Gentlemen Parishioners for his ministerial services among them, and especially for His indefatigable attention in visiting the sick; and in so doing, the Rev. Dr. addressed Mr. Milner in a very appositе speech, to which the Rev. Gentleman returned an appropriate reply and thanks. Dr. I. W. D. Gray also took the opportunity of expressing the general feeling of satisfaction which evidently pervaded the assembly there present, at the treatment they had received on their visit, and the excellent manner in which all the arrangements for their entertainment and comfort had been made; and also stated the pleasure it gave him, to see so large an assembly of persons gathered together, for the purpose of aiding in the realising of a fund, devoted to the local purposes and benefit of the Church in which they were assembled: a fact which was particularly gratifying in an era like this, when it so much behoved all the members of Christ, of whatever denomination, to exert themselves in providing the means for the support and diffusion of religious establishments and gospel truth.—The company returned to the steamer about 6 p. m. highly pleased with their entertainment, and after a pleasant evening's trip down the river, reached Indian Town soon after 8 p. m.—We are quite convinced, from an experience and witness of this pleasant excursion, that it will *well bear repetition*, and that a *Pic Nic Party to Oak Point*, on terms as reasonable as the Soiree of last Wednesday, and on a fine day, will be numerously patronised and give general satisfaction.

DEDICATION OF NEW MASONIC TEMPLE AT CARLETON.

The Ceremony of Dedicating a new Building as a Masonic Temple, took place in Carleton on the 24th ult. The Masters and Members of the different Lodges on this side the harbor joined in the Procession, and assisted at the ceremony of Dedication after attending Divine Service at St. George's Church.—The building of a Temple for their own purposes, by the Carleton Union Lodge, after but two years of existence, certainly speaks very creditable of them as members of the Masonic Fraternity, and we trust that they may long meet in the enjoyment of brotherly intercourse, dispensing moral light, goodness and charity from under their own "vine and fig tree."

GRAMMAR SCHOOL.—The semi-annual Visitation and Examination of our Public Grammar School took place, pursuant to notice, last Thursday.—The Examiners were Rev I. W. D. Gray, D. D., William Wright, Esq., and John H. Gray, Esq., Members of the Board, and the Rev. Alexander Stewart, A. B., the Rev. William Stewart, and Robert Parker, Esq. There were also present as visitors, Major Paynter, Henry Bowyer Smith, Esq., Collector of her Majesty's Customs, and some other gentlemen. The School was found in a very flourishing condition, both in respect to the number of Pupils who attend and the progress they have made in their studies during the Term. The *Programme* laid before the Examiners showed that Classes were prepared for Examination in the following Departments:—*Latin, Greek, Hebrew, French, Mathematics, History, Geography, Use of the Globes, English Composition, English Grammar, Arithmetic*, in all its Rules, and *Book-keeping*.—The books in which the examination took place were Herodotus, Homer, Valpy's Greek Delectus, Juvenal, Cicero, Virgil, Cæsar, Eutropius, Stoddart's Preparatory Latin Book, Gesenius' Hebrew Grammar, Hebrew Psalter, Chambers' Solid Geometry, and Euclid's Elements of Plane Geometry. Various exercises in English Composition, and renderings of English into Latin were examined; and the copy-books and the books prepared in the study of Book-keeping were inspected.

At the close the Rev. the President of the Board, Dr. Wm. Gray, announced to the Scholars that the Examiners were highly pleased with the proficiency shown by them in the several branches in which they were examined, and that Prizes would be given to the most meritorious of each class, the distribution of which would be deferred to the 1st of August, the day on which they should next assemble after the midsummer holidays. As a fresh stimulus to exertion, the Rev. Doctor added, that at the examinations hereafter, particular prizes would be awarded to those who should give correct and ready answers to questions put from any part of the Latin and Greek Grammars. Several prizes have been adjudged, under the direction of the Principal of the School, to Pupils who have excelled in particular branches, which will also be distributed on the 1st of August. A correct list of all the successful candidates will then be published. The School-house is now undergoing a thorough repair and some internal alteration, which will render it more commodious on the days of Examination and other public occasions.

SCHOOL EXAMINATION.—The semi-annual Examination of the junior classes of the Young Ladies' School conducted by Miss Foulis, took place last Friday, before a number of the parents and visitors. The ready answers given to the questions put by the examiners gave evidence of the great progress that the Pupils had made during the last term. On Saturday the Essays, Letters, Exercise Books, &c., were inspected, and the Senior classes examined in Belles Lettres, Natural Philosophy, and the Use of the Globes. The examiners having found some difficulty in awarding the Gold Medal Prize to the Elocution Class, the competitors recited the tragedy of Douglas again last evening before the Rev. Mr. Wishart, Major Ponytz, G. N. Smith, Esq. as judges, when the first prize was by a majority decided in favour of Miss Dora Jack.

