THREW BABE IN THE RIVER

Terrible Confession of a Girl From Strathroy.

Arrested in Windsor—Says a London Man Is the Child's Father.

The Windsor police have in their custody a girl named Ella Rice, 19 years of age, who went to that place from London about three months ago. The charge against her is that of murdering her infant.

The girl has for some time been employed in the dining-rooms of a number of hotels here and in Windsor, and belongs to a very respectable family in Strathroy, where she resided up to the time of her coming to London. When she left here she secured employment in the Crawford House at Windsor, where it is said she made many friends among the patrons of the house by reason of her pleasant manner. She remained at the Crawford for some weeks, and then went to the Manning House, kept by Mr. Appleton, formerly of this city, and it was there that she gave birth to a child on Monday morning.

A remarkable thing about the case is that an hour after the baby was born the girl left the Manning House with the child and went to the International Hotel, some distance away, where she remained during the day and evening, when she went to the Michigan Central docks, and, it is alleged, threw the child into the river, where it was found a few hours later by some boys.

Miss Rice was located at the Hotel Campus, in Detroit, where she was taken into custody. She has acknowledged throwing the baby into the river. In reply to questions by the police of Windsor, she said that a young man well known in this city was the father of her child.

DESTRUCTIVE HAIL

Moosejaw, Manitoba, Hit by a Furious Tempest.

Moosejaw, Man., Aug. 18. — A most destructive hailstorm passed over this section last night and damaged a section 21 miles square. It commenced about four miles north of the town and took in a section seven miles wide, going south.

The loss has not yet been figured out, but it got up into the six figures.

In the town every house with north windows had the glass destroyed. It is figured that the damage in glass alone in the town and country will be $1,200.

The storm was the worst known here in ten years. Hailstones as large as 50-cent pieces were picked up after it had passed.

PIUS AND THE VATICAN

His Holiness Not Familiar With Court Usage.

London, Aug. 18. — "My jailers confined me here and then ran away." This, according to the Daily Mail's Rome correspondent, whom the Pope received yesterday, is how Pius expressed his embarrassment at the ceremonial lif of th Vatican, his jailrs being the Sacred College of Cardinals. The correspondent found his holiness placid and kindly, but quite confused about the ceremonial to be followed. One of the Vatican officials said that they could not suggest many points of usage to the Pope, and he could not gues them. Thus the Pope bowed to instead of blessing the party, among whom was the correspondent, when they withdrew.

An Artillery Range.

Ottawa, Aug. 18.—The supplementary estimates may contain an amount to buy land up the Gatineau for an artillery range. Sir Frederick Borden, accompanied by Col. Biggar and other officers has made two trips to Danford Lake and Kazubazua district recently and while the militia officers will not speak, it seems highly probably that the proposed new ranges will be situated in the Gatineau hills.

Poor Girl, Pity Her.

Growing! Yes, into weakness, but not strength. Studies—plenty of them. Tired—of course she is, and weak, too. Does not eat enough and digests far less than enough. This condition is so frequent, but how seldom noticed even by fond parents. Give her Ferrozone, then watch her appetite improve, her cheeks and lips grow ruddy, her step elastic, her spirits buoyant. All this simply the result of eating and digesting enough, making blood, and thereby strengthening the nerve and brain power. Ferrozone gives a woman's strength to weak girls. Your daughter or wife needs Ferrozone. Get it today.

The mind that is much elevated and insolent with prosperity, and cast down by adversity, is generally abject and base.—Epicurus.

SOME PERSONS have periodical attacks of Canadian cholera, dysentery or diarrhea, and have to use great precautions to avoid the disease. Change of water, cooking and green fruit is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed no further trouble will be experienced.

TO KNOW IS TO PREVENT.—If the miners who work in cold water most of the day would rub their feet and legs with Dr. Thomas' Eclectric Oil, they would escape muscular rheumatism and render their nether limbs proof against the ill effects of exposure to the cold. Those setting out for mining regions would do well to provide themselves with a supply before starting.
