in-law, John Torance, Esq., who is still alive, and their connections. The first St. James street Wesleyan Church was built, and opened for divine worship in 1821. They not only gave largely to its erection, but advanced considerable amounts to complete the building, for which they charged no interest. Mr. Fisher was the principal support of the cause for some years, to the writer's knowledge, when the society was small. He possessed a most benevolent disposition, and his general remarks were, "The more I give the more I receive."

He was no bigot, but he was attached from principle to Wesleyan Methodism. He died in 1826. The trustees have erected a tablet to his memory in the St James street Wesleyan Church, with the following inscription:

Sacred to the memory of the late Daniel Fisher, Esq., Merchant, of this city, and one of the Trustees of this Chapel, toward the erection of which he was a munificent contributor. The inflexible integrity which marked his mercantile transactions, the exemplary manner in which he discharged his benefactions to the indigent, were the fruits of that religion under the influence of which, in his last affliction, he was patient, and in death victorious. He died Dec. 15, 1826, in the thirty-ninth year of his age.

The trustees have erected this monument as a tribute of respect to departed worth.

Mr. John Fisher, brother of the above, died this summer, made a happy exchange, aged upward of seventy years. He has left a large and respectable family in Canada.

Mrs. Hick, wife of the late Rev. John Hick, Wesleyan minister, Mrs. McKenzie, Mrs. John Torrance, and Mrs. Lunn, four sisters of the above brothers, and all grandchildren of the late Philip Embury, all died happy in God. They have left numerous descendants in Montreal and through Canada highly respected. Philip Embury's great-great grandson, John Torrance, Jr., Esq., now fills the honourable and responsible position of treasurer and trustee steward of three of our large Wesleyan churches in this city.

Philip Embury owned a small property before he left Ireland, a description of which, now in a good state of preservation, drawn up and signed by himself, dated Dec. 8, 1759, is now in my possession, given me by a friend.

I am, dear sir, yours respectfully,

JOHN MATHEWSON.

OBITUARY.—During last week the hand of death painfully visited our city, in the removal of two very greatly esteemed Ministers of Christ. We alluded in our last to the loss sustained by the death of the Rev. Mr. Joplin. This solemn event was followed on the next day by the death of the beloved Curate of St. George's Church, the Rev. Thos Crisp, A.M., a gentleman deservedly respected for his many excellent qualities. Both of the dead and the heart. His remains were interred on Saturday last, on which occasion St. George's church was crowded in every part. The 39th psalm was chanted by the choir, the lesson from XV of 1st Cor. was read by Rev. Mr. Hill, and an appropriate hymn sung. The pulpit, reading-desk, pillars, and galleries, were draped in mourning, and many of the congregation audibly wept, while the solemn service proceeded. The funeral procession on being reformed, proceeded to three mile house Cemetery, where the interment took place. These occasions of ministerial death are well fitted to impress the hearts of all thoughtful persons, as to the necessity of working for God while the day of life lasts, and of being ready for the final call. Suitable references to these solemn circumstances were made on Sabbath last, in several of the city pulpits. It is certainly an impressive coincidence that these two, now sainted, ministers, were to have lectured during the present week, one before the Sabbath-school Society, the other for the Y. M. C. Association, but now both asleep in Jesus, they rest from their labors. We learn with satisfaction that a movement is on foot in several of the city churches, to express practically to Mrs. Joplin, the very general sympathy felt with her in her present desolation, and to secure an endowment which will be a comfort to her during life.

RECENT DEATHS.—The remains of a soldier, who had been absent for two days, were last week found in the moat of the citadel, frozen stiff. A woman named Jane Robertson, was killed by a blow received from her husband a few days ago, and a verdict was returned accordingly by the coroner's inquest. Dr. Cowie as Coroner, is said to have conducted the examination very creditably. The man Robertson has been committed for trial. The Wolfville *Acadian* gives the following:—A fatal accident occurred at Kentville, on Wednesday, 3rd inst. A man named Clarke, being on his way to Halifax with a load of farm produce had engaged another person by the name of Barnaby, as the roads had become heavy, to harness in his horse and accompany him. Both men were intemperate in their habits, and partially intoxicated at the time. The horses, taking fright became unmanageable and turning sharply into the yard attached to Lyons' hotel, the men were thrown violently against the building by which Barnaby received such injuries that he died almost immediately.