The following is a list of the successful Candidates in the several Classes:—

"	Miss S. Longward,	Silver Medal.

We understand that our enterprizing countryman, Mr. Hugh McMonagle, of Sussex Vale, intends importing this summer five splendid English Horses, viz., two hunter, two thorough-breds, and Cleveland bay, for the improvement of the breed in this Province; besides some Sheep of the pure Leicester breed.—We learn that the horses have already been purchased, and may be expected to arrive by the first September.—*New Brans.*

☞ It will be perceived, by reference to advertisement, that the fine steamer *St. John* will make a cheap excursion to Fredericton on Tuesday next, returning on Wednesday evening.

At the May meeting of the Society for Promoting Christian knowledge, a sum, making, in addition to a former grant, £1000, was voted towards the erection of a Cathedral at Fredericton, N. B. A grant was made for completing small Churches in the Diocese of Montreal.—A meeting of the Society for the Propagation of the Gospel took place at Willis's Rooms on Wednesday. The Bishop of London having opened the proceedings, Lord Lyttleton, Under-Secretary for the Colonies in Sir Robert Peel's Ministry, deprecated the conduct of this country with regard to her Colonies, and having laid it down as a principle that when sufficiently advanced the Colonies should have the privilege of becoming seperate States, expressed his fear that a long time must elapse before such an advance could be made, if they were left in the same state of spiritual destitution as that under which they had hitherto laboured. Resolutions were then moved pledging the meeting to use every effort to remedy the evil indicated.

LOYAL ORANGE INSTITUTION.—The Semi-annual meeting of the Grand Lodge of New-Brunswick, took place in the new Hall in this Village on Wednesday last, and continued until Thursday evening.—The meeting, as is usual, was a very harmonious one, and a variety of measures were adopted that were very necessary for the well-being of the Institution.—*Woodstock Sentinel.*

Montreal, the following articles, being the growth, produce or manufacture of the Province of Nova Scotia or New Brunswick, are to be admitted to entry free of duty, on satisfactory proof by affidavit or otherwise, that the same are the *bona fide* growth, produce, or manufacture of Nova Scotia, or New-Brunswick—viz.:—

I have the honor to be,
Sir,
Your Obedient Servant,
H. ATWOOD.

JAS. DEAS, Esq., Chairman, Board of Trade.

MOST SAD AND BLOODY TRAGEDY.—On Thursday Mr. Mullin sold a dealer, who was buying slaves for the Southern market, a negro man, his wife and one child, some fifteen or twenty months old. They were placed in Conviction jail for safe keeping during the night, and yesterday morning were found with their throats horribly cut. The woman and child were dead; the man, though dreadfully mangled about the neck, was yet alive, and it is thought may get well. According to the negro's own admission he and his wife went of this horrid butchery deliberately—preferring death to Southern bondage. The mother killed the child herself, and then offered her own throat to the knife, and urged her husband to kill her. He cut her throat and then attempted to cut his own, but did not fully succeed. Such facts as these make their own comments. How suggestive of reflection are they, and of what reflection.—*Cincinnati Atlas.*

(*From the Montreal Courier.*)

Our readers will, without doubt, recollect that His Excellency the Governor General, it is to be presumed with the advice of his responsible Ministers, was pleased to dismiss Mr. Ferres from his office as Inspector of Licenses. No reason was given to Mr. Ferres for his dismissal, beyond the mere statement that he had committed divers offences which were matters of "public notoriety." Mr. Ferres was not even allowed the opportunity to refute the charges against him, whatever they might be. There might not have been a word of truth in them: Mr. Ferres, had an opportunity been offered him, might have successfully rebutted them. Mr. Ferres has been the victim of what they used, on the Marches, to call a Jeddart justice: he has been "hanged and tried afterwards," a proceeding which, however it may suit the notions of the Ministers, does not at all come up to our idea of what justice ought to be. We strongly recommend Mr. Lafontaine, Her Majesty's Attorney-General, to advise His Excellency the Governor General, who appears to have sanctioned the application of the ancient Border law in Mr. Ferres' case, to permit the introduction into Parliament of a Bill to revise the whole criminal code of the country on the "Jeddart justice" principle. In this undertaking the Hon. Attorney General may derive some assistance from the following very *apropos* verses:—

And sundry wise precautions
The sages of the law
Discreetly framed, whereby they aimed
To keep the rogues in awe
For lest some sturdy criminal
False witnesses should bring,
His witnesses were not allowed
To swear to anything.

And, lest his wily advocate
The Court should overreach,
His advocate was not allowed
The privilege of speech.

