n a Society under the

designation of the *Sussex and Studholm Agricultural Society.*

The Rules and Regulations for the future governance of the Society were then submitted, and adopted, when twenty-five persons became members.

The following gentlemen were then unanimously chosen office bearers:—

Captain Beer, R. N., President,
Samuel Freeze, Esq. Vice President,
A. C. Evanson, Esq., Secretary,
Mr. Daniel Sheck, Treasurer.

John C. Vail, Esq. Mr. Wm. Coates, John H. Ryan, Esq. Samuel M'Cully, Mr. Wm. M'Leod, A. W. M'Arthur, John King, Isaac Foshay, John Murray, John O. Arnold, Richard Roach, Daniel Campbell, Enoch Dole, *Managing Committee.*

This meeting was then adjourned to the 1st day of May.

The Committee of Management met this day for the purpose of appropriating the Funds of the present year, when among other things it was—

Resolved, That two Bulls and four Rams of the most approved breeds be introduced this season for the benefit of the Society.

A strong feeling was manifested towards the objects contemplated for the future operations of the Society, and twenty-two additional names were added to the list, making in all forty-seven Members.

It was also Resolved, That a Cattle Fair be held on the premises of Mr. Daniel Sheck, on the third Tuesday in June next; and that another be held on the premises of Mr. James Roach, in Studholm, on the third Tuesday of October next.

It was supposed that the Funds of the Society would be so much increased by the next year, that the Committee would be enabled to import a blood Horse. A. C. EVANSON, *Secretary.*

*MILITIA GENERAL ORDER.*

With reference to the Militia General Order of the 16th November, 1840, (requiring Officers Commanding Battalions to furnish the Quarter Master General of the Militia Forces, with correct returns of the number, state and condition of the Arms and Accoutrements in possession of their respective Corps,) it has been found that many cases of omission have occurred.

Commanding Officers of Corps therefore who have failed to comply with the Order above alluded to, are required forthwith to send in their Returns, in order that the Quarter Master General may be enabled to prepare a General Return of all Arms and Accoutrements belonging to the Militia, for the information of the Lieut. Governor, preparatory to the approaching Inspection.

Commanding Officers will also report whether they have caused to be erected any and what places of safe deposit, (or Arm Houses) for the reception and security of the Arms.

*By Command,*
GEO. SHORE, A. G. M.

HALIFAX, May 8.—Major General Sir *J. Harvey*, K. C. B., and K. C. H., arrived in this city on Thursday evening, as we anticipated, from New-Brunswick, and was received with a suitable salute from the citadel. His Excellency was accompanied by Lady Harvey, family, and suite, and by Capt. Tryon, Brigade Major, Mrs. Tryon, and Captain Nugent, 36th Regt. Sir John and Lady Harvey are at present the guests of his Excellency the Lieutenant Governor, and Viscountess Falkland, at the Government House. Sir John's family and suite are staying at the Masonic Hall. It is said that the gallant General intends to remain at Halifax, in command of the Troops, until the arrival of his successor, Sir Jeremiah Dickson.

The handsome sum of £207 10 0 has been subscribed by various Indian tribes, inhabiting the upper part of the Province, towards the re-construction of Brock's monument. It has been paid into the hands of the Treasurer of the Funds at Toronto. *Woodstock Telegraph.*

NAVAL DEFENCE.—The following is a statement of the armament adopted for the United States ship Pennsylvania:—Lower gun deck, 28 long 32 pounders and 5 Paixhan guns, and Paixhan shot are thrown from an 80 pounder. Middle gun deck, 30 long 32 pounders and 4 Paixhan guns. Spar deck, thirty-two 32 pound carronades and 4 medium 32 pound guns. Total 138. Weight of metal of one broadside, near 2496 pounds.

*A Proper Verdict.*—A man who broke his leg two years since, has brought a suit against Dr. Lurzenberg, one of the most distinguished physicians of New Orleans, for damage in $25,000, for not setting his limb straight.

NEW-YORK, April 27, 1841.

A terrible, and to several persons, a fatal disaster occurred in this city at 6 o'clock this evening. The steamboat Henry Eckford, was just starting from the foot of Cedar street with a lake boat in tow, for Albany; the escape of steam had just been stopped when the boiler burst with a tremendous explosion, and swept her whole machinery and upper work,—engine, piston, walking beams, shafts, pilot-house, deck cabin, &c. instantly into the river.

