GORDON H. MANHARD, Mgr.
DR. L. de L. HARWOOD, Prop.

To the Holstein Breeders of Ontario
The Tavistock Breeders' Syndicate offer for service their great Transmitting Bred Bull, King Lyons Colantha, whose 14 nearest dams average 28.10 lbs. butter and 11 of the sires in his pedigree have sired 30-lb. daughters. Breed your best cow and get a bull to head your herd.
Service fee $25.00. For extended pedigree write.
H. BOLLERT, R. R. NO. 1, TAVISTOCK, ONT.

MARKET REVIEW AND FORECAST

TORONTO, June 28.—Our railways are the great arteries of trade, and their earnings an index on pulse of business. If we examine the trade returns of the three great Canadian systems, we find that the earnings of the C.P.R. for the third week in June were $1,619,000 as compared with $2,185,000 a year ago, a decrease of $566,000. G.T.R. traffic earnings for the week ending June 21st totalled $969,072, the largest for any seven-day period since the first week in April. Compared with last year there was a falling off of only $55,574, or only 5.1 per cent. This is a very favorable showing. The C.N.R. on the other hand for the same week, showed gross earnings of $778,900, a decline of 31.5 per cent. as compared with last year. Comparing the records of the three roads, it is clearly evident that Canadian trade, in volume at least, is considerably below this period last year. This, however, is to be expected, but it would be a mistake to attribute the total falling off to the war. We do not want to forget that the major portion of our troubles are due to the over speculation that preceded the war.

A review of the farm markets of the week shows but few changes. Grains on the whole have held steady with some increases. Live stock and dairy produce markets show marked improvement.

WHEAT

Many well informed brokers believe that the bottom has been reached in wheat and that from now on the price will improve. Speculation, however, are wary, and but little buying is being done. Trading on the new crop, too, is restricted. Interest centres largely in the winter wheat belt. Heavy rains and prevalence of rust are reported from middle western States. In Ontario, weather conditions are almost ideal. No. 1 Northern is now quoted at $1.35¾; No. 2, $1.32¾; No. 3, $1.30¼. Ontario wheat has been reduced, now being quoted, $1.20 to $1.12.

COARSE GRAINS

Coarse grain markets are quiet. Corn has sold down; other grains are fairly steady. Oats, C.W., No. 2, 59½c; No. 3, 58½c; extra No. 1 feed, 59½c to 60c; Ontario oats, 53c to 55c; American corn, 78½c; Canadian corn, 77c; peas, $1.50 to $1.60; buckwheat, 74c to 76c; barley, malting, 70c to 73c; feed, 65c; rye, $1.05 to $1.10. The Montreal market quotes as follows: Oats, C.W., No. 2, 58c to 58½c; extra No. 1 feed, 58c to 58½c; local white, 57c to 59c; barley, feed, 72c; buckwheat, 79c to 80c; American corn, 80c to 81c.

MILL FEEDS

The market is steady: Bran, 26c; shorts, 28c; middlings, 29c; feed flour, bag, $1.85; corn meal, 98-lb. sack, small lots, $3.50 to $2.40, cottonseed meal, ton, $35 to $36. Montreal quotes: bran, $36, shorts, $38; middlings, $35 to $36; moulie, $35 to $40.

HAY AND STRAW

The market is stronger than ever, even in the face of good crop prospects. Local merchants are buying on the track as follows: Baled hay, No. 1, $16.50 to $18; No. 2, $14.50 to $16; baled straw, $7 to $8. At Montreal the market is apparently strong with No. 1 hay $21.50 to $22; No. 2, $20 to $21.25; No. 3, $19 to $19.50. and clover, $18.50 to $19. Shippers have difficulty, however, in getting their hay to Montreal and it is suggested that the government, acting through the railways, have practically put an embargo on hay shipments for the present.

EGGS AND POULTRY

A feature of the egg trade this present season has been the great increase in egg production in the Western provinces. These provinces have supplied all of their own requirements and will soon be exporters. The production in the Eastern provinces has also increased and dealers anticipate a continuation of the export trade during the latter part of the season. Eggs in cartons, 26c to 27c; fresh, 23c to 25c; 1 dz. 21c to 22c; No. 2, 18c to 19c. At Montreal straight gathered stock is selling at 21c and selected stock 24c to 25c.

Poultry quotations follow: Old fowl, live, 12c to 14c; dressed, 14c to 16c; spring broilers, live, 18c to 20c; chickens, 17c to 20c dressed; old turkeys, live, 16c to 20c; turkeys, dressed, 23c to 25c; ducks, 17c to 18c.

HIDES AND WOOL

The market is advancing. Hides, cured 16c to 17c; part cured, 15c to 16c; green, 12½c to 13½c; calf skins, 16½c to 17½c; part cured, 16½c to 18½c; deacons, 75c to $1 each; horse hides, No. 1 $3.75 to $4.25; No. 2, $2.25 to $3 each; sheepskins, 75c to $2; horse hair, 35c to 40c a lb.