Yet such was the humanity
And wisdom of the law,"
That, if in his indictment
There appeared to be a flaw.—

The Court assigned him counsellors
To argue on the doubt;
Provided he himself had first
Contrived to point it out.

Yet lest their mildness should perchance
Be crafully abused,
To shore him the indictment, they
Most sturdily refused.

THE HARMONEONS AGAIN!—We hastily announce to the lovers of musical enjoyment that our old friends the *original* Harmoneons, whose Vocal and Instrumental performances afforded such unqualified delight to our citizens about three years ago, have again managed to pay us a visit. They arrived in the *Maid of Erin* this morning from Boston, and will announce a Concert immediately upon completing the necessary preliminary arrangements. Our citizens may therefore prepare to enjoy a genuine treat of melody and humour; which the gifted Harmoneons are so well qualified to afford. We wish them every success.

The Boston Mercantile Journal, of March 25, 1846, gives the following notice of the most popular remedy of the day:

WILD CHERRY BALSAM.

We speak in praise of Wistar's Balsam of Wild Cherry, because we believe from our own knowledge of the article that it is one of the best in the market for the complaints for which it is recommended.

This medicine, coming from such a respectable source, and carefully prepared by an experienced and skilful physician, is received by the public with confidence. Its efficacy has been proved in many obdurate cases of disease, and its fame has rapidly extended. It has been extensively used in every part of the country, particularly in the Middle and Northern States; and strong testimony from intelligent and highly respectable persons has been adduced in favour of its merits as a remedy for colds and coughs, affections of the chest, diseased liver and dyspepsia.

None genuine unless signed I. Butts on the wrapper.

For sale by S. L. Tilley, King Street, St. John, New Brunswick.

DR. HALSEY'S GOLD AND SILVER PILLS—Are founded upon the principle that nearly all diseases arise from the same causes, or that a morbid condition of the *liver, stomach, and bowels*, predisposes the system to every class of disease. When these important function become obstructed with superabundance of bile and viscid matter, Nature ceases to fulfil her proper office. It is then that the *blood* becomes impure, because the secretive organs of the liver, whose office it is to seperate the worn-out principle of this vital fluid, are no longer fit for their office, and the wasted parts of the blood continues therefore in its circulation and become diffused throughout the whole system. Thus filled with infectious humours the body is made liable to sickness. If, by chance, it is exposed to a sudden change in the weather, a bad cold, or consumption, would be the result—if in the vicinity of contagious disorders, it would imbibe the infection.

Dr. Halsey's Gold and Silver Pills, although pleasant to take and innocent in operation, is the most excellent medicine in the world, to remove the bile and viscid matter from the system, and to restore the liver, stomach, and bowels, to the performance of their proper functions thereby rendering the blood pure, and divesting the system from all morbid and infectious humours, which we finally remove every disease, however long standing, and endow the system with health, strength, and vigour.

A circular giving a full explanation of the two fold action of the *Gold and Silver Pills*, can be had of the agent gratis.

SPRING AND SUMMER
CLOTHING.

The subscriber has received per late arrivals, a large and varied assortment of GOODS, consisting of:—

CLOTHS, CASSIMERES, DOESKINS, Cashmeres, Cassinets, Buckskins, Velvets, Satins, &c. with a large assortment of MATTRASSES, Hammocks, Blankets, Sheets, Rugs, a superior article of OIL CLOTHING, Glazed, Beaver, and silk HATS,—high and low crowned, latest styles; Cloth and glazed Caps; silk and lawn Covers for do; Belts and sheaths; Knives; Lambswool, Merino and Cotton Shirts and Drawers; Regata and heavy striped do; White Cotton do., with Linen trimmings; Linen Fronts, and Collars; Red and Blue Flannel and Serge Shirts; with an assortment of *Tailor's Trimmings*, and almost every article in connection, suitable for a GENERAL CLOTHING STORE.

And, as heretofore, having made up in the concern a great part of the Cloths into *Fashionable Spring and Summer CLOTHING of the latest styles* he is now prepared with his large stock of Ready made Garments of every fabric, style and finish, for the farmer or labouring man, the gentleman of fashion or mechanic, the seafaring man, and all others; which will be hereafter produced for sale to the public at lower prices than ever before known.

It is almost unnecessary to point out to a discerning public the vast benefit arising to the Province generally by having your Clothing made up in the place. You may safely say that every imported garment you purchase, you are actually sending one fourth of the cost unnecessarily out of the country, not to speak of the great injury you are entailing on a large class of industrious people in your own city. It is high time to look seriously into this matter, and to tell those people who import that they are the real enemies of the country, and that their soups you do not want; but patronize those, and those only, who always get their Clothing made up in the City, and sell them at a cheaper rate than imported garments can possibly be obtained; and those Goods you will now find at the

CITY CLOTHING STORE.