*Two persons were killed outright.* One was the Captain of the boat in tow; he was struck on the head by a fragment of the cylinder; his head and shoulders were horribly mangled. The other was a fireman.

The Captain of the Eckford, who was on deck at the time of the explosion, was blown more than sixty feet into the river; one leg was broken, and he is otherwise terribly injured. His wife, who was in the cabin at the time of the explosion, was completely saturated with water from the feeding cylinder, but was not seriously injured.

Another of the firemen was seriously injured. It is said that three or four persons are missing. Several who are yet alive cannot probably long survive.

It is impossible to say at present what was the immediate cause of this horrible calamity, though most likely gross carelessness will be found to have produced it. The U. S. Steamboat Inspector, too, will probably bear some share of the responsibility.

NEW YORK, May 5.—Mr. McLeod arrived in this city from Lockport on Sunday night in custody of the Sheriff of Niagara County. He was brought here on a writ of *habeas corpus*, issued by the Supreme Court, which is now in session. It is said that his case will be brought up for a hearing tomorrow (Thursday) when an application will be made to the court to discharge him from custody.

The Commercial Advertiser of Monday has the following article in relation to the points in dispute between Great Britain and the United States. If the information be correct—and it is given with an air of authority—there is good reason to hope for a speedy settlement of the difficulties:—

"If we are rightly informed it has been agreed between Mr. Fox and the Government of the United States that no farther opposition shall be made by the former to the trial of McLeod. That trial is to go on under the jurisdiction of New York, without interference either by the British Minister or the national Government. If acquitted, as is most probable, McLeod will be discharged of course, and the matter thus be disposed of. If convicted, the national Government will then take the necessary steps to afford him that measure of justice and protection which all the circumstances of the case may require.

As to the boundary, we learn that a convention has been signed on the part of Great Britain and the United States, which provides for the appointment of six commissioners, three for each party to the dispute.—Those six, if they can agree, are to give a final decision on the question. If they cannot agree, they are to appoint three others, and a decision by the majority of the nine is to be conclusive.

Such we understand to be the arrangement agreed upon. Some of the details may be incorrectly stated, but we have every reason to believe that the general fact of a convention being signed, will prove authentic."—*Old Countryman.*

*Quebec, April 30.*

FIRST ARRIVAL FROM SEA.—Yesterday evening about ten o'clock, the fast sailing ship *Vere*, Capt. Willis, arrived in port after a short passage of 27 days from Poole. Captain W. reports that he met a great quantity of ice in the gulf, but none in the river. It will be remembered that the *Vere* was the first vessel from sea at this port last year, having arrived on the 25th April.

Captain Swinburn, of the *Great Britain*, reports that he left Falmouth on the 27th March; during the passage he did not see any ship but the *Vere*. The first ice he met with was on the Banks; met more between St. Peter and St. Paul; never saw the gulf so full of ice; took a northern channel and avoided it, and the river clear all the way up.

The Vere passed the Great Britain off Point des Monts. We understand that last year the Vere passed the same vessel off Gaspe.

Yesterday forenoon, the bark *Countess Mulgrave*, Captain Gibson, which wintered at Goose Island, arrived in port.

The bark *Robert Alexander Parke*, Captain P. Herdman, lately built at this port, has made one of the shortest passages that has ever been made from Savannah to Liverpool.

**Important to Ship-Owners, Ship-Masters and Others.**

THE subscribers beg leave to call the attention of the public to *Joseph Williams' IMPERVIOUS COMPOUND*; being a Mineral Poison, recently invented, for mixing with a Varnish he has prepared, for coating SHIPS' BOTTOMS, and all kinds of Wood and Iron work, likely to become foul, from marine matter or any other cause; which this Impervious Compound will effectually prevent, as no worms will penetrate it.

The Compound and Black Varnish can be had at the Store of CRANE & M'GRATH,
*Ward Street.*

From the fact of the Impervious Compound and the prepared Black Varnish, containing not the slightest degree of acid, it is peculiarly well adapted for dipping paper in for Ships' Bottoms, as it is well known not to act upon metals.