Wool quotations are still on the up-grade. Washed combing fleece (coarse), 34c to 35c per lb.; washed, medium, 36c to 37c; unwashed, coarse, 33c to 35c; fine, 33c to 36c; washed fleece, fine, 37c to 38c; washed rejects, 27c to 29c; unwashed combing fleece (coarse), 25c to 26c; unwashed medium, 26c to 27c; unwashed fine fleece, 27c to 28c.

FRUIT AND VEGETABLES

Wholesale quotations are as follows: Cherries, 11 qt. bkt., 75c to $1.25, 6 qt. bkt. 50c to 90c; strawberries, box, 7c to 9c; gooseberries, 11 qt. bkt., 90c to 95c; potatoes, per bag, in car lots, 45c; local primes, $3.10 to $3.25; hand picked, $3 to $3.35; green, hamper, $1.50; green peas, 12 qt. bkt., 40c to 65c; new Canadian, per bags, bush., $1; carrots, hamper, 75c; beets, hamper, $1.00. At Montreal potatoes are quoted at 42½c a bag, and bags $3.10 for 3-lb. pieces.

DAIRY PRODUCE

The dairy produce market has taken a turn decidedly satisfactory to the producer. The butter market has advanced owing to the keen demand for the June product for storing. Such an advance is to be expected. The production to date is below that of last season and prices were dropped altogether too quickly. In this market, fresh creamery prints are in demand 25c to 29c; creamery solids, 24c to 28c; dairy prints, 21c to 25c; bakery, 18c to 21c. On the Montreal market, the creamery has sold at 28½c, and at the sale of the Quebec Agricultural Co-operative Society, 994 packages sold from 27c to 28¾, the latter being the price for tertiaries.

Much business has been done in cheese and on Friday, Saturday and Monday, a week ago, no less than 40,000 boxes of cheese were sold on one account at from 16½c to 16¾c. This activity was due to a stronger feeling in the London market. English buyers realized that they had dropped their quotations too low and they started in to buy at a lively pace. American cheese continues to figure largely in the cheese trade and it is reported that Wisconsin cheesemakers will turn out 35 lb. Cheddar cheese. Canadian cheese are quoted one shillings a cwt. lower than the best Canadian cheddars. Board quotations are low:

The brisk business reported last week continued through the week that has past. Packers brought up receipts good order and quotations all round have advanced a trifle on those that prevailed when we last reported. A generation in the trade is the possible extending the export dealings with Great Britain where prices have reached a high level on all classes of meat. During the past week some finished steers were received and taken up quickly. The complaint always, however, too much common medium stuff. Quotations follow:

Heavy choice steers, $8.25 to $8.50; dy, $8 to $8.50; butchers' steers, choice, $7.75 to $8; com. and med., $6.75 to $7.50; heifers, $6.75 to $8.10; choice cows, $7.25; com. to good, $4.75 to $6.75; bulls, $5.25 to $7.50; feeders, $7 to $8; stockers, $5.50 to $7.25; canners and cutters, $4 to $5.50.

Choice milch cows are in good demand at $65 to $90. Common to medium are not taken up so quickly at $45 to $65; springers, $50 to $90. Calves from $2 to $10, according to quality.

Light yearling lambs are quoted at $7.50; spring lambs, cwt., $10.50 to $11; light ewes, $5 to $6.25; heavy sheep, bucks, $4 to $5; culls, $3 to $4.25.

The lower prices talked by packers last week have been realized. Hogs are selling at $8.80 to $9 f.o.b., country, and $9.40 to $9.65 weighed off cars.

Choice steers were scarce in Montreal but small lots of good steers sold at $8.50 to $8.75; fair, $7.50 to $8; common, $6 to $6.50; fair butchers' cows brought $5.75 to $7.50; butchers' heifers, $6 to $8. Demand for lambs was good, $5.50 to $6 each; old sheep, cwt., $4.50. The feeling in calves was weak with quotations running from $8 to $10 each. Hogs were quiet with an undertone, but no actual price cuts were made, some of selected lots were made as high as $9.60, weighed off cars.

DAIRY BOARDS

St. Paschal, Que., June 22.—100 boxes of butter sold at 28 3-16c; 700 cheese at 13-16c.

Kingston, June 24.—146 boxes white and 1,847 boxes coloured offered, were 1,966 white and 1,657 coloured. No street sales.

Vankleek Hill, June 24.—1,175 boxes white and 240 boxes coloured sold at

TWO PURE BRED HOLSTEIN BULL CALVES
One born April 19th, 1915, dam Calamity Peach, No. 9165, who comes official record, in May of 707.1 milk, 27.41 lbs. butter in seven days. The other a grandson of the Dam, June 4th; price $50.00. For particulars apply to
