CUMBERLAND STONE QUARRIES.—Mr. W. W. Black has purchased a large block of stock of the Amherst Red Stone Quarrying Co. and will assume the active management of the business. The stone from this quarry stands high in popular favor among builders and its quality and durability have proved eminently satisfactory. The company are in correspondence with Mr. L. Melanson, of Memramcook to work as foreman of the quarry. Mr. Melanson was for some years foreman of the Woodpoint Quarries, and has a wide knowledge of the stone business.

Mr. C. Dobson of the Wallace Quarries has begun operations at that point. Mr. Dobson reports the local demand for stone strong and his company has closed some good contracts on the Island; shipment to be made by water.

MT. ALLISON.—The annual Elocution recital given by the pupils of Miss Landers last Friday evening was well attended and the rendering of the different pieces highly creditable. The 6th and 11th numbers "Mary Stuart" by Misses White and Wotton and "Laureame" by Miss Wotton were in costume—a pleasing variation. Miss Atkinson's "Mice at Play" was exceedingly well received as were also the pieces of the other elocutionists, Misses Butcher, Cole, Hay, and White. There were also a vocal duet by Misses Goodwin and Harper, a vocal solo by Miss Deacon, a piano solo by Miss Burbank and a violin solo by Miss Robb. Owing to the length of the program no encores were responded to.

THE ATHLETIC CONCERT last Saturday evening was a success beyond expectations and although the weather was disagreeable a very good house greeted the amateur showmen. The program was opened by a short speech by H. D. Marr in which the record of Mt. Allison in athletics was dealt with and in particular the training of the gymnasium. The two athletes were then introduced. Mr Frank Barber gold medallist of last year at Mt. Allison is certainly a phenomenon. Probably no more skillful athlete amateur or professional has appeared on the stage in Sackville. In tumbling, in balancing, and in calisthenics alike he won round after round of applause. Mr. W. W. Costin for several years instructor in the Academy gymnasium and at St. Joseph's College is a type rather of strength than of quickness and agility. His deep chest broad shoulders and huge biceps and limbs showed up well on the platform and he went through his part with an evident air of confidence and strength. Master Charlie Harrison aged 10 son of Principal Harrison of the Male Academy is a veritable "infant phenomenon." He accomplished several feats with all the coolness and with nearly all the perfection of his comrades. The glee-club although they had had but a week's practice were in very good form and sang well. It is probable that an annual glee-club concert will be established at Mt. Allison. Mr. Jos. Dobson's vocal solo was well received as was Mr. Archibald's violin solo and a reading by A. Lamb. It is understood that the concert will be repeated at Amherst, Dorchester, Port Elgin, and other outlying places.

EDWARD BAXTER PERRY, the celebrated blind pianist will appear in Beethoven Hall, Tuesday and Wednesday, April 24 and 25 instead of Monday and Tuesday April 23 and 24, as first advertised. Those who secured tickets before the announcement of this change will notice that 23rd tickets will now be for 24th and 24th tickets for the 25th. The plan of the house is at Goodwin's Book Store.

SOCIAL AT PT. DE BUTE.—The members of the W. M. A. Society of Pt. de Bute held a social in the Baptist Church on Friday evening the 13th of April. The bad condition of the roads prevented many from attending but those present were well repaid for going. An extensive programme was rendered and thoroughly appreciated after which a lunch was provided and a collection was taken. The quality of the refreshments proved that the ladies of Pt. de Bute have sufficient time after Missionary duties are attended to, to cultivate the Domestic Art.

SACKVILLE'S DEATH ROLL.—George Carl youngest son of Mr. George E. Ford of this place died last Friday night of heart failure directly brought on by typhoid fever. The little fellow was never very strong but was a gentle kindly child and a general favourite. He was ten years old. The funeral took place on Sunday afternoon. There was a short service at the house conducted by Rev. W. Harrison assisted by Rev. Dr. Stewart. The Methodist Sunday school did not meet on account of the funeral and the children attended and took part in the service. There were many handsome floral tributes from the employes of Mr. Ford, from the Sunday school scholars and from other friends. The deep sympathy felt for the bereaved family was shown by the large attendance. The funeral was one of the largest seen in Sackville for years.

