575.56; disbursements $6575.56; liabilities outstanding, furniture account, $434.43.

OFFICERS ELECTED.

The officers for the ensuing year are: President, J. K. Macdonald; vice-presidents, W. M. Oldright, M.D., and W. Harley Smith, M.D., R. S. Beard and H. B. Frankland; treasurer, A. M. Campbell.

Little Girl Burned to Death.

New York, Nov. 5.—The five-storey flat house at 546 West 25th-street was gutted by fire to-day. Mary Deacher, a five-year-old girl, perished in the flames. Many daring rescues by the police and firemen were made.

ATTO DRY GOODS ONLY

Friday, 6th November, 1896.

Crisp Newness is the characteristic feature of every item in the compilation that aggregates our throng-attracting

Silk Show— Not satisfied with having "the finest show" (of silks) as regards quantity and choice, we are determined upon creating

Such Silk Surprises— when prices are mentioned as will profit, as well as please, all who participate in purchasing from our

Silk Satiety— There are amongst them rich rustling iridescent Taffetas, plain shot Taffetas for lining, Taffeta de Leine for evening waists, Moires of plain grounds, with shimmering striped effects; Dresden de Florbloi, with splashed and frouded designs. Some at 50c that were 90c; some at 75c that were $1.25.

Evening— Tinsel Chiffons, Crinkle Chiffons, Gismonds Pleated Brocades, Duchesse Satins, Tinsel Nets, beautiful effects of translucent tones on guard grounds. These embrace a collection ranging in price from $1 to $7 per yard. The new dress silk—the Lousine, in all fashionable shades, at $1.50 per yard. All-Black Brocaded Taffeta at 90c and $1.25. New Silk Brocaded Grenadines, exquisite styles in the uncrushable makes, in single dress pattern.

Silk Samples Sent— When requested, to any address in Canada.

JOHN CATTO & SON, King Street, opposite the Postoffice.

IN A VERY CURIOUS MANNER

Did Mr. Ferrier Get His First Inkling of Corundum,

FOUND IN CARLOW LANDS.

The Find Will Likely Lead to the Opening Up of a New Industry

Owing to the Abrasive Value of the Material—What Corundum is—Large Block of Evening Star Sold—What are Toronto's Manufacturers Doing Now That Thousands of Dollars Worth of Mining Machinery is Wanted?—Latest About the Sudbury Coal Find—General Mining News.

Otttawa, Nov. 5.—The recent discovery of corundum in Hastings County by Mr. W. F. Ferrier, lithologist of the Geological Survey Department, came about in a somewhat curious way. He had recognized the mineral amongst a number of crystals labelled "Pyroxene, Township of Carlow," which came into his possession some time ago, and on communicating the facts to Dr. Dawson, director of the survey, was authorized by him to visit Carlow Township and endeavor to locate the mineral and determine the extent of the deposits. Mr. Ferrier was accompanied by Mr. A. Cole, and after considerable difficulty found the mineral on the 14th lot of the 14th concession of Carlow Township, in Hastings County. The corundum was found to occur in a coarse-grained red, feispathic rock, which forms, together with red and brown micaceous gneiss, a perpendicular cliff from 80 to 100 feet high at the base of a sloping mountain. Well-developed crystals, often of large size, and generally of a grayish or brownish color, as well as irregular masses of the corundum are thickly distributed through the rock, and the mineral was observed throughout this rock for a distance of about 300 feet across the strike, and traced along the strike for about 700 feet. The interest of the find lies not in the possibility of the discovery of the gem varieties of the mineral, ruby and sapphire, which is improbable in view of the nature of the occurrence, but in the fact that this is the first time that the mineral has been found to exist in Canada in any quantity, and that it is valuable as an abrasive material on account of its great hardness, which, in the pure mineral, is next to that of the diamond. Corundum is an oxide of aluminum, the crystallized varieties being essentially pure, whilst the granular variety, to which the name "emery" is given, contains more or less impurities, chiefly magnetite and hematite. The transparent purer kinds of blue and colors constitute the gems sapphire and ruby. These usually occur as rolled pebbles in river beds, or as crystals imbedded in limestone, as in the famous ruby mines of Burmah. As already stated the value of the mineral lies in its employment as an abrasive material, and statistics show that there is a widespread market for it. The supply of the mineral in the United States comes chiefly from North Carolina, small quantities of emery being also obtained in Westchester County, New York State. The finer grades of emery continue to be imported from Turkey and Greece. Should further investigation prove the existence of this mineral in large quantities in Hastings County it will, without doubt, lead to the opening up of an important industry.

TRAIL CREEK MINES.

