How Patriotic The Mail Gang Are!

Men who were so anxious to promote annexation as The Mail proprietors were [and are!] are not the best advisers of this country at the present moment. Because we take it that their design is still to promote annexation by: (1) creating discord among Canadians (race against race, province against province, creed against creed), hence The Mail's severe and persistent attacks on the French-Canadians; (2) by trying to show that Canada is hopeless and helpless without: (a) unrestricted trade with the United States, as The Mail itself endeavored for months to establish; (b) that now the only salvation for Canada is reciprocal trade with Great Britain, as The News has been set up by the Riordons to preach. In each and every case they overdo it. Canada can get along as she is; the French-Canadians are not such monsters as The Mail paints them, and its note of warning to them in its yesterday's columns of "hands off" in regard to Manitoba's school law is more of a red rag to them than a good word for Manitoba. Canadians have not forgotten Mr. Bunting's and Mr. Farrer's (as then editor of The Mail) mission to Washington and the interviews with Blaine & Co. There is no need for all this anxiety and this supersensitiveness as to the intentions of the French-Canadians. The Manitoba School question will take care of itself, and Canada will come out of the discussion on top. The annexationists will make more fuss over it than the French-Canadians.

Who Is Responsible?

The Woodstock Sentinel-Review in discussing the Goderich scandal misses the point. The issue is not whether several editors have been libelling Mr. Cameron, but who is the man responsible for the seduction and death of the little girl Lonie. When The Sentinel-Review says the matter is before the courts it means the libel suits; but what The World wishes to see the courts investigate is the crime connected with the girl's death, and so far we do not know that the authorities have moved in the matter. That is the point.

The Homestead Strike Over.

Telegraphic advices from Homestead last night show that despite the strike the Carnegie works are running uninterruptedly and the men are returning to work.

This can indicate only one thing and that is that previous to the military intervention men were prevented from working because some form of intimidation was exercised over them. It also indicates that, to a considerable extent, the strike is a failure.

So long as the strikers could direct against the Carnegie company a public recognition of the justice of their cause the contest was watched everywhere with the most intense interest and with strong sympathy for the strikers. But as soon as it becomes apparent that without some form of coercion upon other laborers the ascendancy of the strikers cannot be maintained, the sympathy of the community is transferred from them to the side of the coerced.

When the armed presence of the law revealed the fact that it was needed opposition to it soon ceased.

The success of the Homestead strike was defeated as soon as the necessity for troops became evident.

Make Toronto More Attractive to Visitors.

The World's suggestion of a committee of leading citizens on public improvements that will tend to make the city attractive ought to be adopted at once. We believe it is even now under way. If good men take hold of it they ought to be encouraged. Any man who has $10,000 stake in the city should be willing to chip in $10 for the proper working of the scheme. A paid secretary may be required. We want a well-thought-out scheme of a boulevard drive about the city, an Island drive, an Island summer hotel, a big city hotel, a system to bring more of the visitors to Niagara Falls over to Toronto, to get a share of the stream of visitors to the Chicago Fair next year, and in other ways to make our city attractive to visitors. Every visitor leaves some money in the town; we ought, therefore, to induce him and his wife to enter our gates.

It all depends upon whose ox is gored. Despatches from San Francisco state that lumbermen and fruit growers on the Pacific coast are indignant because Victoria, Australia, in retaliation for the prohibition on Australian wool by the McKinley Act, has increased heavily the import duties upon Oregon pines and canned fruit.

Another Cabinet meeting was held at Washington yesterday, and although the proposed collection of tolls at the Sault Canal was discussed no action was taken. Can it be that the scheme outlined in Friday's World to make a desert of Michigan and Illinois by draining the north lakes has scared the President off?

What with Bismarck exhibiting his sore thumb daily through the German press and the space given to the Iams thumb-stringing episode at Homestead by the American papers, thumbs appear to be up these days.

The York Township Council wants a portion of Danforth-road to metaphorically depart in peace from out Toronto city and take up its abode in York township, and the highway only awaits the consent of the Attorney-General before setting out.

A Fresh Fish War.

[Philadelphia Record.]

According to an interview in The Toronto World Canada proposes to hit us back for the Retaliation act by cutting a channel to connect Lake Ontario with Georgian Bay, in Lake Huron; the effect of which would be to leave the Detroit River practically unnavigable, Lake Erie would be partially drained, and the Falls of Niagara on the American side become nearly dry. But how about the bass and other fish which our Government has planted in Lake Erie? Canada would do better to have the seal contention settled before precipitating a fresh fish war.

Steamer Eurydice.

The above popular steamer will run to Lorne Park the balance of this and all of next week, except Wednesday, 10th inst., when she will run to Lake Island Park, Wilson, N.Y., leaving Electric Light Wharf, foot of Scott-street.

Dr. J. D. Kellogg's Dysentery Cordial is prepared from drugs known to the profession as thoroughly reliable for the cure of cholera, dysentery, diarrhœa, griping pains and summer complaints. It has been successfully used by medical practitioners for a number of years with gratifying results. If suffering from any summer complaint it is just the medicine that will cure you. Try a bottle. It sells for 25 cents.

Hard and soft corns cannot withstand Holloway's Corn Cure; it is effectual every time. Get a bottle at once and be happy.

Possibly a Fatal Kick.

William Turner, 7 Irwin-avenue, an employe in the Street Railway Stables, was kicked in the abdomen by a horse yesterday and seriously injured internally.

Goody-Goody Chewing Gum is a delicious thing to keep your mouth moist.