—Walter son of Charles W. Cahill of Campbellton and grandson of Walter Cahill Esq. of Sackville died at Campbellton last Thursday at the age of two years. The remains were brought to Sackville for interment and buried in the rural cemetery Saturday afternoon. Those who saw the little fellow during his visit in Sackville last year will remember him as a fine healthy looking child. There was a short service at the house conducted by Rev. Wm. Harrison.

THE TORBETT CONCERT.—The well advertised Torbett Concert Co was met by a full house on Tuesday evening last The people went expecting much and it may be said went away well satisfied. The Lutteman Sextette won the audience at once and were greeted with more hearty applause at each appearance. They responded again and again to encores. Mr. Moquist was well received and encored. Miss Torbett was called back two three and four times in her several pieces and the audience were as much pleased with her bright winsome appearence as her skillful playing. It is expected that the company will visit Sackville again.

Obituary.

A sad and most painful bereavement has recently overtaken Doctor Hilbert B. Tingley, of Rockaway Beach, N. Y., in the somewhat sudden and unexpected death of his beloved wife.

Mrs. Tingley came to this place about twelve weeks ago, apparently in the bloom of health and in the light of a new-born wedded joy. In personal appearance prepossessing, of winsome, speech and graceful bearing, Mrs. Tingley, during her brief sojourn, won the high esteem of all who knew her. Being of cheerful disposition and optimistic in her views, she was calmly and expectantly looking for yet brighter days and summer skies to dawn upon and beautify her domestic life. But scarcely had the nuptial vow been taken, and the tie of pure love secured, than she heard a voice bidding her depart for this was not her rest. With strong hand affliction seized her, and, notwithstanding the best medical skill and nursing her "sun went down while it was yet day," leaving behind a setting of most beautiful colors, to cast their reflection on the troubled heart of a bereaved husband.

The shock of this occurence still lingers here and it is with the utmost difficulty we yield to the sad fact that Mrs. Tingley is no longer with us, but is risen to brighter realms and holier joys.

We profoundly sympathise with the sorrowing husband in the loss of one so Christly in character; for, if it be possible for two souls to melt into one in christain affection we think that was realized in the most happy union of Mr. and Mrs. Tingley.

Mrs. Tingley died in the 29th year of her age, her remains were deposited at Easton, Maryland, in the presence of a large number of sorrowing relatives. But her soul is with God, in that land 'where the hail-storms and fire-showers' of affliction do not come, 'where the heaviest laden wayfarer lays down his burden' to enjoy the saints overlasting rest. May we all meet her there.

FOR ASSAULT.—A case comes up before Justice Cahill this forenoon in which Delhi Estabrooks of Midgic is charged with assault and battery on George A. Hicks of the same place. The only cause for the quarrel at present apparent was a desire to amuse the citizens and relieve the monotony of life.

SEATS FOR THE PERRY CONCERT in Beethoven Hall next week are selling fast already, over 200 have been taken and as all seats are reserved those intending to attend will do well to secure seats early. Seats are engaged for parties from Sussex, Moncton, Dorchester and Amherst and in fact the coming of Perry to Sackville is regarded as a distinct mark in the history of music in these provinces.

STUCK IN THE ICE FOR OVER A WEEK. ISLAND PEOPLE INDIGNANT. THE CAPES ROUTES.

On Tuesday the Cape Tormentine train did not leave Sackville till after the arrival of the afternoon express from Halifax in order to take four hundred mail bags—a very good carload—and seventeen passengers to Cape Tormentine pier where they entered Capt. Batt's steamer and left for Charlottetown. About one hundred more passengers are waiting at Pictou to cross afraid to come by way of Cape Tormentine because they have been told that passage by this route is both difficult and dangerous. It is but right to say that such reports are entirely without foundation. While the Stanley has been out for a week breaking her way through twenty feet of ice and in vain attempting to reach Pictou people have been crossing to and from Cape Tormentine in open boats and stepping from the boats directly on the pier without being troubled by ice in any way. One of these open boats made three trips in one day and Batt's steamer crossed from Charlottetown to Cape Tormentine Tuesday without having to change her course once on account of ice.