R. H. Pope of Quebec Buying Rather Extensively.

The Rossiander.

A great deal of interest has been displayed in the finds on the Kokanee Mountain. During the past week four claims on Kokanee Creek—Florence, Mollie Gibson, Aspen and Achilles 200—have been bonded for over $73,000, by Rufus H. Pope of Quebec, and the nature of the bond is such as to lead to the belief that the active work of development will be commenced without delay. A trail has been made up Yulli Creek to the new finds. The distance from the Kootenay outlet is 32 miles, and the camp can be easily reached in a day from Nelson. R. W. Willey has given a bond on the Florence to Mr. Pope, and the payment of $25,000 must be made in six, nine and twelve months. Patrick W. George has bonded the Mollie Gibson and Aspen to Mr. Pope for $42,500, on similar payments, and Christopher Sherbut has bonded the Achilles 200 to Mr. Pope for $5750.

Like so many other Slocan properties, these new finds will pay from the start. There is shipping ore in sight at the surface, that is, pure galena, which can be cut out and sacked for export right away without any previous concentration. At the same time, concentrating ore can be got out and stacked for future use, when the proper machinery can be afforded. The main ledge is said to be four feet wide, with one foot of clean galena running through it.

The Crow's Nest Road.

New Denver Ledge.

The papers in all parts of Canada are crying out for the Crow's Nest Pass Railway. This is a mistake. We do not want any such a thing. The building of such a road would cause too many changes in this country. It would cause the topography of the mountains to be slightly defaced and afford smelters a chance to get cheap fuel and be the means of many new towns springing into existence. It would also enable Eastern people to trade with us. We do not want anything like this. It would demoralize the community by making the people too suddenly rich, and would hurt our friends across the line.

For years we have done our best to build up Spokane and the United States generally. We have encouraged our American cousins in every way to come into Kootenay and get our mineral wealth and sell us their goods. We have done this and much more. Just as our neighbors are commencing to make their fortunes out of us the cruel report goes abroad that the Crow's Nest road is to be built. Thus it is that another batch of blighted hopes go over the dump and a veil of despondency is seen across the face in the tunnel of despair.

Well, we suppose it cannot be helped. If the Canadians are about to ruin their reputation for being slow the fact must be borne with all the calm resignation that we have in stock. Still we feel bad when we think of poor Spokane, Tacoma, etc., and if we were a woman we would cry. As we are not a female, we will sit still and wonder what we will do with all the money that is in sight since the Crow's Nest upset our calculations.

Mining Machinery.

Editor World: What on earth are the iron manufacturers of Toronto doing in relation to the above? Are they all asleep? Surely they must be aware that hundreds of thousands of dollars worth of mining machinery are now wanted and will be wanted in the near future. Surely Toronto ought to receive her share of the rich crop that will come from this source. Are these manufacturers going to let Toronto lose this rich harvest as she lost the smelting works, the Westinghouse brake factory and many others, all through the criminal imbecility of our Mayor and aldermen?

A Disgusted Ratepayer.

A Mining Exchange for Toronto.

The local mining brokers are moving towards forming themselves into a mining exchange. The applications will be signed within a few days and letters of incorporation taken out.

Mining Notes.

Silver Bell was going off well yesterday. The price will to-day be raised to 7½c.

An evening paper was in error yesterday in stating that the Commander is stocked for $1,000,000. The capitallization of the property is only $500,000. The price of this stock is now 30 cents.

Ex-City Commissioner Frank Kizer of Spokane met Mayor Flemming yesterday, and His Worship must have been particularly oily in his treatment of the stranger, for the well-known mining man came away thinking that the Chief Magistrate was one of the blandest and ablest municipal officers he ever met.

The Celtic Queen in Rossland is reported developing satisfactorily. The treasury stock on the market will soon be all bought up and machinery purchased with the proceeds. The next block of stock will be at an advanced price. Investors should buy now at the low figure at which shares are being offered. Toronto office is in the McKinnon Building, room 405.

A telegram received to-day via Spokane, from John J. Moynahan, Rossland, B. C., says very nice looking ore is being taken from the Hattie mine, recently bought by Montgomery Smith of Toronto. This property adjoins the Lily May and Deer Park mines.

Another large block of mining stock has been sold by Messrs. George A. Stimson & Co. This time it is said the amount is upwards of 50,000 shares and the stock Evening Star. This is considered one of the best purchases in Rossland.

A Young Canadian Artist.

