TUBERCULOSIS AN ACUTE INFECTIOUS DISEASE.

New York, June 5.—The American Congress of Tuberculosis yesterday held its fourth symposium, "The Veterinary Aspects of Tuberculosis." In view of conflicting opinions expressed at the sessions, the congress adopted a resolution stating that "tuberculosis is an acute infectious disease." Prof. J. G. Adami, of McGill University, Montreal, read a paper entitled "Tuberculosis in Relation to the Live Stock Industry."

If the reader is really curious it may interest him to know that the total length of hair in the average woman's head is just 5 miles, until she has sifted out the combings in the morning.

You Feel All Used Up

You're discouraged and disgusted—not energy to think, less to go to work upon. The reason? You are run down, your blood is poor, your nerves are like India rubber, not like steel, as they ought to be. Use Ferrozone and the tired feeling will go, for it makes plenty of rich, red blood that feeds the brain and nerves. The desire to labor comes back and you enjoy it. You don't get tired, because you have used Ferrozone. Neglect not a day longer. Ferrozone wil cure you. Sold by W. T. Strong & Co.

By means of an injection of a coloring matter that is not poisonous into the veins Dr. Icard, of Marseilles, claims to be able without danger to distinguish death from catalepsy.

Relics of Charles I.

Of few men are relics preserved with such religious care as those of Charles I. Probably the largest collection is that preserved at Ashburnham Place, the seat of the Earl of Ashburnham, consisting of the shirt with ruffled wrists (on which are a few faint traces of blood) in which he was beheaded, his white silk drawers, the sheet that was thrown over the body after execution, and a watch that was in his pocket at the time of his death, says the London Chronicle. In 1743 the Hon. Bertram Ashburnham bequeathed these relics to the parish clerk of Ashburnham, and for a long time they were carefully kept in a glass case in the chancel of Ashburnham Church. Many persons suffering from the king's evil resorted, even in the nineteenth century, to these relics for the cure of the disease.

Malt Breakfast Food

The Choice of Over Forty Millions of People.

Once Tried, It Becomes a Special Favorite.

Malt Breakfast Food is the favorite breakfast dish of over forty millions of people in North America. It possesses all the important qualities and virtues for strength-building and the establishing of perfect digestion and good health. It is delicious, nutritious, satisfying and appetizing. It is the one great breakfast foot for body, nerves and brain. See your grocer.

A Scientific Voice Improver.

Because of its strengthening influence upon the vocal chords, Catarrhozone cannot be too highly recommended as a wonderful voice improver. It almost instantly removes huskiness or hoarseness, thus insuring clearness and brilliancy of tone. Catarrhozone keeps the mucous surfaces in perfect condition, and its regular use absolutely prevents colds and throat irritation, thereby removing the singer's greatest source of anxiety, unfitness of voice. The most eminent speakers and prima donnas would not be without Catarrhozone, and credit in no small degree their uniform strength and brilliancy of tone to its influence. The hard rubber inhaler fits conveniently into a purse or vest pocket, and may be used in the church, theater, any place or time. Complete outfit, $1; small size, 25c. ADVERTISEMENT COMPETITION.

To Competitors:

We have now the pleasure to publish the names of the successful contestants (with letter from the judges, Messrs. A. McKim & Co., Advertising Agency, Montreal) and to intimate that cheques will be mailed immediately in payment of the prize money.

We take this opportunity to publicly thank those who have interested themselves in the competition and at the same time to express our regrets that all have not been so fortunate at some. Our thanks are also due to Messrs. A. McKim & Co. for their gratuitous services in connection with the competition. Many of the advertisements, though not ranking for prizes, are suitable for publication and may be used by us at some future time.

Yours very truly,

J. M. DOUGLAS & CO.

N. B.—We beg respectfully to announce that individual correspondence in connection with the Competition cannot be entered into.

Messrs. J. M. Douglas & Co., Montreal:

Dear Sirs,—

We have completed the examination of the 108 illustrated and 390 manuscript advertisements of Lee & Perrins' Sauce entered in your competition, and beg to advise you that prizes have been awarded to the following numbers (9 illustrated and 11 manuscript) in the order here given:

Illustrated—Nos. 4, 25, 42, 40, 66, 43, 32, 26, 18.

Manuscript—Nos. 53, 201, 74, 98, 340, 373, 202, 3, 144, 121, 15.

We were somewhat surprised to find nearly one-third of the latter class in rhyme, and among them some of the best, from an advertising point of view.

The supreme test of a good advertisement is, of course, its selling power, and to this end it must first attract the attention of the reader, then its matter must be such as to inspire the reader with a desire to use the article. It must be moderate, truthful, convincing, and appeal to the reason as well as to the curiosity of the reader. Many of the contestants seem to have lost sight of these facts entirely.

In many of the advertisements there was an attempt at being smart, which detracted much from the value of the advertisements. Some proclaimed Lee & Perrins' Sauce a cure for all the ills imaginable, with scarcely a word about its merits as a sauce; others made extravagant claims for its civilizing effects upon humanity, but there was a large number of carefully worded, well thought out advertisements, which would do credit to any advertiser, and doubtless many of them will be utilized by you.

On the whole, we consider the contest a very successful one, both as to the number of competitors and the many clever advertisements entered. Yours truly,

A. McKIM & CO.

ARE YOU A PRISONER?

THOUSANDS of men are prisoners of disease as securely as though they were confined behind the bars. Many have forged their own chains by the vices of early youth, exposure to contagious disease, or the excesses of manhood. They feel they are not the men they ought to be or used to be. The vim, vigor, and vitality of manhood are lacking. Are you nervous and despondent? tired in the morning? have you to force yourself through the day's work? have you little ambition and energy? are you irritable and excitable? eyes sunken, depressed and haggard looking? memory poor and brain fagged? have you weak back with dreams and losses at night? deposit in urine? weak sexually?—you have