The Stanley left Georgetown for Pictou last Wednesday morning at 7 o'clock with 35 passengers and two horses. Two hours out from Georgetown the steamer encountered ice which closed around her and brought her to a standstill about 10 o'clock. On Thursday afternoon an opening was discovered away to the Northeast and the boat headed for it slowly broke her way through the ice and by night had made 15 miles and was within 10 miles of Pictou light. A pause was made until Friday when six more miles were gained by hard fighting and the captain being then only four miles from the light decided to send a boat ashore with the mails and whatever passengers wished to leave. About 9 o'clock Saturday morning the boat started with 11 of the passengers who were landed four or five miles from Pictou. The work of getting ashore was difficult and hazardous. Sometimes the boat had to be dragged over a stretch of ice, then she would be launched into an opening, and in a minute or so would have to be hauled on the ice again. The crew of the small craft were completely fatigued when they got back to the Stanley, and the rest of the passengers decided to remain on board.

All Saturday night they struggled to make headway and Sunday morning found themselves in Caribou channel, five miles off Caribou light. Sunday afternoon the steamer's bow was plunged into solid ice and another boat started for the shore with 11 more passengers who, after an experience similar to the one related above landed at Caribou light. There a small sled was secured and the eleven weary passengers started across the ice, drawing the sled with their baggage after them. They reached the mainland after a hard tramp and secured a team, in which they drove to Pictou, reaching there Sunday night.

Yesterday the Stanley was still stuck in the ice and parties were telegraphing Manager Harris of the N. B. & P. E. I. as to the facilities for crossing at the Capes. Until the wind changes she cannot get clear but she is perfectly safe unless the ice carries her on shore and she has plenty of provisions and coal on board. The horses on board are beginning to get hungry. Those remaining on board are Mrs. L. H. Davies, Mrs. Beer, Miss Crosby and Messrs Irving, Stewart, Philips, Mansfield, Eldridge and Farrell.

The Island people not unnaturally object to having their mail matter accumulate at Pictou and be sent over by the car load and the travelling public are equally indignant. The mails were transferred from the Capes route on April 2nd since which time the Stanley has spent a great part of the time stuck in the ice and the crossing from Cape Tormentine has been excellent. The Summerside Agriculturist says:—

"The mails should have been left at the Capes a while longer, as we would now be receiving them regularly by that route. . . .

. . . There will not be a satisfactory winter service until the *Stanley* or a similar boat is placed on the Summerside and Cape Tormentine route." The mails are now going by the Capes route.

Annual April Meeting of the Sackville and Westmorland Agricultural Society.

The annual April meeting of the S. & W. Agricultural Society was held in the public Hall at Pt. de Bute on Monday last. The executive committee were all present and there was a good general attendance of members for the state in which the roads are. The preparation of the premium list for the fall exhibition occupied the time of the meeting. Quite a number of new prizes were added and a few now on the list dropped. Among the latter was the prize on a horse rug and woollen shawls. Milk-cows get two more prizes, swine get two more. A third prize was given on family carriage horses, and a second on Farley butter. Sunflowers and fodder corn were also placed on the list for premiums. The above are the principal changes. Mr. F. A. Dixon stated that the seeds ordered were expected in a few days and while Timothy seed and some kinds of clover would be a trifle cheaper this year than last, the smaller seeds such as turnip and mangold were considerably higher in price. He wanted the members of the society to bear in mind that they always aimed to order the very best seeds to be had in the market. This year they had secured the best Quebec hand threshed timothy. The very best quality of seed grown on this continent. Of course they had to pay a higher price for this quality of seed but he felt confident it was the very best policy and that the farmer would stand by them in this cause. Inferior goods might be purchased at a less figure at some counters but what the members wanted especially in seeds was the very best. Edgar Dixon was given a general oversight of the society's grounds for the year.