A very interesting collection of paintings is now on exhibition at the Roberts' Art Gallery, 79 King-street west. They are the work of Mr. Joseph M. Kidd, a clever young Canadian artist, who studied under J. Alden Weir and Carl Beckwith, New York, and T. A. Reid, Toronto. A large original Crucifixion scene, "Son, Behold Thy Mother," is spoken highly of by art critics and is worthy of much praise. Some pictures after the impressionistic school are very striking. The exhibit is a very good one, and the young artist is to be congratulated on its success.

SEALING IN BEHRING SEA.

Dr. Jordan on His Way to Washington With Statement and Suggestions.

Stanford University, Cal., Nov. 5.—Dr. David S. Jordan left this evening for Washington, where he will present a statement to the members of President Cleveland's Cabinet in regard to sealing in Behring Sea, and suggestions from a scientific standpoint of the disastrous result of such sealing. Dr. Jordan is hopeful that the Government will at once arrange with Great Britain for some method of suppressing illegal sealing. He states that the English scientists and commissioners with whom he has discussed the subject agree that some international plan should be adopted immediately.

Who Robbed the Car?

John Kay & Son, the King-street carpet men, have reported that they have been robbed of $500 worth of goods. The goods were in the bonded warehouse of the G.T.R. for a couple of days. When the firm received them, it was noticed that a slat of one of the cases was lose. The G.T.R. was notified and Detective Day is working on the case.

In Favor of Gold.

A debate on the currency question occasioned much interest at the meeting of the Catholic Union Wednesday evening. The gold standard was championed by Messrs. Kenny and Winterbury and the silver by Messrs. Heeney and O'Donoghue. The decision was given in favor of the yellow metal.

One of the greatest blessings to parents is Mother Graves' Worm Exterminator. It effectually expels worms and gives health in a marvelous manner to the little one. ed

What are Things Coming To?

A number of newsboys were fined $2 or six hours in the cells for selling papers without a license. They took the six hours. The police officials were glad when the time was up, and the youngsters were sorry, because they had to go out in the rain.

Deer Shooting Licenses.

The Forestry Department has issued a new batch of deer shooting licenses. Game Warden Tinsley is reported to be improving in health and is expected to return to his duties shortly.

INFLAMMATORY RHEUMATISM—Mr. S. Ackerman, Commercial Traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Electric Oil for Inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others, as it did so much for me." ed

SHOPPERS ALWAYS FIND IT SO.

THE ROBERT SIMPSON CO. LTD.

SINCERITY carries conviction in the announcements of this store. Sincerity is evidenced in the goods.

Aside from the ethics of the question, it is a mistake for a store to make announcements that it does not back up in acts.

There is not a line of this store news that shoppers may not read with profit. When it is in Simpson's store news "it is so."

SPECIALS IN LADIES' AND CHILDREN'S HOSIERY FOR SATURDAY.

You cannot keep us too busy in the mail order section of the store, for the facilities here are the completest. We are daily shipping large quantities of goods to all parts of the Dominion. You get just what you order, for it is in this way the store holds the confidence of the buying public the Dominion over.

The Robert Simpson Co., Ltd.

South-west Corner Yonge and Queen Streets. 170, 172, 174, 176, 178 Yonge Street. 1 and 3 Queen Street West.

THE SMUGGLER GOLD MINING AND MILLING CO., LTD.

Now being Incorporated under the Laws of British Columbia,

Offers one of the Best Mining Properties yet Placed Upon the Market, with a Shaft Already Sunk 110 Feet, Which is 5 Feet by 7 Feet in Solid Paying Ore.

Extract from the last Official Report of the British Columbia Minister of Mines:

"The Smuggler Mine has this year come into prominence, owing to the Rich ore that has been taken out. The out-cropping ledge was of smelting character, but, as depth was attained, the ore changed to free milling. Some very fine specimens have been taken out of this claim, in which the free gold is plainly visible to the naked eye. A shaft has been sunk 100 feet on the ledge, which is at this level five feet wide. Three tons of assorted ore out of the shaft, sent to the Tacoma Smelter, gave a return of $143.70 per ton. Sixteen hundred pounds of unassorted ore gave a return of $39 also at the Tacoma Smelter.

"(Signed) C. A. R. LAMBLY, Gold Commissioner."

The Company now offers $100,000 of Development Stock, fully paid up and non-assessable, at 25 cents per share. The directors propose to purchase a ten-stamp mill and the necessary plant to treat the ore by the cyanide process.

Prospectus, with full particulars of assays (averaging over $147.00 per ton), mill tests and other important facts, will be furnished on application. Shares may be obtained from the Company's Toronto Brokers,

WYATT & CO., (members Toronto Stock Exchange), 46 King-Street West, Toronto, or from the Secretary of the Co'y,

Write for Prospectus. 51 GEORGE H. MAURER, Room 49, 34 Victoria-St., Toronto.

