DEATHS OF A DAY

Demise of Rev. Dr. Robertson, Prominent in the Canadian Presbyterian Church.

The death took place at his residence, 62 Admiral road, Toronto, on Saturday night, of one of the great men of the Presbyterian Church, Rev. James Robertson, D.D., secretary of home missions and superintendent of missions in the west. Dr. Robertson had been ill for a week of diabetes, and on Saturday became unconscious and passed away at 6 o'clock. Mrs. Robertson and one daughter were present. The other members of the family—two sons and one daughter—were absent, as it was not till Friday that a fatal termination was anticipated. The life work of Dr. Robertson was done on the plains of the west, and it was in a large measure due to his efforts that the Presbyterian Church is the leading one in numbers and influence in the west. Dr. Robertson was born in Appin, in the west Highlands of Scotland, in 1839. His parents came to Canada when he was quite young, and he was educated at Toronto University, and Princeton. He was ordained in 1869, and after short pastorates in Ontario, went to Winnipeg in 1874 as pastor of Knox Church. For over 20 years he has been superintendent of missions. He was moderator of the General Assembly in 1895, and had been also prominent in educational work. Dr. Robertson was absolutely left a free hand in his work in the west, and his untimely death will be mourned throughout the church as that of few men would be.

A Winnipeg dispatch says: The death of Rev. Dr. Robertson is deeply deplored by Presbyterians and members of all Christian churches in the west, where the great missionary had done his noble life's work. A memorial service will be held in Knox Church in this city on Wednesday afternoon, the time appointed for the funeral services in Toronto

He was a member of the company that officiated at the hanging of John Brown. Of recent years his occupation was that of a professional congressional lobbyist.

Mrs. Mary Grant Tubman is dead in Chicago. When a girl she was the "daughter of a regiment" in the English army—the 26th Camerons. She was born in Edinburgh 64 years ago.

Joseph Combs, aged 82, once a conspicuous figure in Missouri politics, a veteran of the Mexican war and at one time a law partner of the late Justice Stephen Field of the United States supreme court, is dead in Kansas City.

STATUS OF THE SYNDICATE.

The Everett-Moore Holdings Not For Sale.

Cincinnati Company Formed to Buy Them—Bankers' Committee Makes Good Progres

Cincinnati, Jan. 6.—A company is being formed by local capitalists, with a capital stock of about $5,000,000, to buy the Everett-Moore holdings in the Detroit United Railway. The movement is being engineered by a local brokerage firm, and considerable eastern and Detroit capital has been pledged.

The movement was started upon receiving the first hints of the impending troubles in the Everett-Moore syndicate. A prominent local banker is now in Cleveland in the interest of the proposed company.

The Detroit United Railway consists of the consolidation of the street car lines of Detroit andd several suburban lines. It inclues 365 miles of track, and is capitalized at $12,500,000, of which between $7,000,000 and $8,000,000 is held by the Everett-Moore syndicate. The object of the proposed company is to buy the stock at an upset price, if it can be secured.

EVERETT NOT AWARE OF IT.

Cleveland, Jan. 6.—Henry A. Everett said he knew nothing of the sale of the Detroit United Railway to Cincinnati parties, and referred the Associated Press to Col. Myron T. Herrick and Chairman Newcomb, of the committee of seven bankers investigating the affairs of the syndicate.

Both Col. Herrick and Mr. Newcomb were asked concerning the information in the dispatch and both denied any knowledge of such proceeding: had not even heard of it from any source, and both thought it an improbability.

PROPERTIES NOT FOR SALE.

It is positively stated that none of the Everett-Moore properties is for sale. A number of capitalists were here looking for bargains, but were turned down.

GOT THEIR DIVIDENDS.

Stockholders of the Cleveland Electric Railway Company, of which Henry A. Everett, of the Everett-Moore syndicate is president, were paid their regular quarterly dividend of 1 per cent Saturday. The annual report shows the property to be in a prosperous condition.

GOOD PROGRESS OF COMMITTEE.

Chairman Newcomb, of the Cleveland bankers' committee, said Saturday night:

The bankers' committee of seven, having in charge the Everett-Moore syndicate affairs, after meeting over a hundred of the creditors and those holding securities, today pronounced themselves as being better satisfied with the condition of affairs and with the ultimate success of their plan than at any time since it was suggested. The statement was emphatically made, as being the consensus of opinion, that the way now seems perfectly clear for a speedy and most satisfactory solution of the entire matter."

WHAT ARE PILES?

Ask Scores of People Who Endure the Wretched Itching, Burning Sensations of Piles and Do Not Know the Nature of Their Disease or the Remedy to Apply.

Piles, or hemorroids, as they are sometimes called, are small tumors, which form in and about the orifice of the rectum. They are caused by an enlarged and inflamed condition of the veins, which are very numerous in this part of the body. Internal piles are situated along the veins which carry blood from the intestines to the liver; external piles, on the veins which surround the rectum.

Piles are of frequent occurrence among people who have a predisposition to rheumatism or gout. Such persons are subject to constipation and to obstruction in the passage of blood from the intestines, the most common cause of piles. Congestion of the rectum, bladder and uterine organs, ovarian tumors and nearly all diseases of the liver are followed by piles, and they are very liable to appear during pregnancy and immediately after child birth.

In bleeding piles the hemorrhage is sometimes so profuse as to cause death, but protruding piles are probably more dreaded, because it is believed that nothing short of a surgical operation will cure them. As a rule every form of piles becomes at times acutely inflamed, and extremely painful. The itching and burning usually increases at night, and the misery which many people endure is beyond description.

The magical power which Dr. Chase's Ointment has over each and every kind of piles gives it mastery over this disease, even in its chronic form, and it is not at all unusual to hear of it curing where cruel, expensive and dangerous operations have failed.

There is no guesswork about Dr. Chase's Ointment as a cure for piles. It has been tried in the crucible of time, and gradually won its way into favor with the medical profession, as well as with the public in general. It has a wonderful soothing and healing effect, and wherever applied to burning, itching, inflamed skin, it affords almost instant relief, cooling the fires of disease and healing the raw, ulcerous skin.

Ask your friends and neighbors about Dr. Chase's Ointment. It is recognized by a surprisingly large number of people as the only actual cure for piles. It will not fail you. Sixty cents a box, at all dealers, or by mail, post paid, on receipt of price, by Edmanson, Bates & Co., Toronto.

A handsome and useful Christmas present for your mother or grandmother is a copy of Dr. Chase's last and complete Receipt Book. Illustrated folder free.