THE CONDEMNED PRISONERS.—The mate of the *Zero*, Douglas, and the cook Doucette, it is rumored, will be executed at no distant day. The confession made by the cook last week, who can now have no hope of life, throws the blame largely upon the mate, as having plotted the murder of the captain. The case is one of fearful turpitude, and if the cook's testimony is to be believed, all parties on board the vessel, with the exception of one of the Germans, are implicated, as having had to do with the atrocious murder.

DEATH OF A NOVA SCOTIAN IN THE SOUTH.—The following, copied from the Savannah *Republican* of a recent date, is published by request:—

ANOTHER GOOD MAN GONE.—A highly respected and much esteemed citizen of Savannah, was yesterday borne from his late residence on Lincoln street, to his last resting place. Mr. Joseph F. Gammon came to this city from Nova Scotia more than forty years ago. As a carpenter and builder he has been favourably known to the citizens of this place. Simple and unassuming in his manners, and regular in his habits, his industry had secured him what he considered a competence several years before the war, and his only ambition seemed to be to withdraw from active life, and quietly spend the remainder of his days in the bosom of his family. During the past four years he constantly lamented the state of our national affairs, and prayed for the time to come when man should no more shed the blood of his brother, and peace reign once more over the land. The state of affairs so preyed on his mind that it undermined his health, and through the advice of his physician he took a trip North, in hope of benefit, he returned to find no permanent relief had been obtained. A good citizen, a kind husband and father, and a firm friend, his memory will live long in the hearts of many to whom his quiet, unostentatious charities were not unknown.

FRUIT GROWERS' ASSOCIATION.—We have been informed by D. Henry Starr, Esq., Secretary of F. G. Association, that at the Exhibition of the Royal Horticultural Society, held in London in December last, the *Gold Medal* of the Society, offered for the best and most complete representative collection of Fruit and Vegetables, from any of the Colonies, was carried off by the Fruit Growers' Association of Nova Scotia, "from whence comes," so says the *Gardener's Chronicle*, "a large and fine collection of apples and a few pears. The apples are, for the most part, large and very fine. Besides many local varieties, Baldwin, Esopus, Spitzenburg, Northern Spy, Ribston Pippin, Blenheim Pippin, Emperor Alexander, Gloria Mundi, Rhode Island Greening, Gravenstein, and Dutch Codlin, are large and very fine. We also noticed the old Golden Pippin, King of Pippins,—a fine looking variety, red on the sunny side,—Black's Red, Blue Pearmain, Black Detroit, Pomme d'Api, and Margaret Pippin."—*Sun.*

FIRE.—A correspondent of the Pictou *Standard*, gives the following account of a fire at Karltown:—At three o'clock on the morning of the 28th Dec., the house of Mr Donald McBain, of Earltown, was discovered to be on fire. One of the sons had been absent all day. When he returned at midnight there was no sign of fire, and at three o'clock he was awaked by the flames coming about the bed where himself and brother were sleeping. He immediately gave the alarm, and arousel the family, when it was discovered to be impossible to escape by the kitchen door, as the back kitchen was all in flames. The lock of the front door had been out of order for some time, and one of the family got out of the window and broke in the door, when all the family escaped, some with clothing and some without. There was about 17 cwt. of flour and meal upstairs, and 200 bushels of potatoes, together with a quantity of beef, pork and dairy produce in the cellar, none of which was safed. A small quantity of bedclothes were seized by those occupying the beds, and saved. Some of the family were slightly injured by endeavoring to save things from the flames. The loss is estimated at £300. The fire is supposed to have originated from a pot of ashes that had been placed in the back kitchen in the forenoon of the previous day.

LOST.—Two men perished from Schr. *Lucy Ann*, lost at the mouth of Liverpool Harbor, about a week since. The name of one of these was Christopher Penny, a native of Newfoundland.