NOVELTY Gold Mine,

ROSSLAND, B. C.

This mine has been purchased by the owners of the WAR EAGLE. The War Eagle is a dividend paying mine, having already paid over $200,000 in dividends and is prudently managed, and these people know what they are about, and in buying the Novelty are going to thoroughly develop it. They are not offering any stock for sale. Mr. Clarke, the manager of War Eagle, has gone to England to put some of their properties on the London Market, and no doubt when Novelty is put on the market it will be at a big advance. Before the sale went through I obtained some of the Novelty stock and am able to offer a small quantity at 15 cents a share. It is selling very fast and the price will be advanced shortly. Buy Novelty now before it is too late. Wire your orders without delay.

ROSSLAND GOLD MINES.

Colonna

The Colonna Gold Mining Company, Rossland, B.C., incorporated under the laws of British Columbia, Crown Granted, Title perfect. The property of this company consists of Buckeye No. 2, situated on the west slope of Monte Cristo Mountain. It is a triangular shaped piece of ground, 22 acres in extent, between the famous Evening Star, Monte Cristo, Silverine and Eddie J. claims, all developed properties.

The Montreal syndicate that now own this claim have appointed us their sole agents for this stock, which for a short time we will sell at 15 cents per share, and recommend this stock as a first-class investment.

For further information apply A. W. ROSS & CO., 4 King-street east, Toronto.

Mining Stocks.

We would recommend the following British Columbia mining stocks to investors: Josie, 63 cents; Monte Cristo, 20 cents; Evening Star, 27 cents; Kootenay-London, 12½ cents; Deer Park, 20 cents; Mayflower, 17 cents; Commander, advancing, now 28 cents, in blocks of 1000 shares; Lily May, active and advancing 17½ cents; St. Paul, a gilt-edged property, first issue of stock, 10 cents; Iron Colt, first issue of stock, 15 cents, only 50,000 shares on the market; St. Elmo, a good property, 15 cents, in blocks of 100 shares. If you want to buy Canadian mining stocks it will pay you to write to us for prospectuses and particulars.

CAMPBELL, CURRIE & CO., 52 YONGE-ST., TORONTO.

GOLD.

Absent in the gold fields until the 14th inst., pending business will be attended to by my agent here to the best of his ability. New business and special matters must await my return. Wait if you can, it will be worth your while.

S. R. CLARKE, 36 Toronto.

MINING STOCK.

SNOWDROP A Working Mine in the South Belt at Rossland.

The Rossland Miner of the 16th October says: The International Gold, Copper Co. has put five miners to work on the Snow Drop, satisfied that the property is a good one. The promoters unhesitatingly place it before the public, fully confident of its bright future. To show the popularity of this property in British Columbia, it is only necessary to say that 60,000 shares were sold before the stock was put on the market, in blocks of 500 and 1000 shares, at 2½c per share, fully paid-up and non-assessable; par value $1.

Write or wire order at my expense.

OFFICES, ROSSLAND, B.C. - - BRANTFORD, ONT.

The ALFE GOLD MINE was located April 17th, 1895, recorded May 1st 1895, and has since been purchased by the ALF GOLD MINING COMPANY, Limited Liability.

It has been surveyed, and is fully paid for. See Government Records at Rossland, B. C.

Location.

It is situated in the South Belt of the Trail Creek district, about one mile from Rossland, B.C., and can be seen quite easily from the main street of that town. It adjoins such well-known properties as the "Hill Top" and the "May Flower," which was the first mine to ship ore over the Trail Creek Railway. Close to it also are such valuable mines as the "Curlew," "Gopher," "Homestake" and "Hattie Brown," and not 1500 feet away are the "Maid of Erin" and the "R. E. Lee," a bond on which was purchased recently by Toronto men.

The Object

For which the Alf Gold Mining Company, Limited Liability, was formed is for the development of the "Alfe" and other mines which may be purchased by the Company, situated in the rich gold fields of British Columbia, and allowing its shareholders to participate in the results from the great yield now being taken out of the mountains in that Province.

Active Development is now going on, under Mr. E. W. Liljegran (formerly Manager of the Le Roi), and Shipping Ore may be struck at any time, when the price of Shares will be advanced.

A limited number of the 250,000 shares held in trust are now being offered for sale at TEN CENTS PER SHARE.

Proceeds to go into the treasury and be used entirely for the purposes of the Company.

Shares may be had of Brokers or from Brantford Office.

Send for Prospectus and information to Secretary of the Company, P. O. Box 574, Brantford.
