WHEAT PRICES BREAK SHARPLY

Glowing Reports of Condition of Spring Crop Are Responsible.

CHICAGO, July 25.—Wheat prices gave way today under selling due largely to improved reports concerning the spring crop. Closing prices were steady at a decline of 1-2c to 1c net. Corn showed a decline of 1-2c to 1c, oats 1-2c to 3-4c and provisions 5c to 30c.

Bear pressure on wheat came chiefly from speculative sources. Leading experts touring in the northwest had enlarged their estimates of the probable yield and sent despatches calling attention to the heavy filling of heads and asserting that the quality would undoubtedly be higher. The weather in that section was represented as perfect. Troubles on the bull side of the wheat market were emphasized by advices that crop and weather conditions in France and Russia had changed for the better. On the resulting decline a considerable amount of export business was done, but prices displayed no power to rally to any important extent. Primary receipts of wheat were large at 2,214,000 bushels against 1,322,000 bushels a year ago.

Huge Corn Shipments.

Argentine shipments on a gigantic scale tended to weaken the corn market. Flattering crop reports from Iowa counted also in favor of the bears.

Oats declined owing to selling on the part of cash and elevator concerns that expect to have the handling of much of the new grain.

Longs, including a prominent packer, unloaded holdings of provisions. About the only support for hog products came from pit traders who had been previous sellers.