IN THOUSANDS OF CASES.—MRS. WINSLOW'S SOOTHING SYRUP for all diseases with which children are afflicted, such as teething, griping in the bowels, wind colic, &c, has been used with perfect, and never-failing success in thousands of cases. It softens the gums, reduces inflammation and allays all pain. Mothers, do not fail to procure it. Sold by Druggists everywhere.

A petition is before Congress to give females a right to vote at elections, as a means of ensuring greater domestic tranquility.

RECONSTRUCTION.—The President is firm in his policy for the readmission of the rebellious States upon their repudiation of the rebel debt, and their ratification of the amendment abolishing Slavery. The following from the Savannah *Herald*, shows the conciliatory spirit of the South:—We zealously adjure the members of our legislature so to act upon the political questions that may come before them as will have the effect, not inconsistent with the honor and interests of the State, a restoration of their political rights. If the Legislature falls short of this great object in the discharge of its high duties, its session will be worse than a failure; it will be productive of positive evil, not only to our State, but to the entire Southern people. And why so? We answer, because the conservative men of the North, as well as the President, have all along looked to Georgia for co-operation in the work of reconstruction! She has been regarded for years back as the leading Southern State, and heretofore has been held up as a kind of example for her sisters of the South. To ignore a conciliatory policy will result to keep our representatives out of Congress—will perpetuate the power of the extreme radicals of the North—disappoint our friends, delight our enemies, and blight the hopes of our own people.

Let each Southern State come squarely up to the friendly requirements of the President, and then we shall have done enough to satisfy any reasonable man who desires to see the country united and in peace; and, then, if the plan of reconstruction fails, the responsibility for the failure will not rest upon the South, but upon those who are seeking to drive her people to that point when nature as well as reason rebels.

"IN GOD WE TRUST."—We are glad that this inscription is to be placed on our National coin, the objections of one of our city papers to the contrary notwithstanding. It is time that we made such a declaration, if it be true, on the correct coin of the country. It is the most distinct acknowledgment of God which the Government of this country ever made, for it incorporates a declaration of our faith into the business of the people, and makes it a daily and suitable reminder of our dependence on the Hand Divine.

Perhaps it will hasten, certainly it will not hinder, a return to the use of specie in the transaction of our daily business. It will require some trust to do it, but it must be done, and the sooner a wise beginning is made the better. Now that so marked and important a step has been taken in the right direction, and constitutional scruples no longer restrain our Chief Magistrates from the regular appointment of days for National Thanksgiving and Fasting, we shall not be told that ours is a nation that does not acknowledge the existence of a God. "In God we trust."—*N. Y. Observer.*

NEW YORK, Jan. 10.—This harbor and Boston harbor are so filled with ice that it is next to impossible for vessels to come in or go out. Tugs and steamers are kept at work breaking up the ice and freeing the channels. It has been the coldest weather, since last Saturday, known for sixteen years. To-day the weather is quite moderate.

NEW YORK, Jan. 11.—An entire family, five in number, in Brooklyn, have been poisoned by the use of musty flour purchased at a neighboring grocery. One has died, two are still dangerously sick, and the remaining two are convalescent.

At a meeting of the George Washington circle of Fenians last evening, resolutions were passed sympathizing with Gen. Sweeney at the uncalled-for harshness of the Secretary of War in dismissing the General from the army, which they say was done at the instigation of Sir Frederick Bruce, the British Minister.

It now appears that Adams' Express was robbed of $678,000, instead of half a million. Four of the robbers have been arrested, and $250,000 have thus far been recovered.

The Fenian general court-martial to-day rendered a verdict the Senate. The sentence has yet to be pronounced by Col. O'Mahony. From the report of the committee of finance it appears that there are but $30,000 in the treasury. The receipts from October to January 6th were $147,000, of which all but the above have been expended.

NEW YORK, Jan. 13.—A despatch from St. Louis says that the ice in the Mississippi and Missouri Rivers broke up yesterday, destroying and sinking four large steamers and a ferry boat. Loss $225,000. Partially insured.

