H. W. NORTHRUP,

SOUTH WHARF.

I stood upon the ocean's sandy beach,
And with a reed I wrote upon the sand these words:
"Agnes I love thee:
But the winds came and the waves rolled mountains high
And blotted out the fair impression;
Cruel waves, treacherous sand, fragile reed
No longer will I trust to thee;
But from the mountain's peak
I'll pluck the tallest pine,
And, dipped in the crater of Vesuvius, with it I will write
Upon the high and burnished heavens,
These tender words:
"G. H. McKay of 49 Charlotte St. is selling prints lower than any other house,"
And I would like to see any vagrant wave
Wash that out.

Fishing Report, Aug. 5.

At Digby there are some small herring in the harbor, but there is a great falling off in the fisheries owing to the presence of dogfish which are driving off the fish and destroying the trawls. At Caraquette, mackerel are reported schooling in the bay and codfish and herring are plentiful but the cod will not take hooks. At Campobello, trawling is reported fair, and halibut, as well as good catches of cod, pollock, haddock and sardines. At Point Escuminac fishing of all kinds is poor, and at Grand Manan the fisheries (especially the hake) have slacked off to a considerable extent, probably owing to dog fish, which are reported struck in the channel. At Arichat, C. B., cod and herring fishing is still good, and small mackerel are abundant. Mackerel hooking still continues good in St. Peter's Bay, and fishing in all places in C. B., continues much the same as last reported. In P. E. I. also there is little or no change, the only new report being from Kensington, where cod and mackerel fishing are reported poor. Herring bait is procurable at Grand Manan, N. B.

Two Well Known Artists.

Mr. Fred H. C. Miles, the artist, and Mr. Geo. Hare returned last evening from a trip to Woodstock. They have been absent about two weeks and came down the river by canoe. During the trip Mr. Miles occupied his time in taking sketches of the various points of interest and beauty and there are many of these along the banks of the St. John river.

The best thing in his collection is the rough sketch of Pokiok falls, and when completed this will be as rugged a touch of nature as one could find in New Brunswick. The artist has not only been natural, but he has been particularly successful in discovering the characteristics of the gorge, and the cliffs on either side. The sketch is bright and full of vigor.

Mr. Miles is impressed with the fertility of the country through which he passed, and with the remarkable beauty of some of its parts.

Mr. John C Miles, the artist, is at present off on a trip along the line of the Central railway, and he will doubtless bring back material sufficient for the production of a number of sketches.

The Equity Court.

In the Equity court this morning before his Honor Judge Palmer the case of Donald McIntosh vs De Blaviere Carritte doing business under the name &c of the Provincial Chemical Fertilizer Company was taken up. This case is known as the "nuisance" case and the plaintiff complains of the offensive odors alleged to emanate from the works of the defendant thereby causing discomfort to those in the neighborhood and creating a nuisance. A number of affidavits were read by the defendant's solicitor for the purpose of showing there is no offensive smell and no nuisance. On behalf of the plaintiff a number of other affidavits were read by the plaintiff's solicitor in rebuttal and emphatic and contradictive of the affidavits read on the part of the defendant.

Messrs. J. Douglas Hazen, solicitor and C. A. Palmer counsel for the plaintiff, and Messrs. C. A. Stockton, solicitor and Dr. Barker counsel for the defendant.

Fine Offices.

Messrs. Scammell Bros. have moved from the front of the Magee building on Water street to the back of it, and into larger and finer offices than they occupied before. Mr. J. Scammell's private office, a square room of good proportions, handsomely decorated and carpeted, and a larger room, also carpeted and fitted up in proper shape for Mr. Jos. Knight, are well lighted by windows which command an extended and pleasant view of the harbor and the shipping in which the firm is so deeply interested. The general office is in the middle of the building looking out on the ferry floats, and of it is a small room for storing files of papers and Scammell Bros.' new suite of offices are the finest shipping offices in the city.

THE NUPTIALS of Mr. Samuel J. Smith and Miss Maud E. Godsoe, daughter of Mr. T. Amos Godsoe took place last evening at the residence of the bride's father, corner of King and Crown streets. The ceremony was performed by Rev. Dr. Pope, assisted by the Rev. E. Evans, Mr. Arthur M. Duff, supporting the groom and Miss Ida M. Godsoe acting as bridesmaid. The bride's dress was of cream satin with brocaded petticoat. Her bouquet was composed of white roses. The bridesmaid wore a heliotrope poplin dress. Mr. and Mrs. Smith left by the western train for Worcester, Mass., where they will spend a week or two.

A graceful act by Chancellor Commander Day, of New Brunswick Lodge, K. of P., was that of having a string of flags across Germain street from the Pythias Hall, in honor of Mr. Smith, who is Chancellor Commander of Union Lodge.

DIPHTHERIA IN HALIFAX.—Five deaths from diphtheria occurred in Halifax during the first four days of the present month. The Herald says of the hospital for infectious diseases. The only place on the ground where water can be obtained is from a little ditch among the rocks in the cow pasture below the hospital. This place was visited by the prison committee yesterday. There was six and a half inches of dirty looking water in the ditch—and it had not been drawn on for the day's supply. In direct line with this "well" some distance higher up the hill, runs the drain from the hospital building, in which was thirteen inches of muck. The difficulty of successfully treating diphtheria or any other patients under such circumstances was fully appreciated by the committee.

SPIRIT OF THE TIMES.

Baseball.

Only two games were played in the National and Players' League yesterday. In both, Chicago won from Cleveland.

SHOULD HAVE BEEN A SHUT-OUT.

