BRITISH PRESS OPPOSES PEACE MOVE OF ENEMY

Say Germans Want It Immediately, if Possible.

DESIRE SOME CONDITIONS

Free Hand in Central and South America Chief Among These.

LONDON, Nov. 28.—Reports received from the United States that an organized effort is being made there, with peace the objective, has brought out severe editorials against such a move.

"If the Allies are ever reduced to an armistice by the American intrigues," says the Morning Post, "they would regard the United States as a traitor to the cause of world freedom. Therefore we suggest to our American cousins that as they have decided to take no part in the war, except to make money out of it, it would be wisdom for them to leave us to fight out what is, after all, their battle."

The Morning Post argues that the Germans are willing for peace immediately, and would give the entente Allies everything they desire, but only on one condition—namely, that Germany be allowed a free hand in Central and South America.

"We understand," the newspaper adds, "that condition has been put forward, of course, discreetly, and unofficially, by the German Government, and that it has been rejected by the Allies. But why should it be rejected? We are selling our South American securities, and if the Americans really want peace, and do not object to having Germany for a neighbor, why should England intervene? Any time in the last ten years we could have had an agreement with Germany by allowing her a free hand across the Atlantic. Great Britain stands between Germany and America like the counter-scarp of a fortress, and if the Americans induce a peace before this job is finished, they will have accomplished is to buy their best defence against Germany.

"The Americans, who, if we may say so, with politeness, are rather painfully ignorant of European affairs, do not seem to realize what Germany is fighting for—not merely the dominion of Europe, but the dominion of the whole world, and if the Allies are defeated, what is there to stand against Germany?"

THAT TICKLING IN THE THROAT

Can Be Quickly Cured by DR. WOOD'S Norway Pine Syrup.

This trouble is most distressing and is caused by a cold settling in the throat. The hard dry cough causes that nasty, tickling, irritating sensation and keeps you from enjoying your night's rest. Dr. Wood's Norway Pine Syrup, which is composed of the most soothing and healing expectorant herbs and barks combined with the lung-healing virtues of the world-famous Norway pine tree, will give almost instant relief in all cases of this nature.

Mrs. Alex Durward, Athelstan, Que., writes: "I have used Dr. Wood's Norway Pine Syrup for a number of years, and find it the only thing that will help me when I have a severe cold. It helps the soreness, and stops the tickling sensation in my throat, which is so irritating. I always use it for both myself and the children, and would not be without it in the house."

The thousands of testimonials we have received during the past twenty-five years prove that Dr. Wood's Norway Pine Syrup is an excellent remedy for all coughs and colds, so see that you get "Dr. Wood's" when you ask for it.

It is put up in a yellow wrapper, three pine trees the trade mark, price 25c and 50c at all dealers.

Interviewing All Fuel Merchants on Personal Investigation.

[Special to The Advertiser.]

GALT, Nov. 27.—As a final resort, citizens were today appealing to His Worship Mayor Edwards to assist them in getting coal. The mayor is going into the question thoroughly, interviewing all dealers.

The situation here is acute, with the dealers unable to meet the demand, and then, as they get cars of fuel, distributing it in only small amounts, so that there will be no stocking of coal, and that all may be served.

The price today asked by one dealer was $8.75, but others were selling cheaper than that, although they have not the coal to fill orders received months ago.

AEROPLANE DASH AMUNDSEN'S PLAN TO REACH POLE

Discoverer of South Pole Outlines Arctic Trip.

FOR SCIENTIFIC OBJECTS

Study of Currents Below the Water Surface and Above Pole His Idea.

NEW YORK, Nov. 27.—A flight to the North Pole by hydro-aeroplane in 1918, is the task which Captain Roald Amundsen of Norway, discoverer of the South Pole, has set for himself, according to a statement given out by Captain Amundsen on his arrival here today from Copenhagen.

The captain comes to buy concentrated foods and scientific instruments for his trip, and to study airplane construction. He already holds an aviator's license.

The vessel on which he will sail into the Arctic Ocean is now under construction, and will be launched in March. He will proceed on this as far as possible, hoping to drift over the pole on the polar current. Should this be impossible, he plans to use the plane.

Speaking of his projected flight, Capt. Amundsen said:

"I shall follow the coast of Siberia until the ice breaks up, and then drift toward the pole. The flow should take us to a point somewhere between Spitzbergen and Greenland, after we have made an almost complete circle of the top of the globe. I hope to be within 100 miles, or 150 at the furthest, when I leave the ship. Then will follow the dash by hydro-aeroplane or sledge. I care nothing for the mere accomplishment of reaching the North Pole. That feat already has been achieved, and it has resulted in little or no practical good to anybody. But if, having reached the northernmost regions, I can soar in a hydro-aeroplane, I purpose to make a study of air currents high above the Pole.