A Washington despatch says an unknown man called on Senator Wade of Ohio, and attempted to assassinate the Senator, but was foiled by the coolness and courage of Wade, who drew a revolver on the would-be assassin, and drove him from the house.

Advices from Mexico state that the Imperialists had surprised a small camp of Liberals, killing twelve and capturing thirty, who were to be executed under Maximilian's order. Gen. Crawford addressed Gen. Weitzel on the subject, asking him to prevent the murder. The latter replied that he had entered a solemn protest against this, but Gen. Mejia informed him that he was compelled to execute them by the orders of his Government. Gold 138 1-8.

Col. O'Mahony yesterday received a letter from Head Centre Stephens cordially endorsing his action during the late troubles, and appointing a representative and finance agent of the so-called "Irish Republic" in this country.

WASHINGTON, Ga., Jan. 14.—Official intelligence from Chihuahua, up to the 8th of Decr., has been received in this city. President Juarez, instead of being at San Antonio, Texas, as represented, was resting in quiet at Chihuahua. He writes to a friend as follows:—"The commanding officers of these States, the frontier States, and political leaders, have all expressed their approval of the extension of my term, and have reason to believe that the same will happen in other States of the Republic. The French, it seems, had sent another expedition to Chihuahua; and should this be in great force, the Mexican Rebel Government will abandon that city, and go to some other convenient point of the Republic.

The Fenian trials were progressing at Cork. Another prisoner, James Mountaine, had been acquitted.

Two regiments had been hastily sent from England to Dublin. One of them, in garrison at Manchester, was roused at A. M., and conveyed to Livepool—1200 strong, early the same morning, and forthwith embarked for Dublin. Such energetic movements of course gave rise to rumors of serious danger.

La France denies the report from America that the French Minister has sent his first Secretary at Legation for instruction on the Mexican question, and that he has given notice that he will withdraw if America sends a representative to Juarez.

Three Spanish frigates were about to sail for the Pacific.

The King of Portugal paid only a few hours' visit to Madrid.

There were rumors that peace between Spain and Chili was about to be concluded by European mediation.

The West India mail steamer arrived at Southampton on 31st., with nearly a million and a half dollars in specie.

The *Army and Navy Gazette*, believes the British Government has resolved on a very considerable decrease in the army; the leading feature will be the reduction of two companies in each battallion of the line, amounting in the aggregate to about 850 officers, and some 16,000men. One regiment of cavalry is also expected to disappear.

The board of Trade Returns for November exhibit the extraordinary increase in exports of £350,000 sterling, or 29 per cent. over that of November, 1864.

The *Times*, in its extended editorial *resume* of events of the year, devotes a large portion to a favorable criticism on American affairs.

London *Globe* highly eulogises Gen. Grant's official report, and says it is an able, very clear and strikingly modest document, frankly admitting failures and losses, and doing full justice to his opponents.

Further diplomatic correspondence between Adams and Foreign Secretary published, respecting the Sea-king or Shenandoah. Under date Nov. 21st., Adams says he is instructed to state that proposition of Her Majesty's Government for creating joint commission is respectfully declined.

On Dec. 2d, Earl Clarendon writing to Adams says, Her Majesty's Government consider that no advantages can result from prolonging controversy, of which topics are fully exhausted, but which might possibly if continued, introduce acrimony into relations of England and United States. Clarendon persists, however, in asserting England has never deviated from her duties as a neutral power, and he declares how strongly Her Majesty's Government and people of England desire to be in close friendship with the United States. Virtually this correspondence leaves question of American claims on England suspended. Adams and Clarendon correspondence occupies eight columns in *Times*. Included in it is suggestion by Adams, when Shenandoah arrived at Liverpool that British Government should take some action against crew. Clarendon replies that there was nothing to justify any action, unless against such of crew as might be British subjects, and he says naval officers at Liverpool were fully satisfied crew were all foreigners, and that there were none known to be British born subjects on board.

SINGER'S LETTER "A" FAMILY SEWING MACHINES.