The attendance at the Athletic grounds yesterday was fairly large, for the people expected to witness a close game. The Monctons were only in it up to the fifth when the home team began pounding Roach. The visitors played well, but the St. John boys played much better, with the following score as a result:—

St. Johns	1	0	1	0	3	5	3	0	0	—13
Monctons	0	0	0	0	0	1	0	1	0	—2

Parsons opened for the St. Johns with a three-bagger, and the grand stand began to think he was getting into his old style, but he muffed an easy fly in the sixth, which virtually spoiled the shutout. Small, Pusher and Kearns, led in batting, while Whitenect did some elegant base running. White fumbled one in the first, but pulled himself together, and did excellent work, especially in the third when he made one beautiful stop. Only three hits were made off Howe, and that player came in for a large amount of applause. He struck out 14 men, and was most effective at the critical points.

For the visitors Lake did the stick work, although there was very little of that. Roach was badly pounded. In several of the innings the several fielding was loose, while in the others the team pulled well together.

THE BOARD OF ARBITRATION.

The board of arbitration met last evening, there being present Messrs. McKeown and Ferguson for the St. Johns; Messrs. Keefe and Jennings for the Shamrocks; Mr. Harry Rutter for Fredericton and Mr. Fair for Moncton. Two games were in dispute, and while it was decided that the Fredericton game should be played over again, it was impossible to come to a satisfactory decision with regard to the voting in the Shamrock-St. Johns game. And so the meeting broke up.

THE TOURNAMENT AT TRURO.

The play in the afternoon resulted as follows:—

Mr. Turner, 76th, beat Mr. J. Primrose, Pictou, 6—1, 6—0.

Capt. Bruce beat Mr. Blair, Truro, 6—1, 6—2.

HAVANA CIGARS GUARANTEED.

The New Label Adopted by the Cuban Manufacturers' Union.

(New York Sun.)

Cigar importers received Wednesday the first consignment from Havana bearing the new guarantee in the shape of a manufacturers' label. The cigars had been in port four days, that interval being the time usually necessary to get importations through the custom-house. Many thousand boxes were received, some of them destined for points as far distant as Montreal and San Francisco. Some of the brands have already been put on the market in this city.

This matter of a guarantee label has been talked of for nearly two years. The manufacturers of Havana are organized in a union for mutual protection, and one of the difficulties with which they have had to contend is the disposition of conscienceless dealers in this country to sell domestic cigars as Havanas. The custom officials stamp every box of cigars arriving at this port with a label that certifies that the cigars were made in a foreign country, but the Government stamp does not distinguish the different countries from which cigars come. So it has happened that German, Dutch and Mexican cigars, as well as cigars from other tobacco-manufacturing countries, could not be told from Havanas by the great majority of ordinary purchasers. What the Cuban manufacturers desired was a stamp that would guarantee absolutely to the consumer the genuineness of their goods. It took them a long time to hit upon the right idea and longer afterward to execute it. The result is a label that will prove a dangerous if not impossible thing to imitate.

It is made up of several distinct features. The ground work is an engraving of intricate design, made up of scrolls interlacing and bearing the title of the manufacturers' union in very fine print. The general color given to the label by this background is dark orange. Across the surface in regular, legible type are words that state the purpose of the label as a guarantee of the goods it marks. Beneath are the fac-simile signatures of the President, Vice-President and Secretary of the union.

Perhaps the most important features of the label are found at either end. At the left is a copy of the seal of Spain, permission to use which was obtained from the home government. This insures the co-operation of the Spanish authorities in prosecuting any who may attempt to imitate or misapply the label. Below the national seal is a finely executed, fanciful design, the importance of which is chiefly to make counterfeiting difficult. At the right-hand upper corner is the head of Christopher Columbus. Across this end is stamped in jet black the seal of the City of Havana. This seal, oval in shape, is applied after the general label is printed, as may be seen when several labels are compared, for the letters and lines do not fall on the same place in every case. The last feature of the label is the name of the manufacturing concern that uses it. That is printed diagonally across the whole stamp, the words reading from the lower left-hand to the upper right-hand corner. The type for this line varies with each house, being chosen so as to make nearly a complete diagonal line across the label.

The use of the union label is not compulsory upon Havana manufacturers. Every member of the union is supplied with labels, which he may use as he sees fit. It is generally understood, however, that from this time forward all cigars from Cuba will be marked with the union label. The label does not certify as to the quality of the cigars; it simply assures the consumer that these are genuine Havanas.

Several months ago the union notified American importers that the use of the label would begin July 1. The importers asked for delay, for, alarmed by the increase in duty proposed by the McKinley bill, they had stocked themselves with Havana tobacco for months ahead of consumption. They argued that the genuine Havanas already in this country would be discredited because they would not bear the new label. The union refused to delay matters. An importer said yesterday that no dealer need be disturbed about his old stock, because the customs stamp applied to every box at this port is always dated. A doubting customer may therefore be convinced by showing him the date of the revenue stamp, which will prove that the cigars left Cuba before the new label was adopted.

The union label is so put on the box that it touches three sides. A strong paste is used that makes it impossible to detach the paper from the wood without tearing it to pieces.

Mr. Louis Green the King street cigar dealer was the first of our local dealers to get cigars stamped with the new label. All the boxes of a shipment opened yesterday bear the new stamp.

About the Bands.

The 62nd Fusiliers band did not play on Market square last evening as intended, owing to the illness of bandmaster Jones. The concert will be given Thursday.

This evening the 62nd band will perform at the Palace rink, and an attractive programme has been prepared.

The City Cornet band will be unable to give their concert at the Shamrock grounds this evening, owing to another engagement.