"At the same time my party will take observations of the currents far below the surface of the water in the Arctic basin. Thus a comparison of the currents, high and low, will be possible, and this I believe will be of value to science."

AUSTRIANS WASTE MORE SHELLS ON ITALIANS

Subject Practically All Fronts to Drenching of Steel.

ROME, Nov. 27. — Via London. — The Austrian guns have been violently shelling the Italian lines on the Carnia front, the war office announced today. In the Trentino, heavy rains have hampered operations along the greater part of the lines. The official statement says:

"Enemy movements in the mountain region north of the Ledro Valley, and in the Assa Valley, were hampered by our artillery fire. On the rest of the Trentino front torrential rains have interfered with operations.

"On the Carnia front on Saturday there were violent enemy bombardments of our positions at the head of the Degano, But and Chiarzo Valleys. Some shells fell in Paluzza and Paularo without doing damage.

"In retaliation our batteries shelled the enemy billets in Birnbaum and the station at Mauthen in the Gail Valley.

"East of Gorizia the enemy, who brought new batteries into action, shelled the rear of our line. Our artillery replied effectively.

"On the Carso there were no incidents of importance. As the result of small encounters we took some prisoners."

Italy Is United To Continue Fight

Consolidation of All Forces Expected to Follow Socialists' Demands.

NEW YORK, Nov. 27.—A Rome dispatch to a news agency published here today says:

Firmer consolidation of all forces for an even more vigorous conduct of the war will probably result from a discussion of Italy's part in the struggle expected to be precipitated immediately after convening of the chamber of deputies for the coming session.

The Socialist leader, Turati, has announced that immediately after the convening of the chamber he will demand that Italy make an immediate peace. There is every indication that all forces will unite against him in approving continuance of the war and greater vigor to Italy's participation.

The case was dismissed when heard in the county police court this morning. It is stated that some action may be taken against the complainant.

THE LOCAL MARKET

Threatening weather caused a small local market today, both buyers and sellers being fewer than expected. Prices were steady. Hay was not plentiful and sold briskly for $12 to $14 a ton. Straw sold for $9.50 to $10 a ton. Oats were unchanged at $2.20 to $2.30 a cwt. Wheat went for $1.75 a bushel for new, and $1.60 for old.

Potatoes were steady at $2.25 to $2.40 a bag. New cabbages brought 60c to $1.50 a dozen, and dry onions $2.25 to $2.50 a bushel. Carrots were unchanged at 90c to $1 a bushel, and spinach sold for 75c a bushel. Parsnips brought $1 to $1.10 a bushel, and turnips 50c to 60c a bushel.

There was no change in the price of apples. They sold for 80c to $1.25. Crabapples brought $1 a bushel, and pears $1 to $1.25.

Creamery butter retailed for 48 to 50c a pound, and dairy butter for 46c to 48c a pound. Butter in crocks sells for 45c a pound, and eggs for 48 to 50c a dozen.

Poultry was steady, and the fact that shipments to the United States because of Thanksgiving Day have now practically ceased is expected to increase the supply here somewhat. Chickens were sold retail, dressed, for 90c to $1.25 a pair, and ducks for 70c to $1 each. Turkeys brought 26c a pound.

Live hogs, it is expected, will be higher during the week, selling for $10.25 a cwt. Fat sows, it is thought, will bring $7.25 a cwt.

Butchers' meats and hides and wool are steady.

GRAIN.

Winnipeg, Nov. 27.—Wheat closed 1½c lower for November, 1⅜c down for December, and ⅞c lower for May. Oats were 1⅜c down for December, and 1⅜c down for May. Barley dropped 3c in December and 6c in May. Flax was down 3c for November and December, and 2½c for May.

There was a heavy trade on a very active market with exceptionally wide ranges. The local market opened too strong and broke sharply on peace talk and heavy liquidation which started with country orders and soon became general. Not until wheat had broken nine cents from the opening did a reaction come. Then short covering checked the decline, and helped prices to recover six cents. General news was bearish, with an increased visible supply. In the cash market the first three grades of wheat went through on the option. Four, five and six were taken for eastern demand, but trade was generally very small with light offerings in all grains. Oats were unchanged in premiums, barley three to five cents lower.

Chicago, Nov. 28.—Balkan success of the Teutonic armies tended to give an advantage to the bulls in the wheat market today. In this connection, the Liverpoolo prices were quoted as relatively strong, and there was some buying here that seemed to be for European account. A decrease in the European visible supply total counted also in favor of the bulls.

The opening, which ranged from 1¼c lower to 1c up, was followed by a moderate setback all around, but then a general upturn to well above yesterday's finish, except for the July delivery, in which trading was light.