This splendid Machine combines all the good qualities of our well known manufacturing machines, with many new and valuable improvements. It is swift, quiet, and positive in its operation; sews the very finest and coarsest materials, and anything between the two extremes, in a beautiful and substantial manner. It *Hems, Fells, Cords, Braids, Tucks, Gathers, Stitches, etc.*, and will do a greater range of work than any machine heretofore offered to the public. Every Machine warranted, and full instructions given. Send for pamphlet to

H. A. TAYLOR, *Agent.*

THE SINGER SEWING MACHINE.

FIRST PREMIUM.—By reference to the list which we publish elsewhere, it will be seen that the Singer Sewing Machines (both family and manufacturing) carry off the first premiums from the State Fair which closes to-day. It is worthy of remark that these machines are rarely seen at fairs and the Singer Co. have not entered into the general scramble for premiums which has characterized the past few years. The agent in this city saw fit, however, to come out on this occasion, in force; and notwithstanding the competition was sharp—the Wheeler & Wilson, Grover & Baker, &c., &c., j ining in the contest—it was plain to be seen, when the practical tests were applied that the "plumes" must be handed over to the Singer machines.—*Utica Daily Observer, Sept.* 15.

Consumption, and Chronic cases of other kinds

A London Medical Practitioner, formerly assistant Physician to the College of Civil Engineers—has treated these complaints with such extraordinary success, that he has been induced by his convalescents and friends to advertize that he is ready to receive patients at his residence, where comfortable accommodations will be provided for those suffering from critical and difficult diseases, and where they can be attended to under his own eye.

A beautiful residence has been selected, and the most respectable references given of those who have been under his care. The system he employs is very simple, and has answered beyond his expectations, and is according to the principles of the most approved medical science. Writing and Book-Keeping.

MR. STAPLES will re-commence instruction in *PENMANSHIP* the coming week at his Writing Rooms, No. 57 Granville Street, to be continued every day, and evening until further notice

Also, a class in BOOK-KEEPING (Double entry) will be formed and conducted under the instruction of a thorough Accountant.

From past success, as a Teacher of Writing in this city, *Mr.* Staples believes he can impart to the attentive, however imperfect their present hand-writing, a beautiful, plain, and expeditious style of Penmanship, in the shortest possible time.

Immediate application for the Class in Book-Keeping must be made, as only a limited number of pupils will be taken.

HOURS—From 10 A. M. to 5 P. M., and from 7 to 9 in the evening.

THE PROVINCIAL ALMANACK, For 1866!

IS NOW READY.

THE number now issued of this useful and popular serial will be found to be, in size and contents an improvement upon the issues of previous years, affording full information on all subjects upon which an Almanack is usually consulted. The ASTRONOMICAL TABLES in Calendar pages are full and complete. The WEATHER Table will prove convenient, and the rules respecting the weather, though infallibility is by no means claimed for them, yet it is hoped will prove tolerably correct. The utmost regard to the convenience of all who may use the Almanack, is had in the entire arrangement. Care has been taken to include the latest appointments of Justices, School Commissioners, Examiners and Inspectors, and also in regard to the Civil appointments, The Post Office Department has its full share of attention, and besides other necessary information, there is given a list of all the Way Offices in the Province.

This Almanack will be to Business men a reliable Hand Book, for Mariners a safe Directory while Farmers will glean from its pages most valuable hints. The several Lists—JUDICIAL, MAGISTRATE, ECCLESIASTICAL, EDUCATIONAL, NAVAL and MILITARY, &c, &c, have been carefully revised. The MASONIC BODIES, TEMPERANCE ASSOCIATIONS and ORDERS, and other Societies have not been overlooked. RAILROAD TIME TABLES and Regulations of HALIFAX CITY RAIL ROAD, are also given with a variety of other useful information on subjects of Provincial interest.

☞ Orders sent to the Wesleyan Book Room Argyle Street, or to Messrs A & W MacKinlay R T Muir, W Gossip, Z Hall, or other Booksellers will receive immediate attention
